49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { EX. DOC. No. 4.

REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

FOR THE

FISCAL YEAR ENDING JUNE 30, 1885.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1885.

REPORT

OF

THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., November 1, 1885.

SIR: In compliance with your letter of August 4, 1885, I have the honor to submit the annual report of the Commissioner of Internal Revenue for the fiscal year ended June 30, 1885, with certain additional information concerning the work of the Bureau during the months of July, August, and September of the current fiscal year.

In the appendix to the bound volume of this report will be found carefully prepared tables, as follows:

Table A, showing the receipts from each specific source of revenue, and the amounts refunded in each collection district, State, and Territory of the United States, for the fiscal year ended June 30, 1885.

Table B, showing the number and value of internal-revenue stamps ordered from the office of the Commissioner; the receipts from the sale of stamps, and the number and value of stamps for special taxes, tobacco, cigars, cigarettes, snuff, distilled spirits, and fermented liquors, issued monthly to collectors during the fiscal year ended June 30, 1885.

Table C, showing the percentages of receipts from the several general sources of revenue in each State and Territory of the United States to the aggregate receipts from the same sources, by fiscal years, from July 1, 1864, to June 30, 1885.

Table D, showing the aggregate receipts from all sources in each collection district, State, and Territory of the United States, by fiscal years, from September 1, 1862, to June 30, 1885.

Table E, showing the receipts in the United States from each specific source of revenue now taxable, by fiscal years, from September 1, 1862, to June 30, 1885.

Table F, showing the ratio of receipts in the United States from specific sources of revenue to the aggregate receipts from all sources, by fiscal years, from July 1, 1863, to June 30, 1885.

Table G, showing the returns of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, and cigarettes, under the several acts of legislation, and by fiscal years, from September 1, 1862, to June 30, 1885.

Table H, showing the receipts from special taxes in the several States and Territories for the special-tax year ended April 30, 1885.

Table I. Abstract of reports of district attorneys concerning suits and prosecutions under the internal-revenue laws during the fiscal year ended June 30, 1885.

Table K. Abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1885.

COLLECTIONS FOR PRESENT FISCAL YEAR.

It is estimated that the sum of $115,000,000 will be collected during the current fiscal year from the various sources of internal revenue.

It was estimated that the receipts for the fiscal year ended June 30, 1885, would reach the same figures, but it is found they fall $2,578,878.93 short of that sum.

This deficit resulted from the extension of time granted under the opinion of the Attorney-General, as announced December 24, 1884, by which owners of distilled spirits in bond, upon which the tax was due or would have shortly accrued, were allowed seven months in which to export the same.

It appears that there are now about 7,000,000 gallons distilled spirits abroad, which, to find a market, will have to be reimported. This, with more than 10,000,000 gallons that had, on June 30 last, been in bond for three years, or longer under the seven months' extension, affords ample margin for assuming that the receipts for the current fiscal year will aggregate at least $115,000,000.

COMPARATIVE RECEIPTS FOR THE LAST FOUR FISCAL YEARS.

The totalreceipts from all sources of internal-revenue taxation for the fiscal year ended June 30, 1885, were $112,421,121.07, as compared with $121,590,039.83 for the year 1884, $144,553,344.86 for the year 1883,and $146,523,273.72 for the year 1882.

The following statements will exhibit in detail the amount of internal revenue collected during the past year, and also for the first three months of the current fiscal year, the sources from which the revenue is derived, the States and districts in which the collections were made during the past year, the cost of collections, &c.:

INTERNAL REVENUE RECEIPTS DURING LAST TWO FISCAL YEARS.

COMPARATIVE STATEMENT showing the RECEIPTS from the SEVERAL OBJECTS of INTERNAL TAXATION in the UNITED STATES during the fiscal years ended June 30, 1884 and 1885.

Objects of taxation.	Receipts during fiscal years ended June 30—		Increase.	Decrease.

COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, &c	$1,780,289 32
For salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses	1,963,527 41
For stamps, paper, and dies	392,634 60
For expenses of detecting and punishing violations of internal-revenue laws	34,387 29
For salaries of officers, clerks, and employés in the office of Commissioner of Internal Revenue	284,591 65
Total	4,455,430 27

As compared with the total cost of collection for the year 1884 of $5,076,914.31. The total expenses of the service (including the expenses of this office) will be found in final adjustment to be about 3.9 per cent. of the amount collected.

GENERAL CONDITION OF THE SERVICE.

I am pleased to report that the general condition of the service appears to be good, and that the collectors and their subordinates show commendable zeal in the performance of their duties.

MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ending June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue for which appropriation was made in that act. In accordance with the aforesaid requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Express charges on public money	$3,596 03
Telegraphing on public business	590 55
Locks for distilleries	1,361 16
Hydrometers for use in gauging spirits	5,711 96
Gauging rods	13 00
Internal Revenue Record for internal-revenue officers	2,401 57
Stationery for internal-revenue officers	13,436 23
Compensation of United States attorneys in internal-revenue cases, allowed under sections 827 and 838, Revised Statutes	1,275 00
Federal reporter	10 00
Traveling expenses of clerks, &c., under special orders of the Department	189 96
Expenses of seizures and sales by collectors	582 40
Rent of offices leased by the Secretary of the Treasury for internal-revenue officers, second district of New York	5,000 00
Total	34,167 86

The miscellaneous expenses of the Bureau for the fiscal year ended June 30, 1884, aggregated $47,282.89.

REVENUE AGENTS' DIVISION.

The following statement shows the salaries and expenses of revenue agents, expenditures from the appropriation for the discovery of violations of internal-revenue laws, illicit stills seized, persons arrested for illicit distilling, casualties to officers and employés in the internal-revenue service, and statement of ordnance and ordnance stores issued to collectors; also, a brief statement of work performed by revenue agents.

Twenty revenue agents have been employed during the last fiscal year—one as chief of division in this office, thirteen in charge of territorial divisions, three in the examination of the offices and accounts of collectors, and three in assisting agents in charge of divisions, and on special duty.

EXPENSES OF REVENUE AGENTS.

There has been expended from the appropriation for salaries and expenses of revenue agents during the year as follows:

Aggregate salary of agents	$50,744 00
Aggregate amount for traveling expenses	26,064 37
Stationery furnished agents	160 07
Transportation over Pacific Railroads	627 75
Total	77,596 19

WORK OF REVENUE AGENTS.

Six hundred and twenty-four violations of internal-revenue law have been reported by revenue agents during the year, 234 persons have been arrested on their information, property to the value of $171,052.82 has been reported by them for seizure, and $52,869.78 for assessments for unpaid taxes and penalties. Two hundred and seven examinations of the accounts of collectors have been made, and the condition of the offices reported upon by agents, and transfer of sixty-six collectors' offices under new bond, consolidation of districts, and new appointments have been made under their supervision.

ILLICIT STILLS SEIZED.

The following statement shows the number of illicit stills seized, persons arrested, and casualties to officers and employés during the last fiscal year:

Districts.	Stills seized.		Number of persons arrested.	Casualties.	
	Destroyed.	Removed.		Officers or employés killed.	Officers or employés wounded.
Alabama	4	0	5	0	0

Kellogg, Horace	270 75	Wilson, George W	5,462 79
Lofland, John	630 53		
McLeer, Edward	1,008 00	Total	29,908 02

RECAPITULATION.

Amount expended by collectors	$2,356 15
Amount expended by revenue agents	29,908 02
Amount expended for rewards under circular 99	1,881 53
Amount expended for rewards under circular March 10, 1875	50 00
Amount expended for miscellaneous purposes	191 59
Total	34,387 29

AMOUNTS EXPENDED from APPROPRIATIONS NOT BEFORE REPORTED.

Name, &c.	District.	Amount.
1884.		
Lewis Buckner, collector	Fifth Kentucky	$20 00
James Armstrong, collector	Twenty-first New York	13 50
W. H. Johnson, collector	Georgia	84 00
Reward claims under circular 99		77 00
Total		194 50
1883.		
T. J. Grimeson, revenue agent		88 00
Reward claims under circular 99		50 00
Total		332 50

The accounts for expenditures under this appropriation are rendered monthly, with an itemized statement, and in all cases supported by proper sub-vouchers, duly sworn to. These accounts pass through all the accounting offices in the Treasury Department and are filed in the Register's Office.

INCREASE OF NUMBER OF REVENUE AGENTS.

The act of Congress making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ended June 30, 1885, reduced the number of agents from thirty-five to twenty, and no greater number can now be lawfully employed.

No officers connected with the internal-revenue service are more useful than experienced, intelligent, and efficient agents. They necessarily become the assistants of the Commissioner. Upon them he is obliged to rely for information as to the efficiency and fidelity of the local officers and the general condition of the service in every collection district. Their duties are multitudinous and important; the operations of this branch of the service cover every portion of the country, and experience has demonstrated that to discover and prevent frauds, to secure the faithful collection of the revenue and an equitable and proper enforcement of the laws, the whole territory must be frequently and carefully canvassed and policed by agents. Nearly all of the more important violations of law are discovered and reported by the agents.

The present number, in my opinion, is insufficient for the work required of them. At least *four* are absolutely necessary for the examination of collectors' accounts, *three* are constantly required for investigations and examinations which cannot be made by local officers and for other special duties. This leaves but *thirteen* available for the discovery and prevention of fraud and for general work all over the country.

OFFERS IN COMPROMISE.

The following statement shows the number of offers received and accepted in compromise cases for the fiscal year ended June 30, 1885, with amount of tax, assessed penalty, and specific penalty accepted, as provided under section 3229, Revised Statutes:

Months.	Offers received.	Offers accepted.	Amount of tax.	Amount of assessed and assessable penalty.	Amount of specific penalty.	Total.
1884.

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal Revenue Service for the fiscal year ending June 30, 1887, as follows:

For salaries and expenses of collectors	$1,800,000
For salaries and expenses of twenty revenue agents, for surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses	2,100,000
For dies, paper, and stamps	410,000
For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information and detection	50,000
For salaries of officers, clerks, and employés in the office of the Commissioner of Internal Revenue	259,190
Total	4,619,190

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors for the fiscal year ending June 30, 1886, are based upon an estimate of their probable collections according to the following scale, with the qualification

that if the actual collections should vary from the amounts estimated the salaries will be readjusted at the end of the fiscal year.

For collection of—	Salary.	For collection of—	Salary.
$25,000 or less	$2,000	$375,001 to $425,000	$3,375
25,001 to $37,500	2,125	425,001 to 475,000	3,500
37,501 to 50,000	2,250	475,001 to 550,000	3,625
50,001 to 75,000	2,375	550,001 to 625,000	3,750
75,001 to 100,000	2,500	625,001 to 700,000	3,875
100,001 to 125,000	2,625	700,001 to 775,000	4,000
125,001 to 175,000	2,750	775,001 to 850,000	4,125
175,001 to 225,000	2,875	850,001 to 925,000	4,250
225,001 to 275,000	3,000	925,001 to 1,000,000	4,375
275,001 to 325,000	3,125	1,000,001 and upward	4,500
325,001 to 375,000	3,250		

EXAMINATION OF COLLECTORS' OFFICES.

On account of the limited force of revenue agents, and the number of transfers of collectors' offices required to be made during the last fiscal year, the examinations of collectors' offices were not made as frequently as the good of the service demanded.

From reports made by revenue agents in charge of this part of the work, however, it appears that the collectors' offices throughout the country are generally in good condition.

OFFICIAL FORCE.

The force connected with this bureau during the fiscal year which ended June 30, 1885, in the various districts throughout the United States, as reorganized under the Executive order of June 25, 1883, as modified, was 85 collectors, who received per annum salaries as follows;

Number.	Salary.	Number.	Salary.	Number.	Salary.
32	$4,500	2	$3,500	5	$2,875
2	4,250	3	3,375	11	2,750
5	4,000	4	3,250	2	2,625
1	3,875	1	3,125	4	2,500
2	3,750	7	3,000	1	2,125
3	3,625				

There were also employed during the year 963 deputy collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
22	$2,000	145	$1,200	13	$500
11	1,900	137	1,100	1	450
34	1,800	3	1,050	2	425
1	1,750	1	1,025	6	400
10	1,700	133	1,000	2	360
31	1,600	6	950	25	300
2	1,550	59	900	3	250
55	1,500	4	850	1	240
8	1,450	24	800	12	200
127	1,400	1	750	7	150
2	1,350	15	700	3	120
35	1,300	1	660	2	100
4	1,250	14	600	1	60

Also 189 clerks, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1	$1,800	32	$1,200	2	$720
2	1,600	9	1,150	8	700
3	1,500	10	1,100	2	650
9	1,400	30	1,000	18	600
1	1,350	33	900	1	500
4	1,300	16	800	2	300
1	1,250	5	750		

Also 24 porters, messengers, or janitors, as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
4	$600	3	$360	1	$120
2	500	5	300	3	100
1	480	2	200	2	75
1	450				

The force now connected with this Bureau in the various districts throughout the United States is 85 collectors, who receive per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
29	$4,500	2	$3,750	4	$2,875
1	4,375	3	3,625	11	2,750
2	4,250	3	3,500	1	2,625
2	4,125	2	3,375	4	2,500
5	4,000	2	3,250	1	2,250
1	3,875	11	3,000	1	2,125

There are also now employed 932 deputy collectors, who receive per annum salaries, as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
21	$2,000	127	$1,100	1	$450
11	1,900	2	1,050	1	425
33	1,800	1	1,025	7	400
1	1,750	131	1,000	2	360
10	1,700	6	950	29	300
32	1,600	53	900	3	250
2	1,550	4	850	1	240
54	1,500	23	800	11	200
8	1,450	16	700	5	150
129	1,400	1	660	3	120
1	1,350	14	600	2	100
32	1,300	8	500	2	75
4	1,250	2	480	1	60
138	1,200				

Also, 180 clerks, who receive per annum salaries, as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1	$1,800	32	$1,200	1	$720
2	1,600	9	1,150	9	700
3	1,500	9	1,100	2	650
9	1,400	28	1,000	13	600
1	1,350	31	900	1	500
4	1,300	17	800	2	300
1	1,250	5	750		

Also, 28 porters, messengers or janitors, as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
4	$600	3	$360	4	$100
2	500	8	300	2	75
1	480	2	200		
1	450	1	120		

STOREKEEPERS, GAUGERS, ETC.

There are also employed 620 gaugers who receive fees not to exceed $5 per diem; 572 storekeepers and gaugers and 445 storekeepers whose pay does not exceed $4 per diem; 37 tobacco inspectors who receive fees to be paid by the manufacturers, and 3 distillery surveyors. All the foregoing officers are paid only when actually employed.

Reductions in the number of this class of officers during the fiscal year ended June 30, 1885, were made as follows:

Gaugers	180
Storekeepers and gaugers	532
Storekeepers	214
Total reduction	926

The appropriation bill for the fiscal year ending June 30, 1886, contained the provision that storekeepers or storekeepers and gaugers, assigned to distilleries whose registered capacity is 20 bushels or less, shall receive $2 per day for their services.

The pay of those assigned to larger distilleries has been fixed according to the following scale:

Compensation for storekeepers and gaugers and storekeepers assigned to distilleries having a surveyed daily capacity exceeding 20 bushels and not exceeding 40 bushels, $3 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 40 bushels and not exceeding 60 bushels, $3.50 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 60 bushels, $4 per day.

CONDITION OF THE OFFICE.

Although there has been a considerable reduction in the number of persons employed in this Bureau, twenty-eight clerks having been recently dropped from the rolls, the work of the office which is steadily increasing, is in good shape and progressing in a satisfactory manner.

The officers, clerks, and employés connected with the Bureau have generally performed the duties imposed upon them faithfully and efficiently.

REPORT OF WORK PERFORMED.

The work performed by the different divisions of the office during the fiscal year ended June 30, 1885, is shown by the following statement:

DIVISION OF LAW.

Offers in compromise briefed	408
Opinions prepared	396
Offers in compromise acted upon	412
Reward claims acted upon	46
Reports of suits and prosecutions	4,768

Claims for surplus proceeds of lands sold for direct taxes examined and disposed of	147
Amount paid in settlement of direct-tax claims	$20,693.89
Claims for return of purchase money examined and acted upon	18
Claims for refund of interest illegally collected under the direct-tax laws examined and disposed of	289
Amount of interest refunded	$4,619.26
Claims for abatement of taxes disposed of	4,688
Orders for abatement of taxes issued	749
Amount of abatement claims allowed (uncollectible)	$103,946.88
Amount of abatement claims allowed (erroneous assessment)	$4,619,834.50
Amount of abatement claims rejected (uncollectible)	$28,748.69
Amount of abatement claims rejected (assessment claimed to be erroneous)	$1,275,945 91
Claims for refunding of taxes disposed of	438
Amount of refunding claims allowed	$83,306 84
Amount of refunding claims rejected	$204,811 08
Number of rebate claims disposed of	99
Amount of rebate claims disposed of	$5,376 46

DIVISION OF DISTILLED SPIRITS.

Returns and reports relating to distilled spirits examined and disposed of	237,555
Returns and reports relating to fermented liquors, examined and disposed of	27,349
Computations of capacities of distilleries made, and data for assessment furnished	16,206
Locks examined and issued	1,571
Hydrometer sets, stems, cups and thermometers, tested and issued	1,714
Gauging-rods examined and issued	26
Wantage-rods examined and issued	32

DIVISION OF TOBACCO.

Reports relating to tobacco examined and disposed of	1,079
Reports relating to cigars examined and disposed of	22,313
Abatement and refunding claims audited	60

DIVISION OF STAMPS.

Sheets of stamps received from Bureau of Engraving and Printing and counted	25,693,600
Collectors' orders and requisitions filled	3,450
Packages of stamps mailed	29,671
Brewers' permits issued	112,800
Books of stamps returned by collectors received and counted	45,197
Stamps and coupons returned by collectors received and counted	47,474,745
Stubs examined	12,781,547
Books of stamps and coupons referred to Fifth Auditor	28,617
Claims for redemption of stamps received and examined	2,028
Claims for redemption of stamps allowed and referred to Fifth Auditor	1,808
Claims for redemption of stamps rejected	1,527
Number of notifications of rejection and packages of stamps returned	1,527
Claims on Forms 66 and 66A examined and allowed	1,759
Tax-paid and special-tax stamps examined and checked on claims 66 and 66A	231,252
Stamps for which allowance has been made, counted	4,857,680
Packages of check stamps canceled and returned	144
Stamps canceled and returned	286,889
Reports examined and disposed of	29,112
Statements of accounts made	248
Names of persons copied as appearing liable to assessment	30,297
Names of persons copied and reported for assessment	16,944
Packages received by express recorded and distributed	322
Packages received by registered mail recorded and distributed	4,971
Value of stamps received from Bureau of Engraving and Printing	$127,387,771 98
Value of stamps issued to collectors	$123,388,856 24

Value of stamps destroyed		$1,832,574 98
Value of stamps forwarded to Fifth Auditor as vouchers in collectors' accounts		$11,910,488 65
Value of claims for redemption of stamps allowed		$116,631 89
Value of claims on Forms 66 and 66A allowed		$7,865,556 58
Value of check stamps canceled and returned		$5,737 78
Value of check stamps destroyed		$87,560 82
Value of check stamps rejected and returned		$11,997 01

DIVISION OF ASSESSMENTS.

Reports relating to assessments examined and disposed of	14,358
Reports relating to bonded accounts examined and disposed of	306,875
Reports and vouchers relating to exportations examined and disposed of	349,872
Claims for drawback disposed of	706

NOTE.—For values and quantities see pages LIV to CXXXV, inclusive.

DIVISION OF ACCOUNTS.

Weekly reports examined and disposed of (154)		3,398
Monthly reports examined and disposed of		17,953
Quarterly reports examined and disposed of		371
Miscellaneous accounts examined and disposed of		353
Final accounts of collectors referred for settlement		42
Certificates of deposit for internal-revenue collections recorded		29,606
Amounting to	$112,360,527 93	
Certificates of deposit to credit of Secretary		478
Amounting to	$75,036 84	
Drafts mailed to collectors for gaugers' fees and expenses		7,951
Amounting to	$754,886 95	
Drafts mailed to collectors for transfer of special deposits		500
Amounting to	$80,503 30	
Drafts mailed to collectors for compromise offers returned		85
Amounting to	$8,405 70	
Drafts mailed to collectors for expenses of office		1,030
Collectors' monthly reports of taxes, &c., consolidated into yearly statements		869
Consolidated statements of monthly reports of taxes, &c., recorded		74

DIVISION OF REVENUE AGENTS.

Reports of revenue agents disposed of	1,359
Reports of collectors relative to illicit spirits disposed of	84
Accounts of revenue agents examined	501
Miscellaneous expense accounts examined	156
Transcripts of books of leaf-tobacco dealers examined and abstracted	3,787
Quarterly returns of ordnance and ordnance stores in hands of collectors examined	70
Reports of examining officers on condition of collectors' offices examined and recorded	203
Reports of collectors of seizures of illicit stills, Form 162, examined and recorded	944
Reports of revenue agents of seizures, &c., Form 170, examined and recorded	150

DIVISION OF APPOINTMENTS, RECORDS, AND FILES.

Commissions of collectors recorded, collectors notified, and blank bonds prepared	72
Bonds of collectors and disbursing agents recorded	124
Commissions of gaugers, storekeepers and gaugers, storekeepers and tobacco inspectors recorded, and appointees notified	197
Bonds of subordinate officers examined and recorded	225

Reports of examining officers on condition of collectors' offices examined and acted upon	111
Letters for entire Bureau received and registered	40,688
Letters briefed and filed	23,133
Press copies of letters mailed, registered, and arranged for reference	45,204
Pages of press copy letters copied in record books, indexed, and compared	19,063
Pages letter and cap paper copied, compared, and registered	11,565
Orders for press copies for reference	3,561
Envelopes and labels addressed for circulars and blanks	3,998
Unrecorded press-copy books paged and indexed(1,000 pages each)	48
Pages blank books ruled and headings written	175
Letters paged in registers from record books	116,619
Rejected claims registered	8,382
Applications for appointment briefed and indorsed	1,414
Blank forms prepared and issued	6,801,946
Blank books issued	11,650

SALARIES.

I have the honor to recommend that Congress appropriate, for the fiscal year ending June 30, 1887, the sum of $259,190 as salaries for the following officers, clerks, and employés in this Bureau:

One Commissioner, at	$6,000
One Deputy Commissioner, at	3,200
Two heads of division, at	2,500
Five heads of division, at	2,250
One superintendent of stamp vault, at	2,000
One stenographer, at	1,800
Twenty-four clerks, at	1,800
Twenty-five clerks, at	1,600
Thirty-four clerks, at	1,400
Twenty-four clerks, at	1,200
Fourteen clerks, at	1,000
Forty clerks, at	900
Two messengers, at	840
Fourteen assistant messengers, at	720
Thirteen laborers, at	660

An aggregate of 201 persons.

I also recommend the appropriation of the sum of $5,000 as salaries for two stamp agents at $1,600, and two counters at $900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

STAMP DIVISION.

NUMBER AND VALUE OF STAMPS ISSUED.

STATEMENT of the NUMBER, KIND, and VALUE of INTERNAL-REVENUE STAMPS issued to COLLECTORS during the fiscal year ended June 30, 1885.

Denomination.	Number.	Value.
Stamps for distilled spirits, tax-paid	1, 404, 300	$66, 808, 530 00
Stamps for distilled spirits, exportation	412, 000	41, 200 00
Stamps for distilled spirits, other than tax-paid and exportation	3, 503, 600	....
Stamps for tobacco and snuff	309, 489, 639	17, 739, 933 09
Stamps for cigars and cigarettes	129, 493, 420	10, 542, 183 15
Stamps for special taxes	865, 640	8, 944, 280 00
Stamps for fermented liquors and brewers' permits	61, 339, 740	19, 312, 730 00
Total	506, 508, 339	123, 388, 856 24

REDEMPTION OF CHECK STAMPS.

At the date of the last annual report there were about 1,200 packages of stamps, either adhesive or imprinted upon checks and drafts, which had been forwarded to this office for redemption, and which were undisposed of. These have since all been disposed of, with the exception of about 100 packages. Stamps of this kind are still being received for redemption, and are now being disposed of as current work.

MANUFACTURE OF PAPER.

During the present fiscal year, after due advertisement for proposals, a contract was entered into with Alexander Balfour, of Philadelphia, Pa., for the manufacture of about 450,000 pounds of paper for printing internal-revenue stamps; the rate to be paid under the contract is $7\frac{3}{4}$ cents per pound.

The work of manufacturing the paper commenced about the 20th day of July, 1885, and is still in progress.

PRODUCTION OF STAMPS.

During the last fiscal year all internal-revenue stamps have been produced by the Bureau of Engraving and Printing, except stamps on foil wrappers for tobacco, which have been printed by John J. Crooke, of New York, a contract having been made with him for the imprinting of such stamps without charge to the Government, he receiving remuneration from manufacturers, and reimbursing to the Government the salaries of one stamp agent and one counter, amounting to $2,500 per annum.

TOBACCO.

The report of the tobacco industry for the last fiscal year shows gratifying results. Not only has there been a small increase in the amount of taxes collected, but there has been a marked increase of manufactured products, and an unusually large increase of the quantity of these products exported to foreign countries.

The number of persons and firms engaged in handling leaf-tobacco and in manufacturing and distributing it is largely in excess of any previous year.

The following exhibit will show the receipts for the last fiscal year from each particular source as compared with the receipts from the same sources during the previous fiscal year, and the aggregate amount of these receipts.

In the tables annexed will be found statements showing the manner in which the manufacturing is distributed through the different States, the number of persons and firms engaged in each of the two branches of manufacturing, the quantities of different kinds of material used, and the amount of products manufactured. These tables are compiled from the reports received from collectors of the transactions of manufacturers in their several districts for the calendar year ended December 31, 1884, a period of time differing from the fiscal year, which will account for any apparent discrepancies.

The aggregate amount of taxes collected from tobacco during the last fiscal year was $26,407,088.48. This amount includes internal-revenue taxes imposed on imported tobacco, snuff, cigars, and cigarettes. The collections from the same sources made during the fiscal year ended June 30, 1884, were $26,062,399.98, showing an increase of $344,688.50.

RECEIPTS FROM TOBACCO AND SNUFF.

Manufactured tobacco, at 16 cents per pound	$321 58
Manufactured tobacco, at 8 cents per pound	13,953,088 73
Snuff, at 8 cents per pound	508,943 52
Total for year ended June 30, 1885	14,462,353 83
Total for year ended June 30, 1884	13,936,258 99
Increase in collections	526,094 84

Of this increase $465,362.90 was on chewing and smoking tobacco, and $60,731.94 on snuff.

RECEIPTS FROM CIGARS AND CIGARETTES.

Cigars taxed at $6 per thousand	$739 20
Cigars taxed at $3 per thousand	10,076,548 30
Cigarettes taxed at $3 per thousand	114 15
Cigarettes taxed at $1.75 per thousand	92 59
Cigarettes taxed at 50 cents per thousand	529,329 14
Total for year ended June 30, 1885	10,606,823 38
Total for year ended June 30, 1884	10,823,214 28
Decrease in collections from cigars and cigarettes	216,390 90

This decrease was all on cigars, being $291,517.77. On cigarettes there was an increase of $75,126.87.

OTHER COLLECTIONS.

Manufacturers of cigars and cigarettes, special tax, at $6	$105,139 81
Increase, special taxes, manufacturers of cigars, &c	7,177 62
Manufacturers of tobacco and snuff, special tax, $6	5,320 25
Increase of special taxes over year ended June 30, 1884	202 76
Dealers in manufactured tobacco, special tax, at $5	191 93
Dealers in manufactured tobacco, special tax, at $2.40	1,159,705 85
Total for year ended June 30, 1885	1,159,897 78
Total for year ended June 30, 1884	1,136,786 20
Increase	23,111 58
Peddlers of tobacco, special taxes	14,200 56
Decrease, peddlers of tobacco	264 45
Leaf dealers, special taxes, year ended June 30, 1885	53,352 87
Leaf dealers, year ended June 30, 1884	48,595 82
Increase special taxes, leaf dealers, year 1885	4,757 05

PRODUCTION OF MANUFACTURED TOBACCO, CIGARS, CIGARETTES, ETC.

The production of tobacco, snuff, cigars, and cigarettes for the fiscal year ended June 30, 1885, computed from the several quantities removed for consumption on payment of tax, together with the quantity removed in bond for export, is as follows:

TOBACCO AND SNUFF.

	Pounds.
Tobacco taxed at 16 cents per pound	2,010 00
Tobacco taxed at 8 cents per pound	174,413,609 00
Snuff taxed at 8 cents per pound	6,361,794 00
Total quantity removed for consumption	180,777,413 00
Tobacco and snuff removed for exportation	12,054,015 00
Total production year ended June 30, 1885	192,831,428
Total production year ended June 30, 1884	184,833,667

Increase of production, pounds, 7,997,761. Of this increase, 1,416,412 pounds were exported, and 6,581,349 pounds were put on the market for consumption.

CIGARS AND CIGARETTES.

	Number.
Cigars, &c., taxed at $6 per thousand	123,200
Cigars, &c., taxed at $3 per thousand	3,358,849,433
Cigarettes, taxed at $3 per thousand	38,050
Cigarettes, taxed at $1.75 per thousand	52,908
Cigarettes, taxed at 50 cents per thousand	1,058,658,280
Total number removed for consumption	4,417,721,871
Cigars, removed in bond for export	1,557,550
Cigarettes, removed in bond for export	104,811,420
Total production, fiscal year 1885	4,524,090,841
Total production, fiscal year 1884	4,451,643,225
Increase	72,447,616

SPECIAL-TAX PAYERS.

Manufacturers of tobacco, including snuff	887
Manufacturers of cigars and cigarettes	17,523

Peddlers of tobacco	1,605
Dealers in leaf tobacco	5,034
Dealers in manufactured tobacco	483,249
Total number of special-tax payers	508,298
Special-tax payers, fiscal year ended June 30, 1884	496,853
Increase during last fiscal year	11,445

INTEREST CLAIMS.

Number of claims under section 4, act of February 25, 1867, for refund of interest alleged to have been illegally collected by the direct-tax commissioners, examined and disposed of	289
Pending July 1, 1885	None
Amount of interest refunded	$4,619 26

CORRESPONDENCE.

Total number of letters received	483
Total number of letters written	760

RECOMMENDATIONS REGARDING DIRECT TAX.

By the act of August 5, 1861 (12 Stat., 292), Congress imposed a direct tax of $20,000,000 upon the whole United States, which was apportioned among the different States and Territories according to population.

Another act was passed June 7, 1862, for the collection of the tax in the insurgent States.

The loyal States assumed their quota. In the insurrectionary States commissioners were appointed to make collections.

The commissioners were engaged in making assessments and collections in the eleven insurrectionary States when Congress authorized a suspension of further collections in the States referred to until January 1, 1868, and by act of July 23, 1868, the suspension was further continued until January 1, 1869, since which date collections have not been resumed.

The act of March 26, 1867, section 3, provides "that the Secretary of the Treasury is hereby authorized and required to discontinue the employment of any officer or person employed under the acts for the collection of direct taxes in insurrectionary districts within the United States whenever, in his judgment, their service is no longer needed, and he is hereby authorized to devolve upon any officer or officers of internal revenue in said districts any portion of the duties imposed by said acts, who shall perform such duties without additional compensation."

The services of the direct-tax commissioners and their employés were thereupon discontinued.

The amount of direct tax which is still uncollected is as follows:

State.	Amount due. Commissioner's statement.	Amount due, Secretary's statement.	State.	Amount due, Commissioner's statement.	Amount due, Secretary's statement.
Alabama	$529,313 33	$520,821 87	North Carolina	$198,742 06	$190,000 22
Arkansas	107,686 72	77,803 82	South Carolina	152,781 35	Overpaid.
Colorado	21,388 44	21,388 44	Tennessee	287,963 43	281,775 94
Dakota	3,241 33	3,241 33	Texas	174,265 16	225,098 61
Florida	72,756 26	33,992 86	Utah	26,982 00	26,982 00
Georgia	501,939 86	512,959 58	Virginia	286,499 37	213,501 30
Louisiana	71,385 83	117,371 55	Washington Territory	3,487 17	3,487 17
Mississippi	343,500 12	338,342 10	Wisconsin	51,145 56	51,145 56

A bill was introduced in the last Congress, the object of which was to remit the direct taxes not collected or paid, and to refund to the States, Territories, and the District of Columbia, the amount which had been paid.

There is a discrepancy between the books of the First Comptroller and those of the Register of the Treasury as to the amount of direct taxes which has been collected and as to the amount still due.

I recommend that an examination be made to ascertain the exact amount still due, and that proper action be taken to obtain a settlement of the accounts of the direct-tax commissioners which are still unsettled.

SCHOOL FARMS.

There are eighteen "school farms" in South Carolina still owned by the United States, and rented from year to year by the collector of internal revenue.

These school farms are lands which were bid in by the tax commissioners for the United States, and set apart for school purposes, and were not thought to be subject to either redemption or sale under the act of June 8, 1872.

Each school farm contains 160 acres, with the exception of three, which contain respectively 40, 130, and 800 acres.

The following is a statement of rents collected from school farms during the past four years:

For the year ending December 31, 1881	$223 99
For the year ending December 31, 1882	245 78
For the year ending December 31, 1883	221 75
For the year ending December 31, 1884	527 45

These rentals are invested in United States bonds and added to the school fund, the interest of which is used for the support of public

schools in the parishes of Saint Helena and Saint Luke, South Carolina, under the provisions of an act of Congress approved March 3, 1873.

The amount of the fund which has accumulated is invested as follows:

United States 4s	$47,800
United States 4½s	700

The income from the fund is expended by a board of three commissioners, called the "South Carolina free-school fund commissioners."

In 1882 the amount expended was	$2,200
In 1883 the amount expended was	2,100
In 1884 the amount expended was	2,228

ABATEMENT, REBATE, AND REFUNDING CLAIMS.

ABATEMENT CLAIMS.

On the first of July, 1884, there were pending 278 claims for abatement of taxes assessed, amounting to $87,075.29, and during the year 5,577, amounting to $7,182,077.59, were presented. Of these, 4,035 claims, amounting to $4,723,781.38, have been allowed by this office, and 1,639 claims, amounting to $1,304,694.60, have been rejected or returned for amendment.

This left 181 claims for abatement still pending on the 30th of June, 1885, amounting to $93,776.20. Since that date and up to the 1st of October, 939 other claims have been filed, amounting to $157,942.26; 670 have been allowed, amounting to $127,641.40; and 215 rejected or returned for amendment, amounting to $72,579.59; and on the 1st day of October, 1885, 161 claims for abatement were pending, amounting to $51,497.43.

About $3,800,000 of the taxes abated consisted of taxes on bonded spirits reported for assessment at the maturity of the bonds and afterwards exported, or in some cases withdrawn tax-paid prior to the actual assessment.

REBATE CLAIMS.

On the 1st of July, 1884, there were pending 15 claims for rebate, amounting to $1,207.55. During the fiscal year there were presented 94 more, amounting to $4,586.42.

Of these, 75, amounting to $4,011.53, have been allowed, and 32, amounting to $1,657.99, have been rejected or returned for amendment, leaving pending and undisposed of 2 claims, amounting to $124.45.

A few claims have been received since June 30, 1885, but in most cases these, with those hereafter to be received, will be disallowed, because not presented within the time required by the statute.

REFUNDING CLAIMS.

On the 1st of July, 1884, there were pending 479 claims for the refunding of taxes collected, amounting to $588,778.25, and during the year 439 other claims, amounting to $260,167.11, were presented.

Of these, 252 claims, amounting to $83,306.84, have been allowed by this office, and 483 claims, amounting to $534,949 28, have been rejected or returned for amendment.

This left 183 claims for refunding still pending on the 30th of June last, amounting to $230,689.24. Since that date, and up to the 1st of October, 102 other claims have been filed, amounting to $26,154.14; 50 have been allowed, amounting to $6,778.78, and 44 rejected or returned for amendment, amounting to $7,332.90, and on the 1st of October, 1885, 191 claims for refunding were pending, amounting to $242,731.70.

STATEMENT of SALES of REAL PROPERTY ACQUIRED under the INTERNAL-REVENUE LAWS, of which the PURCHASERS RECEIVED QUIT-CLAIM DEEDS from the UNITED STATES during the fiscal year 1884–'85.

Date of sale.	When acquired.	From whom acquired.	Realty sold and where situated.	Amount sold for.
July 19, 1884	Mar. 31, 1871	J. Kirchhoff & Co..	The premises known in 1871 as the distillery of J. Kirchhoff & Co., No. 80 Pearson street, Chicago, Ill.	$500 00
Aug. 16, 1884	Apr. 16, 1881	Samuel Orr.....	170 acres, more or less, in the fifth civil district of Marshall County, State of Tennessee.	400 00
Sept. 27, 1884	Nov. 3, 1882	John Neal.....	200 acres in the fifth civil district of Putnam County, Tennessee.	40 00
Nov. 8, 1884	Nov. 3, 1882	James Maynard	25 acres in the thirteenth civil district of Putnam County, Tennessee.	25 00
Dec. 13, 1884	Feb. 8, 1872	Black & Williams ..	300 acres in the so-called Still-House tract, in Montgomery County, Tennessee.	50 00
Dec. 16, 1884	Jan. 1, 1884	Joseph Hinton.....	Land lot No. 96 in the sixteenth district of De Kalb County, Georgia.	149 30
Jan. 3, 1885	Dec. 5, 1882	J. P. Sweaney	One-half undivided interest in land lots 287, 288, 17, 18, 19, 20, and 21 = 1,045 acres, in Wilkinson County Georgia.	300 00
Apr. 25, 1885	Apr. 30, 1878	Smith & Co.....	One tract of 60 acres land in Moore County, Tennessee.	50 00
Apr 30, 1885	Apr. 22, 1871	Bowlby heirs	Lot No. 25, in the city of Carbondale, Jackson County, Illinois.	75 00
June 6, 1885	May 31, 1878	C. H. Jones	Eight town lots in Woodville, Tyler County, in the State of Texas.	50 00
Total ..	.....	.....	.....	1,039 30

NUMBER OF SPECIAL-TAX PAYERS.

STATEMENT showing the NUMBER of PERSONS who paid SPECIAL TAXES in the SEVERAL STATES and TERRITORIES during the special-tax year ended April 30, 1885.

States and Territories.	Rectifiers.	Retail liquor dealers.	Wholesale liquor dealers.	Manufacturers of stills.	Manufacturers of cigars.	Dealers in leaf-tobacco.	Dealers in leaf-tobacco not exceeding 25,000 pounds.	Retail dealers in leaf-tobacco.	Dealers in manufactured tobacco.	Manufacturers of tobacco.	Peddlers of tobacco.	Brewers.	Retail dealers in malt liquors.	Wholesale dealers in malt liquors.	Total.

COMPARATIVE STATEMENT OF DISTILLERIES REGISTERED AND OPERATED.

The whole number of grain distilleries registered during the fiscal year ended June 30, 1885, was 1,195, of which number only 918 were operated.

The numbers registered and operated during the fiscal year ended June 30, 1884, were 1,291 and 1,078, respectively, showing a decrease during the last fiscal year of 96 in the number registered and of 160 in the number operated.

The decrease in the number registered and in the number operated occurs in the class of distilleries having the smaller capacities for the production of spirits.

In the larger distilleries the decrease in the number registered is very slight while the increase in the number operated is considerable.

During the fiscal year ended June 30, 1884, 1,052 distilleries of the smaller class, varying in daily grain capacity from not over 5 bushels to not over 60 bushels per diem, were registered, and of this number 905, or 86 per cent., were operated. Of the larger distilleries, whose daily capacities vary from above 60 bushels to 500 bushels, and from 500 bushels to several thousand bushels per diem, 239 were registered, and 173, or 72 per cent., were operated.

During the fiscal year ended June 30, 1885, 958 of the smaller distilleries were registered, and 731, or 76 per cent., were operated. Of the larger distilleries 237 were registered, and 187, or 79 per cent., were operated.

The decrease (94) in the number of small distilleries registered was exceeded by the decrease in the number operated, there having been 174 less of this class operated than in the year previous.

There was an increase (14) in the number of large distilleries operated, although a small decrease (2) occurred in the number registered.

West Virginia	4,943	6	.....	45,884	1,609	.....	.....	.....	.....	52,442	.....
Wisconsin	17,227	146	370	52,322	151,955	1,848	49	.....	182	224,099	.....
Total	1,638,578	130,721	17,855	2,733,397	13,040,357	80,552	223,558	2,719,416	185	17,865,203	2,719,416

The average yield per bushel of grain was $\frac{72,834,198}{17,865,203} = 4.076$ gallons of spirits.

The average yield per gallons of molasses was $\frac{2,081,165}{2,719,416} = .765$ gallon of spirits.

COMPARATIVE STATEMENT of MATERIALS USED and SPIRITS PRODUCED during the last EIGHT (fiscal) YEARS.

Year.	Grain used.	Spirits produced.	Molasses used.	Rum produced.
	Bushels.	*Gallons.*	*Gallons.*	*Gallons.*
1878	14, 680, 552	54, 499, 677	1, 995, 645	1, 603, 376
1879	18, 735, 814	69, 649, 166	2, 801, 307	2, 243, 455
1880	24, 006, 359	87, 915, 969	3, 110, 190	2, 439, 301
1881	31, 291, 175	115, 609, 644	2, 710, 307	2, 118, 506
1882	27, 459, 095	104, 149, 077	2, 121, 804	1, 704, 084
1883	18, 644, 787	72, 235, 175	2, 373, 106	1, 801, 960
1884	18, 927, 982	73, 724, 581	2, 259, 536	1, 711, 158
1885	17, 865, 203	72, 834, 198	2, 719, 416	2, 081, 165
Total	171, 610, 967	650, 617, 487	20, 091, 311	15, 703, 005
Average	21, 451, 370	81, 327, 186	2, 511, 413	1, 962, 875

The quantity of grain used in the production of spirits during the fiscal year ended June 30, 1885 (17,865,203 bushels), is a decrease of 1,062,779 bushels from the amount used in the preceding fiscal year (18,927,982 bushels), and is 3,586,167 bushels less than the average (21,451,370 bushels) for the last eight years.

The number of gallons of spirits produced from grain during the year (72,834,198), shows a decrease of 890,383 gallons from the product (73,724,581 gallons) of the year ended June 30, 1884, and is 8,492,988 gallons less than the average product (81,327,186) for the last eight years.

The yield of spirits from each bushel of grain is 4.076 gallons, showing a marked advance. The yield for the two preceding years was 3.895 for 1884 and 3.874 for 1883.

The quantity of molasses used for the production of rum during the fiscal year is 2,719,416 gallons, an increase of 459,880 over the quantity used in the year previous (2,259,536 gallons) and an increase of 208,003 gallons upon the average quantity (2,511,413 gallons) used during the last eight years.

The quantity of rum distilled from molasses during the fiscal year is 2,081,165 gallons, an increase of 370,007 gallons upon the product of the previous fiscal year, and an excess of 118,290 gallons above the average product (1,962,875 gallons) of the last eight years.

TAXATION OF FRACTIONAL PARTS OF A GALLON OF DISTILLED SPIRITS.

I desire to invite your special attention to what appears to be a pressing need for legislation taxing all fractions of a gallon of distilled spirits.

Under the present law any fractional part of a gallon amounting to one-half gallon or over, in a cask or package, is taxed as a gallon, but any fractional part of a gallon less than one-half gallon in any cask or package is exempt from tax. This provision was undoubtedly made upon the assumption that in filling large numbers of packages the fractional parts of a gallon would be indifferently above or below a half gallon, as might happen, and that the fractions taxed as full gallons would balance the fractions exempt from tax.

But in practice this assumption has not proved to be correct.

It is quite practicable for the distiller so to fill his packages as to have a large fraction less than one-half gallon in nearly every instance.

The tax-payer does not omit to avail himself of this opportunity, and consequently taxable fractions, equal to or exceeding a half-gallon,

occur in packages when filled at the distillery cisterns, only infrequently and by accident, while the untaxed fraction is of constant occurrence.

When spirits remain in the distillery warehouse for a considerable time the natural changes in their volume and proof will render the size of the fraction, upon regauge at the time of withdrawal, a matter of chance entirely, as assumed by the statute.

But much the larger portion of the spirits manufactured remains in warehouse for a brief period only, and very large quantities are, immediately after entry, removed to rectifying houses, where the untaxed fractions are made fully available by the distiller or owner.

It is probable that at least five hundred thousand packages contained a large, untaxed fraction upon removal from warehouse, during the last fiscal year, over and above the packages whose fractions, taxed and untaxed, fairly offset each other.

The direct result of this practice, as it has prevailed in former years, is the loss of a very appreciable amount of revenue. But during the last year a disposition has been manifested to profit by this method of avoiding taxation to a greatly increased extent.

The plan has been adopted at several large distilleries of substituting packages of ten gallons capacity and upwards in place of the spirit barrel of ordinary size, for the sole purpose, apparently, of obtaining the benefit of the untaxed fraction as frequently as possible.

This threatens to be a matter of very serious consequence, as the profit derivable from the fractions, especially if trebled or quadrupled, is sufficient to induce or to compel competitors to resort to the same device, and a large part of the distillers of finished spirits and of high wines already declare that they shall be forced to adopt it.

The tax lost thereby is but one of the evils resulting from this practice. The multiplication of packages increases the labor and expense of gauging and inspection, and of the reports and accounts of the packages and their contents. But the evil most to be deprecated is an unwholesome rivalry of this sort, which is found to stimulate invention and to lead continually to efforts to obtain other advantages, and those of a less legitimate character, in advance of competitors in business, or in place of the benefits from fractions in cases where the latter are not available.

I am of the opinion that the practice should be checked without delay, and that the best remedy will be found in taxing all fractional parts of a gallon of distilled spirits; and for this purpose I respectfully recommend that legislation be had which, in lieu of the present method of taxing and exempting fractions, shall authorize the assessment and collection monthly, in like manner as other taxes are assessed and collected, of the tax upon the whole number of proof gallons, or of wine gallons when below proof, which the fractions of gallons removed from each distillery warehouse may aggregate.

DISTILLATION OF FRUIT—BONDED WAREHOUSES FOR FRUIT BRANDY.

The production of brandy from apples, peaches, and grapes, exclusively, is carried on under much simpler rules and restrictions than govern the distillation of all other articles. Distillers of those fruits are exempted from many of the provisions of law relating to the manufacture of spirits, under authority conferred upon the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, by section 3255 of the U. S. Revised Statutes.

The limitation, however, of this authority to the exemption of distillers

of apples, peaches, and grapes, exclusively, operates to prevent the distillation of many other fruits whose use for the production of brandy would not justify the employment of distilleries arranged under and conforming to the general provisions of law concerning distillation.

During every fruit season applications are made to distill various fruits under the regulations concerning apples, peaches, and grapes. These applications must, of course, be refused. This works a hardship and compels a waste of fruit which might otherwise have afforded a profit to the owner, and to the revenue.

I think it would be expedient to extend the provisions of the statute to all fruits.

Distillers of brandy from grapes are afforded, by the act of March 3, 1877, the advantage of three years' storage of their product in special bonded warehouses, which are authorized to be established for that purpose, but not to exceed ten in number in any one collection district.

This law enables the grape brandy producers to fully ripen their spirits, and to secure an advantageous market for them. It also furnishes greater security for the payment of the tax upon this class of spirits, which must be bonded or tax-paid at the time of making the monthly return of their product. The extension of the same privilege to distillers of apples and peaches and of other fruits whose distillation may be authorized under the regulations governing the distillation of the fruits above named might be reasonably expected to inure to the benefit of the revenue as well as of the distillers, as the necessity for disposing of the spirits before they have reached a profitable stage in order to meet the tax accruing is believed to discourage distillation to some extent.

The compensation of the officers assigned to such warehouses would be the chief additional expense incurred, but if authority were given for the assignment of officers of the class known as storekeepers and gaugers to such warehouses the expense would be reduced to a minimum. The warehouses for grape brandy have been established only in California, and four warehouses have been found sufficient for each of the two large districts in that State.

I am of the opinion that it would be advisable to make the provisions of the act of March 3, 1877, applicable to all distillers of fruit brandy.

WOOD-ALCOHOL.—ITS USE IN COMPETITION WITH ETHYL ALCOHOL.

I think it proper to refer to an alleged competition which tax-paid ethyl alcohol suffers from untaxed wood-alcohol or wood-naphtha.

It has been represented to me that manufacturers employing tax-paid grain alcohol in their business find other manufacturers successfully using wood-naphtha for like purposes with results detrimental to the business of those using alcohol.

It is further stated that the process of deodorizing wood-alcohol has been so far perfected as to render it possible to employ it in many of the arts and trades in place of ethyl alcohol without detection, and possibly with equal advantage.

This information has been so recently received that it has not been practicable to fully verify the statements made. But I have thought it best to invite attention to the matter at this time in view of the important consequences which might follow if these representations should prove to be well founded.

If wood-alcohol can be deodorized to a considerable degree, if not entirely, its employment in the various manufactures from which it has

heretofore been excluded may affect to some extent the production of grain alcohol, from which, in its various grades, so large a proportion of the revenue from distilled spirits is derived.

The methylation, also, of grain alcohol by the addition thereto of a small proportion of wood-naphtha, in order to permit the use of the alcohol in industrial pursuits without payment of tax thereon, as has been proposed, would hardly afford the degree of safety against the use of the alcohol as a beverage which has been attributed to it.

DIVISION OF ASSESSMENTS.

DETAILS OF OPERATIONS IN DISTILLERY WAREHOUSES.

The following tables furnish detailed statements in taxable gallons as to operations at distillery warehouses during the year and the months of July, August, and September, 1885; also as to spirits in the hands of wholesale liquor dealers and rectifiers, &c., viz:

I.—Spirits in warehouses July 1, 1884:
1. By districts and months of production, pages LV to LXIII, inclusive.
2. By districts and kinds known to the trade, pages LXIV and LXV.

NOTE.—For statements of spirits in warehouses at commencement of previous fiscal years, see page CXXIII.

II.—Spirits produced:
1. By kinds known to the trade during fiscal year 1884, page LXVII.
2. By districts and kinds during fiscal year 1885, pages LXVI, LXVII, and LXVIII.
3. In aggregate during years 1880, 1881, 1882, 1883, 1884, and 1885, page CXXIII.

III.—Spirits withdrawn from warehouses:
1. Tax-paid by different kinds fiscal year 1884, page LXX.
2. Tax-paid by districts and kinds during fiscal year 1885, pages LXIX and LXX.
3. Tax-paid by kinds 1884 and 1885 compared, pages LXXII to LXXIV.
4. Tax-paid in aggregate 1881, 1882, 1883, 1884 and 1885, page CXXIII.
5. For export by districts and kinds during fiscal year 1884, page LXXXI.
6. For export by districts and kinds during fiscal year 1885, page LXXXII.
7. For export by domestic and foreign ports and kinds in 1884, pages LXXXIII to LXXXV.
8. For export by domestic and foreign ports and kinds in 1885, pages LXXXVI to LXXXVIII.
9. For export in aggregate by years during past thirteen years, pages LXXXIX to XCV.
10. For scientific purposes and the United States by kinds in 1884 and 1885, page LXXX.
11. For manufacturing warehouses by districts and kinds year 1885, page LXXXI.
12. Lost by leakage in 1884, also by districts and kinds in 1885, pages LXXV and LXXVI.
13. Lost by casualty, &c., in 1884, also by districts and kinds in 1885, pages LXXIX and LXXX.
14. Losses and withdrawals not tax-paid or for export 1881, 1882, 1883, 1884, and 1885, page CXXIII.

IV.—Spirits in warehouse, June 30, 1885:
1. By districts and months of production, pages XCVIII to CVI, inclusive.
2. By districts and kinds known to the trade, pages XCVI and XCVII.
3. As compared with quantity in warehouse June 30, 1884, page XCVII.
4. Subdivided to show quantity covered by transportation and exportation bonds and balance covered by warehousing bonds, page CX. (See also pp. CXI to CXXII.)

V.—Summary of operations at distillery warehouses for the fiscal year 1885, showing, in addition to the information usually given, the quantity of spirits bonded for export under bonds, the time named in which for delivery of the spirits to the collector of customs exceeds thirty days; also the quantity of such spirits withdrawn upon payment of the tax, the quantity actually withdrawn for export, and the quantity remaining in warehouse June 30, 1885, pages CVIII and CX.

NOTE.—For statement as to balances in warehouses at close of each of past seventeen fiscal years, see page CXXIII.

VI.—Operations at distillery warehouses during July, August, and September of 1884 and 1885:
1. Spirits produced in July, August, and September, 1884, by months, page CXXVIII.
2. Spirits produced same months in 1885, by months and States, page CXXVIII.
3. Spirits tax-paid in July, August, and September, 1884, by months, page CXXVIII.
4. Spirits tax-paid same months in 1885, by months and States, page CXXVIII.
5. Spirits withdrawn for export in July, August, and September, 1885, page CXXX.
6. Spirits withdrawn for export in July, August, September, and October, 1878, 1879, 1880, 1881, and 1882, and in July, August, and September, 1883, 1884, and 1885, page CXXX.
7. Spirits in warehouse November 1, 1881 and 1882, and October 1, 1883, 1884, and 1885, page CXXIX.

VII.—Spirits in hands of wholesale dealers and rectifiers:
1. Quantity in aggregate, by districts, held October 1, 1884, pages CXXIV and CXXVI.
2. Quantity by districts and kinds held October 1, 1885, pages CXXIV to CXXVII.

VIII.—Quantity of spirits in the United States October 1, 1885, page CXXIX.

STATEMENT, by MONTHS of PRODUCTION, of SPIRITS in WAREHOUSE in each district of the United States, June 30, 1884.

DIMINISHED PRODUCTION OF SPIRITS.

The quantity of spirits (74,915,363 gallons) produced and deposited in distillery warehouses during the fiscal year ended June 30, 1885, is less than the production (75,435,739 gallons) of the year 1884 by 520,376 gallons.

This decrease is distributed among the different kinds known to the trade as follows:

Decrease in production of—

	Gallons.
Gin	2,263
High wines	3,509,799
Pure, neutral, or Cologne spirits	1,434,298
Miscellaneous	614,713
Total decrease	5,561,073

Increase in production of—

	Gallons.	
Bourbon whisky	3,380,918	
Rye whisky	238,085	
Alcohol	1,051,687	
Rum	370,007	
Total increase		5,040,697
Net decrease		520,376

DIFFERENT KINDS OF SPIRITS WITHDRAWN FROM WAREHOUSE DURING THE YEAR.

DECREASED TAX-PAID WITHDRAWALS OF SPIRITS.

The quantity of spirits, 67,649,321 gallons, withdrawn tax-paid from distillery warehouses during the fiscal year ended June 30, 1885, is less than the quantity (78,342,474 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1884, by 10,693,153 gallons, the decrease being distributed among the different kinds known to the trade as follows:

Decrease in withdrawals of—

	Gallons.
Bourbon whisky	4,288,223
Rye whisky	1,168,356
Alcohol	24,105
Rum	103,740
High wines	3,094,282
Pure, neutral, or cologne spirits	958,385
Miscellaneous	1,068,458
	10,705,549
Less increase in withdrawals of gin	12,396
Total decrease	10,693,153

If the quantity (816,617 gallons, as stated by the chief of the Bureau of Statistics) of domestic spirits exported and reimported during the year upon payment of a customs duty equal to the internal-revenue tax be added, the quantity virtually withdrawn from distillery warehouses for consumption upon payment of the tax during the year ended June 30, 1885, is found to be 68,465,938 gallons, or 9,876,536 gallons less than the quantity so withdrawn for consumption during the fiscal year ended June 30, 1884.

This great falling off in the principal source of internal revenue is largely due to the operation of the internal-revenue laws, especially of those laws arbitrarily limiting the time within which spirits must be withdrawn from distillery warehouses without reference to the demands of trade.

This period was fixed by the internal-revenue act of July 20, 1868, at one year from the date of the entry of the spirits for deposit in the warehouse. Under this restriction the distillers naturally limited their production to their estimate of the year's demand, and as this estimate for so short a period was probably based largely upon actual orders in advance, no serious trouble arose through overproduction up to the date (March 28, 1878) when the time was extended to three years. Nor was any notable trouble occasioned in this way through this extension, the 5 per cent. per annum interest clause of the joint resolution of Congress granting the extension having evidently operated to retard such a tendency.

The situation seems, however, to have greatly changed upon the passage of the internal-revenue act of May 28, 1880, which repealed the interest clause of the joint resolution of March 28, 1878, and also greatly stimulated the accumulation of spirits in distillery warehouses by authorizing the abatement of the tax on the spirits lost by leakage, evaporation, and other natural causes in such warehouses. The effect was immediate. Within one year the quantity of spirits in these warehouses was doubled and increased until at the close of the fiscal year 1882 the maximum quantity of 89,962,645 gallons was reached. At the close of the fiscal year 1883 the quantity was reduced to 80,499,993 gallons, and at the close of the year 1884 to 63,502,551 gallons.

The great reduction in the year 1884 was necessary in consequence

of the maturing of the three years bonds of 1881, covering the remnant of the product (117,728,150 gallons) of that year, the largest product known in the history of internal-revenue taxation.

This reduction was largely secured through the withdrawal of spirits from warehouse upon payment of the tax, which spirits were not needed for actual consumption, but remained on storage in the hands of wholesale liquor dealers after the tax was paid. It was also partially secured by the exportation of spirits to such points as Bermuda, Bremen, and Hamburg, where they were stored in warehouses expressly provided for them, and where, I am informed, the greater part of those which have not been returned to the United States now remain.

The quantity exported to these three points during the years 1884 and 1885, exclusive of alcohol and cologne spirits (for which there is an actual foreign demand), is 8,270,203 gallons, of which 816,617 gallons are known to have been reimported as above stated. Estimating the quantity returned during 1884 at 453,586 gallons, leaves 7,000,000 gallons on storage at those points liable to be reimported for consumption in the United States in competition with the other spirits of that class now remaining in distillery warehouses.

Besides the 7,000,000 gallons of domestic spirits on which the internal-revenue tax has never been paid which remained in store in foreign warehouses at the close of the year ended June 30, 1885, there then remained in distillery warehouses 10,229,473 gallons of spirits, which had so remained for a period exceeding the three years from the date of the entry for deposit.

It appears that under an opinion of the Attorney-General of December 24, 1884, such spirits as are covered by transportation bonds or exportation bonds are allowed to remain in distillery warehouses during a time reasonably necessary in the process of exportation even after the expiration of the three years' limit fixed by the warehousing bond. This time was limited by my predecessor, with the approval of the then Secretary of the Treasury, to seven months. Not being able to see the necessity for so long a time to accomplish the transportation of the spirits to the port of export, I have, with the approval of the present Secretary, reduced the time to thirty days, and so limited the time within which such bonds may be filed as to collect the tax on or before the expiration of the time (three years) within which spirits may remain in distillery warehouses. The only time now obtainable in excess of the three years is that which occurs through the necessary delay in enforcing the payment of the tax.

Of three methods provided by law, that by assessment was adopted in January, 1883, at the time the general necessity for forcible measures became apparent. This method, adopted by Commissioner Raum, under the advice of Secretary Folger, presents some advantages over the other systems. It is much more expeditious than that involving a suit on the warehousing bond, and although less prompt than the mode of collecting by distraint without assessment, it has the advantage over the latter plan in rendering property other than the spirits themselves liable to distraint for the tax. The plan of enforcing the payment of these taxes and the consequent withdrawal of the spirits from distillery warehouses by assessment has therefore not been changed.

The Attorney-General's opinion of July 2, 1883, to the effect that where the spirits are withdrawn from the distillery warehouse with the intention of being landed at a foreign port and of subsequently being returned to the United States they are not withdrawn for exportation, may have had some effect to prevent the withdrawal of spirits where the

intention to export, as stated in the notice, was not the intention to export as defined by the Attorney-General. In view of this opinion, collectors of customs have been directed to inquire into the matter of intention when the spirits are returned to the United States, and in some instances have decided that the original intention included the purpose to reland in the United States, whereupon the tax has been collected as to such returned spirits on the quantity withdrawn from the distillery warehouse. Cases of this kind have, however, been very rare, and necessarily so in view of the difficulty involved in deciding that a man's intentions are different from those he has in each case declared them to be.

In the light of past experience it is deemed safe to predicate that the bulk of the Bourbon whisky and rye whisky shipped to Bermuda, Bremen, and Hamburg, Germany, will be eventually returned to the United States, but it will not be returned by the parties who give the transportation bond, or exportation bond, upon which the spirits are withdrawn from the distillery warehouse; and even if it were so returned by them it is difficult to say that such was their intention when they gave the notice and bond. No doubt the exporters would be glad to find a market for their products abroad, and so be relieved of the expense of the return voyage. Under these circumstances, and in view of the fact that the law accords the privilege of exportation free of tax to holders of all kinds of spirits in distillery warehouses alike, I have not felt warranted in interfering with exportations to the ports named, nor discriminating against these kinds of spirits and in favor of alcohol, rum, or other kinds of spirits which, when once shipped abroad, are not often returned.

It is hardly to be supposed that a distiller would produce spirits if he knew beforehand that the spirits would not be purchased by any one able and willing to pay the tax thereon until they had lain in a bonded warehouse in Bremen, Germany, one or more years. It is evident that the distillers are unable to determine beforehand the quantity of spirits they will be able to dispose of within three years. Under this view of the matter it would be better for the distiller, if there is to be any limitation of the bonded period, (and it would certainly simplify the administration of internal-revenue laws) to restore the time given in the warehousing bond from three years to one year, as provided in the act of July 20, 1868.

I am of the opinion, however, that a better plan would be to allow spirits to remain in distillery warehouses an indefinite time, subject to peremptory withdrawals in case of excessive losses, provided the United States is reimbursed for the additional expense incident to such storage. As in case of all other articles subject to internal revenue tax, the quantity actually consumed is the measure of the quantity upon which the tax is paid. Any law, therefore, which fixes the date of the payment of the tax at any time other than the date of the actual demand for consumption is a disturbing element in the business of the producer, more or less severe as the business of the distiller varies more or less from the artificial standard set up by the law.

DISTILLED SPIRITS ALLOWED FOR LOSS BY LEAKAGE OR EVAPORATION IN WAREHOUSES.

The quantity of spirits (4,424,314 gallons) reported in the preceding table as lost by leakage or evaporation in warehouse is that portion of the actual leakage in warehouse from packages withdrawn during the year which has been allowed in accordance with the provisions of section 17 of the act of May 28, 1880.

The following statement shows the quantity of spirits, as per original gauge, withdrawn from warehouse for all purposes during the stated period, and the amount and percentage of leakage allowed thereon under the provisions of the act named.

Year.	Total quantity withdrawn.	Leakage allowed.	Percentage of withdrawals.
	Gallons.	*Gallons.*	
1880	78,199,283	75,834	.096
1881	84,335,900	811,466	.962
1882	80,281,611	1,231,336	1.533
1883	83,291,190	2,291,013	2.750
1884	92,022,593	3,858,494	4.193
1885	*90,925,782	4,424,314	4.866

*Includes 7,750,696 gallons stamped for export but not actually withdrawn.

The maximum allowance fixed by the act above named, on account of leakage in warehouse during the full bonded period of three years, is seven and one-half gallons to each package of not less than forty wine gallons' capacity, or 18.75 per cent. of that capacity. On this basis the average bonded period for all classes of spirits withdrawn from warehouse during the year 1884 would represent less than nine months, and as to withdrawals during 1885 rather more than nine months of the full bonded period authorized by law.

A large percentage of such withdrawals, however, is made up of high-proof spirits, such as alcohol and high wines, which are held in bond only for a limited period of time, and on which, in many cases, no leakage whatever is claimed. On the other hand, spirits, such as bourbon and rye whiskies, are, in a majority of cases, held in warehouse for the full bonded period, and the large increase in the amount of leakage allowed during the years 1883, 1884, and 1885 over previous years is due to the proportionally large increased withdrawals of this latter class of spirits.

As the foregoing tables show not only the quantity of all kinds of spirits withdrawn for all purposes and the quantity allowed for leakage, evaporation, &c., but also the quantity of each kind so withdrawn and so allowed, they afford the means of determining the actual amount of tax paid on each gallon of each kind of spirits produced. Computations on this basis show that the tax paid on withdrawal of each gallon produced was as follows: Bourbon whisky, nearly 81 cents per taxable gallon; rye whisky, nearly 80 cents per gallon; alcohol, 89.99 cents per gallon; rum, 89.23 cents per gallon; gin, 89.74 cents per gallon; high wines, 89.61 cents per gallon; pure, neutral, or cologne spirits, 89.56 cents per gallon; miscellaneous, 88.34 cents per gallon.

Except as to bourbon and rye whiskies, the above computations are de on the tax-paid withdrawals of the fiscal year ended June 30

1885. As to these kinds of spirits the computations were based on withdrawals made in the fiscal year ended June 30, 1884. The computations as to bourbon and rye were not made for 1885, as the leakage allowances as to these spirits includes allowances on the bulk of the 7,750,696 gallons stamped for export but not actually withdrawn from warehouse. These leakages would make the rate of tax as to these two classes of spirits appear to be less than 80 cents per gallon.

Increase during year 1885								107, 324	

Of the 517,912 gallons shown by the preceding table to have been lost by casualties during the year 1885, 333,825 gallons were lost through one casualty by fire, which occurred at a warehouse in the twenty-second district of Pennsylvania, and the total quantity lost during the year is found to represent one gallon out of every two hundred and sixty-seven gallons held on deposit in distillery warehouses during the year.

SPIRITS WITHDRAWN FROM WAREHOUSES FOR SCIENTIFIC PURPOSES AND FOR THE USE OF THE UNITED STATES.

The quantity of alcohol withdrawn free of tax from distillery warehouses for the use of colleges and other institutions of learning in the preservation of specimens of natural history in their several museums, and for use in their chemical laboratories, and of spirits of various kinds for the use of the United States, amounted during the year to 27,330 gallons, or 6,493 gallons more than the quantity withdrawn during the previous year.

STATEMENT by DISTRICTS and KINDS, of the QUANTITY of SPIRITS WITHDRAWN from DISTILLERY WAREHOUSES for SCIENTIFIC PURPOSES and for the USE of the UNITED STATES during the year ended June 30, 1885.

[1] Exported via Boston.
[2] Exported via Baltimore.
[3] Exported via New Orleans.
[4] Includes 832 gallons gin.
[5] Exported via San Francisco.
[6] Exported via Philadelphia.
[7] Exported via New Bedford.

In order to save space, the preceding table of exportations, by domestic and foreign ports, for the year 1885 is provided with but two columns for each class of spirits, one for exportations via New York and the other for exportations via all other domestic ports, the name of each domestic port in each case being in a foot-note.

It appears, upon analysis of the quantities given in the columns other than those devoted to exportations via New York, that the quantity of each kind of spirits exported via each port other than New York is as follows:

Kind of spirits.	Exported by way of—	Quantity.
		Gallons.
Alcohol	Boston	50,163
	Brownsville	10,624
	Laredo	7,488
	New Orleans	5,297
	Total	73,572
	Add exports via New York	4,870,596
	Total	4,944,168
Rye whisky	Baltimore	143,854
	Philadelphia	22,235
	Total	166,089
	Add exports via New York	457,920
	Total	624,009
Rum	Boston	898,858
	New Bedford	664
	Total	899,522
	Add exports via New York	32,618
	Total	932,140
Pure spirits	Boston	91,119
	Detroit	30,066
	Port Huron	18,873
	San Francisco	13,906
	Baltimore	44
	Total	154,008
	Add exports via New York	186,131
	Total	340,139
Bourbon whisky	Baltimore	854,880
	Newport News	235,657
	Boston	9,162
	El Paso, Tex	3,600
	San Francisco	1,320
	New Orleans	1,462
	Brownsville	612
	Brashear, Tex	204
	Total	1,106,897
	Add exports via New York	2,668,324
	Total	3,775,221
Miscellaneous	New Orleans	437
	Boston	266
	San Francisco	47
	Total	750
	Add exports via New York	53,859
	Total miscellaneous	54,609

In addition to the above, 832 *gallons of gin* were withdrawn for exportation to Hamburg, Germany, via New York.

SPIRITS REMOVED IN BOND FOR EXPORT.

The following statement shows the quantity and percentage of production of distilled spirits removed in bond for export during each fiscal year since the passage of the act of June 6, 1872:

Year.	Taxable (proof) gallons exported.	Percentage of production.	Year.	Taxable (proof) gallons exported.	Percentage of production.
1873	2,358,630	3.45+	1880	16,765,666	18.55+
1874	4,060,160	5.90+	1881	15,921,482	13.52+
1875	587,413	0.96+	1882	8,092,725	7.64+
1876	1,308,900	2.25+	1883	5,326,427	7.19+
1877	2,529,528	4.22+	1884	9,586,738	12.70+
1878	5,499,252	9.80+	1885	10,671,118	14.24+
1879	14,837,581	20.63+			

The increased withdrawals for exportation, as shown in the above table, for the years 1884 and 1885 consist mainly of bourbon and rye whiskies, the quantity of such spirits withdrawn for export being, for 1883, 988,842 gallons; for 1884, 4,112,268 gallons; and for 1885, 4,399,230 gallons.

These withdrawals, as stated in a preceding paragraph relative to withdrawals of spirits on payment of the tax, were made upon entries for exportation to such ports as Bremen and Hamburg, Germany, and Hamilton, Bermuda, from which points the spirits have from time to time been returned to the United States and entered for consumption upon payment of a duty equal to the internal-revenue tax thereon.

The authority for accepting a duty equal to the internal-revenue tax is found in section 2500 of the Revised Statutes of the United States. A limitation fixed by the statute, however, is to the effect that the article, in this case the spirits, shall be exported from the United States and reimported. The Secretary, therefore, early sought the opinion of the Attorney-General in the matter. The opinion of the Attorney-General and subsequent action of the Secretary and of this Office are as follows:

DEPARTMENT OF JUSTICE,
Washington, July 2, 1883.

SIR: Yours of May 21 states that large quantities of domestic distilled spirits now remain in distillery bonded warehouses subject to a tax payable within three years from the date of their entry for deposit, under the act of May 28, 1880, and that the time during which payment of the tax is suspended upon 12,000,000 gallons thereof expires within the present calendar year; that you are informed that the owners of a large quantity of such spirits propose to *withdraw* it under section 3330, Revised Statutes, and acts of June 9, 1874, and March 1, 1879, in order to ship it to Hamilton, Bermuda, with the purpose, after landing it there, of shipping it back to this country and entering it, either for warehousing or for consumption, under section 2500, Revised Statutes, claiming at the same time that under the warehouse laws such spirits may remain in warehouse, without payment of duties, for a period not exceeding three years from the date of their importation. (Sec. 2970, Rev. Stats.)

In pursuance of this plan, several thousand barrels of spirits are now at Newport News, Va., for the purpose of shipment.

Thereupon you ask:

First. Is such shipment of whisky, with such purpose and intention, to Bermuda, and landing it there, an exportation within the intent of section 3330, Revised Statutes, and the act of 1874 (18 Laws, 64), and does such shipment and landing there fulfill the conditions of the exportation bond and discharge the whisky from the internal-revenue tax thereon?

Second. Is such whisky, upon return to this country, entitled to be admitted under section 2500, Revised Statutes, on payment of a duty equal to the tax imposed thereon by the internal-revenue laws?

Third. Is it entitled upon return to this country to the rights and privileges of imported merchandise, under the warehouse laws, chapter 7, Title 34, Revised Statutes?

To the above statement you have, June 23d, added, as a *variation*, the following, which is also to be considered and made an additional subject of discussion:

"(1) The exporters propose to comply with all the requirements of the law in respect to the exportation of their whisky, so that the transportation and export bonds shall be canceled and the whisky exported, legally discharged from the lien the Government has upon it for an internal-revenue tax.

"(2) Arrangements have been made for the storage of the whisky in Bermuda for a period of twelve months, and longer, at the option of the owners, at advantageous rates of storage, in a climate which in a remarkable degree facilitates the ageing of whisky.

"(3) No arrangements have been made for the return of said spirits, and that the same or any part thereof will not be returned to this country except in response to the demand of trade, and that the exportations are being made for the purpose of relieving an overloaded home market, with the intention, in due course of business, of making sale of all that can possibly be placed upon the British and Continental markets.

"(4) It is the intention of the exporters to preserve the identity of the spirits exported, so that if a market is found in the United States for any portion of it, it can be entered as domestic distilled spirits reimported, upon which a duty equal to the internal-revenue tax will be levied and collected."

Inasmuch as all the statutes which are cited by you describe the transaction in the course of which occur the details as to which the above questions arise by one or other form of the word "export," it is important to ascertain what that word means.

Its dictionary signification is *to carry out of a country*. By the very force of language this denotes only such an act as, *when completed*, results in a carrying out—*i. e.*, that no act can be so denoted if at its completion the thing carried has been returned within the country. It is no more true in common parlance than in law that a transportation of goods from San Francisco to New York is an *exportation* of them, even although between their departure and arrival they lie for some time in the ports of Callao and Rio Janeiro, and although the conversation about them occurs whilst they so lie.

Furthermore, it is not because by statute coastwise transportation can only take place in *American* bottoms that such goods have not at any period of the transit been *exported*. It would be equally true of goods in the course of transportation, under section 4347, R. S., in a *British* bottom from Ogdensburg via Toronto to Chicago, even if spoken of whilst lying at Toronto.

It is, therefore, only when the executed act *results* in carrying the goods out of the country that it is an *exportation*.

It is hardly necessary to go further upon this matter and say that in speaking of *an act* I include any transaction *done in accordance with original intention*, no matter how complex, or how much broken into *bits*. Unity of intention unites all such details into *one whole*.

The American citizen who goes abroad for an indefinite period, intending to educate his children in Germany, and, in the interval, or subsequently to locate himself for one advantage or another in Italy and in other countries, intending, after all, to return to live in America, does not lose his citizenship at any moment of his absence. The whole affair was only *one* visit. And so if a cask of Madeira is carried to Calcutta for the benefit of the voyage, such benefit to be enjoyed *after its return*, this is not an exportation; nor in the absence of a special context giving to such additional incident that effect, can it make any difference if in the mean time it be temporarily *landed* at one foreign port, or at several.

In general, then, neither the lapse of long time, nor the incidence of numerous details affects the *unity* of an act.

I find nothing in the context of the Statutes under consideration to disturb this usual signification of the word *export*. Although it may be noticed that the context in the present case goes to *confirm* the above conclusion as to the meaning of *export*, as one to which the legislature was actually advertent, for the transaction by which domestic liquors are allowed to be shipped abroad, is one which such context recognizes as making them objects fit for *importation*, *i. e.*, *foreign* goods.

There may be instances in the statutes where the word "export" is shown, directly or by the context, to have been used *irregularly*, as, for instance, in section 1955, where the "*exportation" to Alaska from any port in the United States* is spoken of; but these are *exceptional*, their effect being of course limited to what is in the same connection expressly provided, and therefore without influence upon what ordinarily is the statutory use of the word.

In the case put by you in your first note, in which an intention exists to carry spirits now at Newport News, Va., to Hamilton, Bermuda, with the purpose, after landing it there, of shipping it back to this country, I am of opinion that there will be no *ex-*

portation, or, consequently, *importation, so far, at all events, as to entitle the owners to any privileges connected with exportation or importation.*

Whether they may subject themselves to another class of the provisions of the custom law is obviously a different matter, and will best be decided when a specific case arises.

(1) The *landing* specified in the bond referred to in your first question is by its own words, and by those of the statute which requires it, a landing in the course of an *exportation*. No landing at Hamilton, therefore, in the case put by you, is such landing. Neither landing nor any other detail, statutory or other, can obviate the necessity of that *intention*, which is of the essence of exportation. I therefore answer your first question in the negative.

(2) I must add, of course, that the case in view is not within section 2500 for the purposes of your second question.

(3) Equally, such spirits will not be entitled to the rights and privileges referred to in Question 3.

I now ask your attention to the effect of the variations of which you speak in your second note.

I premise that I understand these statements to affect cases in which *nothing else appears* as to the intention of the owners in shipping the goods out of the country; for if they accompany cases in which the intention is ascertained to be what you have already stated, I am of opinion that the main support of the theory of the owners fails them, there being no exportation; so, if the only intention in shipping them abroad is for a twelve-months' storage in Bermuda, that also is inconsistent with *exportation*.

As the legal notion of emigration is a going abroad with an intention of not returning, so that of exportation is a severance of goods from the mass of things belonging to this country with an intention of uniting them to the mass of things belonging to some foreign country or other.

All emigration as above defined is attended with a chance that the intention may afterwards (*i. e.*, after actual removal) be changed. This chance does not affect the character of the act. Nor does the circumstances of an original speculation that such chance may occur, or even a resolution that upon a certain contemplated contingency the party about to emigrate will return, *ex. gr.* upon a change of government, or upon the loss of his health, &c., affect the validity of an emigration otherwise *bona fide*. I suppose that the case may often be the same with exportations as above defined, viz, a contingent change in the state of the market, by which it may be profitable to bring them back, the *immediate bona fide* purpose as well as act, however, being to seek a foreign market. This would, nevertheless, be an *exportation*, and upon return, of course, an *importation*. Nor would such exportation be *defeated* by the incident of "preserving the identity" of the goods.

But if the only purpose were to obtain for a time the advantages which some foreign port gives for improving spirits, and meanwhile of escaping some home revenue regulation upon domestic spirits, and acquiring after return some home revenue privilege appropriate to foreign spirits, I submit that the statutory requisites for such effect would be wanting. I say *the statutory requisites*, for I admit that if those requisites are duly complied with they must have their due statutory effect, and there would in such case be no ground for suggesting *fraud*.

I cannot say that the variations above amount to more than *evidence* of exportation or of the contrary. The mere carrying goods abroad is, of course, strong evidence that they are being exported. Whether *proof* or not is another matter. I suppose that you do not wish a mere discussion of the weight or direction of the testimony contained in the *variations*. If questions shall be made hereafter in the courts upon the matters under consideration neither party will take any advantage from what may be said upon them here.

And in closing it may be well to express what no doubt is now understood, but may be forgotten, viz, that the Government will not be bound hereafter by any part of this discussion that may then be seen to be ill-founded. There is nothing in this opinion, or I suppose in any other part of the transaction, which the owners in question can rely upon as having the force of an estoppel or contract, in case the Government shall then be better advised as to its rights.

This opinion has no force whatever except as advice by one Department to another in a future contingency, as to which the latter Department very properly wishes to warn citizens whose interests therein are very large. With every disposition to treat the owners of these spirits with perfect candor, it must be recollected that definiteness under the circumstances is unattainable, and that it is not in the power of officers of the Government to trammel the discretion with which in the interests of the public these transactions will otherwise have to be considered, or the freedom with which accordingly they must otherwise be treated when the proposed "exportation" and "importation" shall have happened.

The present statements and discussion will of course go to show a disposition to deal fairly upon the part of these owners, and for that they must always have credit; but no engagement or embarrassment will come of what is said upon the part of the Government.

Very respectfully, your obedient servant,

S. F. PHILLIPS,
Solicitor-General.

The SECRETARY OF THE TREASURY.

During my absence these questions were put to the Solicitor-General, and he has passed upon them and submitted the above opinion and answers. Having examined the subject myself, I concur with him and approve of his opinion and answers to the questions propounded.

BENJAMIN HARRIS BREWSTER,
Attorney-General.

In pursuance of this opinion the following letters were written:

TREASURY DEPARTMENT,
Washington, D. C., July 21, 1883.

Messrs. Wood, Pollard & Co., of Boston, have addressed a letter to this Department, dated the 17th instant, in which they state that a firm in Boston exported, some months since, in bond, to Hamilton, Bermuda, a quantity of whisky of domestic manufacture, which was returned to your port in January last, where it now remains in bonded warehouse. They have agreed with the holder to buy 25 barrels of this whisky, delivered in Boston, in bond, and they ask what course may lawfully be taken in the premises.

Guided by the opinion of the United States Attorney-General, this Department holds that articles the growth, product, or manufacture of the United States, when exported and reimported under section 2500 United States Revised Statutes, are not within the purview of our customs-warehousing system, and that they cannot lawfully be stored under the laws creating that system. This will apply to distilled spirits, the manufacture of the United States, once exported and reimported under the section above cited. Upon the landing of such spirits collectors of customs will exact payment of a duty equal to the tax imposed by the internal-revenue laws. They will not permit them to be entered for storage in bonded warehouses; and on failure of other means to obtain the duty, they will seize and hold them for the same, and all legal expenses of their action.

In the case now before the Department, and spoken of in the beginning of this letter, a warehouse bond has sometimes been taken in good faith, and under a mistaken but innocent belief in the legality and regularity thereof. Because of that the spirits to which that bond applies may be dealt with as an exceptional case in accordance with the conditions of the bond.

Very respectfully,

CHAS. J. FOLGER,
Secretary.

To the COLLECTOR PORT OF NEW YORK.

[5845.—Cancellation of interual-revenue export bonds.]

This Department is in receipt of your letter, dated the 28th of June last, transmitting an application by W. J. Osborne, assignee of Ives, Beecher & Co., for the cancellation of bond No. 760, given by him June 11, 1883, in the sum of $4,700, to secure the production within six months of a foreign customs certificate to cover thirty barrels of whisky imported per bark Alfred from Bermuda.

It is alleged that the whisky on exportation from the United States was covered by internal-revenue export bond No. 4125, which bond has been canceled on the inclosed evidence. Connected with the evidence produced was a certificate from a foreign revenue officer, showing the landing at Bermuda of the "goods and merchandise" described in the landing certificate. No separate certificate, in compliance with the conditions of bond No. 760, has been produced, as required by the regulations covering such cases. The foreign certificate presented was rejected, and the bond in question taken on the ground that the certificate did not state that the whisky therein mentioned was the whisky returned to the United States, and on the ground, further, that there was no identification of the imported whisky as that which was exported.

In reply to your request for instructions, I have to state that a certificate should be presented in the usual manner, in accordance with the conditions of the bond. The

Department declines to authorize the acceptance, as a sufficient compliance with said conditions, of the certificate already produced. Inasmuch as the Attorney-General has expressed the opinion that the shipment of distilled spirits abroad, with the purpose of bringing it back to the United States to evade the immediate payment of the tax thereon, is not a legal exportation, the Department, in cases which appear to come within the scope of that opinion, will insist upon a rigid compliance with its regulations, and waive none of its requirements as to the exportation or importation of distilled spirits.

As regards the question whether your action was in accordance with the general regulations in taking a bond for the production of a certificate under the circumstances, you are informed that while articles 373 to 379, inclusive, of the regulations of 1874, do not expressly refer to such cases, there seems to be no reason why a bond may not in a proper case be taken as well where the merchandise is subject to a duty equal to the tax imposed by the internal-revenue laws under section 2500, Revised Statutes, as where it is free. The regulations cited may therefore be applied in such cases.

Your inquiry whether upon an importation of this character the duty chargeable on foreign spirits should not be exacted in the absence of a foreign customs certificate showing that the whisky is the identical whisky exported, is, therefore, answered in the negative, provided it is a *bona-fide* reimportation of an American manufacture, that a bond be given as aforesaid, and that the other regulations upon the subject shall be observed. (Collector of customs, New York, August 3, 1883.)

[1885.—Department No. 46.—Division of customs.—Circular.—Reimportation of distilled spirits.]

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., April 14, 1885.

To Collectors and other Officers of the Customs:

In an opinion of the Attorney-General, printed in Decision 5829, of July 21, 1883, the question was discussed of the status for duty purposes of distilled spirits manufactured in the United States, shipped to foreign countries without payment of the internal-revenue tax, and subsequently returned to the United States, the circumstances under which the shipment abroad was made indicating that it was the intention of the parties interested when making the shipment to return the spirits to the United States. The opinion of the Attorney-General was that a shipment and return under such circumstances did not constitute an exportation and importation.

Lately considerable quantities of spirits have been shipped from the West to St. John, N. B., *via* Boston, and afterwards returned to Boston within short periods of time, and upon such return duty was assessed under section 2500, Revised Statutes, and on the quantity returned by the customs gauger, without a *correction* of volume for temperature as required by the Internal Revenue Regulations.

The Department decides that, on the facts stated, the shipment and return did not constitute an exportation and reimportation under the opinion of the Attorney General, and that therefore the merchandise was not entitled to entry under section 2500, Revised Statutes. Where a collector of customs shall receive such domestic merchandise from a foreign port and in the original distiller's packages, and the facts bring the case within the rule stated, he will deliver the merchandise to the collector of internal revenue for the district, who will dispose of the same under instructions to be issued by the Commissioner of Internal Revenue.

C. S. FAIRCHILD,
Acting Secretary.

1885.—Department No. 52.—Internal Revenue.—Circular No. 286.—Domestic Distilled Spirits not reimported though returned from abroad.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., April 28, 1885.

To Collectors of Internal Revenue:

The attention of collectors of internal revenue in charge of exports and others is called to Department Circular No. 46, of the 14th instant (31 Internal Revenue Record, page 117), relative to the "reimportation of distilled spirits" subject to tax under internal-revenue laws, which circular announces the decision that, on the facts stated therein, domestic spirits shipped ostensibly for export and returned as therein

set forth are not exported, and that upon return they are not entitled to entry under section 2500, Revised Statutes. Collectors of customs who receive such domestic spirits from a foreign port in the original distiller's packages, when the facts bring the case within the rule stated, are required by the circular to deliver the merchandise to the collector of internal revenue for the district. Any collector of internal revenue to whom spirits are delivered by a collector of customs, under the provisions of the above described circular, will receive the same, and will require, on behalf of the distiller or owner, payment of the tax on each package, on the quantity ascertained by the regauge thereof made upon withdrawal from the distillery warehouse. The collector will then deposit the money in the nearest designated depository to the credit of the collector in whose district the spirits were produced. He will then transmit the triplicate certificates of deposit to such collector, forwarding therewith a statement in which the name of the distiller, the number of each package, and the taxable contents of each, as determined by the marks thereon, are fully set forth. Upon receipt of the same, the collector in charge of the distillery warehouse will carefully compare the statements with his records and with the gauger's original report of the regauge for exportation on file in his office, and, if the proper tax is found to have been paid, he will issue a tax-paid stamp for each package, as in case the spirits had been originally withdrawn upon payment of the tax, excluding, however, the amount covered by excessive leakage on which tax was paid to him when the spirits were bonded for export.

He will thereupon transmit the stamps to the collector through whom he received the tax, who will detail a gauger to affix the stamps. When the stamps are affixed the gauger will write across the face of each the following words: "Affixed under provisions of Circular No. 286."

In the great majority of cases likely to arise under this circular, the certificate of landing will have been received by the collector of internal revenue prior to the return of the spirits, thus obviating the necessity of any reference to the matter in the bonded distilled spirits account other than to report the spirits on Form 93 *c* as covered by stamps representing taxes not reported on Form 94 A.

If, however, the taxes are paid before the receipt of evidence of landing abroad, the collector will ask for special instructions in the matter.

In case the collector, to whom the spirits are delivered by the collector of customs, is in doubt as to the district in which the spirits were produced, he should report the name of the distiller and serial numbers of the packages to this office. Upon receipt of such report he will be furnished with the name and address of such collector.

JOS. S. MILLER,
Commissioner

1885.—Internal revenue.—Circular No. 287.—Transfers of domestic distilled spirits from collectors of customs to collectors of internal revenue.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., May 1, 1885.

When a collector of customs has received domestic spirits from a foreign port in the original distiller's packages which fall within the rule announced in Circular, Department No. 46, 1885, Division of Customs, he will serve upon the internal-revenue collector for the district in which such spirits are found a notice in duplicate as follows:

CUSTOM HOUSE, PORT OF ——— }
———, 188– }

——— ———*Collector of Internal Revenue:*

SIR: You are hereby notified that the following-described spirits, produced by ——— ———, a distiller in the —— district of ——, which were withdrawn from —— distillery warehouse under an entry for exportation, and under a (transportation or exportation) bond dated ———, 188—, and which were cleared from this port of ——— on the —— day of ——, 188—, but were not exported and consequently not reimported, will, in accordance with instructions contained in circular, Department No. 46, 1885, division of customs, be delivered to you upon your receipting therefor.

Number of packages and kind of spirits.
Marks and serial numbers of packages.
Numbers of warehouse stamps.
Numbers of export stamps.
Name of claimant.
These spirits are in General Order Warehouse No. —, located at ———.

——— ———,
Collector of Customs.

Upon receipt of the appropriate tax-paid stamps as provided in Internal Revenue Circular No. 286, the internal revenue collector to whom the spirits have been delivered when directing a gauger to affix the stamps will also direct him to regauge the spirits and to report to him in detail the actual contents of each package both in proof gallons and in wine gallons.

He will then deliver one of the duplicate notices marked "Original" to the collector of customs, with his receipt appended thereto in the following form:

Received of ——— ———, collector of the port of ———, the above-described spirits delivered to me under the instructions contained in circular, Department No. 46, 1885, division of customs. The actual aggregate contents of the above packages were found by a regauge made under my direction to be ——— wine gallons ——— proof gallons, as will appear in detail from the annexed report of the gauger.

———— ————,
Collector of Internal Revenue.

————, —, 188–.

The collector of internal revenue will require the claimant to receipt to him upon the duplicate notice, for the spirits upon the delivery thereof with the tax-paid stamps affixed.

This receipt will be in the following form:

———— ———, 188–.

Received of——— ———, collector of internal revenue for the ——— District of ————, the above described spirits which, according to the marks and brands thereon, contained, at the time of their withdrawal from the distillery warehouse, taxable gallons as follows:

Serial number of package.
Taxable gallons.

H. C. ROGERS,
Acting Commissioner.

Approved.

D. MANNING,
Secretary of the Treasury.

DIFFERENT KINDS OF SPIRITS IN WAREHOUSE JUNE 30, 1885.

STATEMENT OF SPIRITS IN DISTILLERY WAREHOUSES IN THE STATE OF KENTUCKY FEBRUARY 1, 1885, BY MONTHS OF PRODUCTION.

Having had occasion, at the request of a member of the Committee on Ways and Means, House of Representatives, to ascertain and state the quantity, by months of production, of spirits in distillery warehouses in the State of Kentucky, February 1, 1885, and believing the information useful in estimating the quantity in warehouse on the same day in 1886, the statement is subjoined, viz:

Month and year.	Second district of Kentucky.	Fifth district of Kentucky.	Sixth district of Kentucky.	Seventh district of Kentucky.	Eighth district of Kentucky.	Total.

* Six thousand seven hundred and twenty-one gallons transferred from "bourbon" to "rye" to conform to the reclassification of the collector of the second district Iowa. There is no change in the aggregate. The totals here are 41,170,338 "bourbon" and 15,011,778 "rye." The report for the year 1884 shows 41,177,059 "bourbon" and 15,005,057 "rye."

EXPENSE TO THE UNITED STATES IN ENFORCING THE INTERNAL-REVENUE LAWS AS TO DISTILLED SPIRITS FROM WHICH NO REVENUE IS DERIVED.

The quantity of spirits held in charge of storekeepers or storekeepers and gaugers on deposit in distillery warehouses during the year ended June 30, 1885, was, as appears from the preceding tabular statement, 138,417,914 gallons, and the quantity so held in special bonded warehouses was 702,121 gallons (see table on p. CXXXI of this report), making a total of 139,120,035 gallons. The salaries paid during the year to storekeepers and to officers known as "storekeepers and gaugers" amounted to $1,103,786, or very nearly eight-tenths of a cent on each gallon as above held in bond.

The quantity of spirits gauged during the year was as follows:

	Gallons.
Deposited in distillery warehouses	74,915,363
Deposited in special bonded warehouses	312,197
Withdrawn from distillery warehouses	83,175,086
Fruit brandy tax-paid	1,468,775
Spirits gauged for rectifiers	111,536,384
Class 2, exports in warehouse	8,726,231
Total	280,134,036

The amount paid during the year to gaugers as fees and traveling expenses was $744,027, or at the average rate of twenty-six hundredths of a cent per gallon on the quantity gauged as above stated.

The collections for 1885 were $112,421,121. The collections from distilled spirits held on deposit in distillery warehouses were $60,920,324, which is a little over one-half of the total collections.

There is no means of separating expenses of collectors, deputies, &c., so as to show what part was incurred in the collection of tax on spirits, but it is probable that nearly one-half of such expenses was directly or indirectly connected therewith.

The total expenses of collectors, deputies, clerks, &c., were, for 1885	$1,785,289
For revenue agents	77,445
For stamps and paper	392,634
For office of Commissioner of Internal Revenue	284,591
For detecting fraud	34,387
Total	2,574,346
One-half of which is	1,287,173
Add amount paid for locks at distilleries	1,361
Add amount paid for hydrometers	5,725
Total paid out	1,294,259

Dividing the total paid out as above (being all the expenses other than those incurred through the employment of storekeepers and of gaugers) by 138,417,914, the number of gallons, as before stated, held on deposit in distillery warehouses, gives a quotient of 0.0093, which shows that the expense incurred, other than that covered by payments to officers employed as storekeepers and as gaugers, was at the rate of ninety-three hundredths of a cent per gallon on the quantity held in distillery warehouses.

The total expense per gallon is derived as follows:

Amount per gallon paid to storekeepers (including storekeepers and gaugers)	$0.0080
Amount per gallon paid to gaugers	0.0026
Amount paid to collectors, deputy collectors, collectors' clerks, revenue agents, office Commissioner of Internal Revenue, for stamps and paper, for detecting fraud, and for locks and hydrometers	0.0093
Total	0.0199

Or very nearly 2 cents.

The quantity of spirits withdrawn from distillery warehouses free of tax, including allowances, during the fiscal year ended June 30, 1885, was as follows:

	Gallons.
For export	10,671,118
For scientific purposes	27,330
For manufacturing warehouses	403,003
Allowed for leakage	4,424,314
	15,525,765
Add quantity stamped for export and remaining in warehouse June 30, 1885	8,726,231
Total	24,251,996
At 2 cents per gallon	.02
Total expense	$485,039.92

It appears from the above computation that during the year the expense to the United States in enforcing the internal-revenue laws as to spirits from which no revenue is derived was a little more than $485,000. It should be noted, however, that since the close of the fiscal year, and prior to October 1, 1885, a portion amounting to 2,358,330 gallons of the quantity above given as stamped for export, and remaining in warehouse June 30, 1885 (less 2,122 gallons withdrawn for the United States) has been withdrawn upon payment of the tax. On the other hand, it appears that the tax has been abated upon 401,160 gallons of the 517,912 gallons lost by casualty during the year; also, that there were stamped for export since the close of the fiscal year 2,313,086 gallons not withdrawn from warehouse.

SUMMARY OF OPERATIONS AT DISTILLERY WAREHOUSES FOR THE YEAR ENDED JUNE 30, 1885.

The following table shows the quantity of distilled spirits, in taxable gallons, at 90 cents per gallon tax, placed in distillery warehouses during the fiscal year ended June 30, 1885, the quantity withdrawn therefrom during the year, and the quantity remaining therein at the beginning and close of the year:

Distilled spirits.	Quantity.	Total.
Actually remaining in warehouse July 1, 1884	63,502,551	
Not actually in warehouse, claimed to have been lost by casualty	249,317	
Withdrawn for exportation, proofs of landing not received	10,148,599	
Withdrawn for transfer to manufacturing warehouse, not yet received at warehouse	85,137	
		73,985,604
Produced from July 1, 1884, to June 30, 1885		74,915,363
Total		148,900,967
Withdrawn tax-paid (including deficiencies on export bonds and casualties disallowed)	66,824,469	
Stamped for export, but afterwards withdrawn upon payment of tax	938,971	
Exported, proofs of landing received	11,714,240	
Allowed for loss by casualty	247,965	
Withdrawn for scientific purposes and for the use of the United States	27,330	
Allowed for loss by leakage or evaporation in warehouse	4,424,947	
Allowed for loss by leakage in transportation for export, &c	94,573	
Withdrawn for transfer to and received at manufacturing warehouse	318,323	
		84,590,818
Withdrawn for exportation, proofs of landing not received	9,001,679	
Withdrawn for transfer to manufacturing warehouse, not received at warehouse	92,313	
Not actually in warehouse, claimed to have been lost by casualty	491,241	
Stamped for export, remaining in warehouse June 30, 1885	7,750,696	
All other spirits remaining in warehouse June 30, 1885	46,974,220	
		64,310,149
Total		148,900 967

SPIRITS BONDED FOR EXPORTATION AND ALLOWED TO REMAIN IN DISTILLERY WAREHOUSES.

The last item but one in the preceding summary of operations at distillery warehouses indicates that there were 7,750,696 gallons of spirits in distillery warehouses June 30, 1885, which had been "stamped for export"—that is to say, to the packages containing which spirits export stamps had been affixed. This quantity represents the greater part of the spirits, mainly bourbon whisky, as to which bonds had been filed under the provisions of a circular (No. 282) issued January, 1885. These bonds were conditioned for the delivery of the spirits for exportation to the collector of customs or on board ship within seven months, during which time the spirits were allowed to remain in the distillery warehouse. As the spirits had usually already remained in warehouse the entire three years limited by the warehousing bond, the practical result of the plan was to allow spirits to remain in warehouse at least three years and seven months.

The original application for permission to retain spirits in distillery warehouses after the giving of a transportation bond or exportation bond, and after the expiration of the three years specified in the warehousing bond, was unfavorably received. The matter, however, having been submitted to the Attorney-General, and he having rendered an opinion in which he stated that the Treasury Department had the power to make a regulation by which distilled spirits could be permitted to remain in a distillery warehouse after the expiration of three years from the date of entry therein, and that the exportation bond or transportation bond frees the spirits for the time being from the operation of the distillery warehouse bond, Circular No. 282 was issued and continued to afford authority for receiving what were known as "seven months" bonds, until modified by a telegram of August 14 and by Circular No. 294 of August 15, 1885. Copies of the Attorney-General's opinion, and of the circulars and leading letters relating to this matter, are subjoined:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, December 2, 1884.

SIR: I have the honor to acknowledge the receipt from you by reference, on the 28th ultimo, of the petition of Mr. John B. Thompson, jr., distiller, of Harrodsburg, Mercer County, Kentucky.

This petitioner states that as a part of his business he is an exporter of spirits to foreign countries, and that in pursuit of this business he has met with some hardships, growing out of the regulations of this Department governing the exportation of such goods.

He says that the regulations now require, where goods are entered for export, regauged, and stamped, they shall be immediately withdrawn from the distillery bonded warehouse and delivered to the distiller, who is presumed to immediately deliver them to the transportation company. He avers, however, that this immediate delivery cannot be made, and that consequently the goods are left out in the distillery yard exposed to the weather, causing loss by leakage. He complains also of delay in the issuing of export stamps after the execution of the export bond, and of another delay at the port of export, where the goods are permitted to lie on the beach, subject to all changes of weather, unless they are stored in a warehouse at such port at the expense of the owner; wherefore he asks that all rules and regulations be so changed and modified as to permit goods which have been entered for export, regauged, and stamped to remain or be restored in the warehouse of the distiller or some other intermediate warehouse for such time as the same would be compelled to stay upon the road, on the beach, and in warehouses at port of export awaiting transportation by some foreign-bound vessel abroad; and which time by practical administration of the law has been shown to be from four to eight months, and that all bonds be changed and modified to meet such rules and regulations.

In reply to your request for a report on this matter, I have the honor to submit a copy of the Department regulations, Series 7, No. 4, and supplements, governing the

exportation of domestic spirits in bond, and to give below the history of a package of spirits exported under such regulations.

I would first call attention to the law, quoted in articles 1, 2, and 3, pages 3, 4, and 5, Series 7, No. 4, herewith, especially to the first paragraph on page 3, which reads as follows:

"Distilled spirits may be withdrawn from distillery bonded warehouses at the instance of the owner of the spirits, for exportation in the original casks or packages, without the payment of tax, under such regulations and after making such entries and executing and filing with the collector of the district from which the removal is to be made, such bonds and bills of lading, and giving such other additional security as may be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury."

Under the law and existing regulations, when Mr. Thompson desires to remove a package of spirits from his warehouse for exportation, he must file with the internal-revenue collector of his district a notice of his intention to export the package, giving the serial number thereof; also whether he intends to export it on a through bond direct to the foreign port or on a bond conditioned for delivery to the collector of customs for exportation under the law quoted on pages 4 and 5 of Regulations 7, No. 4. (See article 3, series 7, No. 4.)

Upon the receipt of such notice the collector issues an order to a gauger to inspect the spirits at the warehouse, and to report. (Article 4.) The gauger executes the order and reports the original contents, the contents found by his regauge and the difference between the two. (Article 5.)

Mr. Thompson receives one of these reports, and if he is still of the opinion that he wishes to export, he indicates that fact by executing a paper called an "entry for withdrawal" (Article 6); at the same time he will pay the collector ten cents for the expense of providing and affixing the export stamp (Article 7), and also pay tax on any excessive leakage as shown by the gauger's report (Article 8). He will also at that time execute a bond with sureties satisfactory to the collector (Article 9), using at his option the through bond prescribed in article 10, or the transportation prescribed in article 11. Upon the acceptance of the bond and payment of the deficiency tax, if any, and for affixing the stamp, the collector issues a permit to the storekeeper for the delivery of the package to Mr. Thompson (Article 14). Before the spirits are actually delivered, however, the law, which cannot be annulled or changed by a regulation, requires the delivery of the bill of lading.

Recognizing, however, the difficulty of procuring bills of lading from a carrier before the carrier has possession of the goods, the regulations have been framed so as to provide for the delivery of the bill of lading immediately on the receipt of the package from the storekeeper (Art. 17).

In order to protect the package from seizure *en route*, before removal the gauger is required to affix the export stamp and cut or burn a brand on the package, showing that it is intended for export (Art. 15). The regulations do not interfere with Mr. Thompson in his arrangements with the parties who agree to transport the goods for him except to forbid the incorporation into the bill of lading of any stipulation impairing the obligation of the owner and transportation company to forward and deliver the spirits to the designated collector of customs at the port of entry (Art. 18). Thirty days is the time fixed in the bond in which to transport the goods to the collector of customs, with fifteen days in addition to secure the collector's certificate of clearance (Art. 17). Experience has shown that this time is usually sufficient. If, however, it is not sufficient an extension of time has been granted upon a special application of the principal and sureties on the bond, and upon statements showing due diligence.

Upon the arrival of the spirits at the port of exportation it is the duty of the collector of customs to cause them to be inspected and gauged, and to see that the lading on board of the exporting vessel is under proper supervision, or if the vessel is not ready to receive them, he shall exercise surveillance over the spirits in order to prevent fraud.

The order of the collector to the inspector and gauger, their reports, and the instruction to the collector intended to prevent fraudulent removal are specified in articles from 23 to 31, inclusive.

It is the duty of the exporter to notify the collector of the port of the arrival of the spirits (Art. 20), and in case the vessel is not ready to receive them to store them in bonded warehouse (Art. 21).

It is noted that one of the matters complained of by Mr. Thompson is the expense involved in storing spirits in these warehouses. After the spirits have been gauged by the customs' gauger, Mr. Thompson either in person or through his duly authorized agent is required, in case the package was withdrawn on a transportation bond (Article 11), to file a paper with the collector of customs called an "Export Entry," also an export bond (Article 32). After the goods have been cleared, the collector of

customs will issue a certificate to that effect (Article 37), and upon receipt of evidence of landing or loss at sea, he will issue an appropriate certificate. (Article 40.)

The regulations further provide for allowances on account of loss, like casualty in transportation, and finally for the cancellation of the bonds upon the presentation of the proper proofs. (Article 43.)

Upon recurring to Mr. Thompson's petition, it will be seen that he complains of certain delays, all of which occur after the withdrawal of the spirits from his warehouse, and that his remedy is to allow the spirits to remain in the warehouse from four to eight months after they have been reganged and stamped with the export stamp, or after withdrawal to have them immediately restored to his warehouse to remain for that length of time.

I am unable to see how the retention of the spirits in the warehouse after they are stamped and branded for export is going to prevent the delays incident to transportation and exportation.

These delays are as likely to occur at one time as another. However, this office does not construe the laws relative to withdrawals for export as compelling the distiller to withdraw his spirits at any time. Of course, if he has gone so far as to have them gauged, stamped and branded for export, it would be rather awkward to have them withdrawn for any other purpose.

The law, however, does not prohibit the storage in a distillery warehouse of any spirits produced by the distillers unless the tax has been paid on such spirits (sec. 3288, R. S.), and this office would take no action in the matter if Mr. Thompson left his spirits in warehouse after he had done everything that the law and regulations prescribe concerning withdrawals for exportation, provided, of course, the spirits did not remain in warehouse longer than three years from the date of the warehousing bond. In that case it would become the duty of the collector to enforce the payment of the tax then overdue.

Mr. Thompson has no lack of information as to the exact time when each and every package of his distilled spirits must be withdrawn on payment of the tax, unless sooner withdrawn for export or other legal purpose free of tax.

It would seem, therefore, that by the use of ordinary diligence he might so make his arrangements for withdrawal and transportation as to give him the benefit of the full three years his spirits are allowed to lie in warehouse under the law (sec. 3293, R. S.), without incurring any of the inconveniences of which he complains, that cannot be obviated by some special order from this office in any particular shipment. But according to my understanding of the law, which Congress has several times, and after full discussion, refused to change on this point, Mr. Thompson's spirits must be withdrawn in three years from date of the warehousing bond, whatever may be the inconvenience resulting from such withdrawal.

Very respectfully,

WALTER EVANS,
Commissioner.

Hon. HUGH MCCULLOCH,
Secretary of the Treasury.

Subsequently the Secretary addressed the following letter to the petitioner in this case:

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, December 5, 1884.

SIR: Your letter, without date, received on the 28th ultimo, having been referred to the Commissioner of Internal Revenue, with a request for an expression of his views on the matter presented by you, has been returned with his letter of the 2d inst., a copy of which is herewith inclosed.

The main point of the letter is that the law does not permit distilled spirits, after having been withdrawn for exportation, to be stored in any intermediate warehouse awaiting an opportunity for exportation, except as set forth in Article 21, of the Regulations, series 7, No. 4, which requires the collector of customs to have packages of spirits placed in stores in case the vessel is not prepared to receive them on arrival at the port of export. To comply with your request would be by mere executive authority to virtually establish a system of transportation in bond and storage in bonded warehouses, other than distillers' warehouses, that was deliberately abolished by act of Congress of January 11, 1868 (15 Stats., 34), and which has not been restored by any subsequent act.

Very respectfully,

CHAS. E. COON,
Acting Secretary.

Mr. JOHN B. THOMPSON,
Harrodsburg, Ky.

For reasons stated therein, the following letter, asking for an opinion of the Attorney-General, was addressed by the Commissioner of Internal Revenue to the Secretary of the Treasury:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., December 13, 1884.

SIR: In view of the very elaborate discussion of certain questions growing out of provisions of the internal-revenue law and the powers of the Commissioner, and possibly of yourself, under them, I have the honor to submit as the basis of an inquiry to be addressed to the Attorney-General, should you deem such a course advisable, the following:

Section 3271 United States Revised Statutes, Internal Revenue Compilation, page 51, is as follows: "Every distiller shall provide, at his own expense, a warehouse, to be situated on and to constitute a part of his distillery premises, and to be used only for the storage of distilled spirits of his own manufacture until the tax thereon shall have been paid; but no dwelling-house shall be used for such purpose, and no door, window, or other opening shall be made or permitted in the walls of such warehouse leading into the distillery or into any other room or building; and such warehouse, when approved by the Commissioner of Internal Revenue, on report of the collector, is hereby declared to be a bonded warehouse of the United States, to be known as a distillery warehouse, and shall be under the direction and control of the collector of the district, and in charge of an internal-revenue storekeeper, assigned thereto by the Commissioner."

The closing paragraph of section 3267 United States Revised Statutes (Compilation page 50), is as follows:

"On the third day after the spirits are conveyed into such cistern they shall be drawn off into casks, under the supervision of such gauger, in the presence of the storekeeper, and be removed directly to the distillery warehouse; but on special application to the collector by the owner, agent, or superintendent of any distillery, the spirits may be drawn off from the said cisterns, under the supervision of the gauger, at any time previous to the third day."

Section 4 of the act of May 28, 1880 (Compilation, pages 220 and 221), contains the following:

"The said distiller or owner shall *at the time of making said entry* give his bond in duplicate, with one or more sureties, satisfactory to the collector of the district, conditioned that the principal named in said bond shall pay the tax on the spirits as specified in the entry, or cause the same to be paid, *before removal from* said distillery warehouse, and *within three years* from the date of said entry; and the penal sum of such bond shall not be less than the amount of the tax on such distilled spirits." * * * "And in case the distiller or owner fails or refuses to give the bond hereinbefore required, or to renew the same, or neglects to immediately withdraw the spirits and pay the tax thereon, or if he neglects to withdraw any bonded spirits and pay the tax thereon before the expiration of the time limited in the bond, the collector shall proceed to collect the tax by distraint, issuing his warrant of distraint for the amount of tax found to be due, as ascertained by him from the report of the gauger if no bond was given, or from the terms of the bond if a bond was given. But this provision shall not exclude any other remedy or proceeding provided by law." * * *

"The tax on all distilled spirits hereafter entered for deposit in distillery warehouses shall be due and payable before and at the time the same are withdrawn therefrom and *within three years* from the date of the entry for deposit therein; and warehousing bonds hereafter taken under the provisions of section 3293 of the Revised Statutes of the United States shall be conditioned for the payment of the tax on the spirits as specified in the entry before removal from the distillery warehouse, and *within three years from the date of said bonds.*"

Section 3330, United States Revised Statutes, compilation, pages 75 and 76, contains the following provisions:

"*Distilled spirits may be withdrawn from distillery bonded warehouses*, at the instance of the owner of the spirits, *for exportation* in the original casks, * * *without the payment of tax*, under such regulations, and *after making such entries and executing and filing with the collector of the district from which the removal is to be made such bonds and bills of lading, and giving such other additional security as may be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury: Provided*, That bonds given under this section shall be canceled under such regulations as the Secretary of the Treasury shall prescribe: *And provided further*, That the bonds required to be given for the exportation of distilled spirits shall be canceled upon the presentation of satisfactory proof and certificates that said distilled spirits have been landed at the port of destination named in the bill of lading or, upon satisfactory proof that after shipment the same were lost at sea without fault or neglect of the owner or

shipper thereof. All distilled spirits intended for export, as aforesaid, before being removed from the distillery warehouse, shall be marked as the Commissioner of Internal Revenue may prescribe, and shall have affixed to each cask an engraved stamp indicative of such intention, to be provided and furnished by the several collectors as in the case of other stamps, and to be charged to them and accounted for in the same manner, and for the expense attending the providing and affixing such stamps *ten* cents for each package so stamped shall be paid to the collector on making the entry for such transportation. When the owner of the spirits shall have made the proper entries, filed the bonds, and otherwise complied with all the requirements of the law and regulations as herein provided, the collector shall issue to him a permit for the removal and transportation of said spirits to the collector of the port from which the same are to be exported, accurately describing the spirits to be shipped, the amount of tax thereon, the State and district from which the same is to be shipped, the name of the distiller by whom distilled, the port to which the same are to be transported, the name of the collector of the port to whom the spirits are to be consigned, and the routes over which they are to be sent to the port of shipment."

By other provisions of law, in section last quoted and elsewhere in the statutes, the precise terms of which it is perhaps unnecessary to state, elaborate provision is made for the *exportation of spirits*. Pursuant to power conferred by statute, regulations have been made concerning the manner of exporting spirits, a copy of which is inclosed.

It has been supposed by this office that the provisions of law hereinbefore quoted impose upon this Bureau the duty of collecting the tax of 90 cents per gallon upon whisky immediately after three years from the time when it was placed in the distillery bonded warehouse, *unless in the meantime it had been exported, or withdrawn for scientific* purposes, &c. *The right to export* without the payment of tax has never been questioned.

I have been greatly pressed with the argument that *authority exists to make regulations* by which, upon the filing by the distiller or owner of a declaration of a purpose to export spirits and the giving of a bond, spirits might be permitted to remain in the *distillery warehouse* for a *longer* period than *three* years without the payment of the tax. It has been urged with great vigor that inasmuch as a long delay ensues in many cases after the spirits are withdrawn from the warehouse before facilities can be furnished at the seaboard for their actual transportation abroad, and especially in view of the great expense which the distiller or owner must incur by reason of this delay, it would be politic, just, and lawful to permit the spirits to remain in the distillery warehouse *without expense to the distiller while this time is consumed.* If the power to make such a regulation exists, it is of the utmost importance to a great interest that it should be exercised.

I respectfully submit the foregoing, with the request that, if you deem it advisable to do so, you will take the opinion of the Attorney-General as to whether the Commissioner of Internal Revenue, with or without the approval of yourself, or whether the Secretary of the Treasury, with or without the concurrence of the Commissioner of Internal Revenue, has the power, under the statute, to make a regulation by which distilled spirits could be permitted to remain in the distillery warehouse after the expiration of three years from the date of entry therein, upon the filing by the distiller or owner of the spirits of a declaration of his purpose to export the same in good faith, and the giving of a bond to do so within a given period.

A decision on this point will, of course, render it necessary to consider whether the law does not in *every event* require the *actual withdrawal* of the spirits *at the end of three years*, either upon payment of the tax or for scientific purposes (sec. 3297, R. S., and 20 Stat., page 48), or for the use of the United States (sec. 3464, R. S.), or for transfer to manufacturing warehouses (sec. 14, act May 28, 1880), or for exportation, and also whether such exportation must begin with the physical removal of the spirits from the distillery warehouses, not later than the expiration of the period of three years, or whether the exportation may be construed to begin when the declaration of intention to do so is filed, together with such a bond *as may be prescribed by regulations.*

Attention should also be directed to sections 3182, 3184, and 3288 of the United States Revised Statutes.

Very respectfully,

WALTER EVANS,
Commissioner.

Hon. HUGH MCCULLOCH,
Secretary of the Treasury.

On the 15th of December, 1884, the Secretary of the Treasury submitted certain questions to the Attorney-General, and on the 24th received from him an opinion. The nature of the questions, the opinion of the

Attorney-General, and the instructions issued by this office and approved by the Secretary, are embodied in Circular No. 282, issued January 3, 1885, as follows:

[1885.—Department No. 4.—Circular No. 282.—Assessment and Exportation of Spirits.]

TREASURY DEPARTMENT, INTERNAL REVENUE OFFICE,
Washington, D. C., January 3, 1885.

Under date of 24th ultimo the Attorney-General of the United States announced the following opinion:

"*The Secretary of the Treasury:*

"SIR: Yours of the 15th asks the following question: 'Whether the Treasury Department has the power to make a regulation by which distilled spirits can be permitted to remain in a distillery warehouse after the expiration of three years from the date of entry therein upon filing by the distiller or owner of the spirits of a declaration of his purpose to export the same in good faith and the giving of a bond to do so within a given period.'

"Upon consideration, I submit that it has such power.

"The exportation or transportation bond frees the spirits, for the time being, from any obligation for a domestic tax, and of course from the operation of the distillery warehouse bond. The giving of such first-named bond is one of the acts by the owner which go to constitute the complex transaction of exportation. Until exportation is perfected, the spirits also remain subject to a tax-lien on behalf of the Government. Therefore, whilst by the inception of the transaction of exportation the spirits are transformed into a different subject matter from that upon which the distillery warehouse bond had operated, they nevertheless remain one upon which the United States have a specific contingent charge in all respects perhaps, except that of contingency, the same as what it previously had. There is, therefore, no *statutory* reason why it may not, for a period reasonably required in the process of exportation, remain in the same custody as before, even after three years. Manifestly, upon the face of it, a wide difference exists in this respect betwixt the conditions towards the Government of such spirits and that of *tax-paid* spirits. This difference is recognized in the provision of section 3288, Revised Statutes.

"I have spoken of statutory reasons, because it is this class only that affects the *power* of the Secretary of the Treasury hereupon. The *regulatory* reasons, so to say, for this or that custody are for him to adjust. These latter reasons control the subject matter of which you speak.

"Very respectfully,

"S. F. PHILLIPS,
Solicitor-General.

"I concur in the above opinion.

"BENJAMIN H. BREWSTER,
"*Attorney-General.*"

"24th DECEMBER, 1884."

There being no doubt of the *legal* right of the owner to export spirits *free of tax*, and no objection being seen to giving the time reasonably and fairly necessary therefor, in deference to the above opinion the following modification of the instructions of this office governing assessments and the exportation of domestic spirits are issued:

Hereafter, collectors will list and report monthly, on Form 23, for assessment, all spirits which have remained in warehouse more than three years from the date of the warehousing bonds, except such as are covered by transportation or exportation bonds filed with and duly approved by them prior to the date of the preparation of the lists and of the conditions of which bonds there has been no breach.

Collectors will also report spirits for assessment which have remained in distillery warehouse more than three years from the date of the warehousing bond, although covered by transportation or exportation bonds, in case the spirits are not withdrawn from the warehouse within the time named in the bond for delivery of the spirits at the port from which they are to be exported.

All applications of the principal and sureties for an extension of the time in any transportation or exportation bond, conditioned for the delivery of the spirits to the collector of customs or for the delivery thereof on board ship, should be in writing, specifically setting forth the grounds therefor, and the collector of internal revenue will forward the application to the Commissioner of Internal Revenue for action. The officer forwarding the application will indorse his opinion thereon as to the propriety of granting the same, and will certify as to whether the bond is good and sufficient, and as to whether any loss will probably occur by granting such extension.

Under the present practice, collectors are required to report to this office such of

the listed spirits as are withdrawn between the time of listing and the actual assessment. They will hereafter, at the time of reporting listed spirits as withdrawn, upon payment of tax before assessment, also report those covered by such bonds so approved by them since listing.

The Regulations, Series 7, No. 4, are hereby amended by striking out the words "thirty days" in the condition of the bonds prescribed in Articles 10 and 11 thereof, and collectors are directed to substitute therefor such time, not exceeding seven months, as in their opinion may be reasonably required in the process of the exportation of the particular spirits to be covered by the bond, including required *bona fide* and necessary delays in the warehouse caused by operations incidental to exportation subsequent to the filing of the bond, such as the affixing of stamps, arrangements with transportation companies, procurement of bills of lading (which under the law, must be furnished *before* spirits can be withdrawn from the warehouse); also, necessary delays which may occur in promptly securing ocean transportation to the port of destination.

Collectors will be careful to see that the required declaration of intention to export is clear and explicit, and that this and all the other proceedings are in good faith; that the export stamps are paid for; taxes on deficiencies paid; bonds with ample security furnished; and all steps taken which, under the law, are incidental to this transaction by the inception of which, in the language of the Attorney General, "the spirits are transformed into a different subject-matter from that upon which the distillery-warehouse bond had operated," and which, in his opinion, "frees the spirits for the time being from any obligation for a domestic tax."

WALTER EVANS,
Commissioner.

Approved, January 6, 1885.

H. McCULLOCH,
Secretary of the Treasury.

Under the authority vested in the Treasury Department to regulate the matter the following circular was next issued:

[1885.—Department No. 9.—Circular No. 283.—Exportation of spirits in bond.]

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, January 15, 1885.

On and after January 25, 1885, collectors of internal revenue will decline to approve bonds given for the transportation or exportation of distilled spirits filed with them after the 9th day of the month succeeding that on which the tax on the spirits becomes due under the terms of the warehousing bond.

Export-stamps should be affixed without delay when the exportation or transportation bond is accepted by the collector.

The detailed statements of balances in warehouse, on inside pages of Form 94 *a*, should hereafter be subdivided so as to show separately all such balances covered by such bonds.

WALTER EVANS,
Commissioner.

Approved.

H. McCULLOCH,
Secretary of the Treasury.

Pursuant to a resolution of the Senate, the following letter was addressed to the Secretary of the Treasury:

[Relative to extension of time of the bonded period.]

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, January 24, 1885.

SIR: In response to Senate resolution of January 21, 1885, calling for copies of all official letters and other correspondence in this Department "of date subsequent to the 30th of November, 1884, relating to the collection or postponement in any manner of the tax upon distilled spirits and not accompanying the communication to the Senate in response to its resolution of the 12th instant," referred by you to this office on the 23d instant, I have the honor to state that some months ago this office was urged with great persistency by John B. Thompson, jr., esq., a distiller of Harrods-

burg, Ky., to extend and enlarge the time prescribed in the then existing Regulations for the exportation of distilled spirits in bond.

The first written communication upon the subject was from Mr. Thompson to you and myself jointly, said paper being without date, a copy of which is inclosed.

My reply to that letter was dated December 2, 1884, and a copy thereof is herewith transmitted.

Besides being a distiller Mr. Thompson is a lawyer of ability, and his propositions of law applicable to the case were insisted upon with great zeal and not less ingenuity and force. His renewed efforts, notwithstanding my letter of December 2, were seconded by several members of Congress whose constituency were vitally interested in the subject, and finally I addressed you a letter under date of December 13, 1884, a copy of which is inclosed.

After you had transmitted the last-mentioned communication to the honorable Attorney-General, and had propounded to him such inquiry thereupon as seemed to you advisable, and after that officer had returned his answer thereto, Messrs. J. B. Beck, J. O. Broadhead, and Phil. B. Thompson, jr., presented a written communication, under date of the 3d instant, a copy of which is also inclosed.

While I could not yield to the views contained in the last-named paper, with your approval I did, under the authority of section 3330, United States Revised Statutes, and in deference to the opinion of the honorable Attorney-General, make Regulation No. 282, a printed copy of which is also inclosed.

Subsequently an additional regulation, No. 283, was issued, a printed copy of which I inclose.

When the Senate resolution of the 13th instant upon the same subject was referred to this office, it was regretfully observed that its language was, probably inadvertently, too narrow to cover any correspondence of this office upon the subject except Circular No. 282.

It may not be improper to remark that while this office had not entertained, nor theretofore acted upon a view of the law similar to that expressed by the Attorney-General, still I did not doubt that it was proper to conform its action to the law as expounded by the Head of the Department of Justice. The persons interested in the subject are manifestly entitled to all the rights the law gives them, and the Honorable Attorney-General is the proper officer to state what the law is.

The only difference of opinion was as to whether the spirits could lawfully remain in warehouse *after* the expiration of three years. I thought not, except for the time necessary to enforce the collection of the tax by lawful means.

The Attorney-General advises that the spirits *may* lawfully remain in distillery warehouses after the three years expire, for a time reasonably required in the process of exportation, provided the proper declaration of a *bona fide* purpose to export is made and a bond given that it will be done within that reasonable time, and they are, after those things are done, to be regarded as in process of actual exportation, although delays may come from the difficulty of getting advantageous transportation rates and other facilities. By this means the spirits may be retained in distillery warehouses free of expense, rather than subject the owner to certain expenses alleged to be incident to the mode formerly in vogue.

It will be seen that Regulation No. 282 does not extend the bonded period on spirits not thus (at least constructively) in process of exportation. All it does is to remit the question of reasonable time to the decision of the several collectors of internal revenue, such time in no event to exceed the maximum of seven months.

The erroneous idea that that regulation extended the bonded period became widespread in consequence of very indiscreet and inaccurate expressions in newspaper interviews and statements made by persons interested and otherwise.

I have felt it not improper on this occasion to put these observations upon record, and also to add that, inasmuch as the mode of collecting taxes past due is by the process or remedy known to the law as assessment, the fact that the regulations became operative on the 6th day of January was of no more consequence, so far as the collection or payment of the taxes was concerned, than if they had gone into effect on any other day of the month prior to the 12th.

There is no other correspondence on the subject in this office.

Very respectfully,

WALTER EVANS,
Commissioner.

Hon. HUGH MCCULLOCH,
Secretary of the Treasury,

The regulations governing the exportation of spirits in bond were amended so as to provide for the new class of exportations by supplemental regulations dated, respectively, January 29, 1885, and May 26, 1885.

John B. Thompson, esq., having raised certain questions as to the rights of such persons as had executed transportation bonds as authorized by Circular No. 282, the matter was submitted to the Attorney-General July 28, 1885.

On the 5th of August, 1885, the Attorney-General rendered an opinion. The letters of the Commissioner and of the Secretary and the opinion of the Attorney-General are as follows:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, July 27, 1885.

SIR: Referring to the petition of John B. Thompson, esq., transmitted to you on the 21st instant, in which he requests that the opinion of the Hon. Attorney-General be taken on certain questions of law therein presented, I desire to say that prior to the opinion of Attorney-General Brewster, a copy of which, embodied in Circular 282, is herewith inclosed, it was held by this office that within three years from the date of entry for deposit therein, spirits stored in a distillery bonded warehouse must be actually and physically withdrawn therefrom either on payment of the tax, or under sec. 3297, R. S., as amended by the act May 3, 1878 (20 Stat., p. 48), or sec. 3464, R. S., or secs. 14 and 15 of the act of May 28, 1880 (21 Stat., p. 148), or for export.

Last October Mr. Thompson represented that it was difficult and sometimes impossible to procure transportation immediately on the expiration of the bonded period, that even when transportation to the port of export could be procured, the immediate removal of the spirits from warehouse involved the payment of storage at the port of export until the spirits could be put on board ship, that the law allowed the spirits to remain in the distillery warehouse, not only for three years, but for an indefinite time thereafter, provided they were intended for export. This Office declined to accept this view of the law for reasons assigned in a letter to the Secretary of the Treasury, dated December 2, 1884, a printed copy of which is inclosed, and, at his request, the question involved was submitted to the Attorney-General by Secretary McCulloch.

The Attorney-General gave it as his opinion that the Treasury Department had power to make a regulation by which distilled spirits can be permitted to remain in a distillery warehouse after the expiration of three years from the date of entry therein, upon filing by the distiller or owner of the spirits of a declaration of his purpose to export the same *in good faith*, and the giving of a bond to do so within a given period, and that there is no statutory reason why distilled spirits may not, *for a period reasonably required in the process of exportation*, remain in the same custody as before, even after three years; that the Secretary of the Treasury had the power to make such a regulation, but that "the regulatory reasons, so to say, for this or that custody, are for him to adjust."

Thereupon, "*in deference*" to the opinion of the Attorney-General, Circular No. 282, (copy inclosed), signed by Commissioner Evans, and approved by Secretary McCulloch, was issued.

One of the provisions of said circular is as follows:

"The regulations, Series 7, No. 4, are hereby amended by striking out the words 'thirty days' in the condition of the bonds prescribed in Articles 10 and 11 thereof, and collectors are directed to substitute therefor such time, not exceeding seven months, as in their opinion may be reasonably required in the process of the exportation of the particular spirits to be covered by the bond, including required *bona fide* and necessary delays in the warehouse caused by operations incidental to exportation subsequent to the filing of the bond, such as the affixing of stamps, arrangements with transportation companies, procurement of bills of lading (which under the law must be furnished *before* spirits can be withdrawn from the warehouse); also necessary delays which may occur in promptly securing ocean transportation to the port of destination."

The forms of the bonds referred to, pages 8, 9, and 10 of Series 7, No. 4 (copy inclosed), were originally prescribed by Commissioner Douglass and approved by Secretary Boutwell, and have continued in use with the approval of all the Commissioners of Internal Revenue and all the Secretaries of the Treasury ever since.

The time, "*not exceeding seven months*," to be substituted for the "thirty days," was left to the discretion of the collector, who has opportunity for special knowledge of the facts in each case, and was fixed under the regulatory authority vested in the Secretary, as the maximum "period reasonably required in the process of transportation" for delivery at the port of entry.

I do not understand it to be claimed by Mr. Thompson that seven months is not all the time reasonably required for the delivery of his spirits at the port of export, or

that it is his desire and *bona fide* intention to export them, unless compelled to do so, to avoid an immediate or early payment of the tax. In this, however, I may have misunderstood him.

The questions involved are of great importance to the Government, and, as represented, to Mr. Thompson and to some other distillers. It has therefore seemed to me wise to take the opinion of the highest law officer of the Government upon them. In presenting them to the Attorney-General, if you should decide to do so, I respectfully suggest that you also present this view of the case, viz, that even if the opinion of Attorney-General Brewster is correct, and even if, as contended by Mr. Thompson, but not conceded by this office, there arises no right of action on the export bond until a failure to land the spirits abroad within the time specified, there will, nevertheless, arise, on the neglect to withdraw the spirits within seven months, a right to seize upon and distrain them on an assessment made under section 3182, R. S., or, without assessment, under the provisions of section 4 of the act of May, 1880 (21 Statutes, 145–146), a right to enforce the lien which attached to the spirits the moment they were in existence (R. S., section 3251), by a bill in equity or other appropriate proceedings, and a right of action against the distiller (section 3213, R. S., The Dollar Savings Bank *v.* United States, 19 Wall., 227), even though, as said by the Attorney-General, the exportation bond frees the spirits from the operation of the distillery warehouse bond.

Respectfully,

JOS. S. MILLER,
Commissioner.

Hon. DANIEL MANNING,
Secretary of the Treasury.

TREASURY DEPARTMENT,
Washington, July 28, 1885.

SIR: Under the provisions of section 3330, R. S., and the act of June 9, 1874, amendatory thereof (18 Stat., 64), the holders of distilled spirits on which the tax has not been paid are allowed to export them in bond, or to transport them in bond to a port of export for exportation.

I would thank you for an expression of opinion on the following points:

(1) In the event that holders or owners of such spirits shall have failed, within the seven months specified in the bond (given under the regulations of Internal Revenue Circular, No. 282, a copy of which is inclosed), to withdraw them in fact from the distillery warehouse, should the Government at once assess the taxes due upon them, and take steps to collect the taxes with the penalty and interest thereon?

(2) Are the spirits thus covered by exportation bond, in the event of the failure to withdraw them from warehouse, liable to distraint under the provisions of section 4 of the act of May 28, 1880 (21 Stat., 145–146)?

(3) What are the rights of the Government as to legal proceedings on the bond, in the event of such failure to withdraw from warehouse, and should such proceedings be taken by the Government; or should recourse be had to such legal steps as may be practicable to enforce collection of the taxes due on the spirits?

I inclose herewith a letter of the 27th instant from the Commissioner of Internal Revenue in reference to a petition of John B. Thompson, with a copy of the petition, and a copy of Internal Revenue Regulations, Series 7, No. 4, for a more full explanation of the matters upon which your opinion is solicited.

I would thank you for the return of the inclosed documents, except the printed ones.

Very respectfully,

DANIEL MANNING,
Secretary.

The Hon. the ATTORNEY-GENERAL.

DEPARTMENT OF JUSTICE,
Washington, August 5, 1885.

SIR: I make the following extract from your letter of the 28th ultimo:

"Under the provisions of section 3330, Revised Statutes, and the act of June 9, 1874, amendatory thereof (18 Stat., 64), the holders of distilled spirits on which the tax has not been paid, are allowed to export them in bond, or to transport them in bond, to a port of export for exportation;" and then you ask for an opinion on three questions.

Answer to first question:

In the event that holders or owners of such spirits shall have failed within the seven months specified in the bond (given under the regulations of the Internal Reve-

nue Circular, No. 282), to withdraw them in fact from the distillery warehouse, a forfeiture of the bond follows and the spirits are not protected thereafter from an obligation for a domestic tax. The effect of the bond while in force, and before forfeiture, is to free the spirits from such obligation, but this effect ceases upon the forfeiture of the bond. Any other construction, it is respectfully submitted, would be an evasion of the statute. (Meredith *v.* United States, 13 Peters, 486.)

The Commissioner of Internal Revenue, with the assent of the Secretary of the Treasury, by Circular No. 282, above referred to, has already provided for the assessment of spirits, covered by transportation or exportation bond, when they have not been withdrawn from the warehouse within the time named in the bond for the delivery at the port from which they are to be exported, and I see no sufficient reason for disturbing this regulation.

Upon the application of the principal and sureties on such bond, and for good cause shown, the Commissioner of Internal Revenue may, under existing regulations, extend the time named in the bond beyond seven months. If the bond should become forfeited, and the time should not be extended as above indicated, the presumption would arise that the intention to export had been abandoned, and the Government should assess the taxes due upon the spirits and take steps to collect the same with interest, as provided by Circular 282.

2d. I am of opinion that the spirits covered by exportation bond, after the failure to withdraw them and after the forfeiture of the bond, are liable to distraint, under provisions of section 4 of the act of May 28, 1880 (21 Stat., 145–6).

3d. I answer that the condition of the bond having been broken, by the failure to withdraw the spirits from the warehouse, the right of the Government to proceed upon the bond is unquestioned.

At the same time, of course, the tax can be collected by distraint, and as the latter mode is most expeditious it would be advisable to resort to it first. 16 Opins., 634–5.

It is to be said, as a general rule, in matters of this kind, that the construction of these statutes must be such as is most favorable to their enforcement. There is no liberal interpretation in favor of the individual to be indulged in; but as statutes for the accomplishment of great public purposes they must be construed in a manner to reach those purposes, and to carry out the intention of the legislature in passing them. (Taylor *v.* U. S., 3 Howard, 210; Cliquot Champagne, 3 Wallace, 406; U. S. *v.* Hodson, 10 Wallace, 406; Smythe *v.* Fiske, 23 Wallace, 280.)

As a rule deductible from these decisions, the Government loses none of its remedies to collect its revenue or debt unless there is an express repeal or abrogation of some existing remedy.

This is discussed in the opinion of my predecessor already referred to. (16 Opinions, supra. See also U. S. *v.* Herron, 20 Wallace, 251; Dollar Savings Bank *v.* U. S., 19; *Ib.*, 227; 13 Peters, sup.)

In view of these authorities, I feel that there is no doubt as to the correctness of the answers given above to your letter of the 28th ultimo.

Very respectfully,

A. H. GARLAND,
Attorney-General.

To the Hon. the SECRETARY OF THE TREASURY.

TIME FOR EXPORTING BONDED SPIRITS NOT TO BE EXTENDED.

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE,
Washington, August 10, 1885.

SIR: Your letter of 6th instant has been received.

You ask the following questions:

(1) What I would consider as good and sufficient causes that would, in my judgment, entitle the holders of spirits under export bonds to an extension of time.

(2) If such application be granted by me, how many months additional time would be allowed?

In reply you are informed:

(1) That nothing suggests itself to me as a good and sufficient cause for extending the time for the transportation of distilled spirits from the distillery warehouse to the port of export beyond that already given.

(2) That if any such cause should be pointed out in any particular case the extension would probably not be one of months, but merely of the additional time absolutely necessary for the actual and *bona fide* transportation.

It is believed that the time already given is ample for those who are acting in good faith, with a *bona fide* intention of exporting their spirits.

Respectfully,

JOS. S. MILLER,
Commissioner.

Messrs. JAMES LEVY & BRO.,
33 *Sycamore Street, Cincinnati, Ohio.*

TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE,
Washington, August 12, 1885.

SIR: In reply to your letter of the 20th ultimo., you are informed that where spirits were bonded for export or for transportation after they had been assessed, and the assessment remains unabated at the expiration of the period allowed for delivery at the port of export, you will make immediate demand for the tax on Form 17, and, if the tax is not paid within ten days thereafter, you will issue the demand notice on Form 21 for the tax, penalty, and interest, and proceed to collect them by distraint, if necessary, as in case of other assessed taxes.

If the assessment has been abated the spirits will again be reported for assessment.

Respectfully,

JOS. S. MILLER, *Commissioner.*

ATTILLA COX, Esq., *Collector Fifth District, Louisville, Ky.*

REVOCATION OF THE REGULATION PERMITTING SPIRITS TO REMAIN IN A DISTILLERY WAREHOUSE SEVEN MONTHS AFTER THE EXPIRATION OF THE THREE YEARS FROM THE DATE OF ENTRY THEREIN.

On the 14th of August, 1885, the following telegram was addressed to each of the nineteen internal-revenue collectors who had already approved bonds (under authority conferred by Circular No. 282), in which the time limited for delivering the spirits to the collector of customs or on board of the exporting vessels was seven months.

After 15th instant, collectors of internal revenue must not approve transportation or exportation bonds covering spirits the tax on which is overdue under the terms of the warehousing bond nor approve bonds wherein the time specified for delivering the spirits at the port of exportation exceeds thirty days.

JOS. S. MILLER,
Commissioner of Internal Revenue.
C. S. FAIRCHILD,
Acting Secretary of the Treasury.

A regulation embodying the decision embraced in the above telegram was published in the following circular.

1885.—No. 128.—Circular No. 294.—Assessment and Exportation of Spirits.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., August 15, 1885.

Hereafter collectors of internal revenue will decline to approve spirits transportation or exportation bonds where the time named in the bond for the delivery of the spirits at the port from which they are to be exported exceeds thirty days; and so much of Circular No. 282, dated January 3, 1885, as amends Regulations, Series 7, No. 4, by striking out the words "thirty days," in the condition of the bonds prescribed in Articles 10 and 11 thereof, and authorizes the substitution therefor of a time exceeding thirty days, is hereby revoked.

So much also of Circular No. 283, dated January 15, 1885, as authorizes collectors to approve bonds given for the transportation or exportation of distilled spirits filed with them after the expiration of the three years' time limited by the warehousing bonds, is hereby revoked; and collectors are directed to decline to approve transportation or exportation bonds covering distilled spirits after the expiration of the three years named in the warehousing bond.

JOS. S. MILLER,
Commissioner.

Approved.

C. S. FAIRCHILD,
Acting Secretary.

STOCK ON HAND, PRODUCTION, AND MOVEMENT OF SPIRITS FOR FIVE YEARS.

The following table shows the stock on hand, production, and movement of spirits for the fiscal years 1881, 1882, 1883, 1884, and 1885:

	1881.	1882.	1883.	1884.	1885.
	Gallons.	*Gallons.*	*Gallons.*	*Gallons.*	*Gallons.*
Quantity of spirits actually in warehouses beginning of fiscal year	31, 363, 869	64, 648, 111	89, 962, 645	80, 499, 993	63, 502, 551
Quantity of spirits produced during fiscal year	117, 728, 150	105, 853, 161	74, 013, 308	75, 435, 739	74, 915, 363
Total	149, 092, 019	170, 501, 272	163, 975, 953	155, 935, 732	138, 417, 914
Quantity of spirits withdrawn, tax-paid, during fiscal year	67, 372, 575	70, 730, 180	75, 441, 087	78, 342, 474	67, 649, 321
Quantity of spirits withdrawn for exportation during fiscal year	15, 921, 482	8, 092, 725	5, 326, 427	9, 586, 738	10, 671, 118
Quantity of spirits withdrawn for scientific purposes, for use of United States, for transfer to manufacturing warehouse, destroyed by fire, allowed for loss by leakage in warehouses, &c	1, 149, 851	1, 715, 722	2, 708, 446	4, 503, 969	5, 372, 559
Total	84, 443, 908	80, 538, 627	83, 475, 960	92, 433, 181	83, 692, 998
Quantity of spirits remaining in warehouses at end of fiscal year	64, 648, 111	89, 962, 645	80, 499, 993	63, 502, 551	54, 724, 916

SPIRITS REMAINING IN WAREHOUSES AT THE CLOSE OF THE YEAR.

The following table shows the quantity remaining in distillery warehouses at the close of each of the seventeen fiscal years during which spirits have been stored in such warehouses:

Date.	Quantity.	Date.	Quantity.
	Gallons.		*Gallons.*
Remaining June 30, 1869	16, 685, 166	Remaining June 30, 1878	14, 088, 773
Remaining June 30, 1870	11, 671, 886	Remaining June 30, 1879	19, 212, 470
Remaining June 30, 1871	6, 744, 360	Remaining June 30, 1880	31, 363, 869
Remaining June 30, 1872	10, 103, 392	Remaining June 30, 1881	64, 648, 111
Remaining June 30, 1873	14, 650, 148	Remaining June 30, 1882	89, 962, 645
Remaining June 30, 1874	15, 575, 224	Remaining June 30, 1883	80, 499, 993

Pennsylvania	7,683,851	9,464,256	8,056,339	6,723,169	6,140,093
South Carolina	5,677	2,587	12,532	17,262	10,149
Tennessee	1,438,385	1,362,493	1,527,574	1,408,658	1,133,955
Texas	8,493	6,434	6,340	7,033	8,498
Virginia	179,107	191,039	224,130	248,951	234,006
West Virginia	854,913	981,881	857,485	667,972	614,158
Wisconsin	51,095	129,730	163,852	167,563	94,113
Total	67,442,186	84,628,331	73,405,361	53,749,246	47,158,358

Of the 47,158,358 gallons of spirits remaining in warehouse October 1, 1885, 6,546,009 gallons were covered by transportation or exportation bonds given under the provisions of Circular No. 282, dated January 3, 1885, extending the period in transportation to more than thirty days and not exceeding seven months. The total quantity stamped for export under this circular up to October 1, 1885, was 11,039,307 gallons, of which there were tax-paid 3,297,301 gallons, and actually withdrawn for export 1,196,007 gallons, all of that withdrawn for export except 36,564 gallons having been so withdrawn since June 30, 1885.

DISTILLED SPIRITS IN THE UNITED STATES OCTOBER 1, 1885.

The quantity of distilled spirits in the United States, except what may be in customs bonded warehouses, on the 1st day of October, 1885, was 90,107,026 gallons, this quantity being distributed as follows:

	Gallons.
In distillery and special bonded warehouses	47,502,534
In hands of wholesale liquor dealers	15,256,792
In hands of retail liquor dealers	27,347,700
Total	90,107,026

In making the above computation the average stock of each retail liquor dealer in the United States is estimated at 150 gallons.

OPERATIONS AT SPECIAL BONDED WAREHOUSES FOR STORAGE OF GRAPE BRANDY.

The following statement shows the quantity of grape brandy placed in special bonded warehouses, withdrawn therefrom, and remaining therein at the beginning and close of the fiscal year ended June 30, 1885, in taxable gallons:

	Gallons.	Gallons.	Gallons.
Remaining in warehouse July 1, 1884:			
First district of California	263,578		
Fourth district of California	118,764		
		382,342	
Removed for export and unaccounted for July 1, 1884:			
First district of California		268	
			382,610
Produced and bonded during the year:			
Produced and warehoused in first district	122,176		
Produced in fourth and warehoused in first district	52,387		
		174,563	
Produced and warehoused in fourth district		137,634	
			312,197
Transferred from warehouses in fourth district to warehouses in first district			7,314
			702,121
Exported and accounted for during the year:			
First district of California			870
Removed, tax-paid, during the year:			
First district of California	204,418		
Fourth district of California	86,843		
		291,261	
Loss by regauge act of May 28, 1880:			
First district of California	11,616		
Fourth district of California	6,818		
		18,434	
			309,695
Removed for exportation and remaining unaccounted for June 30, 1885:			
First district of California		3,317	
Remaining in warehouses June 30, 1885:			
First district of California	225,502		
Fourth district of California	155,423		
		380,925	
			384,242
Transferred from warehouses in fourth district to warehouses in first district.			7,314
			702,121

Of the 312,197 gallons grape brandy bonded during the fiscal year, 122,176 gallons were produced in the first district and 190,021 gallons were produced in the fourth district of California.

The total product bonded was 111,465 gallons more than in the previous year, the amount removed, tax-paid, was 48,901 gallons more, and the loss resulting from regauge under the act of May 28, 1880, was 2,588 gallons larger than in 1884.

Of the quantity in warehouse June 30, 1885, 225,502 gallons were in the following warehouses in the first district of California:

	Gallons.
No. 1. Bode & Searle, at San Francisco	115,945
No. 2. Juan Bernard, at Los Angeles	38,627
No. 3. George C. Carlon, at Stockton	9,265
No. 4. James M. Tierman, at San Gabriel Station	61,665

And 155,423 gallons were in the following warehouses in the fourth district of California:

	Gallons.
No. 1. E. B. Carroll, at Sacramento	56,426
No. 2. John F. Boyce, at Santa Rosa	17,519
No. 3. A. B. Purfurst, at Santa Helena	57,825
No. 4. John Tivnen, at Sonoma	23,653

EXPORTATION OF MANUFACTURED TOBACCO AND SNUFF IN BOND.

The subjoined table shows, as removed and unaccounted for July 1, 1884, and July 1, 1885, the quantity, in pounds, of manufactured tobacco and snuff which had been removed for exportation in bond, and concerning which the proof of exportation required by law had not been furnished prior to the dates named:

	Pounds.	Pounds.
1. Removed and unaccounted for July 1, 1884:		
Tobacco, at 16 cents tax, removed under exportation bonds	11,026	
Tobacco, at 8 cents tax, removed under exportation bonds	747,645⅛	
		758,671⅛
2. Removed during the year ended June 30, 1885:		
Tobacco at 8 cents tax under exportation bonds	12,054,015⅛	
		12,054,015⅛
		12,812,686⅝
3. Exported and accounted for during the year:		
Tobacco at 16 cents tax under exportation bonds	8,546	
Tobacco at 8 cents tax under exportation bonds	11,770,764⅝	
Tobacco at 16 cents tax paid on deficiencies	400	
Tobacco at 8 cents tax paid on deficiencies	605	
		11,780,315⅝
4. Remaining unaccounted for at the close of the fiscal year June 30, 1885:		
Tobacco at 16 cents tax under exportation bonds	2,080	
Tobacco at 8 cents tax under exportation bonds	1,030,291	
		1,032,371
		12,812,686⅝

EXPORTATION OF CIGARS AND CIGARETTES IN BOND.

Number—	Number of cigars, at $3 per M.	Number of cigarettes, at 50 cents per M.
1. Removed and unaccounted for, June 30, 1884	72,050	7,817,500
2. Removed during the year ended June 30, 1885	1,557,550	104,811,420
	1,629,600	112,628,920
3. Exported and accounted for during the year ended June 30, 1885	1,516,200	103,333,420
4. Remaining unaccounted for at the close of the year ended June 30, 1885	113,400	9,295,500
	1,629,600	112,628,920

DATE OF BONDS REMAINING UNACCOUNTED FOR JUNE 30, 1885.

The years in which the bonds were given for the exportation of the tobacco, snuff, cigars, and cigarettes remaining unaccounted for by the evidence required by law for their cancellation, on June 30, 1885, are as follows, viz:

Year.	Tobacco in pounds.	Number of cigars.	Number of cigarettes.
1879	2,080	.....	.....
1884	17,706	.....	.....
1885	1,012,585	113,400	9,295,500

INSPECTORS OF TOBACCO.

All packages of tobacco, snuff, cigars, and cigarettes, withdrawn from factories free of tax for exportation are required, under regulations made pursuant to law, to be inspected and to have export stamps affixed by inspectors of tobacco appointed by the Secretary of the Treasury, under the provisions of section 3151 R. S., each inspector to be paid by the manufacturer such fees as the Commissioner of Internal Revenue may prescribe.

Upon inquiry, having ascertained that certain inspectors of tobacco were receiving annual emoluments exceeding $3,000, and that the income of others was nearly as large, the services not being of such a grade as would seem to warrant the compensation, I have reduced the rates of fees from 10 cents to 7 cents per 100 pounds as to tobacco; from 3 cents to 1½ cents as to cigarettes; and from 20 cents to 10 cents as to cigars. Although in the cases referred to the lower rates of fees will afford adequate compensation to the officer for his services, in a majority of cases, however, they are inadequate for such a purpose. It further appears that in many cases the exportations are so light as to make it exceedingly difficult to find suitable persons to take the office and furnish the $5,000 bond required by the law.

Inspectors of tobacco are the only officers now in the internal-revenue service who are paid by the citizens for whom the duty prescribed is performed. When the office was created the payment of tobacco taxes by stamps had not been devised, and the duties of inspectors were accordingly much more extensive than now. In order to obtain officers to perform the duties of inspecting the tobacco and marking and stamping it for export, it has been found necessary to appoint deputy collectors to be also inspectors of tobacco. This proceeding is deemed not to be illegal, but it is thought advisable not to have one person hold two offices.

I would therefore recommend that the office of inspector of tobacco be abolished, and that his duties be devolved upon the collectors of the districts where inspections of tobacco, snuff, cigars, or cigarettes for exportation are necessary; and that the exportations be made under such regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may prescribe.

MISCELLANEOUS ASSESSMENTS.

The following table shows the assessments made by the Commissioner of Internal Revenue during the fiscal years ended June 30, 1884, and June 30, 1885, respectively, and the increase or decrease on each article or occupation:

	Assessed during fiscal year ended—		Fiscal year ended June 30, 1885.	
	June 30, 1884.	June 30, 1885.	Increase over 1884.	Decrease from 1884.
Tax on deficiencies in production of distilled spirits	$69,178 36	$43,511 42	.....	$25,666 94
Tax on excess of materials used in the production of distilled spirits	3,438 41	1,391 52	.....	2,046 89
Tax on deposits and capital of banks, bankers, and savings institutions other than national banks	550 61	1,297 17	$746 56	.....
Tax on circulation of banks and others	228 61	.....	.....	228 61
Tax on distilled spirits fraudulently removed or seized, also taxes overdue	8,906,401 75	7,216,387 22	.....	1,690,014 5
Taxes on fermented liquors removed from brewery unstamped	2,170 89	7,133 18	4,962 29	.....
Tax on tobacco, snuff, and cigars removed from factory unstamped	20,569 09	11,287 53	.....	9,281 56
Tax on proprietary articles removed unstamped	252 62	50 00	.....	202 62
Assessed penalties	70,315 20	60,883 28	.....	9,431 92
Legacies and successions	1,524 17	732 30	.....	791 87
Unassessed and unassessable penalties, interest, taxes previously abated, conscience money, and deficiencies in bonded accounts which have been collected; also fines, penalties, and forfeitures, and costs paid to collectors by order of court or by order of Secretary, and unassessable taxes recovered; also amount of penalties and interest received for validating unstamped instruments (Form 58)	284,188 17	291,938 02	7,749 85	.....
Special taxes (licenses)	69,371 46	48,111 09	.....	21,260 37
Tax on income and dividends	8,034 51	4,105 67	.....	3,928 84
Total	9,436,223 85	7,686,828 40	.....	1,749,395 45

ASSESSMENTS FOR 1885.

The following statement shows the amount of assessments in each of the several States and Territories of the United States during the fiscal year ended June 30, 1885:

States and Territories.	Amount.	States and Territories.	Amount.
Alabama	$7,724 36	Montana and Idaho	$1,423 00
Arkansas	5,184 81	Nebraska and Dakota	21,338 01
California	24,418 26	Nevada and Utah	260 48
Colorado and Wyoming	3,755 91	New Hampshire	2,255 98
Connecticut	1,946 19	New Jersey	7,246 72
Delaware	549 31	New Mexico and Arizona	2,134 72
Florida	532 51	New York	65,679 83
Georgia	15,347 77	North Carolina	53,796 63
Illinois	99,432 83	Ohio	204,471 25
Indiana	37,714 34	Oregon, Washington, and Alaska	1,265 55
Iowa	7,379 27	Pennsylvania	567,846 98
Kansas and Indian Territory	1,918 82	Rhode Island	1,029 49
Kentucky	5,966,594 01	South Carolina	8,183 34
Louisiana	10,871 05	Tennessee	85,137 03
Maine	2,060 61	Texas	8,666 73
Maryland	290,064 56	Vermont	752 11
Massachusetts	16,461 09	Virginia	32,959 06
Michigan	6,095 35	West Virginia	101,529 64
Minnesota	3,054 40	Wisconsin	10,785 05
Mississippi	1,122 09		
Missouri	7,839 26	Total	7,686,828 40

The decrease of the assessments made during the past fiscal year from the amount assessed in 1884 consists mainly in the assessments on distilled spirits on which the tax became due after they had remained over three years in warehouse. This decrease of $1,690,014.53 is occasioned by two causes:

(1) The production of distilled spirits three years ago was less than it was four years ago.

(2) Large quantities of spirits on which the tax had become due were bonded for export under the provisions of Circular No. 282, and were suffered to remain in warehouse without payment or assessment of tax for a period not exceeding seven months.

In explanation of the decrease in assessments of tax for deficiencies in the production of distilled spirits and excess of materials used, it may be said that a large amount of such taxes was abated under the provisions of the act of March 1, 1879, as amended, before the assessment was made. The amount so abated was $35,412.27 for deficiency tax and $4,598.43 for tax on excess of materials used in the production of distilled spirits.

The decrease in the assessment for special taxes is probably caused by the reduction made by Congress on certain special taxes or licenses.

The other decreases and the few increases of assessments are not more than will constantly occur from year to year.

I have the honor to be, very respectfully,

JOS. S. MILLER.
Commissioner.

The Hon. SECRETARY OF THE TREASURY.

TABLES.

*In this table descriptions of collections on tobacco, made under act of March 3, 1883, are printed in *italics*.

For receipts from Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Kansas, Louisiana, Maine, Maryland, Minnesota, Mississippi, Montana, Nebraska, Nevada, New Hampshire, New Mexico, Oregon, Rhode Island, South Carolina, Vermont, and West Virginia, each of which consists of a single district, see pages 26 to 37.

The District of Columbia is now part of the district of Maryland; Wyoming, of the district of Colorado; Idaho, of the district of Montana; Dakota, of the district of Nebraska; Utah, of the district of Nevada; Arizona, of the district of New Mexico; and Washington Territory, of the district of Oregon. The collections, then, of Arizona, Dakota, District of Columbia, Idaho, Utah, Washington, and Wyoming do not appear separately in Tables A, C, D, and H of this Report for the fiscal year 1885, but are included in the collections of the districts of which they severally form a part.

(33) Formed by the consolidation (August 1, 1883) of district numbered 2, January 1, 1876, and district numbered 3, August 25, 1862.
(34) Abolished August 1, 1883.
(35) Abolished January 20, 1876.
(36) Formed by the consolidation (January 20, 1876) of districts numbered 4 and 9, August 25, 1862; abolished October 2, 1876.
(37) As constituted October 2, 1876.
(38) Abolished September 1, 1883.
(39) Formed by the consolidation (September 1, 1883) of districts numbered 7 and 8, August 25, 1862.
(40) Formed by the consolidation (January 1, 1876) of districts numbered 10 and 12, August 25, 1862; abolished October 2, 1876.
(41) Abolished January 9, 1876.
(42) Formed by the consolidation (January 9, 1876) of districts numbered 11 and 13, August 25, 1862; abolished October 2, 1876.
(43) Abolished October 2, 1876.
(44) As constituted October 2, 1876; abolished August 1, 1883.
(45) Formed by the consolidation (January 1, 1876, of districts numbered 2 and 3, August 15, 1862; abolished October 2, 1876.
(46) Abolished October 1, 1875.
(47) Formed by the consolidation (January 1, 1876) of districts numbered 6 and 8, August 15, 1862; abolished October 2, 1876.
(48) Formed by the consolidation (August 1, 1883) of districts numbered 4 and 6, October 2, 1876.
(49) Formed by the consolidation (August 1, 1883) of districts numbered 1 and 7, October 2, 1876.
(50) Formed by the consolidation (January 1, 1876) of districts numbered 9 and 10, August 15, 1862; abolished August 7, 1883.
(51) Formed by the consolidation (October 1, 1875) of districts numbered 5 and 11, August 15, 1862; abolished August 7, 1883.
(52) Formed by the consolidation (August 7, 1883) of district numbered 10, January 1, 1876, and district numbered 11, October 1, 1875.
(53) As constituted October 2, 1876; abolished August 20, 1883.
(54) As constituted August 20, 1883.
(55) Abolished October 11, 1876.
(56) Formed by the consolidation (October 11, 1876) of districts numbered 3 and 6, July 29, 1862,
(57) Abolished June 1, 1874.
(58) Formed by the consolidation (June 1, 1874) of districts numbered 1 and 2, January 25, 1866; abolished November 1, 1876.
(59) Formed by the consolidation (November 1, 1876) of district numbered 2, June 1, 1874, and district numbered 3, January 25, 1866.
(60) Abolished January 8, 1876.
(61) Formed by the consolidation (January 8, 1876) of districts numbered 4 and 5, January 25, 1866.
(62) Abolished August 7, 1883.
(63) As constituted August 7, 1883.
(64) Abolished June 1, 1877.
(65) The three districts into which Louisiana was divided, June 22, 1865, were abolished June 1, 1877, when the State was constituted one collection district, to be known as the district of Louisiana.
(66) Formed by the consolidation (October 2, 1876) of district numbered 1, August 12, 1862, and district numbered 2, January 1, 1876; abolished July 1, 1877.
(67) Formed by the consolidation (July 1, 1877) of district numbered 1, October 2, 1876, and of district numbered 4, January 1, 1876, to be known as the district of Maine.
(68) Formed by the consolidation (January 1, 1876) of districts numbered 2 and 3, August 12, 1862; abolished October 2, 1876.
(69) Formed by the consolidation (January 1, 1876) of districts numbered 4 and 5, August 12, 1862; abolished July 1, 1877.
(70) Abolished December 1, 1871.
(71) Formed by the consolidation (December 1, 1871) of districts numbered 1 and 2, August 27, 1862; abolished October 2, 1876.
(72) Formed by the consolidation (January 1, 1876) of districts numbered 3 and 5, August 27, 1862; abolished October 2, 1876.
(73) Formed by the consolidation (August 1, 1883) of district numbered 3, October 2, 1876, and district numbered 4, August 27, 1862, to be known as the district of Maryland.
(74) The districts of Massachusetts, as constituted August 26, 1862, were abolished April 1, 1875, when the State was divided into five collection districts numbered 1, 3, 5, 8, and 10.
(75) As constituted April 1, 1875; abolished September 8, 1876.

NOTES TO TABLE D—Continued.

(76) Formed by the consolidation (September 8, 1876) of districts numbered 1 and 3, April 1, 1875; abolished August 1, 1883.

(77) Formed by the consolidation (August 1, 1883) of district numbered 3, September 8, 1876, and district numbered 5, April 1, 1875.

(78) As constituted April 1, 1875; abolished August 1, 1883.

(79) As constituted April 1, 1875; abolished January 1, 1877.

(80) Formed by the consolidation (January 1, 1877) of districts numbered 8 and 10, April 1, 1875.

(81) Formed by the consolidation (March 1, 1877) of districts numbered 1 and 5, September 17, 1862; abolished August 7, 1883.

(82) Abolished September 20, 1876.

(83) Formed by the consolidation (September 20, 1876) of districts numbered 2 and 3, September 17, 1862; abolished August 7, 1883.

(84) The two districts into which Minnesota was divided, August 2, 1862, were abolished August 7, 1883, when the State was constituted one collection district, to be known as the district of Minnesota.

(85) The three districts into which Mississippi was divided, June 2, 1865, were abolished March 1, 1875, when the State was divided into two collection districts numbered 1 and 2.

(86) As constituted March 1, 1875; abolished July 1, 1877.

(87) The two districts of Mississippi as constituted March 1, 1875, were abolished July 1, 1877, when the State was constituted one collection district entitled the district of Mississippi.

(88) Formed by the consolidation (August 1, 1883) of districts numbered 1 and 2, April 27, 1865.

(89) Formed by the consolidation (September 20, 1876) of districts numbered 3 and 4, April 27, 1865.

(90) Formed by the consolidation (August 7, 1883) of districts numbered 5 and 6, April 27, 1865.

(91) Formed by the consolidation (August 20, 1883) of the Territories of Idaho, Montana, and Utah, to be known as the district of Montana; abolished August 1, 1884.

(91½) Formed by the consolidation (August 1, 1884) of the Territories of Idaho and Montana, to be known as the district of Montana.

(92) Formed by the consolidation (August 20, 1883) of the Territory of Dakota and the State of Nebraska, to be known as the district of Nebraska.

(93) Abolished October 1, 1883.

(93½) Formed by the consolidation (August 1, 1884) of the State of Nevada and the Territory of Utah, to be known as the district of Nevada.

(94) Abolished December 10, 1875.

(96) Abolished January 7, 1876.

(97) Formed by the consolidation (January 7, 1876) of districts numbered 1 and 2, August 11, 1862.

(98) Formed by the consolidation (January 1, 1876) of districts numbered 4 and 5, August 11, 1862.

(99) Formed by the consolidation (September 5, 1883) of the Territories of Arizona and New Mexico, to be known as the district of New Mexico.

(100) Abolished March 1, 1871.

(101) Formed by the consolidation (March 1, 1871) of districts numbered 1, 2, and 3, August 22, 1862.

(102) Formed by the consolidation (March 1, 1871) of districts numbered 4 and 6, August 22, 1862; abolished July 1, 1877.

(103) As constituted July 1, 1877.

(104) Formed by the consolidation (March 1, 1871) of districts numbered 5 and 7, August 22, 1862; abolished July 1, 1877.

(105) Formed by the consolidation (April 1, 1874) of districts numbered 8 and 9, August 22, 1862; abolished July 1, 1877.

(106) Abolished April 1, 1874.

(107) Formed by the consolidation (January 1, 1876) of districts numbered 11 and 13, August 22, 1862; abolished August 1, 1883.

(108) Formed by the consolidation (January 1, 1876) of districts numbered 10 and 12, August 22, 1862; abolished August 1, 1883.

(109) Formed by the consolidation (January 1, 1876) of districts numbered 14 and 18, August 22, 1862; abolished August 1, 1883.

(110) As constituted August 1, 1883.

(111) Formed by the consolidation (January 1, 1876) of districts numbered 15 and 16, August 22, 1862; abolished August 1, 1883.

(112) Formed by the consolidation (January 1, 1876) of districts numbered 17 and 20, August 22, 1862; abolished October 2, 1876.

(113) Formed by the consolidation (January 1, 1876) of districts numbered 21 and 22, August 22, 1862; abolished October 2, 1876.

(114) Formed by the consolidation (October 2, 1876) of districts numbered 20 and 21, January 1, 1876; abolished July 25, 1883.

(115) Formed by the consolidation (July 25, 1883) of district numbered 21, October 2, 1876 and districts numbered 24 and 26, January 1, 1876.

(116) Formed by the consolidation (January 1, 1876) of districts numbered 23 and 24, August 22, 1862; abolished July 25, 1883.

(117) Abolished November 1, 1875.

(118) Formed by the consolidation (January 1, 1876) of districts numbered 19 and 26, August 22, 1862; abolished July 25, 1883.

(119) Abolished June 1, 1872.

(120) Formed by the consolidation (June 1, 1872) of districts numbered 27 and 31, August 22, 1862; abolished October 2, 1876.

(121) Formed by the consolidation (November 1, 1875) of districts numbered 25 and 28, August 22, 1862; abolished October 2, 1876.

(122) As constituted October 2, 1876; abolished August 7, 1883.

(123) Formed by the consolidation (August 7, 1883) of districts numbered 28 and 30, October 2, 1876.

(124) Formed by the consolidation (January 1, 1876) of districts numbered 29 and 30, August 22, 1862; abolished October 2, 1876.

(125) Abolished July 1, 1877.

(126) Formed by the consolidation (January 1, 1876) of districts numbered 1 and 2, February 27, 1866; abolished July 21, 1883.

(127) Abolished February 1, 1876.

(128) Formed by the consolidation (February 1, 1876) of districts numbered 3 and 4, February 27, 1866; abolished July 21, 1883.

(129) As constituted July 21, 1883; abolished January 31, 1885; reconstituted June 1, 1885.

(129½) As constituted January 31, 1885; abolished June 1, 1885.

(130) Abolished July 21, 1883.

(131) Abolished January 1, 1877.

(132) Formed by the consolidation (January 1, 1877) of districts numbered 6 and 7, February 27, 1866; abolished January 31, 1885; reconstituted June 1, 1885.

(132½) As constituted January 31, 1885; abolished June 1, 1885.

(133) Formed by the consolidation (April 1, 1871) of districts numbered 1 and 2, August 19, 1862.

(134) Formed by the consolidation (January 1, 1876) of districts numbered 4 and 5, August 19, 1862; abolished August 1, 1883.

(135) Formed by the consolidation (August 1, 1883) of districts numbered 3 and 6, August 19, 1862.

(136) Abolished January 5, 1876.

(137) Formed by the consolidation (January 5, 1876) of districts numbered 7 and 8, August 19, 1862; abolished October 2, 1876.

(138) As constituted October 2, 1876; abolished July 25, 1883.

(139) Formed by the consolidation (January 1, 1876) of districts numbered 9 and 10, August 19, 1862; abolished August 1, 1883.

(140) Formed by the consolidation (August 1, 1883) of districts numbered 4 and 10, January 1, 1876.

NOTES TO TABLE D—Continued.

(141) Formed by the consolidation (January 1, 1876) of districts numbered 11 and 12, August 19, 1862; abolished July 25, 1883.

(142) Formed by the consolidation (July 25, 1883) of district numbered 7, October 2, 1876, and district numbered 11, January 1, 1876.

(143) Formed by the consolidation (January 1, 1876) of districts numbered 13 and 14, August 19, 1862; abolished October 2, 1876.

(144) Formed by the consolidation (January 1, 1876) of districts numbered 15 and 16, August 19, 1862; abolished August 1, 1883.

(145) Formed by the consolidation (January 1, 1876) of districts numbered 17, 18, and 19, August 19, 1862; abolished October 2, 1876.

(146) Formed by the consolidation (August 1, 1883) of district numbered 15, January 1, 1876, and district numbered 18, October 2, 1876.

(147) Formed by the consolidation (September 1, 1883) of the State of Oregon and the Territory of Washington, to be known as the district of Oregon.

(148) Formed by the consolidation (April 1, 1871, of districts numbered 1 and 3, August 11, 1862; abolished August 1, 1875.

(149) Formed by the consolidation (August 1, 1875) of district numbered 1, April 1, 1871, and of district numbered 2, January 2, 1872; abolished October 2, 1876.

(150) As constituted October 2, 1876; abolished August 15, 1883.

(151) As constituted August 15, 1883.

(152) Abolished January 2, 1872.

(153) Formed by the consolidation (January 2, 1872) of districts numbered 2 and 4, August 11, 1862; abolished August 1, 1875.

(154) Formed by the consolidation (January 1, 1876) of districts numbered 5 and 6, August 11, 1862; abolished October 2, 1876.

(155) Abolished January 1, 1875.

(156) Formed by the consolidation (January 1, 1876) of districts numbered 8 and 10, August 11, 1862; abolished October 2, 1876.

(157) Formed by the consolidation (January 1, 1875) of districts numbered 7 and 9, August 11, 1862; abolished October 2, 1876.

(158) Formed by the consolidation (January 1, 1876) of districts numbered 12 and 13, August 11, 1862; abolished October 2, 1876.

(159) Formed by the consolidation (October 2, 1876) of districts numbered 14 and 18, August 11, 1862; abolished August 15, 1883.

(160) Abolished September 16, 1876.

(161) Formed by the consolidation (September 16, 1876) of districts numbered 16 and 17, August 11, 1862; abolished August 15, 1883.

(162) Formed by the consolidation (August 1, 1883) of districts numbered 19 and 20, October 2, 1876.

(163) As constituted January 1, 1876; abolished October 2, 1876.

(164) Abolished November 15, 1873.

(165) The two districts into which Rhode Island was divided August 8, 1862, were abolished November 15, 1873, when the State was constituted one collection district, entitled the district of Rhode Island.

(166) Abolished June 1, 1876.

(167) Formed by the consolidation (June 1, 1876) of districts numbered 1 and 3, May 30, 1865; abolished November 1, 1876.

(168) The two districts of South Carolina as constituted May 30, 1865, and June 1, 1876, respectively, were abolished November 1, 1876, when the State was constituted one district, entitled the district of South Carolina.

(169) Formed by the consolidation (October 11, 1876) of districts numbered 1 and 2, May 19, 1866; abolished August 10, 1883.

(170) As constituted August 10, 1883.

(171) Formed by the consolidation (January 1, 1876) of districts numbered 5 and 6, May 19, 1866; abolished October 2, 1876.

(172) Formed by the consolidation (October 2, 1876) of districts numbered 3 and 4, May 19, 1866, and of district numbered 5, January 1, 1876; abolished August 10, 1883.

(173) As constituted August 10, 1883.

(174) Abolished January 3, 1876.

(175) Formed by the consolidation (January 3, 1876) of districts numbered 7 and 8, May 19, 1866; abolished August 10, 1883.

(176) Abolished December 1, 1874.

(177) Formed by the consolidation (December 1, 1874) of districts numbered 1 and 2, June 5, 1865.

(178) The districts of Vermont, as constituted August 6, 1862, were abolished February 1, 1874, when the State was divided into two collection districts numbered 2 and 3.

(179) As constituted February 1, 1874; abolished December 15, 1875.

(180) The two districts of Vermont as constituted February 1, 1874, were abolished December 15, 1875, when the State was constituted one collection district, entitled the district of Vermont.

(181) Abolished December 19, 1874.

(182) Formed by the consolidation (December 19, 1874) of districts numbered 1 and 2, April 23, 1866; abolished June 19, 1877.

(183) As constituted June 19, 1877; abolished August 15, 1883.

(184) Abolished April 1, 1875.

(185) As constituted April 1, 1875; abolished August 15, 1883.

(186) As constituted April 1, 1875; abolished December 1, 1876.

(187) Formed by the consolidation (December 1, 1876) of district numbered 5, April 1, 1875, and district numbered 8, April, 23, 1866; abolished August 15, 1883.

(188) Formed by the consolidation (October 2, 1876) of districts numbered 6 and 7, April 23, 1866; abolished August 15, 1883.

(189) Formed by the consolidation (October 2, 1876) of districts numbered 1 and 3, March 14, 1866; abolished August 1, 1883.

(190) The two districts of West Virginia, as constituted October 2, 1876, and August 2, 1865, were abolished August 1, 1883, when the State was constituted one collection district, entitled the district of West Virginia.

(191) Abolished July 1, 1871.

(192) Formed by the consolidation (July 1, 1871) of districts numbered 2 and 3, August 26, 1862.

(193) Formed by the consolidation (March 1, 1872) of districts numbered 4 and 5, August 26, 1862.

(194) Abolished March 1, 1872.

(*a*) By order of the Commissioner of Internal Revenue, dated January 25, 1870, so much of the Indian Territory as constitutes a part of the western judicial district of Arkansas was attached to the 3d collection district of Arkansas; by similar orders the Indian Territory was transferred and attached to the 5th district of Missouri June 12, 1872, and to the State of Kansas August 8, 1881.

(*b*) The Territory of Alaska was attached to Oregon December 27, 1872.

*Balance of collections not reported prior to final settlement of the collector's account.

D.—*APPENDIX No.* 1, *showing the DIFFERENCES between the INTERNAL-REVENUE COLLECTIONS in the DISTRICTS, STATES, TERRITORIES, and YEARS BELOW NAMED, as REPORTED by COLLECTORS and PUBLISHED in the SEVERAL ANNUAL REPORTS OF THE COMMISSIONER, and the TRUE COLLECTIONS.*

[NOTE.—These differences were mostly discovered at the final settlement of the accounts of such collectors as have retired from office after the reports for the years in which they occurred had been printed. Hence their appearance in this form.

To ascertain the exact amount collected in any one of the following-named districts, States, or Territories prior to July 1, 1885, add to or subtract from, as the case may be, the collections for that district, State, or Territory, in the "total" column in Table D, the sum or sums entered opposite the same district, State, or Territory in this appendix. The result will be the aggregate amount collected.

On pages 101, 102, and 103 the signs (+) and (−) are used to denote the amounts to be added and subtracted respectively.]

a The returns of spirits distilled from apples, grapes, and peaches were included in the account of spirits distilled from other materials until July 1, 1864.

No returns of the production of the different kinds of warehoused spirits were made prior to July 1, 1877.

There are no official data by which the annual production of spirits distilled prior to 1866–'67 can be stated in figures other than those that represent the quantities on which tax was paid.

There are provisions for the exportation of spirits without payment of tax both in the act of July 1, 1862, and in that of June 30, 1864. There are also provisions for the abatement of the tax on spirits lost by leakage in transportation in the act of March 3, 1863, and in that of June 30, 1864, but there are no data in this office by which the total quantity of spirits so exported and lost by leakage each year can be determined prior to the fiscal year 1866–'67. Hence the production above given for 1863, 1864, and 1865 is the same as the tax-paid quantities for those years (see aggregate quantities taxed each year for 1863–'64–'65, p. 129), and represents the true production less the unknown quantities exported and lost by leakage. To get the production for 1866, the quantity returned for tax that year (14,847,943 gallons) is added to 9,214,762 gallons' stock on hand at the close of the same year (see page ix, Rep. Com. Int. Rev., 1867), making 24,062,705 gallons as the production of 1865–'66, though some of the quantity in warehouse at the close of the year may have been, and doubtless was, produced in previous years.

RETURNS OF DISTILLED SPIRITS UNDER EACH ACT OF LEGISLATION.

G.—*STATEMENT showing the INTERNAL REVENUE RECEIPTS from DISTILLED SPIRITS at EACH RATE of TAX UNDER THE SEVERAL LEGISLATIVE ENACTMENTS, the QUANTITIES of the same on which the tax was paid, the DATE when EACH RATE of TAX was IMPOSED and REPEALED, and the LENGTH of TIME the several rates were in force, from July 1, 1862, to June 30, 1885.*

* A part of the first proviso of section 59, act of July 20, 1868, reads as follows: "A tax of $4 on each barrel, counting 40 gallons of proof spirits to the barrel, shall be assessed and collected from the owner of any distilled spirits which may be in bonded warehouse at the date of the taking effect of this act, to be paid whenever the same shall be withdrawn from such warehouse." This proviso, in effect, makes the tax 60 cents per gallon on 24,383,951 gallons in warehouse at the time of the passage of that act.

† Section 56 of act approved July 20, 1868, provided that all distilled spirits in bonded warehouse at the time of the passage of that act not withdrawn within nine months should be forfeited to the United States. The act of April 10, 1869, extended the time of the withdrawal of such spirits to June 30, 1869, but imposed a tax of 1 cent per gallon for each month after April 20, 1869. The receipts on account of this additional tax were $51,695.27.

RETURNS OF FERMENTED LIQUORS BY FISCAL YEARS.

G.—*STATEMENT showing the INTERNAL REVENUE RECEIPTS from FERMENTED LIQUORS at ONE DOLLAR per BARREL and at SIXTY CENTS per BARREL, together with the QUANTITIES of the same on which TAX was PAID during each fiscal year, from September* 1, 1862, *to June* 30, 1885.

Fiscal years ended June 30—	Rates of tax at which collections were made.	Aggregate collections at each rate.	Aggregate quantities at each rate.	Aggregate collections for each fiscal year.	Aggregate quantities in barrels and their equivalents in gallons for each fiscal year.

NOTE.—The act of July 1, 1862, went into operation September 1, 1862. The act of March 3, 1863, provided that the tax on fermented liquors should be 60 cents per barrel from the date of the passage of that act to April 1, 1864. Hence the tax of 60 cents per barrel having expired by limitation April 1, 1864, the tax of $1 per barrel under act of July 1, 1862, was again revived, and has continued in force from and including that date.

H.—*STATEMENT showing the INTERNAL REVENUE RECEIPTS from SPECIAL April*

ABATEMENT CLAIMS XXXII

ALCOHOL:
- Amount of tax paid on each gallon of production of, withdrawn tax-paid, during fiscal year 1885 (89.99 cents) LXXVII
- Decrease (24,105 gallons) from previous year, in quantity of, withdrawn from warehouse tax-paid, during the year LXXII
- Exported during fiscal year 1884, quantity of (4,100,791 gallons) ..... LXXXI, LXXXII
- Exported during fiscal year 1885, quantity of (4,944,168 gallons) LXXXII
- Increase (1,051,687 gallons) over previous year in production of LXVIII
- Lost by casualty during fiscal year 1884 quantity of (55,386 gallons) LXXIX
- Lost by casualty during fiscal year 1885 LXXIX
- Lost by leakage or evaporation in warehouse during fiscal years 1884 and 1885, quantities of (1 925 gallons and 3,827 gallons, respectively) LXXVI
- Ports from which exported during fiscal year 1884 LXXXIII
- Ports from which exported during fiscal year 1885 ..... LXXXVI, LXXXVIII
- Ports to which exported during fiscal year 1884 LXXXIII
- Ports to which exported during fiscal year 1885 LXXXVI
- Remaining in warehouse at close of fiscal years 1884 and 1885, quantities of, (393,409 and 750,419 gallons, respectively) XCVII
- Withdrawn for scientific purposes and use of United States during fiscal years 1884 and 1885, quantities of (14,171 and 24,459 gallons, respectively) LXXX
- Withdrawn for transfer to manufacturing warehouses during fiscal years 1884 and 1885, quantities of (49,066 and 131,553 gallons, respectively) LXXXI
- Withdrawn from warehouse tax-paid, during fiscal years 1884 and 1885, quantities of (8,000,004 and 7,975,899 gallons, respectively) LXX

ASSESSMENTS:
- Amount of, during fiscal year 1885, by States and Territories CXXXIV
- Amount of, in each class, and in all classes, for fiscal years 1884 and 1885, compared CXXXIV
- Reasons for increase or decrease in the amount of, in the several classes named, during fiscal year 1885 CXXXV

BANKS AND BANKERS, NOT NATIONAL, ETC.:
- Tax on circulation of, during last two fiscal years, compared V

BOURBON WHISKY:
- Amount of tax paid on each gallon of, produced, withdrawn tax-paid, during fiscal year 1884 (81 cents nearly) LXXVII
- Decrease (4,288,223 gallons) from previous year in quantity of, withdrawn from warehouses tax-paid, during the year LXXII
- Exported during fiscal year 1884, quantity of (3,401,410 gallons) ..... LXXXI, LXXXII
- Exported during fiscal year 1885, quantity of (3,775,221 gallons) LXXXII
- Increase (3,380,918 gallons) over previous year, in production of LXVIII
- Lost by casualty during fiscal years 1884 and 1885, quantities of (8,864 gallons and 156,369 gallons, respectively) LXXIX
- Lost by leakage or evaporation in warehouse during fiscal years 1884 and 1885, quantities of (2,649,758 and 3,235,643 gallons, respectively) LXXVI
- Ports from which exported during fiscal year 1884 LXXXIV
- Ports from which exported during fiscal year 1885 ..... LXXXVI, LXXXVIII
- Ports to which exported during fiscal year 1884 LXXXIV
- Ports to which exported during fiscal year 1885 LXXXVI
- Remaining in warehouse at close of fiscal years 1884 and 1885, quantities of (41,177,059 and 33,074,089 gallons, respectively) XCVII
- Withdrawn for transfer to manufacturing warehouses during last two fiscal years, quantities of LXXXI
- Withdrawn from warehouse tax-paid, during fiscal years 1884 and 1885, quantities of (17,492,895 and 13,204,672 gallons, respectively) LXX
- Withdrawn for scientific purposes and use of United States during fiscal years 1884 and 1885, quantities of (2,318 and 2,094 gallons, respectively) LXXX

BOURBON AND RYE WHISKIES:
- Bulk of, shipped to Bermuda, Bremen, and Hamburg, may be returned to United States, but not by parties who exported them LXXIV
- Computations of actual amount of tax paid on each gallon of, produced, why not made for fiscal year 1885 LXXVIII
- Increased quantities of spirits withdrawn for export during last two fiscal years consist mainly of LXXXIX
- Large increase in leakage allowed during last three fiscal years over previous years, due to increased withdrawals of LXXVII
- No interference with exportation of, to certain ports, nor discrimination against, in favor of alcohol, rum, &c., which are not often reimported LXXIV
- Withdrawals of, during last two fiscal years made upon entries for exportation to Bermuda, Germany, &c., whence they are reimported and entered for consumption LXXXIX
- Withdrawn for export during last three fiscal years, quantities of, compared LXXXIX

CATTLE FED AT REGISTERED GRAIN DISTILLERIES:
- Aggregate increase of, in weight, by collection districts XLIX
- Aggregate increase of, in weight, by States and Territories L
- Average increase of, in weight, by collection districts XLIX
- Average increase of, in weight, by States and Territories L
- Number of, by collection districts XLIX
- Number of, by States and Territories L

CIGARETTES:
- Bonds given for exportation of, unaccounted for June 30, 1885, date of CXXXII
- Exported and during fiscal year 1885 accounted for, number of (103,333,420) CXXXII
- Exported and unaccounted for June 30, 1884, number of (7,817,500) CXXXII
- Exported and unaccounted for June 30, 1885, number of (9,295,500) CXXXII
- Number of, on which tax was paid during last two fiscal years, compared VI
- Production of, during calendar year 1884 (920,303,509) XXVI
- Receipts from, during fiscal years 1884 and 1885, compared ..... V, XXIV
- Removed for exportation during the year, number of (104,811,420) CXXXII

CIGARS:
- Bonds given for exportation of, unaccounted for June 30, 1885, date of CXXXII
- Exported and during the fiscal year 1885, accounted for, number of (1,516,200) CXXXII
- Exported and unaccounted for June 30, 1885, number of (113,400) CXXXII
- Number of, on which tax was paid during last two fiscal years, compared VI
- Production of, during calendar year 1884 (3,372,982,038) XXVI
- Receipts from, during last two fiscal years, compared ..... V, XXIV
- Removed for export and unaccounted for June 30, 1884, number of (72,050) CXXXII
- Removed for export during fiscal year 1885, number of (1,557,550) CXXXII

CIGARS AND CIGARETTES:
- Production of, during fiscal year 1885 (4,524,090,841) XXV
- Production of, during fiscal year 1885, 72,447,616 greater than production in 1884 XXV
- Receipts from, during fiscal year 1885 ($10,606,823.38) ..... V, XXIV
- Receipts from, during fiscal year 1885, $216,390.90 less than in 1884 XXIV
- Removed for consumption during fiscal year 1885, quantity of ..... VI, XXV
- Statement relating to production of, during calendar year 1884, by States and Territories XXVI

CIGARS, MANUFACTURERS OF:
- Distribution of, among the States and Territories ..... XXXIV, XXXV
- Number of, during special-tax years ended April 30, 1884 and 1885 (15,349 and 16,337, respectively) XXXV

CLERKS IN THE SEVERAL COLLECTION DISTRICTS:
- Number of, during fiscal year 1885 (189) XVIII
- Number of, during current fiscal year (180) XVIII
- Schedule of salaries of, during fiscal year 1885 XVIII
- Schedule of salaries of, during current fiscal year XVIII

COLLECTORS:
- Basis of recommendation of salaries of, for current fiscal year XVI
- Names of, for 1885 ..... VI-VIII
- Number of, during fiscal year 1885 (85) XVII
- Number of, during current fiscal year (85) XVIII
- Scale of salaries of XVII
- Schedule of salaries of, during fiscal year 1885 XVII
- Schedule of salaries of, during current fiscal year XVIII

COLLECTORS' OFFICES:
- Examination of, during the year XVII

COLLECTORS, DEPUTY:
- Number of, during fiscal year 1885 (963) XVII
- Number of, during current fiscal year (932) XVIII
- Schedule of salaries of, during fiscal year 1885 XVII
- Schedule of salaries of, during current fiscal year XVIII

COLLECTION DISTRICTS:
- Aggregate receipts from, during fiscal year 1885 VIII
- Names of, from which spirits were withdrawn for export during fiscal year 1884 LXXXI
- Names of, from which spirits were withdrawn for export during fiscal year 1885 LXXXII

COMMISSIONER:
- Report of, for fiscal year 1885 submitted III

COMMISSIONER'S OFFICE:
- Aggregate of force in, recommended for fiscal year 1887 (201 persons) XXII
- Condition of XIX
- Miscellaneous expenses of X
- Officers, clerks, and employés in, have generally performed their duties faithfully and efficiently XIX
- Schedule of force in, recommended for fiscal year 1887 XXII
- Work performed by the several divisions in, during the year ..... XIX-XXII

COMPROMISE OFFERS RECEIVED AND ACCEPTED XIV

COST OF ENFORCING THE LAWS AS TO SPIRITS FROM WHICH NO REVENUE IS DERIVED:
- Aggregate receipts of internal revenue during the year, amount of ($112,421,121) CIX
- Collections on spirits withdrawn from warehouses during the year, amount of ($60,920,324) CIX
- Cost, per gallon, for collectors, deputies, revenue agents, Commissioner's office, &c., on quantities of spirits in warehouses (9.3 mills) CIX
- Cost, per gallon, for gaugers (2.6 mills) CIX
- Cost, per gallon, for storekeepers or storekeepers and gaugers (8 mills) CIX
- Estimated aggregate cost, per gallon ($0.0199 or nearly two cents) CIX
- Estimated amount of (about $485,000 during fiscal year 1885) CX
- Estimated expenses of collectors, deputies, revenue agents, Commissioner's office, &c., directly chargeable to collection of tax on spirits, amount of ($1,294,259) CIX
- Gaugers' fees and traveling expenses during the year, amount of ($744,027) CIX
- Salaries paid to storekeepers and storekeepers and gaugers during the year, amount of ($1,103,786) CIX

Page.

COST OF ENFORCING THE LAWS AS TO SPIRITS FROM WHICH NO REVENUE IS DERIVED—Cont'd.
Spirits gauged during the year, quantity of (280,134,036 gallons) CIX
Spirits in charge of storekeepers or storekeepers and gaugers, June 30, 1885, quantity of (139,120,035 gallons) CIX
Spirits withdrawn from warehouse during the year free of tax, and spirits stamped for export, quantity of (24,251,996 gallons) CX
DEALERS IN LEAF TOBACCO:
Distribution of, among the States and Territories ..... XXXIV, XXXV
Number of, in special-tax years ended April 30, 1884 and 1885 (3,378 and 3,870, respectively) XXXV
DEALERS IN LEAF TOBACCO, NOT OVER 25,000 POUNDS:
Distribution of, among the States and Territories ..... XXXIV, XXXV
Number of, in special-tax years ended April 30, 1884, and 1885 (1,050 and 960, respectively). XXXV
DEALERS IN LEAF TOBACCO, RETAIL:
Distribution of, among the States and Territories ..... XXXIV, XXXV
Number of, in special-tax years ended April 30, 1884, and 1885 (4 and 1, respectively). XXXV
DEALERS IN MANUFACTURED TOBACCO:
Distribution of, among the States and Territories ..... XXXIV, XXXV
Number of, in special-tax years ended April 30, 1884 and 1885 (449,872 and 472,589, respectively) XXXV
DEALERS, RETAIL LIQUOR:
Distribution of, among the States and Territories ..... XXXIV, XXXV
Number of, in special-tax years ended April 30, 1884 and 1885 (180,068 and 182,318, respectively) XXXV
DEALERS, WHOLESALE LIQUOR:
Distribution of, among the States and Territories ..... XXXIV, XXXV
Number of, in special-tax years ended April 30, 1884 and 1885 (4,291 and 4,199, respectively) XXXV
Number of, October 1, 1885 (3,474) CXXVII
DIRECT TAX:
Act passed June 7, 1862, for collection of, in insurgent States XXIX

Commissioners appointed to make collections of, in insurrectionary States XXIX
Discrepancy between books of First Comptroller and Register of Treasury as to amount of, collected, and amount of, still due XXX
How apportioned XXIX
Interest claims XXIX
Letters received relating to, number of (483) XXIX
Letters written relating to, number of (760) XXIX
Provisions of bill introduced in last Congress for remission of, not collected, and for refunding of, collected XXX
Quota of, assumed by loyal States XXIX
Recommendation that examination be made to ascertain amount of, still due, and that action be taken to obtain settlement of commissioners' unsettled accounts XXX
School farms in South Carolina, amount of rentals of, invested in United States bonds. XXXI
School farms, area of XXX
School farms defined XXX
School farms income from school fund, amount of, for past three years, and by whom expended XXXI
School farms, number of (18) XXX
School farms owned by United States XXX
School farms, rentals of, invested in United States bonds and interest used for support of public schools in two parishes of South Carolina ..... XXX, XXXI
School farms rented by collector of internal revenue XXX
School farms, rents collected from, during last four years XXX
When imposed XXIX
DISTILLATION OF FRUIT:
Applications made to distill various fruits under regulations governing distillation of apples, peaches, and grapes refused LII
Consequences of refusal to allow distillation of fruits other than apples, peaches, and grapes under regulations authorized by section 3255, Revised Statutes LII
Distillers of apples, peaches, and grapes exempted by section 3255, Revised Statutes, from many provisions of law relating to manufacture of spirits LI
Limitation of authority conferred by section 3255, Revised Statutes, to exemption of distillers from apples, peaches, and grapes exclusively, prevents distillation of other fruits ..... LI, LII
DISTILLATION OF SPIRITS, ILLICIT:
Statistics relating to operations for suppression of ..... XI, XII
DISTILLERIES:
Distribution of, among the States and Territories XXXVI
Number of, operated during the year (5,172) XXXVI
Number of, registered during the year (5,499) XXXVI
DISTILLERIES, FRUIT:
Distribution of, among the several collection districts XXXVII
Number of, operated during the year (4,245) ..... XXXVI, XXXVII
Number of, registered during the year (4,295) ..... XXXVI, XXXVII
DISTILLERIES, GRAIN:
Capacities of, registered and operated during the year, by collection districts ..... XXXIX-XLI
Capacities of, registered and operated during the year by States and Territories XLII
Capacity of, in operation September 1, 1880, 1881, 1882, 1883, 1884, and 1885 XXXVIII

Page.

DISTILLERIES, GRAIN—Continued.
Decrease in number of large distilleries registered during the year is slight (2), while increase in number operated is considerable (14) ... XLIII
Decrease in number of, registered and operated during last year from 1884 occurs in small distilleries ... XLIII
Decrease in number of small distilleries registered during the year was exceeded by decrease in number operated ... XLIII
Number of, in operation at the beginning of each month from July, 1884, to September, 1885 ... XXXVIII
Number of, in operation September 1, 1880, 1881, 1882, 1883, 1884, and 1885 ... XXXVIII
Number of, operated during the year (918) ... XXXVI, XLIII
Number of, registered and operated during last two fiscal years compared ... XLIII
Number of, registered during the year (1,195) ... XXXVI, XLIII
Proportion of the larger distilleries registered that were operated during fiscal years ended June 30, 1884 and 1885 (72 and 79 per cent., respectively) ... XLIII
Proportion of smaller distilleries registered that were operated during fiscal years ended June 30, 1884 and 1885 (86 and 76 per cent., respectively) ... XLIII
Spirit-producing capacity of, in operation at the beginning of each month from July, 1884, to September, 1885 ... XXXVIII

DISTILLERIES, MOLASSES:
Capacity of, in operation September 1, 1880, 1881, 1882, 1883, 1884, and 1885 ... XXXVIII
Number of, in operation at the beginning of each month from July, 1884, to September, 1885 ... XXXVIII
Number of, in operation September 1, 1880, 1881, 1882, 1883, 1884, and 1885 ... XXXVIII
Number of, operated during the year (9) ... XXXVI
Number of, registered during the year (9) ... XXXVI
Spirit-producing capacity of, for each month from July, 1884, to September, 1885 ... XXXVIII

DISTILLERIES, OTHER THAN FRUIT:
Capacity and number of, in operation September 1, 1880, 1881, 1882, 1883, 1884, and 1885 ... XXXVIII
Number of, in operation at the beginning of each month from July, 1884, to September, 1885 ... XXXVIII
Spirit-producing capacity of, for each month from July, 1884, to September, 1885 ... XXXVIII
Spirit-producing capacity of, in operation September 1, 1880, 1881, 1882, 1883, 1884, and 1885 ... XXXVIII

DISTILLERY SURVEYORS:
Number of, during the year (3) ... XIX

DISTILLERY WAREHOUSES:
Spirits should be allowed to remain in, until they are actually demanded for consumption; law which fixes any other date a disturbing element in business of producer. LXXIV
Spirits under act of July 20, 1868, could remain in, one year ... LXXII
Summary of operations at, during the year ... CX
Titles of tables showing operations at, during the year ... LIV

DISTILLERY WAREHOUSES IN THE SEVERAL DISTRICTS OF KENTUCKY:
Aggregate quantities of spirits in, July 1, 1884 ... CVII
Aggregate quantities of spirits in, July 1, 1884 and February 1, 1885, compared ... CVII
Quantities of spirits in, February 1, 1885, with months of production ... CVII

DRAWBACK:
Allowed on spirits, tobacco, snuff, cigars, fermented liquors, stills, and proprietary articles during last two fiscal years, amount of ... CXXXIII

FERMENTED LIQUORS:
Aggregate number of brewers engaged in production of, during special-tax years ended April 30, 1884 and 1885 (2,240 and 2,230, respectively) ... XXXV
Distribution of brewers among the States and Territories ... XXXIV, XXXV
Distribution of dealers in, among the States and Territories ... XXXIV, XXXV
Number of retail dealers in, during special-tax years ended April 30, 1884 and 1885 (8,220 and 8,676, respectively) ... XXXV
Number of wholesale dealers in, during special-tax years ended April 30, 1884 and 1885 (2,705 each year) ... XXXV
Quantities of, on which tax was paid during last two fiscal years, compared ... VI
Receipts from each source and aggregate receipts from all sources relating to, for last two fiscal years, compared ... V
Receipts from the several sources relating to, for first three months of fiscal years 1885 and 1886, compared ... IX

FRACTIONS OF A GALLON OF DISTILLED SPIRITS:
Assumption upon which present law respecting taxing or exempting fractions is based, namely, that in filling large numbers of packages, the fractions would be indifferently above and below a half-gallon, incorrect ... L
Attention called to necessity of legislation for taxing all ... L
Equal to or exceeding one-half gallon in packages filled at distillery cisterns, occur infrequently and by accident ... L, LI
Evils resulting from practice of so filling packages that they may contain an untaxed fraction, and best remedy therefor ... LI
Larger part of spirits remains in warehouse only a short time ... LI
Number of packages of spirits containing a large untaxed fraction when removed from warehouse during fiscal year 1885, in addition to those whose fractions offset each other, probably 500,000 ... LI
Plan adopted at several large distilleries to obtain benefit of untaxed fractions as often as possible ... LI
Provisions of present law in respect to taxing or exempting from tax ... L
Result of so filling packages that they may contain an untaxed fraction ... LI
Size of, when spirits remain in warehouse for considerable time, a matter of chance ... LI

FRAUDS UPON THE REVENUE:
Accounts of expenditures for discovery of, and punishment for, are filed in Register's office, rendered monthly, and pass through all accounting offices of the Treasury Department ... XIV
Expenditures for miscellaneous purposes ... XIII

Statement of expenditures from appropriation for discovery of, and punishment for, submitted XIII
Total expenditures under appropriation ($34,387.29) XIII
GAUGERS:
Fees of, not to exceed $5 per day XIX
Number of (620) XIX
Reduction in number of, during fiscal year 1885 (180) XIX
GIN:
Amount of tax paid on each gallon of production of, withdrawn tax-paid, during fiscal year 1885 (89.74 cents) LXXVII
Decrease (2,263 gallons) from previous year in production of LXVIII
Exported during fiscal year 1884, quantity of (1,335 gallons) LXXXI
Exported during fiscal year 1885, quantity of (832 gallons) ..... LXXXII, LXXXVIII
Increase (12,396 gallons) over previous year in quantity of, withdrawn from warehouse tax-paid, during the year LXXII
Lost by leakage or evaporation in warehouse during fiscal years 1884 and 1885, quantities of (1,105 and 1,750 gallons, respectively) LXXVI
Port from which exported during fiscal year 1884 (New York) LXXXV
Port to which exported during fiscal year 1884 (Nassau) LXXXV
Remaining in warehouse at close of fiscal years 1884 and 1885, quantities of (93,367 and 99,231 gallons, respectively) XCVII
Withdrawn from warehouse tax-paid, during fiscal years 1884 and 1885, quantities of (618,619 and 631,015 gallons, respectively) LXX
GRAPE BRANDY:
Exported and accounted for during the year, quantity of (870 gallons) CXXXI
In warehouse July 1, 1884, and June 30, 1885, quantities of CXXXI
Loss of, by regauge, during the year, quantity of (18,434 gallons) CXXXI
Loss of, by regauge, during last two fiscal years, quantities of, compared CXXXI
Produced and bonded during last two fiscal years, quantities of, compared CXXXI
Produced and bonded during the year, quantity of (312,197 gallons) CXXXI
Removed for export and unaccounted for July 1, 1884, and June 30, 1885, quantities of. CXXXI
Removed tax-paid, during the year, quantity of (291,261 gallons) CXXXI
Transferred from one district to another during the year, quantities of CXXXI
Withdrawn tax-paid, during last two fiscal years, quantities of, compared CXXXI
HIGH WINES:
Amount of tax paid on each gallon of production of, withdrawn tax-paid, during fiscal year 1885 (89.61 cents) LXXVII
Decrease (3.509,799 gallons) from previous year in production of LXVIII
Decrease (3,094.282 gallons) from previous year, in quantity of, withdrawn from warehouse tax-paid, during the year LXXII
Exported during fiscal year 1884, quantity of (6,485 gallons) LXXXI
Lost by casualty during fiscal years 1884 and 1885, quantities of (38 and 236 gallons, respectively) LXXIX
Lost by leakage or evaporation in warehouse during fiscal years 1884 and 1885, quantities of (7,409 and 14,948 gallons, respectively) LXXVI
Port from which exported during fiscal year 1884 (New York) LXXXV
Ports to which exported during fiscal year 1884 LXXXV
Remaining in warehouse at close of fiscal years 1884 and 1885, quantities of (411,071 and 197,404 gallons, respectively) XCVII
Withdrawals of, from warehouse, tax-paid, during fiscal years 1884 and 1885, quantities of (6,528,654 and 3,434,372 gallons, respectively) LXX
HOGS FED AT REGISTERED GRAIN DISTILLERIES:

RYE WHISKY:
Amount of tax paid on each gallon of production of, withdrawn tax-paid, during fiscal year 1884 (80 cents, nearly) LXXVII
Decrease (1,168,356 gallons) from previous year in quantity of, withdrawn from warehouse tax-paid, during the year LXXII
Exported during fiscal year 1884, quantity of (710,858 gallons) ..... LXXXI, LXXXII
Exported during fiscal year 1885, quantity of (624.009 gallons) LXXXII
Increase (238,085 gallons) over previous year in production of LXVIII
Lost by casualty during fiscal years 1884 and 1885, quantities of (332,861 and 336,182 gallons, respectively) LXXIX
Lost by leakage or evaporation in warehouse during fiscal years 1884 and 1885, quantities of (962,648 and 935,383 gallons, respectively) LXXVI
Ports from which exported during fiscal year 1884 LXXXV
Ports from which exported during fiscal year 1885 ..... LXXXVII, LXXXVIII
Ports to which exported during fiscal year 1884 LXXXV
Ports to which exported during fiscal year 1885 LXXXVII
Remaining in warehouse at close of fiscal years 1884 and 1885, quantities of (15,005,057 and 13,637,609 gallons, respectively) XCVII
Withdrawals of, from warehouse, tax-paid, during fiscal years 1884 and 1885, quantities of, (5,973,855 and 4,805,499 gallons, respectively) LXX
Withdrawn for transfer to manufacturing warehouses during last two fiscal years, quantities of (1,813 and 935 gallons, respectively) LXXXI
Withdrawn for scientific purposes and use of United States during last two fiscal years, quantities of (161 and 204 gallons, respectively) LXXX

SERVICE, INTERNAL-REVENUE:
Internal-revenue collectors and their subordinates show commendable zeal in performance of their duties X
Present condition of X

SNUFF:
Quantities of, manufactured during calendar year 1884, by States and Territories XXVIII
Receipts from, during last two fiscal years compared V

SPECIAL BONDED WAREHOUSES FOR STORAGE OF ALL KINDS OF FRUIT BRANDY WHOSE DISTILLATION MAY BE AUTHORIZED:
Benefits of LII
Chief additional expense to be incurred by establishment of LII
How such additional expense could be reduced to a minimum LII

SPECIAL BONDED WAREHOUSES FOR STORAGE OF GRAPE BRANDY:
Advantages of LII
Established hitherto only in California LII
Grape brandy can be stored in, for three years LII
Grape brandy in warehouses June 30, 1885, distribution of, among CXXXI
Names of proprietors of CXXXI
Number of, cannot exceed ten in any collection district LII
Number of, in each collection district of California (4) LII
Quantities of grape brandy remaining in, July 1, 1884 and 1885 (382,342 and 380,925 gallons, respectively) CXXXI

SPECIAL-TAX PAYERS:
Distribution of, among the States and Territories ..... XXXIV, XXXV
Number of, in special-tax years ended April 30, 1884 (670,724) and 1885 (697,662) XXXV

SPIRITS:
Advantages of method of assessment for enforcing payment of tax on, over methods of suit on warehousing bond or of collecting by distraint without assessment LXXIII
Allowed for leakage or evaporation during the year under provisions of section 17, act of May 28, 1880 (4,424,314 gallons) LXXVII
Allowed for leakage or evaporation during last six years, quantities of LXXVII
Allowed for leakage or evaporation during last six years, percentages of quantities of, to quantities withdrawn from warehouse LXXVII
Average bonded period of all kinds of, withdrawn from warehouse during the year, less than nine months LXXVII
Covered by exportation or transportation bonds allowed under opinion of Attorney-General of December 24, 1884, to remain in warehouse for time reasonably necessary in process of exportation, over three years LXXIII
Decrease of revenue from, during past year due to limitation of time in which spirits can remain in warehouse LXXII
Distilled from fruit, on which tax was paid during last two fiscal years, quantities of, compared VI
Distilled from grain, average yield of, per bushel (4.076 gallons) ..... XLVI, XLVII
Distilled from materials other than fruit, on which tax was paid during last two fiscal years, quantities of, compared VI
Distilled from molasses, average yield of, per gallon (.765 gallon) XLVI
Distillers cannot tell beforehand quantity of, they can dispose of in three years LXXIV
Distillers might afford to have time given in warehousing bond reduced from three years to one year LXXIV
Distiller would not produce spirits if he knew beforehand he could not sell them until they had lain in warehouse in Germany one or more years LXXIV
Effect of provisions limiting time during which spirits can remain in warehouse under act of July 20, 1868, and joint resolution of March 28, 1878, on production of LXXII
Effect of provisions of act of May 28, 1880, authorizing abatement of tax on spirits lost by leakage in warehouse and repealing interest clause of joint resolution of March 28, 1878, on production of LXXII
Grain used for production of, during last two fiscal years, quantities of, compared XLVII
Grain used for production of, during last year, quantity of, compared with average product of last eight years XLVII
Held by each retail liquor dealer in United States October 1, 1885, estimated average quantity of (150 gallons) CXXIX
Held by wholesale liquor dealers and rectifiers October 1, 1884, by collection districts, quantities of ..... CXXIV, CXXVI

Page.

SPIRITS—Continued.
In warehouse June 30, 1884, by collection districts, and months of production, quantities of ..... LV-LXIII
Lost by casualties during last two fiscal years, quantities of (410,588 and 517,912 gallons, respectively) LXXIX
Lost by leakage or evaporation in warehouse during last two fiscal years, quantities of (3,858,494 and 4,424,314 gallons, respectively) LXXVI
Materials used for production of, during last eight years, statement of XLVII
Materials used for production of, during the year, by collection districts, quantities of XLIV, XLV
Materials used for production of, during the year, by States and Territories, quantities of XLVI
Maximum allowance for loss by leakage in warehouse, under act of May 28, 1880, for three years is 18¾ per cent LXXVII
Method of assessment for enforcing payment of tax on, adopted in January, 1883, and still in use LXXIII
Methods provided by law for enforcing payment of tax on, by assessment, suit on warehousing bond, and by distraint without assessment LXXIII
Opinion of Attorney-General of July 2, 1883, may have had effect to prevent withdrawals of, for exportation ..... LXXIII, LXXIV
Produced from grain during fiscal year 1885, compared with average product of last eight years XLVII
Produced from grain during last two fiscal years, quantities of, compared XLVII
Production of, during last two fiscal years, compared LXVIII
Production of, during the year (74,915,363 gallons) LXVIII
Production of, from grain and molasses, during last eight years, statement of XLVII
Production of, in fiscal year 1881 (117,728,150 gallons) largest in history of internal taxation LXXIII
Receipts from each source relating to, for fiscal years 1884 and 1885, compared V
Receipts from each source relating to, during first three months of fiscal years 1885 and 1886, compared IX
Rectified during special-tax year ended April 30, 1885, by collection districts, quantities of ..... XLVII, XLVIII
Rectified during special-tax year ended April 30, 1885, by States and Territories, quantities of XLVIII
Remaining in warehouse at close of fiscal years 1884 and 1885, aggregate quantities of (63,502,551 and 54,724,916 gallons, respectively) XCVII
Removed in bond for export, by fiscal years, from 1873 to 1885, percentages of quantities of, to production LXXXIX
Removed in bond for export during last two fiscal years, quantities of, by collection districts ..... LXXXI, LXXXII
Removed in bond for export by fiscal years from 1873 to 1885, quantities of LXXXIX
Stock on hand, production and movement of, for fiscal years 1881, 1882, 1883, 1884, and 1885 CXXIII
Tax on, manufactured in United States, exported and reimported, equal to internal-revenue tax, authorized by section 2500, Revised Statutes LXXXIX
Time now obtainable over three years in collecting tax on, occurs only in necessary delay in enforcing its payment LXXIII
Time over three years allowed in exportation of, limited by predecessor of present Commissioner to seven months; now reduced to thirty days LXXIII
Time within which transportation or exportation bonds may be filed, now so limited as to collect tax on, at expiration of three years from date of entry for deposit LXXIII
When original intention to export, included purpose to reland in United States, tax has very rarely been collected on quantity withdrawn from warehouse LXXIV
Withdrawals of, from warehouse, large percentage of, are high-proof spirits, on which frequently no leakage is claimed LXXVII
Withdrawn for export during first four months of fiscal years 1879, 1880, 1881, 1882, 1883, and first three months of fiscal years 1884, 1885, and 1886, quantities of, by collection districts CXXX
Withdrawn from warehouse during the year, upon payment of the tax, by collection districts, quantities of ..... LXIX, LXX
Withdrawn from warehouse during last two fiscal years, tax-paid, quantities of, compared ..... LXX, LXXII
Withdrawn for scientific purposes and use of United States, in fiscal years 1884 and 1885, quantities of, compared (increase, 6,493 gallons) LXXX
Withdrawn tax-paid, during the year, including domestic spirits exported and reimported, quantity of (68,465,938 gallons) LXXII
Yield of spirits per bushel of grain during last three fiscal years, compared XLVII

SPIRITS BONDED FOR EXPORT AND REMAINING IN DISTILLERY WAREHOUSES:
Circular No. 282, authorizing the receipt of "seven-months" bonds, issued in pursuance of opinion of Attorney-General CXI
Condition of bonds covering CXI
Greater part of, covered by bonds filed under provision of circular No. 282, stamped for export and in warehouse June 30, 1885 CXI
Opinion of Attorney-General, letters and circulars relating to ..... CXI-CXXII
Original application to permit spirits to remain in warehouse, after the giving of transportation or exportation bonds, and after three years, unfavorably received CXI
Practical effect of granting seven months after filing transportation or exportation bonds in which to deliver spirits to collector of customs or on board ship CXI
Quantity of, June 30, 1885 (7,750,696 gallons) CXI

SPIRITS, DIFFERENT KINDS OF:
Actual amount of tax paid on each gallon of, produced, how ascertained LXXVII
Decrease in withdrawals of, tax-paid, during the year LXXII
Decrease during fiscal year 1885, as compared with fiscal year 1884, in quantities of, produced LXVIII
Held by wholesale liquor-dealers and rectifiers October 1, 1885, by collection districts, quantities of ..... CXXIV-CXXVII
In warehouse June 30, 1883, aggregate quantities of LXV

Aggregate quantity of (90,107,026 gallons) CXXIX
Distribution of CXXIX

SPIRITS IN WAREHOUSE AT CLOSE OF THE YEAR:
Great reduction of, for 1884 from 1883, due to maturing of three years' bonds of 1881, the year of largest production, and secured through tax-paid withdrawals of spirits, and by exportation ..... LXXII, LXXIII
Maximum quantity of (89,962,645 gallons) reached in fiscal year 1882 LXXII
Quantities of, for 1884, with month of production, from June, 1881, to June, 1884, by collection districts ..... LV–LXIII
Quantities of, for 1885, with month of production, from November, 1881, to June, 1885, by collection districts ..... XCVIII–CVI
Quantities of, from 1869 to 1885, statement of CXXIII
Quantity of, for 1883 (80,499,993 gallons) LXXII
Quantity of each month's production of, for 1884, from June, 1881, to June, 1884 LXIII
Quantity of each month's production of, for 1884 LXXI
Quantity of each month's production of, prior to July 1, 1884, for 1885 LXXI
Quantity of each month's production of, prior to July 1, 1884, for 1884, withdrawn during the year LXXI
Quantity of, for 1884 (63,502,551 gallons) ..... LXIII, LXXI, LXXII, CXXIII
Quantity of, for 1885, that had been in warehouse over three years (10,229,473 gallons) LXXIII

SPIRITS IN WAREHOUSE NOVEMBER 1, 1881:
Aggregate quantity of (67,442,186 gallons) CXXIX
Quantities of, by States and Territories CXXIX

Page.

SPIRITS IN WAREHOUSE NOVEMBER 1, 1882:
Aggregate quantity of (84,628,331 gallons) CXXIX
Quantities of, by States and Territories CXXIX
SPIRITS IN WAREHOUSE OCTOBER 1, 1883:
Aggregate quantity of (73,405,361 gallons) CXXIX
Quantities of, by States and Territories CXXIX
SPIRITS IN WAREHOUSE OCTOBER 1, 1884:
Aggregate quantity of (53,749,246 gallons) CXXIX
Quantities of, by States and Territories CXXIX
SPIRITS IN WAREHOUSE OCTOBER 1, 1885:
Aggregate quantity of (47,158,358 gallons) CXXIX
Quantities of, by States and Territories CXXIX
Quantity of, covered by transportation or exportation bonds, under provisions of circular No. 282 (6,546,009 gallons) CXXIX
SPIRITS LOST BY CASUALTY:
During last two fiscal years, quantities of (410,588 and 517,912 gallons, respectively) ... LXXIX
During the year, quantity of, on which tax has been abated (401,160 gallons) CX
Greater part of (333,825 gallons) lost through one casualty by fire, in the twenty-second district, Pennsylvania LXXX
Quantity of, to total on deposit during fiscal year 1885, 1 gallon out of every 267 gallons. LXXX
SPIRITS LOST BY LEAKAGE OR EVAPORATION IN WAREHOUSE:
During last six fiscal years, quantities of LXXVII
During fiscal years 1884 and 1885, quantities of (3,858,494 and 4,424,314 gallons, respectively) ..... LXXVI, LXXVII
Increase in percentage of, during last three years over previous years, reasons for LXXVII
SPIRITS, MISCELLANEOUS:
Amount of tax paid on each gallon of production of, withdrawn tax-paid, during fiscal year 1885 (88.34 cents) LXXVII
Decrease (1,068,458 gallons) from previous year in quantity of, withdrawn from warehouse tax-paid, during the year LXXII
Decrease (614,713 gallons) in production of from previous fiscal year LXVIII
Exported during fiscal year 1884, quantity of (105,575 gallons) ..... LXXXI, LXXXII
Exported during fiscal year 1885, quantity of (54,609 gallons) LXXXII
Lost by casualty during fiscal years 1884 and 1885, quantities of (13,439 and 24,472 gallons, respectively) LXXIX
Lost by leakage or evaporation in warehouse, during fiscal years 1884 and 1885, quantities of (200,749 and 195,873 gallons, respectively) LXXVI
Ports from which exported during fiscal year 1884 LXXXV
Ports from which exported during fiscal year 1885 ..... LXXXVII, LXXXVIII
Ports to which exported during fiscal year 1884 LXXXV
Ports to which exported during fiscal year 1885 LXXXVII
Remaining in warehouse at close of fiscal years 1884 and 1885, quantities of (4,507,352 and 4,834,378 gallons, respectively) XCVII
Withdrawals of, from warehouse, tax-paid, during fiscal years 1884 and 1885, quantities of (11,278,235 and 10,209,777 gallons, respectively) LXX
SPIRITS, PURE, NEUTRAL, OR COLOGNE:
Amount of tax paid on each gallon of production of, withdrawn tax-paid, during fiscal year 1885 (89.56 cents) LXXVII
Decrease (958,385 gallons) from previous year in quantity of, withdrawn from warehouse tax-paid, during the year LXXII
Decrease (1,434,298 gallons) from previous year, in production of LXVIII
Exported during fiscal year 1884, quantity of (595,342 gallons) ..... LXXXI, LXXXII
Exported during fiscal year 1885, quantity of (340,139 gallons) LXXXII
Lost by casualty during fiscal year 1885, quantity of (609 gallons) LXXIX
Lost by leakage or evaporation in warehouse during fiscal years 1884 and 1885, quantities of (17,806 and 20,505 gallons, respectively) LXXVI
Ports from which exported during fiscal year 1884 LXXXIV
Ports from which exported during fiscal year 1885 ..... LXXXVI, LXXXVIII
Ports to which exported during fiscal year 1884 LXXXIV
Ports to which exported during fiscal year 1885 LXXXVI
Remaining in warehouse at close of fiscal years 1884 and 1885, quantities of (1,428,000 and 1,462,577 gallons, respectively) XCVII
Withdrawals of, from warehouse tax-paid, during fiscal years 1884 and 1885, quantities of (27,395,849 and 26,437,464 gallons, respectively) LXX
Withdrawn for scientific purposes and use of United States during fiscal years 1884 and 1885, quantities of (4,187 and 573 gallons, respectively) LXXX
Withdrawn for transfer to manufacturing warehouses during fiscal years 1884 and 1885, quantities of (159, 897 and 270,515 gallons, respectively) LXXXI
SPIRITS STAMPED FOR EXPORT:
In warehouse June 30, 1885, withdrawn tax-paid, prior to October 1, 1885, quantity of (2,356,208 gallons) CX
Since June 30, 1885, not withdrawn from warehouse, quantity of (2,313,086 gallons) CX
Total quantity of, under provisions of circular No. 282, prior to October 1, 1885 (11,039,307 gallons) CXXIX

DISBURSEMENTS

MADE FROM

THE APPROPRIATIONS FOR THE INDIAN DEPARTMENT

FOR THE

FISCAL YEAR ENDING JUNE 30, 1885,

AND OF

THE SALARIES AND INCIDENTAL EXPENSES PAID AT EACH AGENCY IN THE INDIAN SERVICE DURING SAID PERIOD,

SHOWING

THE APPROPRIATIONS FROM WHICH PAID AND THE NUMBER OF INDIANS AT EACH AGENCY.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1885.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, December 9, 1885.

SIR: I have the honor to return herewith statements of disbursements from the appropriations for the Indian Department for the fiscal year ending June 30, 1885, and also a statement of the salaries and incidental expenses of each agency for the same fiscal year, forwarded to you on the 24th of October last, and which were to-day returned to this office from the office of the disbursing clerk, and to invite your attention to section 8 of the act of March 3, 1875 (18 Stat., 450), wherein it is provided "That hereafter the Secretary of the Interior cause to be prepared and delivered to the Public Printer, on or before the first day of November in each year, a tabular statement of the items paid out up to that date, of the appropriations made for the Indian Department for the fiscal year previously ending," * * * "also an itemized statement of the salaries and incidental expenses paid at each agency for the said year and the appropriations out of which paid, and the number of Indians at each agency," "and that the same be laid before Congress on the first day of the succeeding session."

Respectfully,

J. D. C. ATKINS,
Commissioner.

The Hon. SECRETARY OF THE INTERIOR.

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { EX. DOC. No. 7.

ANNUAL REPORT

OF THE

ATTORNEY-GENERAL

OF THE

UNITED STATES

FOR

THE YEAR 1885.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1885.

LETTER

FROM

THE ATTORNEY-GENERAL,

TRANSMITTING

His annual report.

DECEMBER 12, 1885.—Ordered to lie on the table and be printed.

DEPARTMENT OF JUSTICE,
Washington, December 8, 1885.

SIR: I have the honor to transmit herewith my annual report for the year 1885.

Very respectfully, your obedient servant,

A. H. GARLAND,
Attorney-General.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

REPORT

OF

THE ATTORNEY-GENERAL.

DEPARTMENT OF JUSTICE,
Washington, D. C., December 1, 1885.

To the Senate and House of Representatives of the United States in Congress assembled:

In compliance with sections 384 and 385 of the Revised Statutes and the act of June 30, 1879, chapter 52, section 3, the following report of the business of the Department of Justice during the fiscal year ending June 30, 1885, together with statistics of crime against the United States, and a statement of the appropriations under the control of the Attorney-General, is respectfully submitted.

BUSINESS OF THE SUPREME COURT.

The condition of the docket of the Supreme Court of the United States at the close of the last term (October term, 1884), when compared with its condition at the close of the term next preceding, exhibits an increase of seven cases in the number left undisposed of on the two dockets, the appellate and the original.

At the close of the October term, 1883, there remained undisposed of on the appellate docket 845 cases and on the original docket 3. The number of cases docketed at the October term, 1884, was 477, of which 470 were on the appellate and 7 on the original docket, making the total number of cases on the docket at that term 1,325, of which 1,315 were on the appellate and 10 on the original docket. Of this number 855 were not disposed of, and of these 851 were on the appellate and 4 on the original docket.

The number of cases actually brought under consideration was 315, of which 196 were argued orally and 119 submitted on printed arguments.

Of the 464 cases on the appellate docket disposed of, 199 were affirmed, 97 reversed, 39 dismissed, 100 settled and dismissed by the parties, 27 docketed and dismissed under the 9th rule, and in two cases questions certified to the court were answered.

The number of cases decided at this term in which the United States were concerned was 52, of which 33 were decided in favor of and 17 against the United States, and in two criminal cases questions certified were answered.

Of those in which the United States appealed 11 were affirmed and 6 reversed. Twenty-two of the cases were appeals from the Court of Claims, in 17 of which judgment was affirmed and in 5 reversed. Besides the cases in which the United States were concerned *that were decided*, there were 25 others which *were dismissed* by the court, and of these 19 were dismissed at the instance of the United States and 6 at the instance of the other side.

Thus the total number of cases disposed of at the October term, 1884, in which the United States were interested, was 77.

The above does not include 2 cases on the original docket in which the United States were interested, and 1 case on the appellate docket from the Court of Claims in which the District of Columbia was a party.

BUSINESS OF THE COURT OF CLAIMS.

Since the last report 201 suits, claiming upward of $4,000,000, have been brought under the ordinary jurisdiction of the court.

The total number of such cases now pending is 775, claiming upward of $30,000,000.

Under the act of March 3, 1883, chapter 116, committees of the Senate and House of Representatives have transmitted to the court 394 claims, amounting in the aggregate to about $9,000,000.

Under the same act there have been 26 claims transmitted by heads of Departments, amounting in the aggregate to upwards of $3,750,000.

Under the act of January 20, 1885, known as the "French Spoliations" Act, there have been filed to date 371 cases, claiming upward of $3,000,000.

The following is a summary of the business of the last term:

CLAIMS AGAINST THE UNITED STATES.

There were brought to trial 200 suits, claiming $10,552,743.09. In 28 of these, claiming $10,224,371.77, judgment was for defendants, and in 172 suits, claiming $328,371.32, judgment was for claimants for $184,231.58.

Seven hundred and sixty-five suits, claiming $2,260,141.74, were dismissed under the rules, on motion, for want of jurisdiction, or prosecution, or by consent.

In 2 cases judgments were recovered on counter-claim in favor of the United States, for $1,631,078.63.

CLAIMS AGAINST THE DISTRICT OF COLUMBIA.

Of these, 17 suits, claiming in the aggregate $264,343.27, were brought to trial. In 10 of them, claiming $108,744.60, judgment was for defendant.

In 9 suits, claiming $155,598.67, judgment was for claimants for $27,316.01.

Seventy-seven suits, claiming $2,227,535.38, were dismissed under the rules or by consent.

In 4 cases judgments were recovered on counter-claims in favor of the District for $6,626.12.

Forty-one suits, claiming about $1,702,592.94, remain to be disposed of. Some of these are awaiting test cases in the Supreme Court. And it is expected that all remaining suits against the District will be finally disposed of during the next term of the court.

Whole number of cases disposed of by judgment	1,061
Amount claimed in them	$15,304,763 48
For defendants, 880 cases, claiming	14,820,793 49
For claimants, 181 cases, claiming	483,969 99
Amount recovered by claimants therein	211,547 59
Amount recovered by defendants on counter-claim	1,637,704 75

The tabular statement of United States suits presented with previous reports is annexed, with additions, to date (Exhibit E).

EXHIBITS ACCOMPANYING THIS REPORT.

Exhibit A is a statement of the civil suits to which the United States was a party, terminated in the circuit and district courts of the United States during the fiscal year ending June 30, 1885, and of such suits pending in said courts July 1, 1885, as reported by the district attorneys.

During the last fiscal year 1,658 civil suits were terminated. In 611 of these, judgments were for the United States, in 159 for the defendants, and 866 were either *nol. pros.*, dismissed, or discontinued; 6 were appealed from the district to the circuit court, and 16 from the circuit to the Supreme Court. Many of the civil suits reported *nol. pros.*, dismissed, or discontinued were settled by authority of the Treasury Department, and discontinued under its direction. There were pending July 1, 2,146 civil suits to which the United States was a party.

Exhibit B is a statement of the criminal prosecutions terminated in the circuit and district courts of the United States during the last fiscal year and of such prosecutions pending July 1, 1885.

There were terminated during the last year 11,977 criminal prosecutions; 142 of these were prosecutions under the custom laws, in which there were 96 convictions, 11 acquittals, and 35 were entered *nol. pros.*, discontinued, or quashed; 4,738 under the internal-revenue laws, in which were 2,796 convictions, 656 acquittals, and 1,286 were entered *nol. pros.*, discontinued, or quashed; 502 under post-office laws, in which

there were 275 convictions, 74 acquittals, and 153 entered *nol. pros.*, discontinued, or quashed; 283 under the election laws, in which there were 81 convictions, 22 acquittals, and 180 entered *nol. pros.*, discontinued, or quashed; 2 under the naturalization laws entered *nol. pros.*, discontinued, or quashed; 459 under the intercourse acts, in which there were 408 convictions, 14 acquittals, and 37 entered *nol. pros.*, discontinued, or quashed; 187 under the pension laws, in which there were 104 convictions, 26 acquittals, and 57 entered *nol. pros.*, discontinued, or quashed; 41 for embezzlement, in which there were 15 convictions, 8 acquittals, and 18 entered *nol. pros.*, discontinued, or quashed; 5,623 miscellaneous prosecutions, in which there were 3,530 convictions, 1,209 acquittals, 884 entered *nol. pros.*, discontinued, or quashed.

. In many of the prosecutions under the internal-revenue laws entered *nol. pros.*, discontinued, or quashed a compromise and settlement were made in the Internal Revenue Bureau of the Treasury Department.

There were pending 3,808 criminal prosecutions, viz: 168 for violation of customs laws, 1,884 for violation of internal-revenue laws, 310 for violation of post-office laws, 70 for violation of election laws, 4 for naturalization laws, 36 under intercourse laws, 179 under pension laws, 43 embezzlement, 1,114 miscellaneous proscutions.

Exhibit C shows the amount from civil suits to which the United States was a party and from criminal prosecutions in the circuit and district courts of the United States during the last fiscal year.

The aggregate amount of judgments rendered in favor of the United States in civil suits during the last year was $677,383.59, and the amount actually collected on these judgments was $170,457.67; while $37,028.26 was obtained during the year on judgments rendered in former years for the United States, and $143,452.41 was otherwise realized in civil suits.

The aggregate amount of fines, forfeitures, and penalties imposed during the year in criminal prosecutions was $481,856.26, and the amount of these fines, forfeitures, and penalties collected during the year was $62,124.31, while $6,187.65 was realized on fines, forfeitures, and penalties imposed in former years.

Exhibit D is a statement of civil suits, to which the United States was not a party, commenced and terminated in the circuit and district courts of the United States during the last fiscal year; and of such suits pending July 1, 1885, 11,967 were commenced during the year, of which 2,226 were cases in admiralty and 9,741 were other miscellaneous suits.

Judgments for plaintiffs in these cases were as follows: 897 in admiralty, amounting to $925,949.87; 3,275 in other suits, amounting to $22,404,897.37.

Judgments for defendants were 156 in admiralty, amounting to $55,589.53, and 1,093 in other suits, amounting to $1,529,464.40; 920 in admiralty were either dismissed or discontinued, as were also 2,611 other suits; 29,308 civil suits, to which the United States was not a

party, were pending in the circuit and district courts of the United States July 1, 1885, viz, 3,194 in admiralty and 26,114 other miscellaneous suits.

Exhibit E is a tabular statement of causes heretofore disposed of, and also of those now pending in the Court of Claims.

Exhibit F is a general statement of all appropriations placed under the Department of Justice which were available, and those from which payments were made during the fiscal year ending June 30, 1885.

Exhibit G is a statement of the court expenses incurred in the fiscal year 1882 and paid in the fiscal year 1885.

Exhibit G 1 is a statement of the court expenses incurred in the fiscal year 1883 and paid in the fiscal year 1885.

Exhibit G 2 is a statement of the court expenses incurred in the fiscal year 1884 and paid in the fiscal year 1885.

Exhibit G 3 is a statement of the court expenses incurred and paid in the fiscal year 1885, viz:

To United States marshals	$703,988 45
To attorneys	283,393 91
To clerks	144,122 30
To jurors	460,338 80
To witnesses	609,398 38
To commissioners	108,237 98
To prisoners	233,941 24
To rents	41,349 37
Miscellaneous expenses	289,962 68
Amounting to	2,874,733 11

Exhibit G 4 is a statement showing items, amounts, cause of expenditure, and persons paid from the appropriation for prosecution of crimes.

Exhibit G 5 is a statement showing items, amounts, cause of expenditure, and persons paid from the appropriation for defending suits in claims against the United States.

Exhibit G 6 is a statement showing items, amounts, cause of expenditure, and persons paid from the appropriation for repairs to courthouse, District of Columbia.

Exhibit G 7 is a statement showing items, amounts, cause of expenditure, and persons paid from the appropriation for punishing violations of intercourse acts and frauds.

Exhibit G 8 is a statement showing items. amounts, cause of expenditure, and persons paid from the appropriation for support of convicts.

Exhibit G 9 is a statement showing items, amounts, cause of expenditure, and persons paid from the appropriation for building, Department of Justice.

Exhibit G 10 is a statement showing items, amounts, cause of expenditure, and persons paid from the appropriation for contingent expenses Department of Justice, including the appropriations for furniture

and repairs, books for Department library, books for office of Solicitor, stationery, horses and wagons, and miscellaneous items.

Exhibit H is a statement of the amount paid during the fiscal year 1885 out of the appropriation for payment of special deputy marshals at Congressional elections in 1881 and prior years.

Exhibit I is a statement of payments made during the fiscal year 1885 to supervisors at Congressional elections in 1880, 1882, and 1884.

Exhibit K shows the number of assistant attorneys, regular and special, and the compensation paid to each, as required by sections 195 and 385 of the Revised Statutes.

Exhibit L is the report of the Solicitor of the Treasury, showing the amount, character, and results of the litigations under his direction for the fiscal year ending June 30, 1885.

Exhibit M is the report of the librarian of the Department.

Exhibit N is a detailed statement giving the names of the penitentiaries where United States prisoners are confined, their location, and the number of convicts confined in each.

Exhibit N 1 is a detailed statement showing the institutions designated for the confinement of United States prisoners from the several judicial districts.

Exhibit O is a detailed statement showing the jails in which United States prisoners were confined, and the number in each.

Exhibit P is the annual report of the president of the Board of Trustees of the Reform School for the fiscal year ending June 30, 1885.

Exhibit Q is the annual report of the warden of the United States jail in the District of Columbia.

Exhibit R is a report of the Court of Commissioners of Alabama Claims.

Exhibit S is a letter of the Commissioners of the District of Columbia as to railroads within the District.

Exhibit S 1 is a letter from C. P. Culver, esq., attorney for the Citizens' Protective Association, to accompany Exhibit S.

Exhibit S 2 is a letter from A. S. Worthington, esq., attorney of the United States for the District of Columbia, to accompany Exhibit S.

Exhibit T is a report of Mr. George L. Douglass, special assistant attorney, upon the star-route civil suits.

Exhibit U is a report of the Architect of the Capitol upon the improvements and repairs to the court-house, District of Columbia, and to the building, Department of Justice, during the fiscal year ending June 30, 1885.

Exhibit V is a report of the Clerk of Pardons of the Department of Justice, with a tabulated statement, showing the names of the persons convicted in the United States district courts who were pardoned during the fiscal year ending June 30, 1885; the districts in which they were tried, the terms of court at which they were convicted, their offenses, sentences, date of pardon, and the principal reasons for recommending Executive clemency.

There are several matters which are of sufficient importance to warrant my directing the special attention of Congress to them separately, with a statement of the reasons therefor, and of the necessity of legislative action. Some of these matters have heretofore been, once or oftener, brought to the attention of Congress in former reports of the Attorney-General. In some instances where this is the case, and the recommendation of my predecessor coincides with my views, I quote its lauguage to that extent.

EXPENSES OF THE UNITED STATES COURTS.

The expenses of the courts, when finally ascertained for a fiscal year, usually exceed $3,000,000.

It is not prudent to suppose that they will fall below this sum in any year. The character of the expenses changes somewhat year after year, but the gross amount remains nearly the same. The appropriation for these expenses in subdivisions, according to the character of the expense, is of much value to the Department, especially in making advances to marshals. Each subdivision stands for itself alone, and is not available for any other appropriation. This fact makes the gross sum for all the appropriations larger than when one appropriation is made for all the expenses. It is a necessary consequence of the subdivision, although such subdivision serves to check the general expenses.

An increase of court expenses must be expected from the creation of new judicial districts, which are frequently established by Congress. (Report of the Attorney-General, 1884.)

From the 1st of July, 1880, the expenses of the United States courts for each fiscal year exceeded $3,000,000, as shown by the annexed statement.

Fiscal year.	Appropriation.	Deficiency.	Amount.
1881	$2,825,000 00	$311,000 00	$3,136,000 00
1882	2,950,000 00	337,370 37	3,287,370 37
1883	2,985,000 00	427,000 00	3,412,000 00
1884	2,925,000 00	354,687 90	3,279,587 90
1885	2,760,000 00	332 707 56	3,092,707 56
1881 and prior years	.....	.....	57,895 20
1882 and prior years	.....	.....	12,255 19

The amount stated for the fiscal year 1885 does not include estimated deficiencies to be submitted to the present session of Congress.

The sum estimated as necessary for the next fiscal year does not exceed the usual annual appropriations and the subsequent deficiencies made necessary by limited appropriations.

FEES OF MARSHALS IN THE TERRITORIES OF MONTANA, IDAHO, AND WYOMING.

I recommend that in the Territories of Montana, Idaho, and Wyoming, where the expenses of service of process are greater than the legal fees, the fees of the marshal be doubled, so as to place these Territories upon the same footing as New Mexico and Arizona.

OUTGOING MARSHALS.

I recommend that the statutes authorizing outgoing marshals of the United States to execute all processes in their hands at the expiration of their commissions, be so amended as to require them to turn over to their successors in office all unfinished business of every kind in their hands at the time of the qualification of their successors. The present law has led to confusion, conflict of authority, refusal on the part of outgoing marshals to turn over the records of their offices to their successors until forced to do so, and to delay in the transaction of business and the settlement of accounts.

PAY OF DEPUTY MARSHALS.

Many of the fraudulent accounts presented to the Treasury have been rendered by deputy marshals who have not been allowed by the marshals sufficient compensation to cover their expenses and subsistence. I recommend that the fee bill be amended so as to require the marshal to pay his deputies serving processes, or performing other duties, not less than one-half of their net earnings.

REVISION OF THE FEE BILL.

The report of the Attorney-General for the years 1882, 1883, and 1884 recommended a readjustment of the fees or salaries of United States marshals. During the thirty years since the revision of the whole fee bill there has been much new legislation, and suits, not contemplated when the original fee bill was passed, have been carried on. I recommend a revision of the fee bill, and that the officers of this Department and the Treasury be consulted as to the working of the present bill and as to any proposed amendments thereto.

ATTORNEYS OF THE UNITED STATES FOR THE DISTRICTS OF NEW MEXICO AND ARIZONA.

The act of August 7, 1882, limits the maximum annual compensation of the attorneys of the United States for the Territories of New Mexico and Arizona to $3,500 each. Unless reasons to the contrary exist, of which the Department is ignorant, I recommend that the act be so amended as to fix their maximum annual compensation at $6,000 each, as is that of all the other attorneys.

ASSISTANT DISTRICT ATTORNEYS.

When I came into the office of Attorney-General, I found that a system of appointing assistant district attorneys by commission and an annual salary had existed in the Department of Justice for a long while; in fact, since the creation of the Department in 1870. On examining the law pertaining to this subject—sections 363–366 Revised Statutes—

I have had, and still have, grave doubts as to the authority of the Department to make such appointments. I have considered the law rather to limit the power of procuring assistants to the district attorney to that of special employment for stipulated fees. I have made but few appointments of assistants by commission and annual salary, and in those I have inserted a provision that they were subject to any further action that the Department might deem proper to take in the premises.

Conceding the power to make these appointments by commission and annual salary, I can see several good reasons, as a matter of policy, for continuing it, and on the whole it will be more convenient and probably more economical than that of appointments for special employment and on stipulated fees; but I deem it my duty to present the matter to Congress that if it is thought proper to make the law more explicit upon this subject it may be done, and if no further legislation is had the Department may interpret this non-action as sanctioning the existing system.

CLERKS OF COURTS.

The maximum annual compensation of the clerks of the circuit and district courts of the United States in California is $7,000. The maximum annual compensation for clerks of corresponding courts in other States throughout the country is $3,500. No good reason exists for this discrimination. I recommend that the maximum annual compensation of each of the clerks of the United States courts in California be fixed at $3,500.

RECORDS OF CLERK'S OFFICE, SPRINGFIELD, ILL.

On February 2, 1880, the clerk of the district court at Springfield, Ill., died. After his death it was ascertained that the records of the court were incomplete, not having been entered for several years. The administrator of the clerk's estate proposed, if permission could be had from the local court, to employ competent clerks to make the necessary entries. I recommend, as was done in the report for 1884, that Congress make a suitable appropriation for making the necessary records under the direction of the Attorney-General.

RESPECTING FUNDS PAID INTO COURT.

The act of March 24, 1871 (chap. 11, p. 1, 17 United States Statutes at Large), entitled "An act relating to moneys in the courts of the United States," passed for the better security of moneys deposited in the courts of the United States, directs that they may be deposited to the credit of the judge of the court, subject to his draft. It has been found that this is not an adequate security for the funds. The judge of the court is empowered to appoint his clerk. The statute makes the clerk keep a record of amounts deposited and amounts withdrawn, and to report the same at the opening of each term of court to the judge. Should it happen that moneys deposited in the name of the United States are withdrawn by the clerk under a general authority of the judge and misappropriated, and the clerk be irresponsible financially, or beyond the reach of the process of court, there seems to be no remedy except against the judge.

It is suggested that this defect may be cured by proper legislation, by making the court or its fiduciary agent give a bond to the United States in a sufficient sum to cover all moneys deposited in its keeping. A clerk in whom the judge has implicit confidence may neglect to deposit funds, and retain in his own possession moneys deposited to the credit of the United States without the knowledge of the judge and contrary to his express orders. The clerk is allowed to charge a fee for receiving and paying out such moneys. His ordinary bond is for the good keeping of his office and the discharge of his official duties. (Report of the Attorney-General, 1884.)

SUBSTITUTION OF FISCAL FOR CALENDAR YEAR.

I recommend that section 843 of the Revised Statutes be amended by striking out from it the word "calendar" and inserting in its place the word "fiscal." This change will require the emolument returns of the attorneys and marshals of the United States and clerks of the United States courts to be settled for fiscal instead of calendar years, and will much facilitate the settlement of their accounts.

CHIEF SUPERVISORS OF ELECTIONS.

The statutes that create chief supervisors of elections and define their duties and fix their compensation do not place them under the control of any Department of the Government. For years the approval of their accounts and disbursements of the appropriation for their payment has devolved upon the Attorney-General.

The head of some Department ought to have the duty assigned to him to regulate these matters and to systematize the work of the chief supervisors. The Department to which this duty is assigned must be empowered to review their whole proceedings, and adjust their claims upon a scale suited to the locality, density of population, and emergency of the occasion.

I suggest, as my predecessor did, that all accounts of chief supervisors should be taxed in open court under the inspection and examination of the district attorney or his sworn assistant, and that they must then be forwarded to the proper Department for further examination and reduction, if deemed advisable and necessary.

PROTECTION TO CIVIL OFFICERS.

An adequate penalty should be provided for the punishment of persons resisting officers of the Government. The present penalty—a nominal one—of a year's confinement in a penitentiary does not deter lawless men from such resistance.

Should the circumstances attending the resistance to the officer indicate that it led to murder, the penalty is no greater. Deputy marshals have been killed within the last twelve months—I may add within the last month—with as much recklessness as though no law existed affixing any penalty to this offense.

To a man who will risk his life to avoid arrest, a year's confinement is a small matter.

PROTECTION TO WITNESSES.

The fact that men necessarily made witnesses for the prosecution have given information to the officers of the Government about violations of the internal-revenue laws or have aided them in making arrests becomes known to the parties under arrest, and by themselves or through their friends they harass and intimidate the witnesses from appearing by threats of personal violence, and when threats are ineffectual, they go to the extreme of destroying the witness' live stock, buildings, or other property, and, in one instance, within the last few months, have taken the life of a person summoned as a witness.

I suggest that section 5399, R. S., might be so amended as to protect witnesses who are subpœnaed for appearance in United States courts to testify on the part of the Government.

WITNESSES.

Section 878, Revised Statutes, gives to persons indicted in the courts of the United States an advantage which few, if any, of the States confer. If any person so indicted makes affidavit setting forth that there are witnesses material to his defense, that he cannot safely go to trial without them, what he expects to prove by each of them, &c., and that sufficient means are not at his disposal to enable him to pay the expenses of such witnesses, the courts, or any judge thereof in vacation, may order such witnesses, if found within the limits of the district in which the court is held, or within one hundred miles of the place of trial, to be subpœnaed. In such case the costs incurred by the service of process and fees of witnesses are paid in the same manner as similar costs and fees are paid when witnesses are subpœnaed in behalf of the United States. By this means large numbers of witnesses are often summoned on behalf of defendants whose presence is not necessary to a fair trial of the case. This privilege is one which entails a heavy expense upon the Government. It should be thoroughly guarded, and no witnesses should be allowed to be summoned merely for the purpose of attesting or attacking the credibility of other witnesses, which is one of the most frequent modes of multiplying such witnesses. (Report of the Attorney-General, 1884.)

I recommend, as was done in the report quoted, that the number which the United States shall be required to summon and pay for any defendant shall not exceed four witnesses (except in capital cases), unless their materiality and importance are first approved and certified to by the district attorney for the district in which the examination is had, and such taxation shall be subject to revision, as in other cases.

FEES OF WITNESSES AND JURORS IN TERRITORIES.

The acts of February 26, 1853 (10 Statutes at Large, page 167), and May 1, 1876 (19 Statutes at Large, page 41, section 848, Revised Statutes United States), provide that witnesses of the United States shall receive for attendance in court or before any officer pursuant to law $1.50 per day, and 5 cents a mile for going from his place of residence to the place of trial or hearing, and 5 cents a mile for returning.

In the districts of California, Oregon, Nevada, and all the Territories, the actual cost of subsistence is from $2 to $4 per day, and the cost of transportation from 5 to 20 cents per mile. When it is considered that the places of holding court in the districts mentioned are at great distances apart, often 200 or 300 miles, and that the

necessary mode of travel is by stage, it will be seen that a citizen serves in the capacity of a United States witness at a great pecuniary loss and personal inconvenience. It is believed that this inadequate compensation causes many of the suits and prosecutions on behalf of the Government to fail because of the ill-will of the witnesses. Witnesses frequently avoid a summons, thus defeating justice, or, if served, decline to obey in order to compel the marshal to arrest them under a bench-warrant, preferring to be taken to court as prisoners at the Government's expense rather than to pay their own expenses without any hope of being reimbursed.

Under the act of June 30, 1879 (21 Statutes at Large, page 43), jurors receive a per diem of $2, and under the act of July 15, 1870 (section 852, Revised Statutes of the United States), 5 cents per mile for the distance necessarily traveled from their residence going and returning from said court by the shortest practicable route.

The actual expenses of jurors are the same as those of witnesses in the districts mentioned, and there can be no doubt that the interests of the Government are injured and great injustice done citizens called upon to serve in either of these capacities by the insufficiency of the compensation allowed under the present law.

Some additional legislation should be enacted—

To relieve the people of the hardships now necessarily inflicted upon them by the administration of justice in the United States courts. It would seem that the most equitable provision that could be made would be a law providing that witnesses and jurors in the districts of California, Oregon, Nevada, and all of the Territories, be paid their actual expenses in going to, while in attendance upon court, and returning to their places of residence, in lieu of the mileage and per diem now allowed by law. The justice and propriety of such a provision of law has already been recognized by Congress, as will be seen by reference to the last clause of section 829, Revised Statutes of the United States, which provides that United States marshals may charge the actual expense of executing process in any case where the fees provided by law do not cover their disbursements, and by the act of June 16, 1880, which provides that witnesses and jurors in the courts of the United States in Colorado shall be entitled to receive 15 cents for each mile actually traveled in going to or returning from said courts. (Report of the Attorney-General, 1884.)

Letters from judges and other court officers, urging the necessity for action upon this matter, have been received from time to time by this Department. Some of these were referred to the chairman of the Judiciary Committee of the House of Representatives of a former Congress.

CRIMINAL PROCEDURE.

It is of the highest importance that the pleadings in criminal cases be simplified, a uniform system of challenges provided, and the whole proceedings shorn of the technical objections and numberless dilatory motions that can now be interposed to prevent a speedy trial upon the merits.

In preparing indictments for offenses against the United States it is found necessary to follow the common-law forms of the last century, with all the technicalities, verbosity of descriptions, repetitions, and precision of statements formerly required, whereby that which should be a simple and concise written accusation becomes a lengthy and painfully confused mass of descriptions and allegations, wholly unintelligible to the defendant who is called upon to answer, or to the jury selected to try the case.

To reduce pleadings to a plain and comprehensive statement of the facts would serve equally to the advantage of the Government and the defendant. There is no

reason why an indictment ought not to be adjudged sufficient and good in law which charges the crime substantially in the language of the act prohibiting the crime, and prescribing the punishment, or so plainly that the nature of the offense charged may be easily understood by the jury.

When it is necessary to describe or make an averment of any written or printed instrument, as the law now stands, such instrument must be copied into the indictment with literal exactness equal to a photographic reproduction. The omission of a word that appears almost undiscernible among the lines and flourishes created by the skill of the engraver or penman would be a fatal defect that might enable a guilty man to escape punishment. It is also now necessary in some cases to set out in the indictment the value of such an instrument. As values are matters of opinion, a guilty defendant should not be permitted to escape by reason of a conflict of testimony upon this subject. It is suggested that it would be sufficient to aver or describe every such instrument by any name or designation by which the same may be usually known, or by its purport, and in such manner as to sufficiently identify the instrument, without setting out any copy or fac-simile, or the value thereof.

In cases of murder and manslaughter it is necessary to describe the manner and means by which the death of the deceased was caused, and any mistake in such description would be a fatal variance between the indictment and the evidence. The remedy suggested is, that it would be sufficient in an indictment for murder to charge that the defendant did "feloniously, willfully, and of his malice aforethought kill and murder" the deceased; and in an indictment for manslaughter, that the defendant did "kill and slay" the deceased. This would be sufficient, in either of these cases, to apprise the defendant of the charge against him, and relieve the Government of the risks of failure now incurred in making lengthy and technical description of the manner and means by which the death was caused.

Where stolen property is found in the possession of a person immediately after it has been stolen, the presumption is that the person in whose possession the property is found is guilty of the larceny; but this presumption may either be rebutted, or serious doubts raised in the mind of the jury by the testimony of the accused; and while it may be perfectly plain that the defendant came into possession of the property in a way that he must have known it was stolen property, yet if indicted for larceny he could not be convicted. An indictment cannot be drawn containing two counts, one for the larceny and the other for receiving stolen goods, knowing them to have been stolen. It is very evident that the passage of a law permitting the Government to join in one indictment the two counts, one for larceny and the other for receiving, and giving the jury, at the trial of the case, the power to acquit the defendant of the one offense and convict him of the other would afford the much-needed facility for a substantial administration of justice in this respect.

The indictment and trial of accessories before the fact is surrounded with technical embarrassments, whereby punishment is postponed and an avenue opened for the guilty to escape. The indictment must contain t full and accurate charge against the principal, followed by the technical averments charging the defendant with being an accessory before the fact. It follows as a consequence that the charge against both the principal and accessory must be proved as stated in the indictment, and that the accessory cannot be tried until the principal has been tried and convicted. If the principal has escaped, the trial of the accessory must be postponed or ultimately abandoned, however strong the proof may be of his guilty participation. As both principal and accessory are alike guilty, the present defect in the law should be supplied by permitting the accessory to be indicted, tried, convicted, and punished in all respects as if he were a principal.

After the finding of an indictment by a grand jury and before the trial, should it appear that there was a single inaccuracy or clerical error either in the spelling of a name or in matters of formal description, it would be a fatal defect, which would compel the court to quash the indictment. In that case the prosecuting attorney would

have to begin his work anew; and if, in the mean time, the statute of limitations had interposed, the defendant, however guilty, would be set at liberty. Should an inaccuracy or variance appear during the trial, it would result in the acquittal of the defendant. To remedy this great evil the judges in courts of the United States should have the power, at any stage in the trial, to correct any such inaccuracy, variance, or error by amending the indictment.

When a prisoner is now brought to the bar of the court to be arraigned, according to the ancient usage, he remains standing while the clerk of the court reads to him the whole of the indictment, whether it consists of one page or one hundred, beginning with the caption and ending with the signature of the district attorney. In cases of treason and others where the punishment is death it is proper to observe all the forms and solemnities attending such grave charges; but in other cases to dispense with a formal arraignment would save much valuable time and be of benefit to the prisoner. Under the directions of the court the substance of the charge laid in the indictment could be stated by the clerk; for instance, the statement by the clerk to the prisoner, "You are charged in this indictment with the embezzlement of $1,000, the property of the United States," would convey to the mind of the prisoner a clearer idea of the nature of the accusation than he could obtain by listening to the reading of the indictment.

Demurrers and motions to quash are prolific means for impediments to a proper administration of justice. There seems to be no limit to these, especially motions to quash, which may be made in any number and at any time preceding the rendition of the verdict. Counsel for a defendant may retain within his breast the knowledge of a defect in an indictment, and at the end of a long and expensive trial interpose with his motion to quash. The enactment that "every objection to any indictment for any formal defect apparent on the face thereof shall be taken by demurrer, or on motion to quash such indictment before the jury shall be sworn and not afterwards," would be of incalculable benefit to the United States, without any disadvantage to the defendant.

Where a defendant is arraigned, and it becomes necessary for him to plead that at another trial he was acquitted or convicted of the same charge, great nicety must be observed in setting out his plea. An enactment that "in any plea of *autrefois acquit* or *autrefois convict* it shall be sufficient for the defendant to state that he has been lawfully convicted or acquitted, as the case may be, of the offense charged in the indictment," will simplify the plea and relieve the defendant from all technical embarrassments.

The act of June 8, 1872 (section 819, Revised Statutes), specifies the number of peremptory challenges that shall be allowed. In treason and capital cases defendants are allowed twenty peremptory challenges and the Government five. In felonies the defendant is allowed ten challenges, and the Government three. In all other cases, civil and criminal, the defendant and the Government are each allowed three challenges. By the act of February 22, 1867 (section 838, Revised Statutes, relating to the District of Columbia), in cases where the punishment may be confinement to the penitentiary or District jail, the defendant, on trial in the District of Columbia, is allowed four peremptory challenges. In treason and capital cases, allowing a defendant twenty peremptory challenges, and limiting the Government to five, is similar to the legislative enactments in the different States, and is a wise and humane provision in the law.

The allowance of ten challenges to a defendant in cases of felonies has given rise to serious doubts and indecisions. As the courts of the United States outside of the District of Columbia have no common law jurisdiction, and as Congress has never defined what offenses are felonies, or what cases are to be considered as within the meaning of this section, the question is still the subject of doubts and discussions, and never has been satisfactorily adjudicated. In the District of Columbia where all general laws of Congress apply, unless they are otherwise inapplicable, the question

is more complicated. In the District of Columbia for an offense which at common law was a felony, and which is not by act of Congress made a capital offense, the punishment is necessarily confinement in the penitentiary or District jail; so that when a defendant is charged in the District of Columbia with committing an offense which at common law was a felony, it is an open question whether he is allowed the right which he would seem to possess in other courts of making ten challenges, or under the provisions of the act of February 22, 1867, he is limited to four. But in any event, the Government stands in the anomalous position of possessing less right in its courts in the District of Columbia than it possesses in any of its courts elsewhere.

In the absence of any law upon the subject, the manner of conducting the challenges and impaneling juries is wholly in the discretion of the court. It is a general subject of complaint among lawyers who are called into various courts, that the difference which exists in the practice of the several courts, in the matter of peremptory challenges, subjects them not only to great annoyance, but often leaves them in danger of losing the right which the law has granted to the defendant whom they represent. The same complaints are made in reference to challenges for cause. In some of the courts, a juror, when challenged for cause, is interrogated by the judge alone; in others the counsel are permitted to make the examination; while in most of the courts the causes of the challenge must be assigned in writing, and thereby much time is lost in the trial. Another cause for controversy is, when prisoners are jointly indicted, whether they can demand separate trials, and whether when jointly tried each defendant shall have separate peremptory challenges, or they shall all be considered as one person with only the challenges that one person is allowed. All the doubts and difficulties which are here enumerated could easily be obviated by the passage of a law providing a uniform and comprehensive system of challenges.

In the early stages of a case, with the limited testimony then before him, the counsel for the Government is often in doubt whether an offense was actually committed, or that there was only an attempt to commit the offense. If the indictment charges the commission of the offense, the evidence at the trial may fail, and disclose only an attempt, which would entitle the defendant to an acquittal. On the other hand, if the defendant is charged in the indictment with an attempt, and the evidence shows the actual commission of the offense, in cases of felonies, the attempt would merge in the felony, and the defendant would escape; and now that defendants are allowed to testify in their own behalf, where a defendant is indicted for an attempt to commit a felony, it will be a strange omission in the law that will enable him to take the witness stand to swear that he actually committed the offense and thus escape punishment. An act permitting the defendant to be indicted for the actual commission of the offense, "and at the trial, if the evidence shows that there was only an attempt, the jury may find that the defendant is not guilty of the offense charged, but is guilty of an attempt to commit the same," would remove all difficulties that now exist.

Questions frequently arise as to the competency or credibility of witnesses who are entitled, in the event of the conviction of a defendant, to compensation or reward by reason of any loss or damages sustained, or for the arrest or apprehension of the defendant. A law should be passed making all such persons competent witnesses.

With all the caution and care that can be exercised by a watchful court and competent officers, it sometimes happens that there is an error or defect either in the precept issued from the court, or in the process issued for the summoning or returning of jurors, or in drawing, summoning, or returning jurors. Such errors or defects can be taken advantage of even after the trial. Where there has been a fair trial on the merits, before an impartial jury who are otherwise competent, a mere technical error or defect, such as above stated, should not be permitted to be used to set aside the verdict of the jury.

With a view to remedy the several evils, omissions, and defects which have been referred to, and that a plain and concise criminal procedure may be enacted as gene-

ral laws for the courts of the United States, the following forms have been carefully selected and are respectfully submitted for adoption:

Every indictment and information shall be deemed and adjudged sufficient and good in law which charges the crime substantially in the language of the act prohibiting the crime, and prescribing the punishment, if any such there be, or so plainly that the nature of the offense charged may be easily understood by the jury.

In any indictment for forgery, uttering, stealing, embezzling, destroying or concealing, or obtaining by false pretences, any instrument, it shall be sufficient to describe such instrument by any name or designation by which the same may be usually known, or by the purport thereof, without setting out any copy or *fac-simile* thereof, or otherwise describing the same, or the value thereof.

In all other cases whatsoever in which it shall be necessary to make any averment in any indictment or information as to any instrument, whether the same consists wholly or in part of writing, print, or figures, it shall be sufficient to describe such instrument by any name or designation by which the same may be usually known, or by the purport thereof, and in such manner as to sufficiently identify such instrument without setting out any copy or *fac-simile* of the whole or any part thereof.

In any indictment for murder or manslaughter it shall not be necessary to set forth the manner in which, or the means by which, the death of the deceased was caused, but it shall be sufficient in every indictment for murder to charge that the defendant did feloniously, willfully, and of his malice aforethought kill and murder the deceased; and it shall be sufficient in every indictment for manslaughter to charge that the defendant did kill and slay the deceased.

In every indictment for stealing property it shall be lawful to add a count for receiving the said property, knowing it to have been stolen; and in any indictment for receiving property, knowing it to have been stolen, it shall be lawful to add a count for stealing said property; and it shall be lawful for the jury trying the same to find a verdict of guilty either of stealing the property or of receiving the same, knowing it to have been stolen; and if such indictment shall have been preferred and found against two or more persons, it shall be lawful for the jury who shall try the same to find all or any of the said persons guilty of either stealing the property or of receiving it, knowing it to have been stolen, or to find one or more of the said persons guilty of stealing the property, and the other or others of them guilty of receiving it, knowing it to have been stolen.

If any person shall become an accessory before the fact to any offense made a felony by virtue of any act of Congress now in force or that may be hereafter in force, such person may be indicted, tried, convicted, and punished in all respects as if he were a principal felon.

It shall be lawful for any court, if such court shall see fit so to do, to cause the indictment for any offense, except in cases of treason and where the punishment is death, when any variance or variances shall appear between any matter in writing or in print produced in evidence and the recital or setting forth thereof in the indictment whereon the trial is pending, to be forthwith amended in such particular or particulars by some officer of the court, and after such amendment the trial shall proceed in the same manner in all respects as if no such variance or variances had appeared.

If, on the trial of any indictment or information, except in cases of treason and where the punishment is death, there shall appear to be any variance between the statement of such indictment or information and the evidence offered in proof thereof, in the name of any place mentioned or described in any such indictment or information; or in the name or description of any person or persons or body politic or corporation therein stated or alleged to be the owner or owners of any property, real or personal, which shall form the subject of any offense charged therein; or the name or description of any person or persons, body politic or corporate therein stated or alleged to be injured or damaged, or intended to be injured or damaged, by the commission of such offense; or in the Christian name or surname, or both Christian and surname

or other description whatsoever, of any person or persons whomsoever therein named or described; or in the name or description of any matter or thing whatsoever therein named or described; or in the ownership of any property named or described therein, it shall and may be lawful for the court before whom the trial shall be had, if it shall consider such variance not material to the merits of the case, and that the defendant cannot be prejudiced thereby in his defense upon such merits, to order such indictment or information to be amended, according to the proof, by some officer of the court, both in that part of the indictment or information wherein said variance occurred, and in every other part of the indictment or information in which it may become necessary to amend, and after such amendment the trial shall proceed in the same manner in all respects, and with the same consequences, as if no variance had occurred. And every verdict and judgment which shall be given after making such amendment shall be of the same force and effect in all respects as if the indictment or information had originally been in the same form in which it was after such amendment was made.

In all cases of treason, and where the punishment is death, the prisoner shall be arraigned. In all other cases no formal arraignment or reading of the indictment or information to the prisoner shall be necessary, but it shall be sufficient to state to the prisoner the substance of the charge laid in the indictment, under the direction of the court. Where any person, on being so arraigned, shall plead not guilty, every such person shall be deemed and taken to put himself upon the inquest or country for trial, without any question being asked of him how he will be tried, and the inquest shall be charged only to inquire whether he be guilty or not—guilty of the crime charged against him, and no more. If any prisoner shall, upon his arraignment for any offense with which he is indicted, stand mute or not answer directly, or shall peremptorily challenge above the number of persons summoned as jurors for his trial to which he is by law entitled, the plea of not guilty shall be entered for him on the record, the supernumerary challenges shall be disregarded, and the trial shall proceed in the same manner as if he had pleaded not guilty and for his trial had put himself upon the country.

Every objection to any indictment or information for any formal defect, apparent on the face thereof, shall be taken by demurrer, or on motion to quash such indictment or information, before the jury shall be sworn, and not afterward; and every court before whom any such objection shall be taken, for any formal defect, may, if it be thought necessary, cause the indictment or information to be forthwith amended in such particular by the clerk or other officer of the court, and thereupon the trial shall proceed as if no such defect had appeared.

In any plea of *autrefois acquit*, or *autrefois convict*, it shall be sufficient for any defendant to state that he has been lawfully acquitted or convicted, as the case may be, of the offense charged in the indictment or information.

On the trial of any indictment for treason or other capital case the accused shall have the right to challenge peremptorily twenty of the jurors, and the Government shall have the right to challenge peremptorily five of the jurors. The challenges shall be so arranged, under the direction of the court, that the defendant shall have the right to make the last challenge; and every peremptory challenge beyond the number allowed by law shall be entirely void, and the trial shall proceed as if no such challenge had been made. The jury-box shall be filled before either party shall be called upon to exercise the right to challenge, and after all the challenges have been made the jurors shall be sworn to try the indictment.

On the trial of all indictments or informations, except for treason or other capital cases, the Government shall be at liberty to challenge, peremptorily, four of the jurors, and the accused shall be at liberty to challenge, peremptorily, four of the jurors; and every peremptory challenge beyond the number allowed by law shall be void and disregarded by the court. The peremptory challenges shall be conducted as follows, to wit: When twelve jurors have been called and have taken their seats in the jury-

box, the Government shall challenge one person, and another juror shall be called and seated in the jury-box in the place of the person so challenged; then the defendant shall challenge one person, and another juror shall be called and seated in the jury-box in the place of the person so challenged, and so, alternately, until all the challenges shall be made; but if either party shall refuse to make a challenge when in turn entitled to make one, such party shall be deemed to have waived their right in that one instance; and if either party shall refuse to make any challenge, the other party shall, nevertheless, have the right to challenge the full number allowed by law. After all the challenges shall have been made, the jurors shall be sworn to try the indictment or information.

Challenges for cause may be made at any time before the jurors are sworn to try the indictment or information. The cause shall be assigned orally, and the truth of such cause shall be inquired of and determined by the court; but the counsel for the Government and the counsel for the accused shall each have the right to interrogate the person so challenged concerning his qualification to serve as a juror.

In all cases in which two or more persons are jointly indicted for any offense, it shall be in the discretion of the court to try them jointly or separately, except that in cases of treason and where the punishment is death the parties charged shall have the right to demand separate trials; and in all cases of joint trials the accused shall be considered as one person, and shall have the right to the number of peremptory challenges to which one would be entitled if separately tried, and no more.

If on the trial of any indictment or information, except for treason and where the punishment is death, it shall appear to the jury upon the evidence that the defendant did not complete the offense charged, but was guilty only of an attempt to commit the same, such person shall not by reason thereof be entitled to be acquitted, but the jury shall be at liberty to return as their verdict that the defendant is not guilty of the offense charged, but is guilty of an attempt to commit the same; and thereupon such person shall be liable to be punished in the same manner as if he had been convicted of the particular offense charged in the indictment or information; and no person so tried as herein lastly mentioned shall be liable to be afterward prosecuted for an attempt to commit the offense for which he was so tried.

No person shall be deemed and adjudged an incompetent witness on the trial of any indictment or information for or by reason of such person being entitled, in the event of the conviction of the defendant, to a restitution of his property taken, or the value thereof, or, if fraudulently obtained, to a pecuniary remuneration or compensation therefor, or to a remuneration or reward for the arrest or apprehension of the defendant.

No verdict in any criminal court shall be set aside, nor shall any judgment be arrested or reversed, nor sentence delayed, for any defect or error in the precept issued from any court or in the venire issued for the summoning and returning any juror or panel of jurors; but a trial, or an agreement to try on the merits, or pleading guilty, or the general issue in any case, shall be a waiver of all errors and defects in, or relative or appertaining to, the said precept, venire, drawing, summoning, and returning of jurors.

In England, and in most of the States, laws similar to the ones above suggested have been adopted, and after being in force for more than a quarter of a century are commended by the bench and the bar as valuable aids in securing a fair and impartial administration of justice. (Report of the Attorney-General, 1884.)

PERJURY.

While the Treasury Department seems to have been well protected by laws designed to prevent and punish the use of false affidavits concerning the business in that Department, the other Departments of the Government, particularly the Post-Office Department, have not been so fortunate.

By act of Congress the head of each Department is allowed to prescribe rules and regulations for the conduct and management of the business of his Department. Under this authority rules and regulations have been prescribed in each of the Departments, and these rules and regulations have the full force and effect of laws. The Postmaster-General, when called upon to exercise a discretion in diminishing or increasing the service and prescribing the pay to be allowed to the contractor for such increase or diminution, is compelled to rely mainly upon the statements of the contractor, made under oath, to guide him in this respect. An affidavit may now be furnished to the Postmaster-General false in every particular, and upon the strength of which oath the Postmaster-General may make an order whereby the Government may be defrauded of a large amount of money; yet it is doubtful whether the person making such false oath commits any offense against the present laws of the United States. (Report of the Attorney-General, 1884.)

In order that there may be no doubt upon this subject, and to provide a sufficient protection for the post-office and all other Departments in this regard, and to extend the offense of perjury to false evidence given before any commission or commissioner, I respectfully suggest, as my predecessor did, that section 5392 of the Revised Statutes of the United States should be amended so as to read (the parts supplied being in brackets):

SEC. 5392. Every person who, having taken an oath before a competent tribunal [commission, commissioner,] officer, or person in any case in which a law of the United States [or any rule or regulation prescribed by the head of any Department of the Government of the United States] authorizes an oath to be administered, that he will testify, declare, depose, or certify truly, or that any written testimony, declaration, deposition, or certificate by him subscribed is true, willfully and contrary to such oath states or subscribes any material matter which he does not believe to be true, is guilty of perjury, and shall be punished by a fine of not more than two thousand dollars, and by imprisonment at hard labor not more than five years; and shall, moreover, thereafter be incapable of giving testimony in any court of the United States until such time as the judgment against him is reversed.

CODE OF LAWS FOR THE DISTRICT OF COLUMBIA.

The laws for the prevention and punishment of crimes and regulating civil matters in the District of Columbia are supplied from different sources. All of the general laws of Congress, not otherwise inapplicable, are in force in the District. Congress has, from time to time, passed laws relating to the District of Columbia, and also, by the act of February 22, 1801 (section 92 of the Revised Statutes, relating to the District of Columbia), the laws of the State of Maryland as the same existed on the 27th day of February, 1801, except as since modified or repealed by Congress, continue in force within the District. In addition, the Territorial legislature, while it existed, passed some laws, and the levy court and the councils in Washington and Georgetown have each contributed in this direction.

In passing general laws Congress has depended upon the local State laws to supply deficiencies that would otherwise have been provided for. In passing special law for the District of Columbia much dependence has been placed upon the laws of Maryland to provide a proper criminal code for the District.

Where Congress has failed to define or provide a punishment for what should be a crime in the District, recourse is mainly had to the laws of Maryland, most of which existing prior to February 27, 1801, have since been repealed, altered, or amended.

A number of attempts have heretofore been made to secure the adoption by Congress of a general code of laws for the District, but the efforts have failed. On December 4, 1879, a letter was forwarded to the Senate by the Commissioners of the District, at the second session of the Forty-sixth Congress, recommending the adoption of a code which accompanied the letter. It was referred to the Committee on the District of Columbia, but was never adopted. Then, on the 11th of January, 1881, an act was introduced in the House of Representatives, at the third session of the Forty-sixth Congress, which was reported to the House, but failed in its passage. Again, on the 11th of January, 1882, another bill to establish a municipal code for the District was introduced at the first session of the Forty-seventh Congress. This last bill passed the House of Representatives, was sent to the Senate, and there failed in its passage. (Report of the Attorney-General, 1884).

I think, as the former Attorney-General did, that in view of the facts above stated, there seems to be an imperative necessity for the prompt adoption of a civil and criminal code for the District of Columbia.

JURIES IN THE DISTRICT OF COLUMBIA.

There is just cause of complaint against the manner of selecting juries in the District of Columbia.

By act of June 30, 1879, chapter 49 (Supplement, page 497), Congress provided a mode of selecting and drawing jurors, which no doubt was intended to apply to all courts in the United States; but it has been decided, and properly, too, that the act does not apply to the District of Columbia. The laws which are now supposed to be in force in the District regulating the selecting, drawing, and summoning of jurors have been passed in the years 1838, 1862, 1865, and 1871, and are found in sections 851 to 875 of the Revised Statutes relating to the District of Columbia. An analysis of the system there provided will demonstrate its many defects. "The supreme court of the District may, by orders in general term, from time to time, designate necessary officers or persons to make the list of jurors." This is a commendable feature, as it secures that faithful and conscientious exercise of a discretion which courts always exercise, and the appointment of honest and competent persons. In January of each year five citizens are designated by the court, who are called jury commissioners.

That the duties to be performed by the persons so designated are onerous and unsatisfactory is no fault of theirs. The law requires them to make a list of jurors from the names of citizens and residents of the District, who are competent, and who are not by law exempt from jury duty, and prescribes that—

"No person shall be competent to act as a juror unless he is a citizen of the United States and resident of the District, over twenty-one and under sixty-five years of age, and a good and lawful man, who has never been convicted of a felony or other misdemeanor involving moral turpitude."

Those exempt from jury duty are people whose names have been drawn from the box within the preceding two years, and officers and persons in the employ of the Government of the United States, commissioners of police, those connected with the police and fire departments, counselors and attorneys at law, ministers of the gospel, priests of every denomination, practicing physicians and surgeons, keepers of hospitals, asylums, almshouses, and other charitable institutions, captains, masters, and persons employed on vessels, and keepers of public ferries. Besides, there are a large number of people who carry on business, or who own or rent houses and live with their families during the greater part of the year in the District, and yet claim a home and citizenship elsewhere. To become a citizen of the District is to lose the right to vote in any other place, and this matter of temporary residence is so well understood that the question asked by one acquaintance casually meeting another in the streets or houses in Washington is not "Where do you reside?" but, invariably,

'Where are you stopping?" This large class of intelligent and desirable residents, unfortunately, are also exempt from jury duty. In the District there is no official list, or list of voters, or assessor's list of taxable inhabitants, such as is found elsewhere, and the jury commissioners are therefore compelled to depend upon their own knowledge, or in whatever other way they may find it to be possible to obtain the necessary information. After selecting the five hundred and twenty names required (in the absence of any law upon the subject) in the month of February in each year, the names are copied on separate slips of paper, which are rolled up, placed in the jury-box, the box is sealed, shaken up, and given into the custody of the clerk of the court.

The judges of the supreme court of the District are required to assign one of their number to hold the criminal court during the ensuing year, beginning in the month of March, and as there are seven judges upon the bench in the supreme court, each of the judges should be assigned to hold a criminal court only once in seven years, unless, in rare instances, where there is a press of business a judge may be assigned to hold a special court.

There are three terms in the criminal court, beginning, respectively, on the first Monday of March, the third Monday of June, and the first Monday of December in each year.

By one provision in the law, at least ten days before the commencement of each term the clerk "shall publicly break the seal of the jury-box and proceed to draw therefrom the names of so many persons as are required;" but where, in whose presence, or under whose directions this important public duty is to be performed is not specified in the law, and the clerk draws the jury in his office.

By another provision, "if any person whose name is drawn shall have died or removed from the District, or become otherwise disabled from serving as a juror, the clerk shall draw from the box another name to serve instead"—a positive command is given to the clerk, coupled with judicial power in its execution. When it is remembered that the clerk does not know what names are in the box, or which of them he is going to draw out; that the 520 names are selected from a population of over 180,000, and the improbability of the clerk having any personal knowledge of the death, removal, or dis bility of the persons whose names he draws, and his inability to cease drawing in order to make inquiries, it will be perceived that the law imposes upon the clerk a duty which it is impossible for him to perform, which he is compelled to disregard, and, by so disregarding it, raises a doubt as to the regularity of his proceedings.

The method of drawing jurors for the civil and criminal courts is the same. If the jury is intended for service in the criminal court, the twenty-three persons whose names are first drawn constitute the grand jury, and the twenty-six persons whose names are next drawn constitute the petit jury for that term. After the requisite number of jurors have been drawn the box is again sealed and remains in the custody of the clerk. The jurors are summoned by the marshal, who is required to make a return to the court of the names of the persons summoned; how the summons was served, with a copy of the summons served upon each person. Whether any neglect or omission on the part of the marshal in performing his duties would be a fatal defect would depend upon the nature of such neglect or omission.

On the first day of the term it is usually found that about two-thirds of each set of jurors answer to their names, the marshal having been unable to find the other one-third. The first business in order is for the court to hear the various excuses offered by the jurors who have been summoned and who desire to be relieved from duty At this point it is proper to direct attention to the extraordinary fact that service as a juror in the District means an enforced attendance at court and almost total abandonment of private business for one-fourth of the whole year, a hardship and injustice that is not imposed upon citizens in any other place in the United States, and would not be tolerated in any community where the people have a voice in fram

ing their own laws. By one of the sections in the law a person may be excused by the court from serving on a jury when, for any reason, his interests or those of the public will be materially injured by his attendance, or where his own health or the death or sickness of a member of his family requires his absence. Continuous absence and neglect of business for three months in the year would materially injure the interests of any business man, and a respectable physician would readily certify that attendance for that length of time in a crowded court-room would be injurious to the health, so that the court is reluctantly compelled to excuse from service the very men who, of all others, are best qualified to intelligently aid and assist in the administration of justice. Added to those who are thus excused there are always found among the jurors several who, although their names were placed in the jury-box and they have responded to the summons, are in public employment, and therefore exempt.

When the court has passed upon the various claims to be excused and exempted there will remain, probably, one-half of the number of jurors required by law, and before proceeding with the trials of cases the attendance of the full number must be secured. The way in which the required number is to be selected is not clearly defined by the law, which is interpreted by each judge according to his own view. Some of the judges cause the jury-box to be again opened and the requisite number of names drawn out; others direct the marshal to summon talesmen; but both ways have been held to be proper. In selecting talesmen the marshal may summon a man or men from among the bystanders in the court, persons passing along the public streets, or from any of the stores, banks, counting-houses, offices, hotels, or residences in the city. In selecting talesmen another great hardship is imposed upon the person so summoned. When a name is drawn from the jury-box in the first instance, the person whose name is so drawn receives a reasonable notice that his services will be required, and is thus enabled to arrange his business that it may not suffer by his absence; but to suddenly and unceremoniously take a man from his residence or off the street, a merchant from his store, or a clerk or bookkeeper from his bank or counting-house is an arbitrary act of injustice, which, although practiced at the beginning of the present century, is totally inexcusable at this time; and it is very doubtful whether a person so summoned, if compelled to serve, has his mind sufficiently free from care and anxiety about his own business to intelligently adjust and decide the differences existing in the affairs of others. When the additional jurors appear in court their excuses are also heard, and, if any are excused, others are summoned in their place, and so on until, after the expiration of from one to three days, and in some instances even longer, the court has secured twenty-three grand jurors and twenty-six petit jurors who are either willing to serve or have failed to show a sufficient cause to be excused.

If the method adopted for selecting and procuring a jury is primitive, inefficient, and censurable, the result attained by that method cannot be sufficiently condemned. In most of the courts of the United States, according to the character and gravity of the cases to be tried, from forty-eight to sixty jurors are summoned, who serve for two or three weeks. It is doubtful if there can be found in any of the States a county where at least thirty-six jurors are not summoned to try the petty police and quarter-sessions cases, and for the higher courts and the trial of the higher grades of offenses from sixty to eighty jurors. But in the District of Columbia, with its large and rapidly increasing population, with the abundance of wealth and the extreme of poverty, with all the inducements and opportunities for the commission of crimes, there is not one of these crimes, from the highest to the lowest, if tried at all, that must not be tried before the miniature jury of twenty-six persons. When the dock is filled with prisoners waiting to be tried, if one case is called, tried, and the jury retire to deliberate, and another case is called, the jury placed in the jury-box, and the prisoner exercises three out of his four peremptory challenges, the court is left without a jury. In this dilemma the trial must stop, the business is suspended until the absent jury returns into court, or, as is usually done, the court will order the marshal

to summon more talesmen to serve in that one case. If two juries are deliberating at the same time, the court must take a recess.

In murder and other capital cases the prisoner is allowed twenty peremptory challenges, leaving only six of the original jurors to serve, so that after the fourteenth, if the prisoner makes another challenge, the box must be opened, a new name drawn out, the person summoned, and his excuses heard; if he is excused, then another name is drawn, that person is summoned, and his excuses heard. The same course is pursued when every other of the remaining challenges is made, and in this way the selection of a jury becomes a business of almost interminable length and a source of annoyance and inconvenience to all who may be called upon to take any part in it.

It is the subject of belief and common report that the business of "jury fixing" flourishes to an alarming extent in the District. It is asserted that men live, support their families, and even become rich in the practice of this nefarious profession. Such a practice or profession exists to some extent in nearly every large city under the best-devised jury systems, and notwithstanding the care, attention, and safeguards thrown around the juries to prevent their being tampered with. But, as the jury system now exists, that unscrupulous men should safely conduct a lucrative business in debauching juries in the District should occasion no surprise. With but twenty-six jurors such as usually serve, an active jury-fixer would become acquainted with at least two or three of them in a few hours, and that would give him a strong beginning in his efforts to thwart justice. With but twenty-six jurors, serving for three months, it would not require one-third of that time for the combined force of jury-fixers to become thoroughly acquainted with the habits, associations, character, and business of each juror, and the influences, if any, that could be used to reach him and bring him within their power. Then, again, what is there to prevent one or more well-dressed and apparently respectable looking rogues placing themselves in the way of the marshal or his deputies, to be brought into court as talesmen, and serving upon the juries to acquit their friends or confederates? Such devices, unhappily, are not unknown in the District, and others could be enumerated, and will naturally suggest themselves, after a careful consideration, but enough has been shown to demonstrate the fact that unnecessary responsibility is placed upon officers who, although acting from the purest and most conscientious motives, are liable at any time to censure and reproach, and that the court and prosecuting officer should not any longer be compelled to struggle with the limited machinery placed at their disposal. (Report of the Attorney-General, 1884.)

It is recommended, as in the report just quoted, that, in the interest of justice and as a matter of economy, the number of jurors should be increased to forty-eight, that the time of service should be reduced to one month, that where a deficiency exists in the jury that deficiency should be supplied from the box, and that an improved system of drawing, selecting, and summoning juries should be adopted without delay.

SPECIAL JURORS IN THE DISTRICT OF COLUMBIA.

Independent of those crimes committed in the District of Columbia, which are for offenses affecting the citizens of the District alone, there are others of a public character which are against the whole people of the United States. A broad line of distinction must be drawn between these two classes. The National Government is in Washington, with the Treasury and the other Departments, and the numerous officers there employed in the conduct and management of public business. Temptations are frequently offered and plots devised to corrupt these officials, and the efforts are sometimes successful. A person in the employ of the Government who betrays his public trust commits a crime against the United States. When that crime is perpetrated within the District, past experience proves that he should be tried before a jury other than that engaged in the trial of the local crimes committed in the District.

The National Treasury is the great center of allurement and temptation. Inroads are made upon it through all avenues by which it can be approached. Every device which human ingenuity can contrive is resorted to, and perjury, forgery, and all crimes necessary, are unhesitatingly committed to reach the Treasury and despoi. the public money. The constant zeal and care of experienced Government officials, in every Department, are required to prevent those vile plans being carried out. The effort on one side is to steal the money of the people, on the other hand to prevent it; but with all the care and attention which honest and competent public servants can exert bad men are sometimes successful. Laws have been passed by Congress broad enough to make every fraud or attempted fraud upon the Government a crime to be severely punished. The one great difficulty now encountered is the want of a proper jury system with which to enforce these laws.

All plans to defraud the Government, or to steal from the public Treasury, no matter where contrived, are mostly consummated in Washington, and when the guilty parties are arrested their trial must of necessity take place before a jury drawn in the District. The arrest of one set of defendants brings to them the sympathy and active aid of all others who are engaged in similar schemes. If the defendants are wealthy, as is often the case, by a liberal expenditure of money they secure the acquaintance and friendship of prominent men who are of a social disposition, and whose open and public association and companionship with the defendants is not without its helpful effect. When the case is called for trial the Government stands alone, and opposed by many disadvantages, while the defendants, aided not only by their wealth, the encouragement and influence of their friends, but by a certain feeling of indifference which seems to prevail in Washington concerning such crimes, are permitted to depart from the court-room triumphing in their acquittal, escaping punishment, and scandalizing the administration of justice. Such has been the case before and such will occur again, so long as the national Treasury is confided solely to the protection of local juries.

It is not easy to determine what method to adopt for the trial of these public cases, as any change will be objected to because it may increase expense. Change of venue and special or struck juries have been adopted elsewhere to secure protection from a failure of justice because of the defects of local juries, and both methods, wherever existing, are commended. It is of the utmost importance that either or both methods should prevail in the District.

If a change of venue could be accomplished by certifying the indictment and proceedings for trial in such other judicial district where the greatest number of witnesses reside, or where, in the discretion of the court, a trial may be had with the least inconvenience and expense to the Government and the defendants, some relief would be afforded.

It may be objected that such a remedy is beyond the constitutional power of Congress; but as the offenses in question are not committed within any State, the trial may be at such place or places as Congress may by law direct (Art. 3, sec. 2, par. 3), and this apparently is not affected by the sixth amendment (United States *vs.* Dawson, 15 How., 467).

See also United States *v.* Jackalow, 1 Black, 484.

Congress has exercised this power when deemed expedient (Statutes, 1834, chapter 161; 1844, chapter 103; 1868, chapter 273), and with the highest judicial sanction, as is shown by the authorities just cited.

How far Congress may go in such legislation it is needless to discuss here. If in its judgment the due administration of justice in such cases requires a modification of the present system of trial, its wisdom will devise a sufficient remedy. It may nevertheless be of service to suggest that a method analogous to those pursued in the legislative precedents mentioned would perhaps be most approved, and this is in substance, by annexation or otherwise, to invest the nearest adjacent competent tribunal with jurisdiction.

I submit that the desired end might be attained by extending (in such form and under such limitations as may be advisable) the jurisdiction of the United States circuit and district courts for the judicial district of Maryland, so as to include the cognizance of crimes committed in the District of Columbia. By this the circuit and district courts in that judicial district would have original jurisdiction over all crimes committed in the District of Columbia which are offenses against the general laws of the United States, and their jurisdiction would be concurrent with that of the courts in the District of Columbia, so that the prosecutions and trials could be proceeded with in either courts. The advantages to be derived are, that where the trials take place in the circuit or district court in Maryland, the jury would be drawn, in the manner now prescribed by law, from the people of the entire State of Maryland, and the chances of obtaining an impartial jury would be greatly increased.

The details are as follows:

The original jurisdiction of the circuit and district courts of the United States in and for the judicial district of Maryland is hereby extended and enlarged, so that the same shall extend to and include all offenses against the general laws of the United States committed in the District of Columbia. And whenever any offense shall have been committed in the District of Columbia which if committed in the State of Maryland would be triable in the circuit court of the United States in and for the judicial district of Maryland, the defendant or defendants may be indicted, tried, convicted, and sentenced in the circuit court of the United States in and for the judicial district of Maryland. And whenever any offense shall have been committed in the District of Columbia which if committed in the State of Maryland would be triable in the district court of the United States for the judicial district of Maryland, the defendant or defendants may be indicted, tried, convicted, and sentenced in the district court of the United States for the judicial district of Maryland: *Provided*, That nothing herein contained shall deprive the supreme court of the District of Columbia, or other courts of the District of Columbia, of jurisdiction for the trial of offenses against the United States committed in the District of Columbia: *And provided further*, That, for the sole purpose of carrying this act into effect, the District of Columbia be, and the same is hereby, included within the judicial district of Maryland.

Indictments and informations may be removed from the courts of the District of Columbia for trial in the circuit court of the United States or in the district court of the United States in and for the judicial district of Maryland, in whichever of the said courts the offense charged in the indictment or information may by law be triable. Whenever an indictment shall have been found or information filed in any of the courts of the District of Columbia, charging any person or persons with the commission of an offense which by law is triable in the circuit court or the district court of the United States in and for the judicial district of Maryland, and the Attorney-General of the United States, before the first or any subsequent trial thereof, shall certify that the interests of justice require that the indictment or information shall be removed from the supreme court of the District of Columbia to the circuit court of the United States (if the offense charged in the indictment is by law triable in the said circuit court), or to the district court of the United States (if the offense is by law triable in the said district court), as the case may be, and the justice holding the criminal term of the supreme court of the District of Columbia or other court shall be satisfied that the offense charged in the indictment or information is a violation of one of the general laws of the United States, the justice shall make an order that the record and the indictment or information and all proceedings thereunder shall be certified to the circuit court of the United States for the judicial district of Maryland (if the offense charged in the indictment is by law triable in the said circuit court), or to the district court of the United States for the judicial district of Mary land (if the offense charged in the indictment is by law triable in the said district court), as the case may be, for trial. And every indictment or information so certi-

fied to the said circuit court or to the said district court shall be proceeded with to trial, conviction, and sentence in the same manner and to the same effect as if the prosecution had been commenced and the indictment or information had been criminally found by the grand jury in the court to which the indictment or information shall be certified. (Report of the Attorney-General, 1884.)

THE JAIL AT FORT SMITH, ARK.

The United States court for the western district of Arkansas has criminal jurisdiction, in addition to those counties of the State comprised in said district, over that part of the Indian Territory set apart and occupied by the Cherokee, Choctaw, Chickasaw, Creek, and Seminole Indians, and it therefore happens that a large number of prisoners are held at Fort Smith. These are confined in what is commonly dignified by the title of the "United States jail," but which is in reality little better than a pen, in which white, Indian, and negro prisoners are indiscriminately huddled, with no arrangement for separation from each other, and with none of the conveniences of modern prisons, such as hospital facilities, proper ventilation, &c. The place is, however, as its name indicates, the *United States jail*, and is under the exclusive control of the Government, to which, it must be admitted, it is a standing reproach. The expenses of its management are all paid by the Government, and it is under the immediate supervision of the United States marshal. This officer has done the best he could with the materials at hand, and it is not his fault that he is the nominal warden of the most miserable prison, probably, in the whole country.

The jail consists of two rooms, partially under ground, with barred doors and windows, but with no cell arrangements whatever. The rough stone floors are damp, and the air is fetid in spite of the plentiful use of lime and whitewash, as indeed, it must be, where fifty or more prisoners are confined, the sick and the well together, in a small space almost utterly devoid of any of the modern sanitary appliances. It is not surprising, therefore, that the reports of the Detroit house of correction, in which United States prisoners sentenced from the western district of Arkansas are confined, are said to show that many of the deaths in that institution are among those convicts who were held in jail at Fort Smith previous to their trial and sentence.

Not only is the health of these prisoners almost certain to be impaired or ruined by this mode of imprisonment, but it is manifestly unjust and cruel to confine detained witnesses and boys charged with minor and first offenses in the same room with murderers and outlaws Yet here this state of things exists, and is unavoidable under present circumstances.

The attention of Congress has been repeatedly invited to this subject in former reports of this Department, but without result, and I am now anxious to make the urgent necessity for immediate action fully

I therefore most earnestly repeat the recommendations of my predecessor, that Congress make provision for the building, by the Government, of a suitable jail at Fort Smith, in which the United States prisoners may be confined in a proper and humane manner. Such a building can be erected, if deemed expedient, partially or wholly by prison labor, as these prisoners are confined in abject idleness, and might be employed in the work with advantage to the Government and decided benefit to themselves.

JAIL, DISTRICT OF COLUMBIA.

The District jail is, in many respects, a model institution, the building having been constructed after the most approved plans, and being, so far as cell arrangements, ventilation, &c., are considered, all that can be desired. With regard to its general management, however, I am of the opinion that the present plan can be improved upon.

Under existing arrangements the jail affairs are not under the entire charge of any *one* person, and it is, therefore, difficult to fix responsibility for its management. The Department of Justice examines and passes upon all bills for the expense of conducting it, including the cost of subsistence, fuel, medicines, and all supplies, as well as the payment of the salaries of officers and employés. But it has nothing whatever to do with the purchasing of these supplies, nor with the employment of the force engaged upon the premises; it acts simply as the paymaster, and settles bills already incurred.

To remedy this state of things, I recommend that the institution be placed under the control of some one authority or head, who shall not only be empowered with supervisory control as to its expenses, but who shall also be held responsible for the efficiency and conduct of its officers and employés. I believe that in this way the institution could be more satisfactorily conducted, and with greater benefit to the community, as well as with a considerable saving to the Government. Some one person or Department should have sole charge and be alone responsible for its entire management.

As far as possible careful attention has been paid by this Department to the expenses of the jail during the past year; the total, however, falling but very little below that of 1884.

Exhibit Q is the report of the warden and other officers of the jail for the year ended October 31, 1885.

REFORM SCHOOL, DISTRICT OF COLUMBIA.

The report of the trustees of the Reform School of the District of Columbia sets forth the necessity for increasing the capacity of the school. The present buildings are not large enough to accommodate the number of offenders who should be sent there. This is a matter that I think should be provided for now, and I recommend that an appropriation be made for the improvements asked for by the trustees.

I recommend also such legislation as will permit this school to be designated as the place of confinement for juvenile offenders from convenient districts outside the District of Columbia.

I think it would be well to have a representative of this Department on the board of trustees, and recommend therefore that the chief clerk of the Department of Justice be made *ex officio* a trustee.

INSANE CONVICTS.

I would respectfully call the attention of Congress to the recommendations made by my predecessor concerning the question of insane convicts, which are as follows:

By the act of June 23, 1874, the Attorney-General was authorized to contract with State asylums for the care and custody of any person who should become and be insane while under the sentence of a United States court. The law upon this subject is too restricted to allow those provisions for the insane which humanity requires. The contract and payment for such care beyond the term of imprisonment is not provided for, and on this account local institutions decline to receive prisoners who were convicted in another State than that wherein such institution is situated. Additional legislation is required to enable the Attorney-General to return such prisoners, after the expiration of their sentences, to their friends or the place of conviction, and to properly compensate State asylums until this can be done. Sometimes such prisoners are utterly friendless, and authority should be given to the Attorney-General to take proper care of them until they can be provided for by humane persons or by some public institution.

By the act of Congress of August 7, 1882, upon application of the Attorney-General, the Secretary of the Interior was authorized and "directed" to transfer to the Government Hospital for the Insane in the District of Columbia all persons who were charged with offenses against the United States, and were in the actual custody of its officers, who had during the time of their imprisonment become and were insane, as then appeared. By the appropriation for the Government Hospital for the Insane no provision was made for the transfer by the Secretary of the Interior of these prisoners to the hospital. It became the duty of the Attorney-General, during the last three years, to transfer certain insane prisoners. The Secretary of the Interior declined to incur the expense of the transfer, as it was not provided for in that special appropriation. These expenses have been incurred, by and with the consent of the accounting officers of the Treasury, by the Attorney-General through the United States Marshals. If the Secretary of the Interior is to execute the law as it now stands he should be furnished with funds for the transfer. The defect in the law should be remedied.

In this connection I would ask consideration of the fact that at the present time there are three persons in the Auburn Insane Asylum, at Auburn, N. Y., who, having become insane during their term of imprisonment in the penitentiary, were committed to that institution. Their sentences have expired, and they are now in the position of the persons referred to in the first paragraph of my predecessor's recommendation. Each year Congress has been asked for a special appropriation to pay for the subsistence and care of these men. I would respectfully suggest, therefore, that provision be made for the transfer of these three persons to the Government Hospital for the Insane in the District of Columbia.

UNITED STATES PRISONERS.

The subject of United States prisoners, their treatment, their place of confinement, and the mode of discipline which governs them, have received the careful attention of the Department. For several years the question has been agitated as to the advisability of building a Government penitentiary, where all persons convicted of United States offenses could be confined. My predecessor, in his report to Congress, recommended that such a prison be built, and I am disposed to renew this recommendation, and do earnestly urge upon Congress the necessity of providing for an institution of this kind.

The Attorney-General is authorized to provide for the care and subsistence of United States prisoners. He is compelled in States where there are no suitable penitentiaries to make arrangements for the care and maintenance of United States prisoners convicted in those States in penitentiaries of other Commonwealths. This has been done, and the Government prisoners are confined, for the most part, in State and municipal institutions. Over these the Department has no direct control. It has, however, control in an indirect way, in that yearly examinations, as far as possible, are made of the different penitentiaries throughout the country, and the United States convicts are separately interviewed and permitted to make known their wants and to state complaints, which always receive due consideration.

The penitentiaries throughout the country are generally anxious to receive prisoners convicted in the United States courts, for the reason that these are, for the most part, a better class of convicts, and the Department has thus far been able to make favorable arrangements for their support. Penitentiaries can readily offer these liberal terms, as they receive for the labor of the prisoners an amount somewhat in excess of that which it costs to support them.

When the periodical examinations by officers of the Department are made, such complaints as seem meritorious are called to the attention of the prison officials, who, being anxious to keep the prisoners already in their penitentiaries and desirous to receive more, are ready to comply with the suggestions of the officers of the Department. Most of these State institutions are well conducted, and when it becomes necessary to select a prison for the confinement of United States convicts outside of the District in which they were convicted, pains have been taken to select the best. In the event of uniform bad treatment the Attorney-General has recourse to changing the place of confinement. In this the expense of removing all the prisoners has to be paid by the Government. And even this power to transfer from one prison to another has restrictions which sometimes render it inadequate to meet the case, and I therefore concur with my predecessor in the statement that the Government should erect and directly control a penitentiary in which to confine its own prisoners.

There must be taken into consideration, in connection with this subject, the expense of maintaining and carrying on such an institution as is herein recommended. By the arrangements which at present exist he bills for the support of United States prisoners have been greatly educed. The prisoners, however, are not "*farmed out*," but the penitentiaries which receive them obtain in the compensation paid for the services of the prisoners all and more than it costs to subsist and care for them.

The subject of convict labor is now receiving the attention of the people and of the legislatures of the several States. Ultimately it may affect the arrangements now existing, in which event the cost of supporting prisoners would be advanced to its former large proportions, and might exceed the cost of erecting and maintaining a Government penitentiary. Still, the cost is not the only item to be considered in looking at this question, and I believe, if at all practicable, a penitentiary should be built by the Government for its prisoners, which should be a model institution and conducted on the most humane principles.

As stated above, United States prisoners, as a rule, are of a better class of men than the ordinary convict, and capable of performing better work. It is undoubtedly an admitted fact that no institution of the kind referred to can be properly carried on unless there is some work which the prisoners can perform. If a Government prison should be erected the convicts could be employed in the manufacture of supplies exclusively for the Government. This would keep them employed, and should go a long way toward making the institution self-sustaining. It would also avoid any objection on the grounds of convict labor, while the tax-payers would be relieved of the burden of supporting Government prisoners.

During the past year the usual examinations of the several penitentiaries where United States prisoners are confined have been made, and as a general rule it has been observed that the prisoners of the Government are well treated and cared for. This arises from the fact that they are confined in the best institutions throughout the country; and further, that by personal inspection each year, as far as practicable, the Department is kept advised of the condition of the several institutions and the treatment which the United States convicts receive.

There were on the 1st of July 975 United States prisoners confined in the different penitentiaries throughout the United States. Exhibit N attached to this report is a detailed statement giving the names of the penitentiaries, their location, and the number of convicts confined in each.

The large majority of the Government's prisoners are confined in penitentiaries east of the Mississippi River, and if a United States prison is to be built it should be erected at some central point where there are ample railroad facilities for the transportation of the prisoners and the goods manufactured by them.

The Department has always been interested in questions touching prison reform, and, as stated above, has endeavored as far as possible to select for the confinement of United States prisoners institutions where humanity seems to be the governing principle. It has sent representatives at different times to the several prison conferences which have been held throughout the United States, and availed itself of such suggestions as seemed pertinent.

Papers on the subject of United States prisoners have often been read at these sessions by persons interested in prison reform, and the Government in some instances has been assailed for the supposed manner in which its prisoners are treated. These unjust attacks on the Government arise doubtless from ignorance on the subject among those who prepare these papers, for I believe no class of prisoners in the country receive better treatment than those who are convicted of offenses against the United States, and the representatives of the Department when attending these prison conferences have so stated. Still I am of the opinion that their condition can be bettered, and that it would be advisable for the Government to provide for the erection of a penitentiary, such as I have recommended.

Many of the United States prisoners are not professional criminals, and it does not seem just to send young men of intelligence who have committed, perhaps, their first offense to penal institutions which are in no sense reformatories. It would be desirable to have such persons sentenced to those institutions which are carried on solely to reform those intrusted to their care, and as is the practice in some States, notably New York, the plan of sentencing these men for indeterminate sentences, to be lengthened or shortened by their own conduct, seems to me a good one. As the law now stands, the United States judges cannot impose sentences of this character, and hence the Government cannot avail itself of the use of these institutions.

I therefore respectfully repeat the recommendation of my predecessor that authority be given the judges of the United States courts to sentence, in their discretion, prisoners convicted of first offenses to such reformatories or graded prisons as may be selected by the Attorney-General, upon the terms and conditions which govern those institutions, in the case of prisoners convicted under the laws of the place in which the institution is located, and this is especially desirable in the case of juvenile offenders. Of the latter class, the number convicted in the United States courts is small, and it would not perhaps be advisable to contemplate the building of an institution especially for their confinement. At present, arrangements have been entered into with several of the best institutions of this character, where juvenile offenders against the laws of the United States may be sentenced.

United States prisoners awaiting trial or sentence and those undergoing short terms of imprisonment are confined in the various county jails throughout the country. These prisoners are directly under the

custody of the United States marshals. Efforts have been made, as far as possible, to secure the proper treatment of this class of persons, and economical arrangements have been entered into for their maintenance and medical treatment, by which the expense of their support has been reduced. It is almost unnecessary to state, however, that the average county jail is a poor place for the confinement of any one, much less the confinement of persons who have committed their first offense. The system of discipline existing in most of the jails is exceedingly lax, the prisoners mingle together, the hardened criminal with the first offender, and those who have taken but their first step in crime while here learn the other steps which make them in future, perhaps, hardened criminals.

I am of the opinion that the several States should take this matter in hand and improve the condition of these institutions. It may be well for Congress to consider the question of building United States jails at each place throughout the country where United States court is held, and where, at some seasons of the year, a number of persons would be confined. Of course, in some of the States, the necessity for institutions of this character would be readily apparent. I am not disposed to recommend that jails of this character be built throughout the country, but I feel it my duty to present the matter in connection with the subject of United States prisoners. On the 1st day of July, 1885, there were of this class of persons 668 confined in the various jails throughout the country. Exhibit O attached to this report is a detailed statement showing the several jails in which they were confined, and the number in each.

ORIGINAL RECORDS OF THE ATTORNEY-GENERAL'S OFFICE.

The records of the Office of the Attorney-General, prior to 1870, when the Department of Justice was created, are important and should be preserved. They contain much information as to the business of the Department and other affairs of the Government which is practically almost inaccessible in their present disordered state. Provision should be made for the care as well as the arrangement of these records. I recommend that an appropriation be made for the preparation of fire-proof rooms within the Department of Justice for their safe-keeping.

CHANGES IN THE JUDICIAL SYSTEM OF THE UNITED STATES.

It is now a well-known fact, and one that has excited much discussion for a number of years in the country, that the courts of the United States, as now organized, cannot possibly transact the business before them with the promptness that justice requires. They are overburdened with business to such an extent that delays in determining litigation amount, in very many instances, to a denial of justice.

For the last ten years at least this matter has been discussed throughout the country, in and out of Congress, by gentlemen in and out of the

profession, and many different plans have been suggested by which to relieve these difficulties. Probably amidst all the suggestions no two of them are exactly in accord. In fact, it is seldom that any two of them substantially agree, and it is more than probable that in arriving at the means of solving this question no one proposed plan will be entirely adopted, but one made up of different views and suggestions in the nature of a compromise. There is no concealing the fact that something should be done and that without further delay. The main features being agreed upon would be a great step in the proper direction, but even if the details were not sufficient or were defective they could be supplied and amended afterwards.

During my eight years' service in the Senate, I spent much time in looking into this subject and arrived at very decided views in reference to the means of relief; but in the interchange of views with brother Senators and others deeply interested, I became satisfied that the views that I entertained would not be adopted, and after repeated discussions upon many bills submitted to the Committee on the Judiciary, I finally gave my consent to support the main features of what was called and known in the Senate and the country as the "Davis Bill," being introduced into the Senate by the distinguished Senator from Illinois, Judge David Davis, at an early day after he became a member of the Senate, and after he had served with such high honor for fifteen years as an Associate Justice of the Supreme Court. The bill originally introduced by Senator Davis was amended by the committee in several material points and reported back to the Senate favorably so amended, and, after a very long and exhaustive discussion there, was amended in important particulars and passed thus amended May 12, 1882. For convenience an exact copy of that bill, as passed, is herewith inserted as follows:

[In the Senate of the United States, May 12, 1882. Ordered to be printed as passed.]

A bill to establish a court of appeals.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That a circuit court shall be held in every judicial district of the United States and the terms thereof shall commence at the same time and place as those of the district court; and such circuit court is hereby created and established in every district where no such court now exists and shall belong to the circuit in whose territorial limits it is embraced; and when more than one judge competent to hold such circuit court is present, each judge may hold a separate session thereof, in which case the presiding justice or judge shall, from time to time, designate the causes to be tried or heard before the other judge or judges; and the panel of jurors selected and summoned for the district court shall also be the panel of the circuit court unless a special order to the contrary be made by one of the judges of said circuit court at least thirty days before the term. Every circuit and district judge is empowered to hold a district court in any district within the circuit whenever assigned to that duty by the circuit judge who is senior in office, and two or more judges may hold separate sessions thereof.

SEC. 2. That the several circuit courts of the United States shall have and exercise no jurisdiction in cases of appeals or writ of error from the district courts allowed,

taken, or sued out after the first day of September, eighteen hundred and eighty-two, except that reviews in bankruptcy cases, in the exercise of their supervisory jurisdiction, may be had as heretofore provided.

SEC. 3. That there shall be established in each of the circuits of the United States a court to be called the court of appeals, which shall have appellate jurisdiction, subject to the provisions of this act, of all cases arising in the several circuit and district courts within said circuits respectively. The said court of appeals shall consist of the justice of the Supreme Court assigned to the circuit, and of the circuit judges thereof, and two of the district judges, to be designated by an order of the court at each term thereof, to serve for the succeeding term, the designation to be made, as far as practicable, in rotation, any four of whom, including at least one judge competent to preside, shall constitute a quorum. In case of the absence of a district judge so designated, another district judge may be designated by the judges then present to serve as long as such absence shall continue. Such justice of the Supreme Court, or, in his absence, the circuit judge present who is senior in office, shall preside. In the absence of a quorum the judge or judges present shall adjourn the court from day to day, or without day: *Provided*, That no circuit or district judge before whom a cause or question may have been tried or heard in the district or circuit court shall sit on the trial or hearing of such cause or question in the appellate court.

SEC. 4. That such court of appeals shall be a court of record, shall prescribe the form and device of its seal, and appoint a clerk removable at its pleasure. Such clerk may, with the approval of the court, to be entered of record, appoint a deputy, who, in case of the death or resignation of the clerk, shall be the clerk until another shall be appointed. Every such clerk shall take the oath and give the bond, with sureties, prescribed by law for clerks of district courts. Process shall run in the same name and be tested in the same manner as process of the circuit courts, and shall be under the seal of the court and signed by the clerk thereof.

SEC. 5. That the marshal of the district in which said court of appeals is held shall attend its sittings, and execute its process to him directed, and, under the direction of the Attorney-General of the United States, and with his approval, provide such rooms as may be necessary, and pay all incidental expenses of said court, including crier, bailiffs, and messengers: *Provided*, That no building or rooms shall be rented or leased for the use of said court in any city where a building of the United States is situated which can be conveniently used for the purpose: *And provided further*, That no lease of any building or rooms for this purpose shall be valid until approved by the Attorney-General; and any such lease shall be subject to be terminated at any time by the Attorney-General or by Congress: *And provided further*, That the clerk, marshal, crier, bailiffs, and messengers shall be allowed the same compensation for their services, respectively, as are now allowed for similar services in the circuit court in the circuit in which said court of appeals shall be held, and shall have the like remedies for collecting the same, but shall not receive pay for attending more than one court the same day; nor shall the maximum compensation of the marshal, including all his fees and emoluments, exceed that allowed by existing law, nor shall the clerk receive for his entire compensation more than the sum of three thousand five hundred dollars per annum.

SEC. 6. That a writ of error in cases proper for such writ, and in all other cases an appeal, may, except as herein otherwise provided, be taken to the court of appeals, from any final judgment or decree of any circuit or district court within the circuit, when the amount claimed or the value of the property in controversy exceeds $500, and in other cases where an appeal or writ of error now lies from such judgment or decree, or where the circuit or district judge shall certify that the adjudication involves a question of general importance: *Provided*, That no review of the decision of the circuit court in the exercise of its supervisory jurisdiction in any case of bankruptcy shall be allowed. No such appeal shall be taken or writ of error sued out except within six months after the entry of the order, decree, or judgment sought

to be reviewed: *Provided, further*, That all citations, writs of error, appeal bonds or other process or papers which under the existing laws of the United States are necessary to be signed or approved by a justice of the Supreme Court or a judge of a circuit court in order to make effectual an appeal from the circuit court to the Supreme Court of the United States may, under this act, be signed or approved by the judge of the district wherein the cause is tried, or by the judge of the circuit or the justice of the Supreme Court assigned thereto. Upon such writ of error or appeal, the court shall review such order, judgment, or decree, and may affirm, modify, or reverse the same, or may make such order, or may render such judgment or such decree as the circuit or the district court should have made or rendered, or may order a new trial or other proceedings to be had in the proper court. Where upon a hearing in equity in a circuit or district court an injunction shall be granted or continued, by an interlocutory order or decree, in a cause in which an appeal from a final decree could be taken under the provisions of this act to the court of appeals, an appeal may be taken from such interlocutory order or decree granting or continuing such injunction to the court of appeals, provided the appeal is taken within thirty days from the entry of such order or decree, the proceedings in other respects in the court below shall not be stayed during the pendency of such appeal. Upon such appeal the court of appeals may affirm, modify, or reverse such order or decree, and shall direct such proceedings to be had in the court below as the justice of the case may require. The said court shall have power to issue writs of error, mandamus, scire facias, habeas corpus, and all other writs which may be necessary or proper to the exercise of its jurisdiction and agreeable to the principles and usages of law, and which the circuit courts of the United States now have. All provisions of law now in force prescribing the cases in which appeals may be taken or writs of error sued out for the review by the Supreme Court of the final judgment or decree of the circuit or district court shall, except as modified by this act, apply to an appeal taken or a writ of error sued out under this section; and the manner of taking such appeal or suing out such writ of error, or of staying proceedings in the inferior court, shall be governed by the laws now in force touching appeals from the circuit court to the Supreme Court and writs of error from the Supreme Court to the circuit court, subject to the provisions of this section as to the time of taking such appeal or suing out such writ of error. The court of appeals may also establish such rules, not inconsistent with law or the rules established by the Supreme Court, as it may deem necessary for the regulation of the practice of said court.

SEC. 7. That all appeals and writs of error taken, allowed, or sued out upon or from any judgments or decrees of the circuit and district courts, entered after the first day of September, eighteen hundred and eighty-two, shall be taken, allowed, or sued out under and according to the provisions of this act, and not otherwise; but all cases wherein, on or before said day, an appeal has been allowed by a district court, or a writ of error sued out from any circuit court, shall be heard and determined by such circuit court in the same manner as if this act had not been passed.

SEC. 8. That a writ of error, if allowed by a judge of the proper court of appeals, may be sued out of that court from the final judgment of a circuit or district court in any criminal case to such court of appeals within ninety days after the entry of such judgment, but such writ shall not operate as a stay of proceedings, except in capital cases, unless it is so ordered by the judge who shall allow the writ, nor after a refusal to allow the writ by one such judge shall it be allowed by another judge. The judgment upon such writ shall be final unless certified as hereinafter provided in the tenth section of this act, and shall be remitted to the circuit or the district court appealed from, to be enforced according to law.

Sec 9 That terms of the said court of appeals shall be held in the several judicial circuits at the following places: In the first circuit, in the city of Boston; in the second circuit, in the city of New York; in the third circuit, in the city of Philadelphia; in the fourth circuit, in the city of Richmond; in the fifth circuit, in the city

of New Orleans; in the sixth circuit, in the city of Cincinnati; in the seventh circuit, in the city of Chicago; in the eighth circuit, in the city of Saint Louis; in the ninth, in the city of San Francisco. The first term of said court shall be held at each of said places on the first Tuesday in November, eighteen hundred and eighty-two, and on the second Tuesdays in May and first Tuesdays in November thereafter. Adjourned terms may also be held from time to time, as fixed by the rules or by a special order of the court.

SEC. 10. That the decision of the court of appeals upon questions of fact shall in all cases be final and conclusive, except as otherwise provided in this section, the facts to be specially found if requested by either party; but a review upon the law may be had upon writ of error or appeal in the manner now provided by law to the Supreme Court of the United States from every final judgment or decree of the court of appeals, where the matter in controversy exceeds the sum or value of $10,000, exclusive of costs, or where the adjudication involves a question upon the construction of the Constitution or the construction or the validity of a treaty or a law of the United States, or where the court shall certify that the adjudication involves a legal question of sufficient importance to require that the final decision thereof should be made by the Supreme Court; but in the two last mentioned cases the court of appeals shall state the question arising upon the construction of the Constitution, or the construction or the validity of such treaty or law, or the question that the adjudication involves, and such questions only shall be certified to and finally decided by the Supreme Court, and its decisions thereon shall be enforced in like manner as is now provided by law in cases where a question is certified to the Supreme Court upon which the judges of a circuit court are divided in opinion; and in patent and copyright cases in equity a review by the Supreme Court may be had, without regard to the sum or value in dispute, upon the questions both of law and fact affecting the validity or the infringement of the patent or the copyright: *Provided*, That the court of appeals shall certify that a question is involved of sufficient importance to render it proper that the final decision thereof should be made by the Supreme Court. Such writ of error or appeal shall be sued out or taken within one year after the entry of the judgment or the decree sought to be reviewed. The Supreme Court may affirm, modify, or reverse the judgment or the decree brought before it for review or may direct a judgment or a decree to be rendered, or such further proceedings to be had as the justice of the case may require. The judgment or the decree shall be remitted to the proper circuit or district court, to be enforced according to law. If, within the year after the entry of the judgment or the decree sought to be reversed, any party shall die, the personal representative or heir, as the case may require, may, within one year next after the proof of the will or appointment of the administrator, or within one year next after the death of the ancestor in the case of an heir, sue out, or be made a party to, a writ of error, or take an appeal, or be made a party thereto, without reviving the judgment or decree in the court in which the same was entered. But appeals taken and writs of error sued out to the Supreme Court under existing laws before this act takes effect shall not be affected by this act.

SEC. 11. That any judge who, in pursuance of the provisions of this act, shall attend the court of appeals held at any place other than where he resides, shall, upon his written certificate, be paid by the marshal of the district in which the court shall be held, his reasonable expenses for travel and attendance, not to exceed $10 per day, and such payment shall be allowed the marshal in the settlement of his accounts with the United States.

SEC. 12. That appeals taken and writs of error sued out from a decree or a judgment of the supreme court of any Territory entered after the said first day of September shall be taken and sued out as provided by this act, and shall lie to the court of appeals sitting in such circuit as shall be previously designated by a general order of the Supreme Court of the United States.

SEC. 13. That there shall be appointed for each circuit, by the President of the

United States, by and with the advice and consent of the Senate, two additional circuit judges, who shall have the same powers and jurisdiction, and shall perform the same duties, and be entitled to the same compensation, as the circuit judge appointed under existing laws.

SEC. 14. That in each district the circuit court shall appoint the clerk thereof; and the circuit judges of said circuit shall, as a body, determine, from time to time, which of them shall hold the circuit court in the respective districts.

SEC. 15. That any defendant in a suit at law or equity in any court of the United States may plead or except to the jurisdiction of the court at the same time that he pleads or answers to the merits; and if said plea or exception be overruled or decided against him, he shall, nevertheless, be entitled to defend on the merits as if said plea had not been filed nor said exception taken.

No action was had upon it in the House during that session, and no further action was taken at a subsequent session in the Senate upon it. The *principle* of this bill has received the sanction of the one or the other house of Congress several times in the last twenty years. A bill of the same general features was introduced by Mr. Douglas in 1854, and subsequently in 1863 by Senator Harris, of New York, and on other occasions since then in one or both houses by distinguished gentlemen. I believe it is not saying too much to assert that the sentiment of the country, and especially of the legal profession, has been in favor of the main features or theory of this bill, as has been strikingly manifested of late years. Subsequent study and investigation convinced me that, while preserving the general idea of what is known as the Davis bill (establishing a court of appeals or intermediate court), several changes and modifications should be made, and I venture to suggest them as follows:

1. Transfer to the district courts, in addition to the jurisdiction they now have, all the original jurisdiction at present vested by law in the circuit courts so as to make the district courts the only courts of original jurisdiction. This will make it necessary to increase the number of district judges, and possibly, in some cases, to increase the number of districts, but the latter not very largely, only where the necessities of the public business require it.

2. In each circuit, the circuit court should be constituted by the addition of two circuit judges to the one now in office, so that ordinarily a circuit court could be held by the three. The justice of the Supreme Court assigned to the circuit would also constitute a member of that court when sitting, and in case he could not attend and one of the circuit judges should be unable to attend at any term of a circuit court, provision should be made for completing the organization of the court by detailing for the time being some district judge to sit with the other circuit judges. The circuit court should have appellate jurisdiction by writ of error and appeal from the judgment and decrees of the district courts in civil cases where the amount in controversy is in excess of five hundred dollars, excepting revenue, patent, and admiralty causes. Provision might be made, if thought expedient, to have important criminal prosecutions, at the instance of the Attorney-General,

removed from a district court where the indictment might be found into the circuit court for trial. The circuit court should be required to hold a term or terms each year in each district as at present.

3. The right of removal of cases from the State courts into the district courts should be restricted by restoring, as near as may be, the original act of 1789, so that a defendant sued in the State in which he resided, by a citizen of another State, should not have the right of removing his case from the State court, nor a plaintiff, who has begun his action in a State court, have the right of removal. In addition, corporations doing business in States other than those from which they derive their corporate powers should, in such States, be placed strictly on the footing of domestic corporations so that they should not be permitted to invoke Federal jurisdiction on the ground that they were citizens of other States. So, too, corporations created by acts of Congress should not be permitted by that fact alone to sue or be sued in a court of the United States.

4. The jurisdiction of the Supreme Court now exercised by a writ of error and appeal should be restricted in the following particulars:

(*a*) No appeals or writs of error should be allowed from the supreme court of the District of Columbia except in cases where some Federal question has arisen and been necessarily decided such as would give jurisdiction to the Supreme Court to review the judgment of a State court.

(*b*) No direct appeal or writ of error should be entertained to bring up a case from a Territorial court. The Territories should be included within some judicial circuit and the final judgments and decrees of Territorial courts should be revised in the first instance by the appropriate circuit court.

(*c*) All appeals from the circuit courts to the Supreme Court in equity causes should come up only on findings of fact made in the circuit court, so that the appeal to the Supreme Court would bring into review merely questions of law. That would put such appeals exactly upon the footing of appeals from the circuit courts to the Supreme Court in admiralty causes.

(*d*) The amount of pecuniary value now established by law, viz: $5,000 as the test of jurisdiction, should not be increased, but modify the language authorizing appeals and writs of error, so that the Supreme Court should entertain jurisdiction where the amount of controversy in the case is in excess of that sum, although there may be several separate claimants; permit appeals and writs of error in cases where less than that amount is involved upon a certificate of the circuit court that there are pending other cases involving the same questions, which will be governed by the decision in the case appealed; permit the circuit court to certify to the Supreme Court, for its decision, any cases or questions arising in any cases, where, in the opinion of the circuit court, the

questions certified were novel and of sufficient importance to justify the appeal.

5. Some suitable provision should be made by which writs of error might be taken, under the proper restrictions, in criminal cases decided either originally or on appeal in the circuit courts by the allowance either of the circuit court or of a Justice of the Supreme Court of the United States.

This plan is recommended and supported by these considerations.

1. It simplifies the system. It confines the district judges to the district courts and the circuit judges to the circuit courts, and gives to each court a separate and distinct jurisdiction and removes the incongruity now existing by which a district judge sits for the most of his time in the circuit court.

2. It disturbs least the present organization by preserving the district courts and circuit courts and adding no new court to the system.

3. By requiring the circuit courts to be held as appellate courts, as they are now held in each district, it brings the courts nearer to the litigants than any other system of appellate tribunals that has been proposed, and enforces the theory of the Davis bill establishing a court of appeals or intermediate court.

4. It will undoubtedly very largely reduce the docket of the Supreme Court by diminishing its jurisdiction and lessen the number of cases that will be carried into it for final decision, and those taken there will go upon simpler records involving purely questions of law.

STENOGRAPHERS OR LAW CLERKS FOR THE JUDGES OF THE SUPREME COURT OF THE UNITED STATES.

I believe it would greatly facilitate the business of the Supreme Court if each justice was provided by law with a secretary or law clerk, to be a stenographer, to be paid an annual salary sufficient to obtain the requisite qualifications, whose duties shall be to assist in such clerical work as might be assigned to him.

The labor of the judges of the court in investigating questions and preparing their opinions is immense, and while the heads of Departments and Senators have this assistance, I do not think there is any good reason that the judges of this court should not also have it, and I therefore recommend that such provisions be made.

THE COURT OF COMMISSIONERS OF ALABAMA CLAIMS.

I append, as Exhibit R, a copy of a report of Hon. John A. J. Creswell, counsel on behalf of the United States before the Court of Commissioners of Alabama Claims, dated November 18, 1885, showing the status of the business before that commission.

I invite especial attention to the latter portion of Mr. Creswell's statement as to reporting the decisions in full and the history of the cases in a permanent form.

With Mr. Creswell's letter is one from the presiding judge of that tribunal upon the same subject, to which attention is respectfully asked. I concur in both of these as to the importance of this work, but I am not aware of any provision of law for the payment of such work, and I have therefore not taken any steps to have it done. I think it will be well worth the expenditure, and hope that Congress may make some suitable provision for it.

LEGISLATION TOUCHING RAILROADS IN WASHINGTON CITY.

The attention of Congress is respectfully called to the subject of more definite legislation touching railroad facilities in the city of Washington. Much controversy has arisen upon this subject, and the Commissioners of the District have been involved in a good deal of trouble in relation to it, and proceedings of a criminal nature have been threatened against them. They have deemed the matter of such importance as to call my attention to it specifically in a communication (copy of which is herewith submitted as Exhibit S), and I recommend that Congress, by legislation, remove these difficulties as far as it may be able to do so.

With the communication from the Commissioners of the District I present also, with this report, copies of a communication on this subject from C. P. Culver, esq., attorney for the Citizens' Protective Association, and of one from A. S. Worthington, esq., attorney of the United States for the District of Columbia. (Marked, respectively, Exhibits S 1, S 2.)

STAR-ROUTE CIVIL SUITS.

The report of Mr. George L. Douglass, special assistant attorney, in charge of the star-route civil suits, is submitted, with its accompanying statement, as Exhibit T.

DEPARTMENT BUILDINGS AND GROUNDS.

Under the act of Congress placing the building of the Department of Justice under the care of the Attorney-General, no mention was made of the care of the grounds adjoining the building and purchased at the same time. Expenses have been incurred for taking charge of the same, under the authority of the Attorney-General.

I agree with my predecessor that

As these grounds are a part of the original purchase, they ought to be placed, together with the building itself, under the exclusive control of the Attorney-General, and thus avoid a divided jurisdiction over the whole property dedicated by law to the use of the Department of Justice.

In this connection I wish to suggest the propriety of erecting on the grounds mentioned a proper building for the accommodation, in addition to the Department of Justice, of the Supreme Court and other proper courts and commissions of the United States. The necessity for quarters for the Supreme Court of the United States, other than

those now occupied, is apparent; the present court-room is manifestly too small, and its location not sufficiently apart from the publicity and bustle attending the sessions of Congress. Accommodations should be provided for the court, not only commensurate with its high position and dignity, but as well the character and volume of its work, the increasing growth of the bar, and the number of interested parties to causes and other spectators.

The site already belongs to the Government, is of sufficient size, and convenient to most of the Executive Departments and to the Executive Mansion.

Courts and commissions, having the dignity of, and acting in reality as, courts of the United States, are created from time to time as necessity calls for them. It seems fitting that these should be located in a proper Government building with the Department of Justice and the Supreme Court, all convenient to each other and under one roof, and not, as now and heretofore, in rooms hired from private persons at constant outlay for rent and other expenses.

THE LIBRARY.

A larger annual appropriation than that heretofore made is needed to meet the wants of the library of this Department. To supply deficiencies already existing in treatises on various branches of jurisprudence, in law reports, and in works of reference, and to purchase the numerous books of this character published during the year will require at least $3,000; and I recommend that the annual appropriation for law and miscellaneous books be increased to that amount.

SUPREME COURT REPORTS.

The act of August 7, 1882, chapter 433, repealed so much of the act of March 3, 1881, chapter 133, as related to the distribution of the Reports of the Supreme Court of the United States to district judges and district attorneys, and the furnishing of complete sets of the same at points where United States courts are authorized to be held and to supply broken sets with missing volumes.

The necessity for these volumes still exists, as shown by letters received by this Department from judges and attorneys throughout the country.

The expense of providing them would now be much less than it would have been in 1881, as publishing houses have printed editions of volumes at that time out of print.

COURT ROOMS AT JACKSON, MISS.

The rooms occupied by the United States courts at Jackson, Miss., were deeded to the Government upon the condition that they were to be used exclusively for United States court purposes.

The Government having lately completed a public building at that place, the United States officials moved into the quarters assigned to them in the new building, and the Secretary of the Treasury was authorized to control the old rooms for the use of other Government officials.

Letters have been written to the Secretary of the Treasury and the United States marshal for the southern district of Mississippi in relation to keeping the rooms originally occupied by the United States courts under the control of the United States marshal for the use of United States court officials, until some better arrangement is reached, for the purpose of preserving its legal right to the rooms.

I respectfully suggest the propriety of making disposition of the interest of the Government in this matter.

IN THE MATTER OF UNION PACIFIC RAILWAY LITIGATION.

The controversy existing between the Government and the Union Pacific Railway Company, continuing in the Court of Claims upon the mandate from the Supreme Court of the United States in the case of The Union Pacific Railway Company *vs.* The United States (104 U. S. Rep., 662), was brought to a close on the 2d of June by the rendering of a judgment, as follows:

The court, on due consideration of the premises both for and against the United States and the claimant, find upon the petition of the said claimant that the United States are indebted to the said claimant in the sum of two million nine hundred and ten thousand one hundred and twenty-four $\frac{08}{100}$ dollars, and that upon the counter-claim of the defendants the said claimant is indebted to the United States in the sum of four million four hundred and eighty-seven thousand eight hundred and seven $\frac{39}{100}$ dollars, and that upon the whole case the said Union Pacific Railway Company is indebted to the United States for the difference in the said sums, to wit, for one million five hundred and seventy-seven thousand six hundred and eighty-three $\frac{31}{100}$ dollars $\$1,577,683\frac{31}{100}$, and it is therefore ordered, adjudged, and decreed that the United States do recover of and from the Union Pacific Railway Company the sum of one million five hundred and seventy-seven thousand six hundred and eighty-three dollars and thirty-one cents ($\$1,577,683\frac{31}{100}$).

From these judgments both parties appealed to the Supreme Court of the United States, and the appeals are now docketed as Nos. 10034 and 10035. A motion will be filed in a few days by the Government to advance these appeals upon the docket, so as to have a speedy determination of them, and no doubt such motion will be granted and the matter disposed of at an early day in the future.

Very respectfully, your obedient servant,

A. H. GARLAND,
Attorney-General.

EXHIBITS.

EXHIBIT A.—*Statement showing number of civil suits to which the United States was a party, pending in the district and circuit courts of the United States July* 1, 1885, *with the number terminated during the fiscal year ending June* 30, 1885.

Districts.	Number pending July 1, 1885.					Number terminated during the fiscal year ending June 30, 1885.														Appealed from district court to circuit court.			Appealed from circuit court Supreme Court.			Total number terminated and appealed.

NOTE.—Charge, November 2, hire of wagon from Wolsey to Huron, $4. We telegraphed to Deputy Marshal B. E. Pay, to Volga, on the 2d, to meet us next day, the 3d, at Huron, where we had other business. Besides, we knew the election for county officers was to be held on the 4th; that every deputy marshal in the Territory was in politics, most of them candidates for re-election for sheriff; that if we did not secure Pay's attendance before the election it would be hard to tell when we could see him. To save time and secure his attendance we therefore telegraphed him. When we reached Wolsey, on Sunday night, between 8 and 9 o'clock, we learned that no train, passenger or freight, would leave before Monday for Huron, arriving there in the afternoon. We feared Pay would leave Huron on finding no one to meet him there, hired the wagon, and rode across the prairies to Huron, arriving there about midnight. We examined Pay next day. The charge of $4 is for passage for both Examiner Gould and myself. Charge, November 9, hack hire from Sioux Falls to Canton, $5.50. This item of expense was incurred on Sunday morning, saving Examiner Gould and myself one day in time, as the first train leaving Sioux Falls would have left on Monday afternoon. We started about mid-day from Sioux Falls and reached Canton in time to take the afternoon train, saving, besides one day in time, the hotel expenses for that time for both of us.

1884. J. Alexander Simpson:

			294 73

I was in Jacksonville, Fla., when I attended court as a witness for the United States in case *v.* James Williams, from March 30, 1885, to April 7, 1885. On the morning of April 6, 1885, I was discharged as witness, and collected my expenses for going to Jacksonville from Washington and board bill there to and including breakfast on April 6, 1885. The United States attorney at Charleston had telegraphed me that my attendance on court there in the cases against A. Blythe and others was required on April 8, 1885. I charged my expenses from the time I was discharged as a witness at Jacksonville to the time I left for Charleston in this account, and collected my expenses at Charleston, including my expenses from Jacksonville to that place as witness for the United States, from the marshal for South Carolina.

1885.	James W. Nightingale

15.	For weekly bill, Weddell House, Cleveland	24 75	
	For jurat	25	
			$201 67

NOTE.—Explanation of difference in amount charged for sleeper between Chicago and Cleveland: My trip to Chicago from Cleveland was urgent. After learning the necessity of going, I took the first train out, which was a limited one, and I was charged $3 instead of $2, the regular rate, the excess being $1. Upon my return to Cleveland from Chicago I went via Crestline over another route, and took sleeper from Chicago to Crestline, costing $1.50, from which place I traveled to Cleveland in the ordinary coach.

1885.	Joel W. Bowman:		
Apr. 30.	For services and expenses as examiner Department of Justice, from April 1 to April 30, 1885, inclusive, as follows:

	For fares in New York during month, elevated road, &c.	5 20	
	For jurat	25	
			$374 25

NOTE.—My meals in New York cost far more than charged herein. This was my first stay in New York. I took my meals at restaurants like the Saint Dennis, Grand Central, &c. Every meal cost me more than I charged in this account. In explanation of the charge "for care of room, $1 per week," I wish to say that by moving from the Astor House, where I was charged $2 per day for my room, to a private house on Irving Place, where I paid $1 per day for room, I saved $7 per week to the Government less the one paid for the care of the room, which expense was necessary.

1885.	Ralph Ballin:		
June 30.	For services and expenses as examiner, Department of Justice, from June 1 to June 30, 1885, inclusive, as follows:

	Jurat	25	
			$73 10

NOTE.

WASHINGTON, D. C., *Sept.* 1, 1884.

Machias, Me., is about 50 miles from the railroad, and the regular steamer runs to Machiasport but twice a week. On my return I traveled overland by special conveyance 30 miles and stage 20 miles in order to reach a railroad, and thus avoid a delay of about three days in waiting for the steamer. The expense was as moderate as practicable. The charge of 75 cents, "conveyence to East Gloucester," was necessitated by my return from the Machias trip late at night after the regular omnibus had stopped running. My official engagements were four in number—one at Machias, Me., and three at different dates in Boston. By making my headquarters at East Gloucester (which I did at my own expense), and charging only actual expenses to and from and meals in Boston, the Government was saved what would otherwise have been much greater hotel expenses in Boston had I remained there continuously, or much heavier traveling expenses had I made separate trips from Washington. The business was in the case of the "Owners of the brig Tally Ho *v.* The United States."

GEO. L. DOUGLASS,
Assistant Attorney.

1884.	The United States to Isaac S. Lyon: For expenses actually and necessarily incurred in representing the United States at examinations of witnesses for claimants in suit of Elizabeth Mulvehill *v.* The United States, at Steubenville, Ohio, and in the suit of R. * I was engaged with Mr. Richmond in Tennessee during the period of time covered by vouchers 18, 27, and 32. The weather was extremely cold, making it absolutely necessary for him to have a fire in his room where witnesses and others whom it was necessary to interview in the interest of the Government could be invited, and also to enable him to do the writing pertaining to his business for the Government.—Wm. H. Browne.

EXHIBIT L.—*Report of the Solicitor of the Treasury.*

DEPARTMENT OF JUSTICE,
OFFICE OF THE SOLICITOR OF THE TREASURY,
Washington, D. C., October 29, 1885.

SIR: I have the honor to transmit herewith seven tabular statements exhibiting the amounts, character, and results of the litigation under my direction for the fiscal year ending June 30, 1885, shown by the docket entries of this office.

These tables embrace, respectively—

(1) Suits on transcripts of accounts of defaulting public officers, excepting those of the Post-Office Department, adjusted by the accounting officers of the Treasury Department.

(2) Post-office suits, embracing those against officers of the Post-Office Department, and cases of fines, penalties, and forfeitures for violation of postal laws.

(3) Suits on custom-house bonds.

(4) Suits for the recovery of fines, penalties, and forfeitures under the customs revenue and navigation laws.

(5) Suits against collectors of customs and other officers or agents of the Government, excepting internal-revenue officers, for refund of duties and acts done in line of their official duty.

(6) Suits in which the United States is a party, or is interested, not embraced in the other classes.

(7) A general summary or abstract of all the other tables.

An examination of the tables will show that the whole number of suits commenced within the year was 2,903, of which 80 were of class 1, for the recovery of $793,503.44; 193 were of class 2, for the recovery of $1,068,999.16; 30 were of class 3, for the recovery of $55,747.76; 129 were of class 4, for the recovery of $15,872.98; 825 were of class 5, and 1,646 were of class 6, for the recovery of $1,301,766.13; making a total sued for, as reported, of $3,235,889.47.

Of the whole number of suits brought, 1,170 were decided in favor of the United States, 43 were adversely decided, 370 were settled and dismissed; in two penalties were remitted by the Secretary of the Treasury, leaving 1,318 still pending.

Of those pending at the commencement of the year 325 were decided for the United States, 89 were decided adversely, 870 were settled and dismissed, and in four penalties were remitted by the Secretary of the Treasury.

The entire number of suits decided or otherwise disposed of during the year was 2,873; the whole amount for which judgments were obtained, exclusive of decrees *in rem*, was $619,626.32; and the entire amount collected from all sources was $932,682.14.

The number of cases in which offers of compromise were pending and received during the fiscal year was 223, involving the sum of $2,918,296.73

The number of offers accepted was 118, involving the sum of $1,238,953.44; amount accepted, $134,612.84. The number of offers rejected was 61, involving the sum of $804,128.25; amount rejected, $56,472.80.

The number of offers pending at the close of the fiscal year was 44, involving the sum of $875,215.06. The amount offered in cases pending is $13,399.64. In the cases pending are included eight cases of trespass on the public lands, involving the sum of $241,000. An offer of $2.50

per acre was made to compromise these cases, and the total sum tendered cannot be approximated, until the number of acres has been ascertained by an actual survey.

A statement of the lands under charge of this office acquired in payment of debt during the fiscal year, as well as of those sold during that period, and of those to which the title has been relinquished, and of real property at Harper's Ferry, W. Va., sold under the provisions of acts of Congress of July 14, 1878, and July 4, 1884, appears in an exhibit hereto.

It has been the experience of my predecessors, as well as my own observation as Solicitor of the Treasury, that both loss to the Government and great hardship to individuals often result from the delay in settling the accounts of defaulting or delinquent officers. Frequently years elapse after the retirement or removal of an officer from public service before his accounts are adjusted and the liability of himself and sureties ascertained. In the mean time the principal and his sureties may have died or become insolvent making suit a surprise and hardship to their heirs and personal representatives, or a fruitless proceeding on the part of the Government.

The injustice and vexation often wrought upon sureties by the delay in settling the accounts of public officers should be prevented; ignorant of any delinquency on the part of their principals they make no provisions against liability, and years afterwards when the day of reckoning finally comes and it is beyond their power to protect themselves they are called upon to make good the defects of which they have no knowledge or apprehension; and by the way of illustration I would refer to a case which has recently been submitted for my consideration.

The case in question is an offer to compromise the claim of the Government against a former officer of the United States, who, by his gallent and meritorious conduct at the battle of Buena Vista, rose from the rank of major and paymaster to the brevet rank of lieutenant-colonel. In January, 1849, he suddenly died of Asiatic cholera, leaving his accounts necessarily unsettled. Some years after, suit was brought against his sureties for an alleged balance, and upon the payment of $500 it was dismissed; presumably, at least, the payment by the sureties was made with the understanding on their part and on the part of the officers of the Government that the claim should be considered settled and closed. Now, after the lapse of nearly forty years since his death, the children of this brave and patriotic officer, against whose honor and integrity there has never been a suspicion, ask that the claim, which they regard as without merit under the circumstances, should be satisfied upon the payment of a nominal consideration, so as to remove all possible stain upon their father's memory.

It does seem to me that for such cases as the foregoing Congress should provide a statute of repose, and protect at least the second and third generations and the sureties of the public officers of the United States from oppression and injustice.

I would therefore recommend the enactment of a law requiring the proper accounting officers to audit the accounts of all public officers who are under bonds within a period reasonably short after the retirement or removal of the respective incumbents from office.

In the interest of public justice I beg to invite your attention to the condition of the civil business in which the Government is interested

pending in the courts of this District by submitting the following extract from the last annual report of one of my predecessors:

> The dockets of this office show that for years past but few civil actions of which this office has cognizance, in which the Government was party plaintiff and to which a defense has been interposed, have been tried.
>
> Upon inquiry of the district attorney of the United States for the District of Columbia, he states, "as to all these cases, that the force in this (his) office is utterly insufficient to attend properly to the criminal business alone"; that—
>
> "The attention of Congress seems never to have been sufficiently attracted to the difference between the duties of the United States attorney for the District of Columbia and those of United States attorneys elsewhere.
>
> "Here the District attorney is charged with the prosecution of all offenses known to the common law, from petit larceny up to murder, while throughout the States the prosecution of offenders charged with such crimes is intrusted to the State prosecutor, and the attorney of the United States has nothing to do with them.
>
> "Owing to the fact that this is the seat of Government, there is an immense amount of business of the highest importance which falls to the lot of the District attorney here.
>
> "The important prosecutions conducted in the District, growing out of frauds perpetrated upon the Government by officials here and others in collusion with them, of late years, are well known. * * * The inadequate force in this office heretofore has necessitated the employment in these cases of special counsel, and it will be impossible to transact the business of the office in the future without either the appointment of special counsel in all such cases or an increase in the regular force. The latter alternative is far the more desirable on every account. * * * Every person connected with the office is overworked, and yet the business cannot be kept up. * * *
>
> "Notwithstanding these extraordinary efforts on the part of the District attorney and his assistants, *they have found it necessary to almost entirely neglect the civil business of the office to attend to the more pressing duties on the criminal side of the courts.* * * *
>
> "The police court, the grand jury, the criminal court, and the court of general term are in session in this District almost daily, and at times two criminal courts are in session.
>
> "It has been found necessary most of the time to allow the grand jury to go on without the assistance of any person from the district attorney's office, owing to the fact that he and his assistants are usually engaged elsewhere."
>
> Certainly nothing can be plainer than that, if the legal business of the Government is to be promptly transacted, some efficient remedy must be provided for the evils which the district attorney so graphically sets forth. Depriving his office of the force actually necessary for the prompt and efficient discharge of its varied and onerous duties is not only ill-advised economy, but unwise in every particular, and ought to be remedied without delay.
>
> I would therefore respectfully recommend that the district attorney be authorized to employ a competent assistant at a stated salary, whose duty it shall be to take charge of all the civil business in which the Government is interested in the courts of the District of Columbia; or if this be not thought advisable, that the Solicitor of the Treasury be charged with the care of and the prosecution or defense of such business, so that it may hereafter be promptly disposed of.

I would also recommend that section 886 of the Revised Statutes be amended to read as follows:

> When suit is brought by the United States against any person accountable for public money, or against the sureties on the official bond of such person, or against any person in a contract with the United States, express or implied, or against the sureties of such person on his bond for the faithful performance of such contract, a transcript of the accounts of such person from the books and proceedings of the Treasury Department, certified by the Auditor charged with the examination of such accounts, and authenticated under the seal of the Treasury Department, or, in case of accounts relative to the public lands, certified by the Commissioner of the General Land Office, and authenticated under the seal of the Interior Department, shall be admitted as evidence in the trial of such suit, and the court trying the suit shall grant judgment and award execution accordingly. Copies of all bonds, contracts, or other papers relating to or in connection with the settlement of such accounts, certified by the Auditor, or¶ in case of accounts relative to public lands, by the Commissioner, to be true copies of the originals on file and authenticated under the seal of the Treasury Department, or Interior Department, as the case may be, when annexed to such

transcripts, shall have equal validity and be entitled to the same degree of credit as the original. If suit is brought on a bond or other sealed instrument, and the defendant pleads *non est factum*, verifying such plea by his oath, the court may, on motion of defendant, if it appears necessary for the attainment of justice, require the production of the original bond or other sealed instrument.

I have the honor to be, sir, very respectfully,

A. McCUE,
Solicitor of the Treasury.

Hon. A. H. GARLAND,
Attorney-General.

No. 1.—*Report of suits on Treasury transcripts, other than post-office cases, instituted during the fiscal year ending June 30, 1885, in the several United States courts, and of proceedings had during said period in suits which were instituted prior thereto.*

EXHIBIT P.—*Report of the Board of Trustees of the Reform School of the District of Columbia.*

REFORM SCHOOL OF THE DISTRICT OF COLUMBIA,
Washington, D. C., October 20, 1885.

SIR: I herewith submit, in compliance with the act of Congress of May 3, 1876, the sixteenth annual report of this school for the fiscal year ending June 30, 1885. There have been no changes in the administration of its affairs during the year. Each department has been efficiently conducted, the discipline has been excellent, the general health above the average, and the board of trustees believe that with some additional legislation the school will be prepared to render the most effective service that may be required by the increased demands of the future. For the next fiscal year Congress has made a slight change in the control of the revenues, other than those from the regular appropriations, by requiring that they be covered into the Treasury of the United States for the benefit jointly of the United States and the District of Columbia. For the present fiscal year they amount to $4,835.49. The receipts from the farm and workshop amounted to $4,268.74.

The receipts of the school from all sources during the year, as will appear by the report of the treasurer appended hereto, were as follows:

From appropriation for salaries		$10,916 00
From appropriation for subsistence		22,000 00
From appropriation for new bell and painting buildings		1,350 00
From superintendent, sale of farm products and proceeds of work in shops	$4,268 74	
From Department of Justice, support of boys committed by United States courts outside the District of Columbia	566 75	
		4,835 49
		39,101 49

The disbursements of the treasurer, given in detail in his report, may be summarized as follows:

For salaries and wages	$12,211 80
For subsistence, including groceries, flour, meats, dry goods, leather, gas, coal, table and kitchen ware, farm implements and seed, harness and repairs thereon, fertilizers, stationery and books, medicines and medical attention	20,082 65
For repairs and improvements, including paving, painting, glazing, plumbing, fencing, and purchase of farm stock, wagon and carriage, and house furniture	6,655 85
For new bell and its erection	150 00
Total	39,100 30
Leaving an unexpended balance of	$1 19

The Board of Trustees again most respectfully but earnestly recommend an increase in the accommodations for the school. These are now so restricted that the Board for some time past has, at different periods of the year, been compelled to notify the criminal and police courts of the District that they could not for want of room receive committals, thus compelling the courts to send juvenile offenders to the District jail, while the president of the Board, under the authority given him by law, has likewise been unable to make commitments for boys who were incorrigible, or who were in danger of leading a vagrant life. The additional room is also needed in order that the school may be properly graded and classified, so that the smaller boys may not be contaminated by association with those who are older and more hardened. For this purpose another family building should be erected. Congress has been appealed to for four years to make this much-needed appropriation. The Board of Trustees beg that you will urge favorable action upon the coming Congress. They only ask that the school be placed upon the same basis of similar institutions in this District for which necessary appropriations have been made from year to year for improvements. It is exclusively a Government institution, under the direction of the President, who appoints its trustees, and the Department of Justice. The local government of the District of Columbia has no control whatever over its buildings and grounds, though represented on the Board by one of its Commissioners as a trustee in the management and maintenance of the school.

The estimates for contemplated improvements, including the erection of new buildings, for the fiscal year ending June 30, 1877, are as follows:

For one family building of brick and stone	$15,000
For one chapel building of brick and stone	7,500
For one brick tank-house, iron water-tank	4,500
For grading and improving school grounds	1,500
	$28,500

In some of the schools under State and municipal control authority has been given to the Board of Trustees in their discretion to give a leave of absence to the boys instead of an absolute discharge, requiring them to report at stated times. In case of failure to do so they are looked after by the authorities of the school. This, as the superintendent says in his report herewith submitted, gives them leave of absence during good behavior. It has worked well elsewhere and experience has demonstrated the need of it here. The Board, therefore, asks through you the required legislation from Congress.

As the Department of Justice last year requested that minors sentenced by the Federal courts outside of the District of Columbia may be sent to this school, an amendment to the act of Congress incorporating the school is necessary; for now committals can be made only by the courts in the District or by the president of the Board of Trustees. The Board renews its recommendation for the amendatory legislation.

The full and interesting report of G. A. Shallenberger, the superintendent, and that of the secretary and treasurer of the Board, S. W. Curriden, as well as the report of Dr. Charles A. Wells, the attending physician, accompany this report.

I have the honor to be, very respectfully, yours,

GEO. W. ADAMS,
President of the Board of Trustees.

Hon. A. H. GARLAND,
Attorney-General of the United States.

Report of the superintendent.

REFORM SCHOOL OF THE DISTRICT OF COLUMBIA,
October 15, 1885.

GENTLEMEN: I have the honor to present herewith the sixteenth annual report of the superintendent, embracing a condensed summary of the condition and progress of the school during the financial year ending June 30, 1885.

From the official records statistical information has been gathered as follows, viz:

Total number of boys received since opening	1,074
Total number of deaths since opening	7

Rate of mortality less than one-half per cent. of entire population.

	Years.
Average age of boys received since opening	13
Age of oldest boy when received	19
Age of youngest boy when received	6

Number of boys in institution June 30, 1884		163
Committed during the year as follows:		
By the supreme court	6	
By the police court	67	
By the president of the Board	13	
By the returned to the school	1	
	—	87
Total population during the year		250
Received on first commitment		78
Received on second commitment		7
Received on third commitment		2
		87

	Years.
Age of oldest boy received during the year	17
Age of the youngest boy received during the year	7
Average age of boys received during the year	12.6
Maximum number during the year	166
Minimum number during the year	145
Average number during the year	155
Number discharged during the year, as follows:	
By order of the Board of Trustees	93
By order of the courts	2
By the board on physician certificate	2
By escape, still absent	4
Total	101
Number remaining June 30, 1885	149

	Years.
Average age of boys discharged during year	13.3
Average time served by discharged boys	1.7
Longest time served by any one boy	6
Aggregate of time served by six oldest boys	21
Nativity of boys received during the year, as follows:	
American	68
Irish	10
German	4
English	1
Canadian	1
French	3
	87
Parental relations of boys received during the year:	
Number having both parents living	26
Number having lost father by death	34
Number having lost mother by death	26
Number having lost both parents by death	16
Number having parents living in separation	7
Number having step-fathers	14
Number having step-mothers	7
Age of boys received during the year, as follows:	
Number at seven years	1
Number at eight years	1
Number at nine years	3
Number at ten years	6
Number at eleven years	4
Number at twelve years	16
Number at thirteen years	14
Number at fourteen years	14
Number at fifteen years	23
Number at sixteen years	3
Number at seventeen years	2
Total	87
Causes of commitment, as follows:	
Incorrigibility	37
Larceny	28
Vagrancy	12
House-breaking	3
Assault	3
Malicious trespass	1
Profanity	1

Forgery	1
Arson	1
Total	87

Religious training of boys before commitment, as follows:

Parents attend Baptist church services	35
Parents attend Catholic church services	18
Parents attend Episcopal church services	6
Parents attend Methodist church services	24
Parents attend Presbyterian church	2
Parents attend Lutheran church services	1
Parents attend deaf-mute church services	1
Total	87

Education of boys when received, as follows:

Number who did not know the alphabet	7
Number who knew the alphabet only	16
Number who could spell easy words	12
Number who could read tolerably well	33
Number who could read well	19
Total	87

Number who could not write	36
Number who could write imperfectly	20
Number who could write legibly	18
Number who could write well	13
Total	87

Number who had never studied arithmetic	52
Number who had advanced to multiplication	17
Number who had advanced to division	14
Number who had advanced to fractions	4
Total	87

FINANCIAL STATEMENT.

The superintendent has received from various sources the sum of $4,835.49, as follows:

Received from chair-shop account	$1,920	05
Received from sales of farm products	1,233	99
Received from sales of fruits	278	33
Received from Department of Justice, support of boys	566	75
Received from other sources	836	37
	4,835	49

Which amount has been duly turned over to the treasurer of your Board and disbursed by your order, as will appear in his report of school finances for the year.

Estimates for current expenses for the ensuing year have been formulated and presented to the honorable the Commissioners of the District of Columbia, as follows:

For subsistence and miscellaneous supplies, including ordinary repairs, fencing, live stock, &c	$25,000
For salaries of officers and employés, including secretary and treasurer of school	11,700

Receipts from the farm and school for the fiscal year 1887 will be carried into the United States Treasury, for the benefit of the United States and the District of Columbia, jointly.

Estimates have also been submitted for the year ending June 30, 1887, to the honorable the Attorney-General of the United States, for contemplated improvements, including the erection of new buildings, as follows:

For one family building of brick and stone	$15,000
For one chapel building of brick and stone	7,500
For one brick tank house, iron water tank, &c	4,500
For grading, draining, and improving school grounds	1,500
Total for buildings and improvements	28,500

The aggregate amount asked for is not in excess of the actual and necessary wants of the institution. With respect to buildings and suitable means for separating and classifying our boys with special reference to age, we are sadly deficient, and by fair comparison are much below the standard of other similar schools, either under State or municipal control. We ask only to be placed in a position relatively favorable, in order that the highest results may be attained.

I believe it to be in the interest of the Government to provide these buildings, and, representing the only similar institution under national control, continue to present its reasonable claims, and press an early recognition of the same upon the attention of Congress at its coming session.

There have been no special changes during the year in the general arrangement and organization of the school sessions. The boys are divided into two separate families only, but there should be three, and would be if the necessary accommodations were provided. Each of these families occupies a separate building and one of them has been overcrowded for years. The school sessions of each family are held in their respective buildings, and the present organization is as follows:

Family A, occupying the separate building. Officers and teachers in charge, Samuel R. McMorran and I. D. Porter. Number of boys in family June 30, 1885, 92.

Family B, occupying wings of main building. Officers in charge, George O. Atherton and R. E. Dinsmore. Number of boys in family, June 30, 1885, 57.

The schools have been in session during the year under the supervision of competent teachers, with the exception of the usual summer vacation. The average age of boys received has been below that of former years, giving us a larger proportionate number of younger children, and in the same ratio the school grade has been reduced. Only the ordinary branches of a common school education are taught, including reading, writing, written and mental arithmetic, geography, and spelling. A limited number of boys study English grammar and history.

Boys are discharged as usual, on acquiring their "honor badge," which, in addition to the required number of merits for good conduct, includes advancement in their school grades to a knowledge of reading, writing, and a limited experience in figures, with ability to recite the multiplication tables from memory.

At the time of his admission every boy is examined as to his past school record. A large number of them honestly admit their repugnance to study and the discipline of the school room. Their refusal to attend the public schools at home often sends them to us, and hence our naturally increased proportion of tardy scholars. But we get also a number of bright, intelligent boys, and often find among them very interesting specimens of undeveloped mental ability, and possessing a

very decided originality of character. Under patient training and with proper encouragement, these boys often make rapid progress in study, and generally come to the front in our winter evening recitations, and take leading parts in all our school entertainments.

In this connection, a few thoughts and suggestions are offered with reference to our honorably discharged boys. Many of them go directly back to their homes, where they are again brought under parental care, and are doing well. Others go to homes secured for them, and when located at a distance from the city, with an employer who deals fairly by them, succeed in making an honest living. Very satisfactory reports from many of these boys, both in person and by letter, have been received within the past year. There are others, again, who manage to get along very well while under the restraints and discipline of the school, but when returned to the city, and finding it difficult to secure employment, soon become discouraged, and having no friends at hand to advise, naturally enough drift back into their old habits of idleness. This soon leads them to make companions of others more thriftless than themselves, and in time they either come back to us or find a temporary home in the District jail. Want of employment seems to be the most fruitful source of trouble, even among well-meaning boys, as we find those who have no homes, or at least none deserving of the name, failing to secure work and otherwise disheartened, sometimes return voluntarily to the school and accept for a time its sheltering care.

I would recommend that authority be asked of Congress to empower the Board of Trustees, at their discretion, to discharge boys on their "parole," and without further process of law return them to the school in case of forfeiture. This simply gives them leave of absence during good behavior, and places them on their "word of honor" for a stated time. Their final discharge would be made only upon satisfactory evidence of their ability to care for themselves.

It is a matter for further consideration that boys are sometimes committed to us by the courts under false statements concerning their age, and who are much beyond their years in criminal experience. Having led a vicious and vagrant life, they naturally resist restraint, and often necessitate a severe and exceptional discipline. There should be some appropriate legislation by Congress to meet these special cases, whereby the committing authorities would be legally qualified to direct their immediate transfer to the District work-house for a limited time. This would have a salutary influence upon others, and soon become an efficient means in securing a uniform discipline throughout the school.

The same industries have been prosecuted as during the past fiscal year and with correspondingly creditable results. Chair-caning is still productive of the largest income, speaking in a strictly financial sense, and more boys are employed at this work than in any other single industry. This labor is performed almost entirely by the smaller boys, while others, according to age and physical ability, are specially detailed to assist the farmer and those in charge of varied and necessary domestic duties. Thus our entire population while in health is engaged in some kind of manual labor during a portion of every working day. This, with regular hours for study during school sessions and stated intervals for daily exercise and recreation, favors both physical and mental development, and is cheerfully accepted by a large majority of boys during their time spent at the school.

The shoe and tailoring departments, together with the laundry, bakery, and kitchen, each in charge of a competent and responsible person, furnishes opportunities for a limited number of boys to secure

a knowledge of these several trades, which, if honestly prosecuted after their discharge, will enable them to earn a comfortable living.

There has been liberal provision made throughout the year of all supplies necessary for the health and comfort of the inmates. Wholesome food has been provided for the tables, varied as often as practicable, and, during the summer months, with an abundance of vegetables grown on the farm. Suitable clothing has also been furnished, made of plain, substantial fabrics, and changed with special reference to health and comfort, summer and winter.

All the legal holidays were duly observed by a suspension of work and a general indulgence in favorite games. Upon these occasions extra provision is also made for the tables, so that as nearly as possible every boy present may be made to feel that he loses nothing but the home associations while eating his Christmas pie or Thanksgiving turkey with his new-found friends at the school.

The per-capita cost for subsistence and ordinary supplies has not been increased beyond the average of the past eight years, but this average has always been somewhat above that of several leading institutions older and having a much larger population than ours, and more favorably located as to markets and sources of supply. The cost of maintenance must ever be considered an important item in the management of any public trust, and a prudent economy is necessary to insure the financial safety both of the family and the state Upon the other hand, it may be argued that a too rigid adherence even to this cardinal virtue may lead in time to parsimony, which must become little else than a vice if applied to the support even of paupers and criminals. During the past number of years it has been my steady purpose to administer the economies of the institution, in so far as my responsibility extends, in the common interest both of the giver and the receiver. If the cost to the one has been in any degree augmented, to the other it has been faithfully transferred, and this fact is made plain by the evidence of a steady increase in all property values and in the advanced condition of everything pertaining to the school.

Within the year much has been done to improve the condition of the farm and school grounds, which has been accomplished without aid from any special appropriation. A large number of shade-trees, furnished by the superintendent of the Parking Commission, has been planted on either side of the main roadway leading to the buildings, and the road itself thoroughly repaired and graveled. The court, between wings of main building, has been repaved with asphalt; the chair shop and old frame buildings repaired and painted, as also the main and family buildings; while a large amount of miscellaneous work has also been done by the older boys on the farm and school grounds, including the planting, cultivation, and harvesting of our entire field and vegetable crops. Much additional labor has been expended also in grading, draining, and paving roads and walks east and south of building, and in efforts to extend and improve our family play-grounds.

Over one hundred panels of picket and wire fence have also been built, inclosing barn and other outbuildings, together with convenient pasturage for milch cows and other farm stock. The lumber used was of the best red cedar and white pine, and of similar material a fence has also been constructed around the wells which furnish our water supply, and the ground thus inclosed thickly planted with trees. Eight hundred feet of galvanized iron pipe has been laid to convey the surplus water from a large spring to the piggery, or to the walls at pump-house, as necessity may require.

We have had no deaths to report during the past two years, and but seven boys have died at the school out of all that have been received during the sixteen years of its existence. This shows a remarkably low rate of mortality, less than one-half of 1 per cent., rating by the average yearly population since that time. Considering the natural advantages of our elevated position, with a soil and atmosphere almost free from dampness and malarial influences, we need only to practice habits of cleanliness and enforce a thorough sanitary regime in order to secure comparative freedom from all local diseases.

But with all these favorable surroundings we have not been entirely free from sickness, as will appear from the annual report of the attending physician, Dr. Charles A. Wells. Our hospital accommodations are ample, and have provided every necessary convenience and comfort for a number of very sick boys, while every demand of the physician has been fully and promptly supplied. Dr. Wells has proved a faithful friend, professionally and otherwise, to those requiring medical attention, always responding promptly when called, and ever ready to treat patiently even the imaginary ills of our few little waifs, who are permitted to make chronic visits to the hospital, but who generally find an antidote for their troubles in a special prescription filled only for them, and with a healing quantity of kind and encouraging words.

The school has received its full quota of visits during the year from those officially responsible for its conduct and maintenance. We have also been greatly encouraged and aided by the presence and counsel of many friends, eminently qualified by experience and sympathy to strengthen our efforts in the routine of daily duty. Among these occasional visitors we have pleasure in naming the honorable the Vice-President of the United States and his equally honored wife, whose personal interest in our special work is widely and favorably known.

During the early summer the Conference of Corrections and Charities held its Twelfth annual session in the city of Washington. The school was represented in this conference by a special committee appointed by the Board of Trustees. The number of delegates was larger than usual and much interest was manifested from day to day in their discussions and deliberations upon the important work to which they had been called.

During the intervals of business a large number of those directly interested took occasion to visit the school, where they were cordially received and welcomed by the superintendent and matron in behalf of the Board of Trustees. It is through these *unofficial* interchanges of opinion and by a candid comparison of our individual experiences that most of our practical information is secured. Thus also we succeed in awakening new interest, inspiring new lines of thought that may lead eventually to the possible solution of the problems we are mutually laboring to solve.

Acknowledgments are hereby cordially extended to all who have so generously assisted in our Sabbath-day services, as well as to many other good friends who have not failed to remember the boys by timely donations to our library of juvenile books, magazines, pamphlets, and other select miscellaneous reading.

It may be suggested here that in many of our city and county homes there is an accumulation of excellent miscellaneous reading, no longer in use, and waiting only a convenient opportunity for its gratuitous distribution. We would cheerfully accept donations of this kind, and send for them promptly if notified as to time and place where they could be

had. In behalf of our boys, who greatly enjoy the means of passing a leisure hour, let me ask who first and from how many of their friends may we expect to hear during the present school year?

But few changes have been made in our official force since my last annual report. I believe all on duty have endeavored to give faithful service in their respective positions, and the support thus extended to the superintendent has been cordial and sincere. When changes do occur, they are made only for cause, or at the option of the parties concerned.

This, gentlemen of the Board of Trustees, will close my fourth annual report. Throughout the present, as in former years, I have tried to deserve your confidence in my ability to execute your will in the varied duties my position has imposed. I thank you, in the belief, that my efforts have met your generous approval.

Our school year has been crowded with blessings. To the Divine Giver we owe all the praise.

Respectfully submitted.

GEO. A. SHALLENBERGER,
Superintendent.

The BOARD OF TRUSTEES,
Washington, D. C.

Report of the treasurer.

REFORM SCHOOL OF THE DISTRICT OF COLUMBIA,
Washington, October 10, 1885.

SIR: I have the honor to hand you herewith a detailed statement of my receipts and disbursements as treasurer of the Reform School for the fiscal year ended June 30 last.

As appears thereby, the sum of $1.19 remains in my hands to the credit of the school.

Very truly,

SAM'L W. CURRIDEN,
Treasurer.

GEORGE W. ADAMS, Esq.,
President Board of Trustees, Reform School, D. C.

Statement.

RECEIPTS.

From appropriation for salaries	$10,916 00
From appropriation for subsistence, &c	22,000 00
From appropriation for new bell and painting of buildings	1,350 00
From Department of Justice, support of inmates committed by United States courts outside of the District of Columbia	566 75
From superintendent, sale of farm products and proceeds of work in shops	4,268 74
Total	39,101 49

EXPENDITURES.

Report of physician.

REFORM SCHOOL, DISTRICT OF COLUMBIA,
June 30, 1885.

GENTLEMEN: I am glad to report that the health of the school for the past year has been better than the average.

When we consider the number of inmates, and the previous surroundings of many of the boys admitted here, it is a matter for surprise as well as congratulation that we have had so small a number of serious cases.

I cannot doubt that the complete cleanliness maintained throughout the institution, the thorough ventilation insisted on, the daily use of disinfectants, and the immediate isolation of every case of contagious disease, have been the prime factors in preventing sickness.

CHAS. A. WELLS.

The TRUSTEES OF THE REFORM SCHOOL,
DISTRICT OF COLUMBIA.

EXHIBIT Q.—*Report of the warden of the jail.*

SIR: I herewith respectfully present my annual report for the fiscal year which ended October 31, 1885.

No incident worthy of notice has transpired outside of the usual course of discipline and the current business transactions connected with the institution during the year.

The prison has been conducted on the same humanitarian principles that have governed in its management during the past ten years.

No serious insubordination has occurred and no corporal punishment has been administered. Such acts of impropriety and violations of the rules of the prison as have occurred have been promptly met by a system of dietary treatment, and a deprivation temporarily of some of the privileges and favors that well behaved prisoners are entitled to. This method of treatment has in all cases proved effectual, and its results have been salutary in securing the best of discipline. My experience in prison management has convinced me that good wholesome food in sufficient quantities, comfortable quarters, and kind treatment will as a rule secure good behavior on the part of the prisoners in return.

The moral and religious work has been pursued earnestly and intelligently by ladies and gentlemen connected with the Young Men's Christian Associations, white and colored, and the Ladies' Christian Temperance Union, of this city, and others who feel the obligation and duty of doing what they can to advance the moral condition of the prisoners. None are excluded on account of any particular faith or sect, prisoners of any religious denomination are allowed to have their own particular religious teacher if they prefer it. These moral and religious teachings, coupled with rigorous discipline, cleanliness, and proper diet have favorably influenced the habits and physical condition of the inmates. Our discipline compels thorough cleanliness, uniformity, subordination to every regulation, and proper deportment on all occasions. These all tend to elevate the moral and benefit the physical condition of the prisoners, and many of them are reclaimed and become industrious and law-abiding citizens. To attain this end has been my chief aim in the management of this institution.

The deputy warden and other officers of the jail have faithfully discharged their duties and properly co operated with me in the management of the institution.

The report of Dr. Alexander McWilliams, the jail physician, is herewith submitted. It will show the condition of health among the prisoners, the death that has occurred, and the sanitary state of the prison. For that purpose it is adopted as a part of this report.

During the year there were convicted and sentenced by the supreme court of this District holding criminal terms, 103 convicts 1 of whom was sentenced to serve a term in the New Hampshire State prison at Concord, N. H., and the remaining 102 were sentenced respectively to serve terms in the Albany County penitentiary at Albany, N. Y. I transferred these convicts from the jail to the prison and penitentiary above named, in obedience to duty and in compliance with the mandates of the court in relation thereto. The said convicts consisted of 27 white males, 71 colored males, and 5 colored females. During the preceding year the number of penitentiary convicts was 72. The cost to the Government for the transportation of such convicts was $792.13. Besides, the sum of $957.52 was paid by the authorities of the prison and penitentiary hereinbefore mentioned for the railroad fare attending the

transportation of the said convicts. During the year there were 86 boys of the number of those committed to jail who were tried, convicted, and sentenced by the courts of the District of Columbia to the Reform School in said District. Twenty-three of these were white, and 63 colored, all of whom were transferred by the warden to that institution. The number so sentenced and transferred to the Reform School the preceding year was 65. Also there were 1,042 of those who were committed to jail, as hereinafter stated, who were tried, convicted, and sentenced by the police court and criminal court of the District to serve terms in jail for the crimes and misdemeanors as hereinafter stated and classified. Of this number 219 were white males, 676 were colored males, 22 were white females, and 123 were colored females. During the preceding year the number convicted and sentenced to jail as aforesaid was 943; of whom 792 were males and 151 were females. The daily average number of prisoners in jail during the year was 197. During the preceding year the daily average number in jail was 171. The total number in jail during the year was 2,105, classified as follows: 544 were white males, 1,307 were colored males, 43 were white females, and 211 were colored females. The previous year the total number in jail was 1,969, of whom 490 were white males, 1,190 were colored males, 16 were white females, and 273 were colored females.

The total number in jail during the year was composed as follows, 190 were in jail at the beginning of the year and 1,915 were committed during the year. The total number in jail as above stated are accounted for as follows, viz: There were pardoned by the President 5 white males and 2 colored males; commuted by the President from death sentence to life imprisonment, 1 white male and 1 colored male; 1 colored male died; 1 colored male was executed; 1 white male, 1 colored male, and 1 white female were transferred to the Government Asylum for the Insane in this District. There were transported to the prison and penitentiary as above stated, 27 white males, 71 colored males, and 5 colored females; 23 white males, and 63 colored males were transferred to the Reform School; 418 white males, 1,072 colored males, 40 white females, and 183 colored females were discharged by due course of law. There remained in jail at the close of the year 189, of whom 68 were white males, 95 were colored males, 2 were white females, and 24 were colored females.

The condition of the roof over the central part of the jail building is very imperfect, and has been so for several years. In my last annual report I referred to it as follows: "This part of the roof never was waterproof, and besides, two or three years after the building was completed, during a severe gale and storm in the winter, a heavy body of ice and snow which had accumulated on the cupola or lantern as it is called, over the center of the building, broke loose from its lodgments and fell with a heavy crash on the roof, and damaged it to such an extent that it has since leaked very badly during storms, thereby flooding the rotunda or central apartment to an extent that causes great annoyance, and in a measure interrupts the business of the institution for the time, but the more serious results to be apprehended if this condition of the roof should not be remedied very soon are that the roof boards and timber supports will decay and cause the necessity of constructing an entire new roof over the part mentioned, at a much greater cost than will be required to repair the present roof. No appropriation was made for the special purpose of making the repairs. I did however cause such repairs to be made to the roof as would in a measure remedy the difficulty temporarily.

The valley gutters around the eaves of the building and the conduits which were in a faulty condition have been repaired so as to prevent damage to the building for the time being, but these, together with the roof referred to, should be thoroughly reconstructed in order to prevent permanent damage to the building. To do this would require an expenditure of about $1,500.

The steam-heating apparatus, and particularly the four large steam-boilers which have been in use over ten years, have required quite extensive repairs, in order to render them safe and fit for use. The steam laundry has also required extensive repairs, which have been made. The expenditures for repairing the building, laundry, steam-heating apparatus, fixtures, and sewers, were $834.19; and for paints, painting, and glazing, $299.38.

The salaries of the deputy warden, physician, engineer, and assistant engineers, guards, clerk, messenger, carpenter, and cooks for the year were $27,360. The other expenditures on account of the jail were as follows:

Subsistence	$10,759 42
Fuel	2,113 09
Beds, bedding, and clothing	1,968 95
Gas and lights	741 30
Medicines, medical stores, and delicacies for the sick	533 64
Ice	212 57
Undertakers' bills	40 00
Stationery, blank-books, and advertising	152 23
Disinfectants, soap, sal-soda, lime, whitewash-brushes, and scrub-brushes	687 93
Keeping horse, cow, and repairs of harness and wagon	158 56
Inspecting steam-boilers	25 00
Furniture, including kitchen furniture and utensils, cell furniture, hard and tin ware, working and mechanical tools	563 82

The following is a correct classification of the prisoners who were committed to jail during the year, with a statement of the offenses charged:

Offenses charged.	White males.	Colored males.	White females.	Colored females.	Total.
Murder	4	5			9
Assault with intent to kill	7	33	2	7	49
Rape and attempt at rape	2	8			10
Arson	1	2		1	4
Robbery	10	4			14
Burglary and larceny	2	16			18
Housebreaking	34	54	4	3	95
Grand larceny	34	23	3	15	75
Larceny from person	9	17			26
Receiving stolen goods		5		4	9
Forgery	3			1	4
Embezzlement	8	5		1	14
False pretense	12	6			18
Passing counterfeit money	5				5
Perjury		2		1	3
Bigamy		3			3
Second offense, petit larceny	2	6		2	10
Larceny of United States property	1				1
Resisting Metropolitan police officers	4	2			6
Petit larceny	106	386	12	55	559
Policy business	8	14			22
Keeping gambling table		3			3
Impeding United States witnesses		2			2
Bench warrant	34	10	4	2	50
Selling oleomargarine		1			1
Assault and battery	95	334	6	52	487
Assault	24	94		5	123
Affray	31	76	1	14	122
Malicious trespass	6	20		9	35
Keeping disorderly house	3	4			7
Mayhem		3			3
Threats of violence	15	23	4	2	44

Offenses charged.	White males.	Colored males.	White females.	Colored females.	Total.
Contempt of court	1	7	.....	3	11
Keeping bawdy house	.....	.....	3	5	8
Enticing prostitution	.....	.....	1	.....	1
Profanity	.....	1	.....	.....	1
Decoying away a child	.....	.....	2	.....	2
Refusing to pay dog-tax	1	2	.....	.....	3
Incorrigibility	9	16	.....	.....	25
Vagrancy	4	4	.....	.....	8
Killing birds	1	.....	.....	.....	1
Keeping vicious dogs	.....	1	.....	.....	1
Abandoning her child	.....	.....	.....	1	1
United States witnesses	7	15	.....	.....	22
Total	483	1,207	42	183	1,915

As hereinbefore stated, 103 prisoners of those committed as above mentioned were tried, convicted, and sentenced to the aforesaid State prison and penitentiary by the supreme court of the District of Columbia holding a criminal term, and are classified and their crimes stated as follows:

Crimes.	White males.	Colored males.	White females.	Colored females.	Total.
Murder	.....	1	.....	.....	1
Manslaughter	1	5	.....	.....	6
Assault with intent to kill	.....	6	.....	.....	6
Rape and attempt at rape	.....	2	.....	.....	2
Resisting Metropolitan police officers	.....	3	.....	.....	3
Housebreaking	14	31	.....	.....	45
Forgery	1	.....	.....	.....	1
Grand larceny	4	6	.....	4	14
Larceny from person	3	11	.....	.....	14
Second offense, petit larceny	.....	5	.....	1	6
Violating Revised Statutes	2	.....	.....	.....	2
Mayhem	.....	1	.....	.....	1
False pretense	1	.....	.....	.....	1
Embezzlement	1	.....	.....	.....	1
Total	27	71	.....	5	103

Of the number of those who were committed to jail as above stated, 86 males (boys under sixteen years) were convicted and sentenced to the Reform School in this District. Their crimes and offenses are classified as follows, viz:

Crimes and offences.	White.	Colored.	Total.
Arson	.....	1	1
Housebreaking	1	1	2
Grand larceny	.....	1	1
Forgery	.....	1	1
Second offense, petit larceny	.....	3	3
Petit larceny	6	35	41
Assault	.....	2	2
Incorrigibility	11	13	24
Vagrancy	3	4	7
Trespass	2	1	3
Profanity	.....	1	1
Total	23	63	86

There were 1,040 of the number of those who were committed to jail as above stated who were convicted and sentenced to serve terms in jail by the supreme court holding criminal terms and by the police

court of the District. Their crimes and misdemeanors are stated and they are classified as follows, viz:

Crimes and misdemeanors.	White males.	Colored males.	White females.	Colored females.	Total.
Manslaughter	1	1			2
False pretense	1				1
Larceny from person	1	1			2
Embezzlement	2	1			3
Housebreaking	1	3			4
Violating Revised Statutes, &c	3				3
Attempt at larceny	1				1
Assaulting Metropolitan police officers	2				2
Keeping gambling house		2			2
Policy business	4	3			7
Receiving stolen goods		1			1

Keeping vicious dog		1			1
Killing birds	1				1
Affray	29	66		13	108
Total	219	676	22	123	1,040

Very respectfully, your obedient servant,

JOHN S. CROCKER,
Warden.

Hon. A. H. GARLAND,
Attorney-General United States.

Report of the physician to the jail.

WASHINGTON, D. C., *November* 2, 1885.

DEAR SIR: During the past year we fortunately have but one death to record, that of a case of sudden hemorrhage from the lungs in a man who, I believe, entered the prison the day previous to all appearance in perfect health. He died before any assistance could be rendered. Quite a number of cases of severe and obstinate diarrhœa and some dysentery have reported for treatment, mostly confined to persons who had been but a few days in jail and were suffering with the disease on entering. I can call to mind but one of the long-term prisoners being seriously ill with it. I attribute nearly all these cases to imprudence and exposure before entering the prison. With these exceptions the health of the prisoners has been remarkably good. We have had fewer cases during the past year of those diseases which result from the intemperate and depraved mode of life previously led by a large majority of those who occupy the cells of the prison. But one case of opium habit was reported during the year—a woman, a hopeless slave to it, but unfortunately her stay was too short to be of any benefit to her. Three transfers have been made from the jail to the Government Asylum for the Insane—persons who, on trial, were found to have been insane before their entrance into the prison. Quite a number of children have been necessarily brought to the jail with their mothers, who have been committed on criminal charges. With our limited facilities in the

female department it has been no easy task to care for them properly. It is to be hoped that some provision may be made to prevent the crowding of the prison cells with children, who need all the care that can be bestowed on them.

The condition of the jail is all that could be desired. The food is abundant, varied, and well cooked. The prison is clean, and the care and attention of the officers all that could be wished.

To yourself and the officers of the prison I return my thanks for the courtesy and kind assistance rendered me in the discharge of my duties.

Yours, very respectfully,

A. McWILLIAMS,
Physician, United States Jail.

General JOHN S. CROCKER,
Warden, United States Jail.

EXHIBIT R.

COURT OF COMMISSIONERS OF ALABAMA CLAIMS,
Washington, D. C., November 18, 1885.

SIR: In my report addressed, under date of November 14, 1884, to Hon. Benjamin H. Brewster, I had the honor to submit a full statement of the cases disposed of up to that date by the Court of Commissioners of Alabama Claims and also of the cases then pending. On the day last mentioned there remained unadjudicated 522 cases of Class I, claiming $2,645,552.60; 3,039 cases of Class II, claiming $13,059,251.18; in all 3,561 cases of both classes claiming $15,704,803.78.

Since then the court has continued with the utmost assiduity to urge the preparation and trial of the remaining cases, and I am gratified to be able now to present the following exhibit of the work accomplished up to and including the 10th of October, 1885:

OCTOBER 10, 1885.

Summary of cases, with amounts claimed and allowed therein, adjudicated by the court from its organization, on July 13, 1882, *to and including October* 10, 1885.

I.—JUDGMENTS.

Period.	No. of cases.	Amount claimed.	Amount allowed.
CLASS I.			
Organization to October 31, 1883, inclusive	304	$2,059,513 86	$1,218,036 33
November 1, 1883, to June 30, 1884, inclusive	577	4,961,960 94	551,746 31
July 1, 1884, to June 30, 1885, inclusive	444	1,047,461 17	370,780 38
July 1, 1885, to October 10, 1885, inclusive	29	83,753 22	8,528 00
Total	1,354	8,152,689 19	2,149,091 02
CLASS II.			
Organization to October 31, 1883, inclusive	159	695,025 35	570,353 95
November 1, 1883, to June 30, 1884, inclusive	946	3,635,113 30	2,824,205 27
July 1, 1884, to June 30, 1885, inclusive	1,138	4,543,273 61	3,534,553 04
July 1, 1885, to October 10, 1885, inclusive	342	1,200,324 73	762,034 30
Total	585	10,073,736 99	7,691,146 56

Summary of cases, with amounts claimed and allowed therein, &c.—Continued.

II.—DISMISSED.

Period.	Class I.		Class II.	
	No. of cases.	Amount claimed.	No. of cases.	Amount claimed.
Organization to October 31, 1883, inclusive	2	$4,853 05	3	$5,229 39
November 1, 1883, to June 30, 1884, inclusive	10	55,137 00	11	109,419 19
July 1, 1884, to June 30, 1885, inclusive	210	1,457,433 95	202	752,316 10

Total	225	1,528,046 25	277	1,043,287 57

III.—JUDGMENTS AND DISMISSED (by class).

Period.	No. of cases.	Amount claimed.	Amount allowed.
CLASS I.			
Organization to October 31, 1883, inclusive	306	$2,064,366 91	$1,218,036 33
November 1, 1883, to June 30, 1884, inclusive	587	5,017,097 94	551,746 31
July 1, 1884, to June 30, 1885, inclusive	654	2,504,895 12	370,780 38
July 1, 1885, to October 10, 1885, inclusive	32	94,375 47	8,528 00
Total	1,579	9,680,735 44	2,149,091 02
CLASS II.			
Organization to October 31, 1883, inclusive	162	700,254 74	570,353 95
November 1, 1883, to June 30, 1884, inclusive	957	3,744,532 49	2,824,205 27
July 1, 1884, to June 30, 1885, inclusive	1,340	5,295,589 71	3,534,553 04
July 1, 1885, to October 10, 1885, inclusive	403	1,376,647 62	762,034 30
Total	2,862	11,117,024 56	7,691,146 56

IV.—JUDGMENTS AND DISMISSED (both classes).

Organization to October 31, 1883, inclusive	468	2,764,621 65	1,788,390 28
November 1, 1883, to June 30, 1884, inclusive	1,544	8,761,630 43	3,375,951 58
July 1, 1884, to June 30, 1885, inclusive	1,994	7,800,484 83	3,905,333 42
July 1, 1885, to October 10, 1885, inclusive	435	1,471,023 09	770,562 30
Total	4,441	20,797,760 00	9,840,237 58

Under the stringent orders adopted there have been since tried and determined 1,083 cases, leaving undisposed of on the day of the date hereof only 10 cases of Class I and 217 cases of Class II, so that I can now confidently predict that the labors of the court will be completed and duly certified on or before the 31st of December next, the day to which the existence of the court was extended by the act of Congress approved June 3, 1884.

In the effort to arrive at just conclusions, "according to the principles of law and the merits of the several cases," the court has been obliged to consider and pass upon many intricate questions of law, especially in the departments of international, admiralty, maritime, and insurance jurisprudence, and to apply the principles thus evolved to almost every conceivable complication and variety of fact. The counsel for the claimants have had full opportunity to present their views, and have favored the court with the most elaborate oral and printed arguments, to which the counsel for the United States in turn has been called upon to reply. The field of inquiry has been traversed and explored in every direction by gentlemen of ability, representing the most diverse interests on the part of claimants, under circumstances best adapted to stimulate

the discovery and reduction of the true principles of law and justice. The court, after being thus aided, has carefully matured its decisions, and in all important cases has presented them in writing. These decisions, in my judgment, if properly classified and reported, would be found of lasting interest to the legal profession and most useful to the Government, and hence I venture to recommend that you take appropriate steps to have them preserved and perpetuated in suitable form. Four or five months' work, immediately after the adjournment, by a competent person, familiar with the proceedings and records of the court, would be ample for the purpose, whereas years would be inadequate should the material, now abundant and accessible, be scattered and lost.

I earnestly invoke your attention to this suggestion, and venture to express the hope that you will at once direct such favorable action in the matter as your judgment may approve and the means at your command may justify.

I am, sir, with great respect, your obedient servant,

JNO. A. J. CRESWELL,
Counsel on behalf of the United States before the Court of Commissioners of Alabama Claims.

Hon. A. H. GARLAND,
Attorney-General of the United States.

COURT OF COMMISSIONERS OF ALABAMA CLAIMS,
Washington, November 18, 1885.

SIR: The progress of the business before the court of Commissioners of Alabama Claims, up to the present date, justifies the confident belief that the court will be able to conclude the adjudication of all the pending claims and certify its judgments to the Secretary of State, and adjourn *sine die* within the time now limited by law, to wit, December 31, 1885.

But it will not be possible, within that period, for the court, by its own members or by any other person legally subject to its direction, to report in a satisfactory form its decisions of questions of law and facts on which its judgments were founded. These questions, relating to more than five thousand cases, adjudicated during the three and one-half years of the court's existence, have been numerous, various, and many of them new and intricate. In view of the fact that uniformity in the decisions of the courts, commissions, and executive departments of the Government is desirable, it is suggested that the preservation of a record of the decisions of this court may be useful in future.

A report of such decisions, however brief, to answer any useful purpose, ought to approach substantial accuracy. It is therefore obvious that it ought to be made by a competent person, conversant with these proceedings, and, if possible, by one who participated in their discussion, as did the representative of the Law Department of the Government.

This court, therefore, suggests the advisability of your instructing the Hon. John A. J. Creswell, counsel for the United States before the court, to make such report, commencing the work immediately, while all the papers, official memoranda, stenographer's notes, and other data necessary to accuracy, are in existence and easily attainable.

It is believed by the court that he might find some available time

during the last month of the court's existence to devote to this work, and that he could complete a satisfactory report within three or four months after its adjournment.

I am, sir, with great respect, your obedient servant,

JAMES HARLAN,
Presiding Judge.

Hon. A. H. GARLAND,
Attorney-General.

EXHIBIT S.

OFFICE OF THE COMMISSIONERS, DISTRICT OF COLUMBIA,
Washington, November 3, 1885.

SIR: In accordance with what the Commissioners understood as a suggestion from you in a recent interview, they have the honor to submit for your consideration this brief of the representations made by them concerning railroad matters in the District, so that if thought proper the Executive may call the attention of Congress thereto.

The Baltimore and Ohio and the Baltimore and Potomac Railroad Companies were each allowed by acts of Congress to extend their lines of road into the District, with the same rights and privileges they respectively enjoy under their Maryland charters. The several acts of Congress allow those companies to occupy with double tracks certain designated avenues and streets in Washington City without expressly defining their rights and privileges along the same in respect to loading and unloading freight. The increase of business, and especially as respects heavy freight, has been very great within a few years past, so that increased facilities therefor have been urgently demanded both by the railroad companies and by the business men of the District. Many of the latter have purchased lots, or desire to do so, near the railroads for warehouses and other business enterprises, with a view to the convenience of loading and unloading freight directly upon their own premises.

Considering that the object of the railroad grant by Congress was to give railroad accommodations to the people of the District, and that to unload coal, lumber, and other bulky freight within private premises greatly relieves the streets from heavy carting, the Commissioners (expressly declared by Congress to be officers of the municipal corporation as provided by section 2 of the Revised Statutes for the District, and to succeed to the powers of the late board of public works) have for many years been accustomed to hear and decide upon applications for permits to lay switches temporarily from the main tracks into the adjacent squares, and, when found not seriously to discommode the neighborhood, permits for such switches have been issued on condition that they be so laid as not to interfere with the ordinary use of the streets.

Recently, to accommodate the public with a freight depot on the west side of Fourteenth street, the Baltimore and Potomac Railroad Company purchased square 233 and asked a permit to lay a track to that square, which the Commissioners declined to give because they regarded it as going beyond what was contemplated by Congress, and because cars to the number contemplated crossing Fourteenth street would, as they believed, seriously obstruct the main thoroughfare to the free bridge along which there is much travel. The railroad company there-

upon appealed to the courts for a declaration of its rights in the premises. The result of the discussions by the courts has been such that much doubt is raised as to the scope and extent of the decision and of the power of the Commissioners in such matters. (See recent opinion of the Supreme Court United States in case of Baltimore and Potomac Railroad Company *vs.* The Commissioners, 114 U. S. Rep., 453.)

Without entering upon a discussion of those questions the Commissioners think it enough for the present purpose to urge upon the Executive the considerations that it is quite proper, and as the Commissioners believe a municipal necessity, that there be more definite legislation in respect to railroads within the city of Washington; that it is extremely desirable that the lines of road, with privileges of extension or deflection for business accommodation, be definitely determined both for the needs of the present and the immediate future. The rapid development of the city is, as the Commissioners believe, due largely to increased railroad accommodation, and the increase in population and business in turn demand a corresponding development of railroads, for in this age they are as necessary to cities as the streets and avenues, and in the opinion of the Commissioners it is detrimental to the interests of the people of the District to allow these important matters to remain unsettled.

Inclosed herewith is a printed page of index showing the volume and page of Statutes at Large where the several acts of Congress in relation to these railroads may be found.

By order of the Board.

Very respectfully,

J. B. EDMONDS,
President.

Hon. A. H. GARLAND,
Attorney-General United States.

[Inclosure.]

	Volume.	Page.
Baltimore and Ohio Railroad Company, incorporated in Maryland, February 28, 1827:		
May extend lateral into District of Columbia	4	476
(See also)	4	268
Extension of time for completion of road	4	672
May construct route through certain squares	4	757
May extend Washington branch to a point on Potomac opposite Alexandria	10	811
Point of Rocks, or Metropolitan, branch authorized	14	250
Lateral from Washington branch to intersect Metropolitan branch outside Washington, authorized	18	84
May use certain tracks of Washington, Chesapeake and Potomac Landing Railroad Company	18	275
Proclamation of President to prevent violence on route of	20	803
Settlement of unpaid taxes of, ratified	21	516
Use of steam by, in Washington, &c., routes, grades, &c., (see Mis. Doc. 15, first session Forty-seventh Congress. See also Railroads, *infra.*)		
Baltimore and Potomac Railroad Company, incorporated in Maryland, May 6, 1853:		
Authorized to lay lateral road in District of Columbia	14	387
May construct road in District of Columbia by one of two routes	16	1
Time for completion of, extended	16	78
Routes into Washington designated	16	1, 78, 161
Do	17	140
May use, change, and hold Long Bridge	16	161
May erect passenger depot, Virginia avenue, between Sixth and Seventh streets southwest	16	585
Repeal of authority for erection of said depot	17	141
May use grounds southwest corner of Sixth and B streets for passenger and express depot	17	140
May erect iron bridge over Sixth street	17	140
Must keep flagmen, &c., at crossings	17	140

EXHIBIT S 1.

WASHINGTON, D. C., *November* 5, 1885.

SIR: As the District Commissioners have referred to you the matter of steam railroads within the city of Washington and the occupancy of its streets and avenues, I respectfully ask you in the investigation of the subject to look carefully into the provisions of the citizens' bill and memorial presented to Congress, herewith submitted, that the interests of the city and the property holders, as well as these corporations with their extraordinary claims for privileges and accommodations within the very heart of the city, may be considered together.

The decision of the United States Supreme Court, referred to in the communication of the Commissioners, No. 1,283 October term, 1884, we deem conclusive as to the powers and privileges granted these railroad corporations within the streets and avenues of the city. And we are further of the opinion that the Commissioners of the District have from time to time, unwittingly, it is believed, transcended their powers in granting to these roads or to private individuals privileges to lay lateral tracks from their main tracks, which are not provided for in the original acts or any subsequent acts of Congress, to and along streets and avenues of the city, or to in any way cumber them by loading or unloading their cars within them. The powers of the Commissioners are executive, not legislative. To grant these permits of privileges is among the reserved powers belonging to Congress and which is, by implication at least, reserved alone to Congress in the acts granting these roads the right to enter the city, and which prescribe with great particularity the route and number of feet they shall occupy within these streets and avenues.

Very sincerely and respectfully, your obedient servant,

C. P. CULVER,
Attorney for the Citizens' Protective Association.

Hon. A. H. GARLAND,
Attorney-General United States.

EXHIBIT S 2.

CITY OF WASHINGTON, *November* 6, 1885.

SIR: Some time in June last I received a petition, which is inclosed, from a number of persons residing or owning property in the vicinity of Maryland avenue and Thirteenth streets southwest, in this city, complaining of certain alleged nuisances interfering with the free use of some of the streets and sidewalks in that locality, and asking me to aid officially in the suppression of such nuisances.

As will be seen from the petition and from an examination of any map of the city, the railroad tracks referred to in the petition run from the main track of the Baltimore and Potomac Railroad on Maryland avenue to points either on Maryland avenue or on other streets intersecting Maryland avenue. One of these side tracks or branches runs down Thirteenth street and into squares not abutting on Maryland avenue. All of them cross the sidewalk of that avenue.

I have made an investigation to ascertain the facts and the law bearing upon the prayer of this petition. As to the facts, there seems to be

no controversy. The tracks in question were laid by the employés of the Baltimore and Potomac Railroad several years ago, and have been used daily by the company ever since. The tracks of course obstruct travel themselves, and the locomotives and cars which pass over them add greatly to the inconvenience of those using the streets and sidewalks across which the trains are drawn. I take it there can be no question that here is a nuisance, unless the tracks have been laid by virtue of authority from some source having the power by law to grant the use of the streets of the city for such purposes.

As to the track running to square 267, it seems to have been laid without any express authority from any source. The portion of square 267 which is owned by the railroad company (being that part of the square which abuts on Maryland avenue) is used by it as a freight yard. On behalf of the company it is claimed that the grant of the right to enter the city and lay and use its tracks along certain streets carries with it an implied authority to run branches to squares abutting on those streets for the purpose of reaching freight yards and other necessary adjuncts of a railroad, the argument being that since the railroad could not be operated without such privileges Congress must be presumed to have granted them.

The other tracks referred to in the petition are one running south on Thirteenth street to square 300 and a branch therefrom to square 270. These tracks were laid under an express license from the Commissioners of the District of Columbia.

The question of the right of this company to depart from the line of Maryland avenue was involved in the recent case of the District of Columbia against the Baltimore and Potomac Railroad Company (114 U. S., 453). As I understand the decision in that case, the court holds that the company's right on this part of Maryland avenue is simply to go on to the long bridge and that Congress alone can give it license to run branches into other streets or to city squares whether those squares abut on Maryland avenue or not.

Having reached these conclusions, it became my duty to present the case to the grand jury and ask for indictments against those who should appear to be responsible for the existence of the tracks complained of.

It will be observed that the petitioners allege that they have applied in vain not only to the company but to the Commissioners of the District. It appears that the Commissioners, notwithstanding the decision in the case above referred to, are of opinion that they have the power to grant licenses such as the one under which the track on Thirteenth street was laid. As to the track leading to square 367, which was laid without a license from the Commissioners, I understand their position to be that they are not bound to remove it or cause it to be removed, but that if it be a nuisance any citizen may abate it, or the company may be indicted for maintaining it.

Before the office of Commissioners of the District was created there was in force a law creating a board of police in this District, and that board was charged with the duty of removing nuisances from the streets. (See Sec. 335 Revised Statutes United States, relating to the District of Columbia.) Afterwards that board was abolished, and its duties, as well as its powers, were expressly transferred to the Commissioners of the District. (Act June 7, 1878, 20 Stat. at Large, 99; Rich. Supp., 344.) It therefore seems to me that if these tracks constitute a nuisance it is the duty of the Commissioners to remove them. And if one of the tracks was laid under a license from the Commissioners, and

they decline to remove it or to withdraw the sanction so given, it appears to follow that their responsibility in the matter is as great as that of the company itself.

Although the petition in question refers to but three tracks, there are a number of others which will have to be removed if I am right in my conclusions. For instance, the Commissioners of the District have authorized the laying and use by this company of tracks from its main line to certain ground near the main line in this city on the site of a part of the old canal, which was done, as I am informed, for the purpose of allowing the company to use that ground as a freight-yard. The company had been in the habit of loading and unloading its freight cars, in a great measure, on the streets through which its main lines run. Persons residing on those streets who were annoyed by this sued the company in the courts of the District, and the result was that the company was enjoined from using the streets for such purposes. Thereupon the Commissioners granted them the privileges in question. If I have not misconceived the effect of the opinion of the Supreme Court in the case in 114 United States, the company must now either discharge and receive its freight in the streets again, or cease to transact such business at all in this city.

Besides the branches mentioned in the petition and those to the freight yard on the site of the old canal, others have been laid and are now in use which run into the land of different business men adjoining the railroad track, thus enabling the persons so favored to load and unload goods received or shipped by them on their own premises. Still another of the branches runs to the building in which the railroad company keeps its locomotives when they are not in use.

It will be seen, therefore, that while these petitioners are entitled, as I view the law, to their remedy by indictment against those who are responsible for the existence of the nuisances of which they complain, the attempt to enforce that remedy will bring this office into conflict with that of the municipal authorities of the District; and that if the court should sustain the proposed prosecutions the result would be to cripple the railroad company and greatly to incommode the merchants and manufacturers of the city who depend upon this road to transport the goods which they bring into the city or send away from it.

For these reasons I respectfully submit the whole matter to the Attorney-General and ask for instructions as to the course which I shall pursue.

I regret that the petitioners have suggested in their petition that in this matter the Commissioners of the District, or one of them, acted from interested motives. No evidence in support of this part of the charge has been submitted to me. On the contrary, it clearly appears that those officers have acted in accordance with their own understanding of the law and that of their predecessors in office, and for what they deem to be the public good.

Very respectfully,

A. S. WORTHINGTON,
Attorney of the United States for the District of Columbia.

Hon. A. H. GARLAND,
Attorney-General.

EXHIBIT T.

OCTOBER, 31, 1885.

SIR: I inclose herewith brief memoranda of what are known as the star route civil suits. In November, 1884, I received an appointment and instructions from the Attorney-General authorizing me to aid in the institution and prosecutions of these cases. For several months thereafter, however, I was much occupied with other department work (not necessary to be here enumerated) besides being engaged in the trial of some important cases in the Court of Claims with which I had previously become familiar.

The papers and data in the star route cases are very voluminous, and there was necessarily much delay in their collection and preparation. After these were obtained it became necessary to draw the complaints for the proposed suits. This could only be properly done after a careful analysis of each case, and likewise required much time, especially in those jurisdictions where more elaborate pleading is deemed essential. I prepared the plaintiff's pleading in a large majority of the cases; and about the first of May went to Topeka to prepare for trial what were known as the "Parker Cases."

These cases were three in number, the largest and most important being the case against V. W. and J. W. Parker, arising out of the transactions upon route No. 32,024 from Vinita, Ind. Ter., to Las Vegas, N. Mex., in which the Government sought to reclaim $178,206.61 with interest, as money illegally and wrongfully drawn from the public treasury. By stipulation the three cases were tried together, the testimony in the large case only being presented and the others abiding the issue in that case.

It is probably within bounds to say that the case growing out of the Las Vegas route was one of the most elaborate and in some respects complicated controversies ever litigated in Kansas. The witnesses were widely scattered and had to be brought from great distances, but no pains were spared to secure all whose testimony was deemed essential. In this work the Government had the untiring assistance of two of the most able and faithful post-office inspectors, and when the case came on for trial (with a few exceptions) every important witness was on hand. In order to secure their attendance it was necessary to advance the actual traveling expenses of many of them, and this I did from my personal fund to the extent of several hundred dollars. The cases were tried, occupying the exclusive attention of the court for a week and resulting, June 12, 1885, in a verdict for the defendants.

The result in these cases will justify very careful consideration. The case in which the evidence was presented was one of the strongest of its class and (with the exception of the testimony upon two not very important items) there was no failure in the evidence whatever. On the contrary, it was far stronger and more conclusive upon all of the controlling points in the case than was anticipated by the Government counsel or by the Post-Office Department; and upon nearly every one of the three points it was wholly uncontradicted. The documentary and stenographic records of the case show beyond controversy that the verdict was not only against the weight of evidence, but, as to the leading points, absolutely against *all* the evidence.

The Government had sued to recover from the Parkers $178,206.61, *extra* allowances over and above the contract price, which was originally $6,330 per annum. By multiplication of trips this was increased to $44,310 per annum, and upon the pretense of increases of speed and dis-

tance, the compensation was rapidly swelled to more than $150,000 per annum. The following will illustrate some of the points in the case:

The Parkers were paid, directly and indirectly, $66,168 on this route for alleged "additional" distances traveled in supplying three little offices, called, respectively, Hayes, Wheeler, and Tascosa. The Government demonstrated by *actual measurement* that these offices did not add a single mile to the route, and also proved by the men who actually carried the mail-bags at that time and by the subcontractor employed by the Parkers on this section of the route, that these places were immediately in the line of the original and only route ever traveled under Parkers' contract, and that from the beginning the carriers always passed right through these places, and that this road was not only the *most direct*, but the *only* road.

Nothing could be be more conclusive than such testimony, and it was corroborated by other witnesses of the highest character who testified on the subject. There was not even a pretense of contradiction of this evidence by any witness for the defendants. The whole payment from the Treasury for the alleged extra distance was as bald a fraud as was ever perpetrated upon the public treasury.

Again, the Government proved that the Parkers had in like manner collected, directly and indirectly, $8,849.12 as extra allowance for serving a little office, called Seven Oaks, for *more than two years* after the mail stopped going there.

It was not only testified by the subcontractor whom the Parkers employed to carry the mail on this section of the route, that he stopped going to this office, but the official order discoutinuing the office was also produced, together with record and other testimony, showing the exact amount fraudulently received by the Parkers upon this account. To this also the defendants made no answer whatever. Precisely the same kind of fraudulent payment was shown, if possible more conclusive, in regard to another office, and to this the defendants made no pretense of answer whatever.

Again, it was conclusively shown and not denied by a syllable of testimony for the defendants that the Parkers had received an extra allowance, amounting, directly and indirectly, to more than $50,000, for carrying the expedited mail in both directions to certain offices situated on a small branch, or arm of the route in New Mexico.

The Government proved by the postmasters at these places, and also by the subcontractor for the Parkers who actually carried this mail, that even during the time when the Parkers were receiving the maximum allowances for carrying the mail daily each way (or fourteen times per week) over this branch, that it was never, in fact, carried but three times a week. In other words, that there was no pretense of performing more than three-fourteenths of the service for which the Parkers were regularly receiving pay from the public treasury. The united testimony of three witnesses and of the Government records was wholly uncontradicted, while it established the grossest fraud and deception practiced upon the Government, and showed an enormous sum drawn from the Treasury in violation of law.

Again, of these and other allowances, fraudulent in their very inception, a large portion was also made and paid *retroactively* in violation of section 3960, Revised Statutes. This fact was shown by the orders of the Post-Office Department and by the records and Treasury transcripts, and was also wholly undisputed. The court expressly instructed the jury that such retroactive allowances were clearly illegal, and that

any payments so made to the defendants should be recovered back, and the court reiterated this instruction several times.

These are but *sample* facts of which there were many more, every one of which can be verified by the record of the case. Yet, notwithstanding this array of facts, conclusively proven, only four jurors were willing to bring in a verdict for the Government, and these, finding a contest hopeless, joined the majority and brought in a verdict for the defendants. It is difficult for counsel engaged in a case in which there has been such a miscarriage of justice to comment upon the result without laying himself open to the suspicion of being prejudiced in his client's interest. I therefore content myself with referring to the record of the case as the best justification of what has been said. I should further add, that in the investigation of this case every new fact developed seemed to open a fresh vista of fraud, and there was the clearest possible evidence of efforts to bribe public officers in the letters of one of the Parkers produced in the trial.

Promptly after the trial the Government prepared and filed a motion for a new trial, and I advised you fully of the situation of affairs. In your letter of June 19 you instructed me to prepare a bill of exceptions and bring the main Parker case in as complete shape as possible to the Supreme Court, in order to have that court pass upon the law points involved, and thus, if possible, to obtain a decision which might determine the course to be pursued in other cases.

Subsequently, however, you desired me, as a matter of course, to have the motion for a new trial acted upon first. I had the record written out, but for four months I have persistently and vainly endeavored to secure action upon the motion for a new trial. Up to this date, however, it remains undisposed of, owing to a complication of circumstances wholly beyond my control, which I have explained to you, and which will more fully appear from the correspondence, of which I forward copies. At this writing an early disposal of the matter is promised.

Subsequent to the trial of this case the First Comptroller decided that the appropriation "for furnishing and collecting evidence in cases in which the United States is a party" could not be used to defray the necessary traveling expenses of witnesses where such expenses actually exceeded the regular mileage. The immediate effect of this was to prevent the repayment of several hundred dollars which I expended in securing the attendance of witnesses in this case. These witnesses resided out of reach of the process of the court, and as there was no way to *compel* their attendance, they very naturally demanded that their actual traveling expenses should be paid. They came from New Mexico and Texas, and were obliged to travel part of the way by stage at an expense greatly exceeding the ordinary mileage. I believed myself authorized by your instructions to defray these expenses and I did so.

The adverse decision of the Comptroller in this matter very seriously affects the possibility of successfully trying any civil case in which the attendance of witnesses is required from localities off the usual line of travel, as happens to be the fact in very many of these cases. It is of great importance to secure the personal attendance of witnesses. A party relying upon depositions merely, while the other party has his witnesses in court, necessarily litigates at a disadvantage; and in my judgment any of these cases tried before a jury upon depositions alone, while the defendants have their witnesses all in court, will be tried at great risk. I assume, of course, that the decision of the Comptroller is correct, and am far from intending to criticise it; although I did urge

at the time that Congress could never have intended to tie the hands of the Government in this way. I think Congress should be asked to remedy the defect at an early day, so that in a civil suit the Government may be put upon an equal footing with other litigants in the matter of obtaining evidence.

Your letter of the 19th of June I understood as a substantial direction to press the Parker cases either to a new trial or on exceptions through the circuit court up to the Supreme Court to the exclusion of all other matters. As the next term of the circuit court would not be held until November, the matter necessarily involved delay, even had the complication in regard to the motion for a new trial not arisen. In the meantime, therefore, it seemed desirable that one or two of the cases, which were so situated as to permit of their being tried without any extraordinary expense, might be pressed forward. Steps were accordingly taken to this end and they can be tried very shortly. There is also no reason why the case of Griffith, now pending in the Court of Claims and in which a large counter-claim is involved, should not also be speedily disposed of. The various motions and interlocutory proceedings in some of these cases, together with the correspondence relating to them, it seems unnecessary to enumerate.

It is to be observed that this is a class of litigation fully warranted by both statute and common law, and yet, in practice and in the difficulties surrounding it, wholly unprecedented. In almost every instance the transactions in controversy took place and the witnesses—so far as they can be found—are located many hundreds and even thousands of miles from the court in which the issues must be tried. While it is the duty of the Department to prosecute these cases to the extent of the facilities placed at its disposal, it becomes more and more evident that the real remedy for such frauds as were perpetrated in connection with the Star Routes must lie in an honest and vigilant administration of public affairs which will render such frauds impossible.

Very respectfully, your obedient servant,

GEORGE L. DOUGLASS,
Special Assistant Attorney.

Hon. A. H. GARLAND,
Attorney-General.

United States district court, Kansas.

Route No. 32,024, Vinita, Ind. Ter., to Las Vegas, N. Mex., V. W. Parker, contractor, J. W. Parker, subcontractor. Illegal payments for expedition not performed and for false statements of distances, $178,206.61. Suit brought November 19, 1884. Case tried June 8 to 13, 1885. Verdict for defendants. Motion for new trial still pending. (See report.)

Route No. 29,149, Harrison to Walnut Ridge, Ark., E. W. Parker, contractor, J. W. Parker, subcontractor. Illegal payment for expedition, $30,851.22. Suit brought November 19, 1884. Tried June 8 to 13, 1885. Verdict for defendants. Awaiting determination of motion in first case.

Route No. 45,103, Carson City to Aurora, Nev., V. H. Pease, contractor, J. W. Parker, subcontractor. Illegal payment for expedition, $5,753.37. Suit brought November 19, 1884. Tried June 8 to 13. Verdict for defendants. Awaiting determination of motion for new trial in first case.

Route No. 39,109, Las Vegas to Las Cruces, N. Mex., Cornelius Cosgrove, contractor. Illegal payment for expedition and for false statement of distances, $132,577.49. Papers prepared and transmitted with instructions for suit, dated January 24, 1885. Petition prepared and filed February 12, 1885. Demurrer pending.

United States circuit court, eastern district of Arkansas.

Route No. 31,454, Fort Worth, Tex., to Yuma, Ariz., John T. Chidester, contractor. Illegal payment for expedition, $174,020.41. Suit originally brought October 21, 1884, against Chidester alone. March 23, 1885, instructions to implead Logan H. Roots as codefendant. Roots served March 27. Amended complaint filed April 27, 1885. No answer.

United States circuit court, western district of Missouri.

Route No. 31,148, San Antonio to Corpus Christi, Tex., contractor, James B. Price. Illegal payment for expedition, $42,799.55. Petition filed November 25, 1884. Demurrer pending.

Route No. 39,103, Santa Fé to Mesilla, N. Mex., James B. Price, contractor. Illegal payment for expedition, $59,797.59. Petition filed November 25, 1884. Demurrer pending.

Route No. 44,155, The Dalles to Baker City, Oreg., Harvey M. Vaile, subcontractor. Illegal payment for expedition, $86,217.25. Papers prepared and transmitted with instructions for suit, dated February 19, 1885. Suit brought February 25, 1885.

Eastern district of Michigan.

Route No. 39,104, Santa Fé to Fort Stanton, N. Mex., John R. Miner, contractor. Illegal payment for expedition, $14,389.55. Papers prepared and transmitted with instructions for suit, dated December 5, 1884. Summons issued December 11, 1884. Case at issue.

United States circuit court, district of Colorado.

Route No. 38,146, Garland to Ouray, Colo., Bradley Barlow and J. L. Sanderson, contractors. Illegal payment for expedition, $59,592.98. Papers prepared and transmitted with instructions for suit, dated December 12, 1884. Complaint filed December 17, 1884. Attachment issued. Answer of Sanderson filed. Case at issue as to him and ready for trial.

United States circuit court, district of Nebraska.

Route No. 35,040, Fargo to Pembina, Dak., Luke Voorhees, contractor. Illegal payment for expedition, $14,342.52. Papers prepared and transmitted with instructions for suit December 5, 1884. Complaint filed and service obtained June 4, 1885.

Wyoming Territory.

Route No. 37,110, Rock Creek to Etchetaw, Wyo., A. H. Brown and M. T. Patrick, contractors. Illegal payment for expedition, $130,287.40. Papers prepared and transmitted with instructions for suit, dated February 24, 1885. Suit brought July 8, 1885. Defendant Patrick served July 13, 1885. No answer up to October 15, 1885.

United States circuit court, northern district of Iowa.

Route No. 46,120, Solidad to Newhall, Cal., M. V. Nichols and O. S. Salisbury, contractors. Illegal payment for expedition, $56,001.87. Papers prepared and transmitted with instructions for suit, dated January 27, 1885. Suit brought February, 1885.

United States circuit court, eastern district of Louisiana.

Route No. 30,162, Shreveport to Red River Landing, La., Bowman H. Peterson, contractor. Illegal payment for expedition, $18,834.69. Papers prepared and transmitted with instructions for suit, dated January 28, 1885. Suit brought March 2, 1885.

Utah Territory.

Route No. 46,267, Willow Ranch, Cal., to Reno, Nev., O. S. Salisbury, contractor, Monroe Salisbury, subcontractor. Illegal payment for expedition, $52,568.47. Papers prepared and transmitted with instructions for suit, dated February 10, 1885. Suit brought March 2, 1885.

United States circuit court, district of California.

Route No. 46,213, Cloverdale to Eureka, Cal., William H. Force, contractor. Illegal payment for expedition, $61,700.82. Original complaint filed December 18, 1884. Amended complaint filed March 6, 1885. Defendants served March 16. Case at issue and ready for trial.

Route No. 45,132, Wells to Hamilton, Nev., Monroe Salisbury sub-contractor. Illegal payment for expedition, $27,334.56. Papers prepared and transmitted with instructions for suit, dated March 3, 1885. Suit brought March 16, 1885. Defendants served April 1, 1885.

Route No. 36,107, Bozeman to Fort Keogh, Mont., George H. Piatt contractor, Monroe Salisbury sub-contractor. Illegal payment for expedition, $99,556.20. Papers prepared and transmitted with instructions for suit, dated February 14, 1885. Defendant Salisbury served April 1, 1885.

Route No. 38,155, Antelope Springs to Silverton, Colo., Monroe Salisbury sub-contractor. Illegal expenditnres for expedition, $18,460.68. Papers prepared and transmitted with instructions for suit, dated February 25, 1885. Suit brought March 14, 1885. Defendant served April 1, 1885.

Route No. 36,128, Silver Bow to New Chicago, Mont., Monroe Salisbury sub-contractor. Illegal payment for expedition, $14,931.17. Papers prepared and transmitted with instructions for suit, dated February 20, 1885. Suit brought March 4, 1885. Defendant served April 1, 1885.

Route No. 39,116, Fort Bascom, N. Mex., to Trinidad, Colo., Monroe Salisbury sub-contractor. Illegal payment for expedition, $18,911.35. Papers prepared and transmitted with instructions for suit, dated February 26, 1885. Suit brought. Defendant served April 1, 1885.

Route No. 36,115, Helena to Missoula, Mont., Monroe Salisbury sub-contractor. Illegal payment for expedition, $30,690.16. Papers prepared and transmitted with instructions for suit, dated February 17, 1885. Suit begun February 28, 1885. Defendant served April 1, 1885.

In the Court of Claims.

Route No. 40,116, W. M. Griffith contractor. This case, involving a claim by the contractor for compensation and a claim by the Government against the contractor for illegal payments for expedition, was transmitted by the Postmaster-General to the Court of Claims for adjudication under section 1063 of the Revised Statutes, March 6, 1885. Contractor filed petition, claiming $24,480.24, March 1, 1885. Government filed counter-claim for $65,577.53. Case at issue, and can be tried early in December term.

There is also a suit for $11,904.16, pending in the supreme court of the District of Columbia against A. H. Brown, contractor on route No. 38,118, Monument to River Bend, Colo.

EXHIBIT U.

ARCHITECT'S OFFICE, UNITED STATES CAPITOL,
Washington, D. C., November 7, 1885.

SIR: Relating to the improvements and repairs made to the court-house in this city and to the Department of Justice building during the fiscal year ending June 30, 1885, I have the honor to report as follows:

COURT-HOUSE BUILDING.

A wash-room and water-closets have been fitted up in the attic story for the use of juries, granite steps have been placed at the north and east entrances, wooden floors laid in two rooms in the basement story, and the court-rooms in the old portion painted and otherwise improved.

I again call attention to the number of unoccupied rooms in this building, which can at a reasonable cost be rendered fit for use. It is recommended that provision be made for heating with steam the old portion of this building, particularly the court-rooms, which may be done by extending the heating apparatus of the new portion.

An appropriation of one thousand dollars ($1,000) will be required for casual repairs to be made during the next fiscal year.

DEPARTMENT OF JUSTICE BUILDING.

As provided by law, a new heating apparatus has been placed in this building, also a large iron tank for water, with stand-pipe, connections, and hose on each floor for better protection against loss by fire. The entire basement, hitherto wet after every rain, has been drained, paved, and otherwise improved. The roof and other portions of the building have been painted, and some additions made to the shelving for books. The entire building has been kept in good repairs.

Such portions of the old heating apparatus as were found in good condition, but not suitable for use in the construction of the new, have been stored at the court-house, where they may be used when the steam heating at the building may be extended.

Very respectfully yours,

EDWARD CLARK,
Architect, United States Capitol.

Hon. A. H. GARLAND,
Attorney-General.

EXHIBIT V.

DEPARTMENT OF JUSTICE,
Washington, November 11, 1885.

SIR: In compliance with your request, I have the honor herewith to submit a list of the persons convicted in the United States district courts who were pardoned during the fiscal year ending June 30, 1885, together with a tabulated statement showing the districts in which they were tried, the terms of court at which they were convicted, their offenses, sentences, when they were pardoned, and the principal reasons for recommending the exercise of executive clemency in their respective cases.

Very respectfully,

ALEXANDER R. BOTELER,
Clerk of Pardons.

The ATTORNEY-GENERAL.

Names.	Districts.	When convicted.	Offenses and sentences.	When pardoned.	Reasons for the exercise of Executive clemency.
				1884.	
William H. Howard	Georgia, northern	Spring term, 1883	Stealing a registered mail package.—3 years' imprisonment.	July 16	Recommended by the United States judge and district attorney who officiated at his trial.
James Bartley	New York, northern	Mar. term, 1881	Attempting to vote in another's name.—6 months' imprisonment.	July 22	Had served his sentence and had been a law-abiding member of the community since its termination.
P. D. McCrackin	Georgia, northern	Sept. term, 1882	Conspiracy.—2 years in prison and $100 fine.	July 25	Recommended for pardon by the United States judge and district attorney who officiated at his trial.
Lewis C. Wetter	Maryland	Mar. term, 1884	Perjury.—6 months' imprisonment.	July 25	Do.
Orlando White	New York, northern	Sept. term, 1883	Embezzling letters.—18 months' imprisonment.	Aug. 15	His health in a very critical condition, and his pardon recommended by the United States district attorney.
Michael Knighton	District of Columbia	Mar. term, 1883	Assaulting a police officer.—8 months in prison from February, 1884.	Sept. 23	Recommended for pardon by the United States district attorney after having served the greater part of his sentence.
William L. Turner	California	Oct. term, 1883	Violation of the postal laws.—1 year in prison and $50 fine.	Oct. 3	Physical prostration from illness and recommended for pardon by the United States judge and district attorney.
W. R. Martin	South Carolina	Aug. term, 1884	Violation of internal-revenue laws —2 months' imprisonment and $100 fine.	Oct. 3	Very ill with typhoid fever, and, having served the greater part of his sentence, was recommended by the judge for pardon.
Frank Gibson	New York, northern	Mar. term, 1880	Making and passing counterfeit money.—6 years' imprisonment.	Oct. 30	Had fully served his sentence, and was recommended by the United States district attorney and the Hon. N. W. Nutting.
George Price	District of Columbia	Nov. term, 1883	Larceny.—360 days' imprisonment.	Nov. 7	In very bad health, and had served the greater part of the term for which he was sentenced.
Sidney Brown	Oregon	Oct. term, 1884	Violation of internal-revenue laws.—30 days in prison and $100 fine.	Dec. 10	Recommended for pardon by the United States judge and district attorney because of mitigating circumstances to palliate his offense.
Allen C. Cameron, *alias* Cowan.	New York, northern	Jan. term, 1876	Passing counterfeit money.—2 years' imprisonment.	Dec. 10	Had served his sentence, and for several years conducted himself as a law-abiding citizen. Recommended by persons of standing.
Thomas Graham	....do	May term, 1877	Violation of election laws.—1 year's imprisonment.	Dec. 10	Had served his sentence, and since its expiration had lived reputably. Recommended by United States district attorney.
William B. Wilson	Kansas	Apr. term, 1881	Passing counterfeit coin.—1 year's imprisonment.	Dec. 18	Had served his sentence, and since its expiration had lived reputably. Recommended by his neighbors.
Robert Harris	Alabama, northern	Nov. term, 1883	Altering United States Treasury notes.—2 years in prison and $100 fine.	Dec. 18	Had served thirteen months of his sentence in the Reform School of the District of Columbia and gained the honor badge for good conduct.
Elisha Givens	Arizona	Sept. term, 1883	Robbing a mail coach.—9½ years' imprisonment.	Dec. 18	Had been convicted on circumstantial evidence, leaving doubts of his guilt. Recommended by United States judge and district attorney.
John K. Henry	Kansas	Apr. term, 1884	Passing counterfeit money.—2 years in prison and $1 fine.	Dec. 29	Recommended for pardon by the United States judge, district attorney, and other reputable and intelligent citizens.

Names.	Districts.	When convicted.	Offenses and sentences.	When pardoned.	Reasons for the exercise of Executive clemency.
				1884.	
L. A. Thomason	Georgia, northern	Sept. term, 1883	Violation section 5477 Revised Statutes United States.—5 years' imprisonment.	Dec. 31	Recommended by the United States district attorney because of his youth; also by others who thought he had no criminal intent.
				1885.	
John T. Mitchell	Texas, northern	Apr. term, 1884	Passing counterfeit coin.—1 year's imprisonment.	Jan. 14	At the request of the United States district attorney, who required him as a witness in an important criminal case.
George W. Smith	Georgia, northern	Nov. term, 1884	Illicit distilling.—5 months in prison and $100 fine.	Jan. 19	Was ill with diabetes and his life endangered by longer imprisonment. Recommended by district attorney.
Thomas H. Sharpton	do	Oct. term, 1884	Illicit distilling.—4 months in prison and $400 fine.	Jan. 19	Recommended by United States district attorney because of the bad health of the prisoner, whose life was in danger.
William S. Johnson	Massachusetts	July term, 1882	False pretenses.—3 years in prison and $5 fine.	Jan. 20	Had served the most of his sentence, and was recommended for pardon by the sheriff of the county and many others.
Stillwell H. Russell	Texas, western	Mar. term, 1883	Frauds on the Government by means of false vouchers.—2 years' imprisonment.	Jan. 22	Had served his sentence, and was pardoned at the request of many citizens of Texas.
Herbert D. Kennedy	Maine	Not tried	Abstracting letters from a post-office.—Not sentenced.	Jan. 26	Because of his extreme youth and sympathy for his widowed mother. Recommended by many influential people.
Daniel Scanlon	District of Columbia	Oct. term, 1884	Assault in two cases.—120 days' imprisonment.	Jan. 20	Because of his youth and previous good character. Recommended by the judge and district attorney.
Semantha J. Farrell	Utah		Polygamous practices	Jan. 28	Recommended by the Utah Commissioners, the governor of the Territory, and justices of the supreme court.
Jemima Toone	do			Jan. 28	Do.
Harriet Huntington	do			Jan. 28	Do.
Robert L. Kinneson	do			Jan. 28	Do.
Ethen Barrows	do			Jan. 28	Do.
Paul M. Poulson	do			Jan. 28	Do.
Annie Reynolds	do			Jan. 28	Do.
John Toone	do			Jan. 28	Do.
William D. Huntington	do			Jan. 28	Do.
Charles Harrop	do			Jan. 28	Do.
Joseph Silver	do			Jan. 28	Do.
John Kelley	do			Jan. 28	Do.
Joseph Arnold	Washington Territory	Dec. term, 1883	Violation of section 2139 Revised Statutes of United States.—22½ months' imprisonment.	Jan. 29	Had served more than a year of his sentence, was in very bad health, and his pardon recommended by United States district attorney.
A. J. Etherton	Missouri, western	Mar. term, 1884	Robbing the mail.—1 year's imprisonment.	Jan. 29	Because there was a doubt of his guilt, and his pardon was recommended by both the district judge and United States district attorney.
James Witherow	Georgia, northern	Fall term, 1884	Violating internal-revenue laws.—5 months' imprisonment.	Feb. 2	Because his punishment was in excess of his offense and inflicted by a judge who, unhappily, was unfitted for duty by mental infirmity.
Mike Witherow	do	do	do	Feb. 2	Do.
James A. Sinclair	District of Columbia	Mar. term, 1884	Assault.—11 months and 29 days' imprisonment.	Feb. 6	Because of the delicate state of his health and the fact of his being unconscious of his act from drink.

Frank A. Crowl	Pennsylvania, western	Sept. term, 1883	Embezzling contents of a sealed letter.—3 years' imprisonment.	Feb. 6	Because of his physical prostration from illness, and upon the recommendation of the United States district attorney.
Ernest R. Thomalin	Illinois, northern	Dec. term, 1882	Misappropriating public funds as internal-revenue officer.—Sentence suspended.	Feb. 6	Because of mitigating circumstances, and on the recommendation of the judge, Treasurer of the United States, Commissioner of Internal Revenue, collector, and others.
William S. Williams	Arkansas, western	Nov. term, 1884	Violating internal-revenue laws in selling one pint of whisky.—Sentence suspended.	Feb. 10	Because of mitigating circumstances, and on the recommendation of the United States district attorney and other persons of standing.
Thomas J. Bicksler	District of Columbia	Mar. term, 1882	Having counterfeit coin with intent to pass same.—5 years' imprisonment.	Feb. 10	Because of his old age, physical weakness, &c., and also on the recommendation of the judge and United States district attorney.
Joseph Jewett	Iowa, northern	Apr. term, 1869	Abstracting valuable letter from mail, as carrier.—5 years' imprisonment.	Feb. 11	Having served out his sentence and led a reputable life since it expired, was recommended for pardon by many citizens.
Thomas Comstock	Arkansas, western	Dec. term, 1884	Violating internal-revenue law.—Sentence suspended.	Feb. 11	Upon the recommendation of the United States district attorney, on defendant's paying a fine of $100 and the costs.
Charles Long	Utah		Polygamous practices	Feb. 13	Recommended by the Utah Commissioners, the governor, and justices of the supreme court of the Territory of Utah.
James A. Ivie	do		do	Feb. 13	Do.
George Fry	District of Columbia	Dec. term, 1882	Receiving stolen goods.—36 months' imprisonment.	Feb. 13	Because of his old age, previous good character, and on the recommendation of the judge and district attorney.
James Wallace	Indiana	May term, 1884	Violation of post-office laws.—Sentence suspended.	Feb. 13	Because of his youth, the weakness of his character, and on recommendation of the judge and district attorney.
Thomas T. Johnson	District of Columbia	Dec. term, 1882	Receiving and exposing for sale stolen goods.—36 months' imprisonment.	Feb. 13	Because of previous good character and having served the greater part of his sentence. Recommended by district attorney and judge.
Frank E. Rice	Maine	Bound over Dec., 1884.	Purloining letters from post-office.—Neither sentenced nor tried.	Feb. 15	Because of his youth and on the recommendation of the United States district attorney and many others of high character.
George Wilson	Nevada	Dec, term, 1878	Robbing United States mail with force and arms.—Imprisonment for life.	Feb. 25	Because of doubts as to the correctness of the verdict and on the recommendation of the district attorney and judge.
Emilio Diaz	Florida	June term, 1884	Violating the neutrality laws.—8 months' imprisonment and $500 fine.	Feb. 25	Because of his previous good character and on the recommendation of the Secretary of State, district attorney, and others.
William B. Moran	District of Columbia	Mar. term, 1884	Burglary.—3 years' imprisonment.	Feb. 28	Because of his previous good character and on the recommendation of the district judge and district attorney.
John T. Best	California	Mar. term, 1882	Forgery.—10 years' imprisonment.	Mar. 3	Because his health had become so bad that longer confinement would probably have cost him his life.
Samuel J. Nolan	Virginia	Nov. term, 1884	Illicit distilling.—4 months' imprisonment and $200 fine.	Mar. 20	Because of his previous good character, doubts as to his guilt, his poverty, and of his having served most of his sentence.
Charles B. Dingman	Colorado	Sept, term, 1881	Robbing United States mail.—10 years' imprisonment and costs.	Mar. 20	Because of additional facts in the case of a favorable character, and upon the recommendation of the judge and district attorney.
Thomas Halloway	District of Columbia	June term, 1884	Larceny.—3 years' imprisonment	Mar. 20	Because of his previous good character, his dependent family in England, and upon the petition of the British minister through the Secretary of State.

Names.	Districts.	When convicted.	Offenses and sentences.	When pardoned.	Reasons for the exercise of Executive clemency.
				1885.	
Frederick Kunnocke ..	Maryland.....	Oct. term, 1882	Having counterfeit coin with intent to pass the same.—3 years' imprisonment and $100 fine.	Mar. 20	Because of his previous good character, his wife and children in want, and on the recommendation of the judge, district attorney, and jury.
Charles R. Wilkenson..	Iowa.....	Apr. term, 1883....	Misappropriating public funds as postmaster.—1 year's imprisonment.	Mar. 20	Because of his previous good character, the infirmities of his aged mother, who depended on him for support, and the district attorney's recommendation.
St. George Best-.....	Ohio	Nov. term, 1884....	Using United States mails to advertise immoral literature.—3 years' imprisonment.	Mar. 28	Because of his previous good character, his dependent family, the touching devotion of his sister, and on the recommendation of many good citizens.
Sam Kapsh-lo-li (Umatill Indian).	Oregon	Fall term, 1883....	Manslaughter.—10 years' imprisonment.	Mar. 28	Because of his ill health, doubts as to his guilt, and upon the appeal of Father Conrardy, a missionary to his tribe.
Thomas W. Manion ...	West Virginia.....	Jan. term, 1883'....	Having counterfeit coin with intent to pass the same.—4 years' imprisonment.	Mar. 28	Because of valuable information to the court concerning counterfeiters, and on the recommendation of the judge and district attorney.
Frank Minor	District of Columbia....	Nov. term, 1884 ...	Murder.—To be hanged second Friday after court.	Apr. 13	The death sentence in this case commuted to imprisonment for life because of the provocation which caused the crime.
Mason Holcomb	Arkansas, western	....do	Murder.—To be hanged April 17, 1885.	Apr. 13	The death sentence in this case commuted to life imprisonment because the evidence did not prove the premeditation required to make the crime murder in the first degree.
William Dickson.....	.....do	Aug. term, 1884 ...	.....do	Apr. 15	The death penalty commuted to imprisonment for life, on recommendation of the judge, district attorney, and others, because of mitigating facts.
William Meadows	.....do	Nov. term, 1884 ...	.....do.....	Apr. 13	The death penalty commuted to imprisonment for life on account of the convict's youth and some mitigating facts.
Frederick M. Ray.....	.....do	...do	.....do.....	Apr. 13	The death penalty commuted to life imprisonment because of a doubt as to the guilt of the convict.
Orlando F. Delphy	District of Columbia....	Nov. term, 1879 ...	Larceny.—2 years' imprisonment	Apr. 19	Because he was insane at the time of his trial and was believed to have been so when he committed the larceny.
Thomas Z. Hoover	.....do	Mar. term, 1884 ...	Obtaining money under false pretenses.—12 months' imprisonment.	Apr. 19	Because of the deplorable condition of his family, his having served three-fourths of his sentence, and the solicitations of his friends.
Charles Tilghman.....	Pennsylvania, eastern ..	Aug. term, 1884 ...	Stealing money from a post-office.—7 months' imprisonment and $50 fine.	Apr. 19	Had served his term of imprisonment and was held for the fine of $50 which he was too poor to pay.
Thomas Donivan	California.....	Oct. term, 1884	Violating section 5512, Revised Statutes, registering falsely.—3 years' imprisonment.	Apr. 19	Doubts as to whether the act was not from ignorance rather than criminal intent. Recommended by the judge and district attorney.
William Craig	Kentucky	Dec. term, 1881 ...	Having counterfeit coin in his possession.—5 years' imprisonment.	Apr. 29	Had served the greater part of his sentence and was fatally ill from tubercular consumption.
Donald C. Towne	Illinois, northern	June term, 1884 ...	Violation of the postal laws.—1 year's imprisonment.	May 7	Because of his previous good character, had served nearly his whole sentence, and on the recommendation of post-office inspector and the judge.

Jesse Parsons	West Virginia	Apr. term, 1885	Violation of the post-office laws.—18 months' imprisonment.	June	5	Because of a doubt as to his guilt and upon the recommendation of the United States district attorney and other respectable people.
Daniel C. Odem	South Carolina	....do	Violating internal revenue laws.—4 months' imprisonment and $100 fine.	June	5	Because of his previous good character, a large and dependent family, his poverty, ignorance, and the fact of his selling but one pint of whisky for a sick woman.
R. E. Douglas	Michigan, eastern	Dec. term, 1883	Forging affidavits to obtain a pension.—4 years' imprisonment.	June	5	Because his health had become so impaired that longer confinement would probably be fatal. Recommended by the judge, &c.
Robert W. Tidler	Virginia, western	May term, 1885	Violation of the postal laws.—$500 fine and imprisonment until paid.	June	5	Because of his youth, his being a helpless cripple from his birth, which impaired his mental faculties, and his utter poverty.
John B. Meredith	Kentucky	Oct. term, 1885	Illicit distilling.—6 months' in prison and $500 fine.	June	5	Because of his previous good character, his poverty, and the fact of his connection with the distillery being that of a hand hired to carry wood.
Henry H. Huff	District of Columbia	May term, 1885	Forgery.—1 year's imprisonment	June	13	The sentence to the penitentiary commuted in this case to confinement at the Ohio Industrial School at request of the governor of Ohio and many others

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { Ex. DOC. No. 10.

TREASURY DEPARTMENT, Document No. 792. Secretary—Superintendent.

EXPENDITURES IN THE TREASURY DEPARTMENT.

LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

A report of the contingent expenses of the Treasury Department for the fiscal year ended June 30, 1885.

DECEMBER 12, 1885.—Ordered to lie on the table and to be printed.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., December 7, 1885.

SIR: In compliance with section 193 of the Revised Statutes, I have the honor to transmit herewith a report of contingent expenses of this Department for the fiscal year ended June 30, 1885.

DANIEL MANNING,
Secretary.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

Abstract of expenditures under appropriation for contingent expenses of the Treasury Department for the fiscal year ended June 30, 1885.

BINDING, NEWSPAPERS, &c.

For purchase of material for binding cancelled marine papers, requisitions, and other important records; newspapers, books, hand-stamps, and repairs of the same, (and of the amount appropriated not more than five hundred dollars may be used in the purchase of current publications,) two thousand five hundred dollars.—Legislative Act July 7, 1884.

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { Ex. DOC. No. 11.

LETTER

FROM

THE ATTORNEY-GENERAL,

INCLOSING

Letter from the United States attorney for Alaska, and recommending such legislation as will enable the United States marshal for Alaska to execute his bond.

DECEMBER 12, 1885.—Laid on the table and ordered to be printed.

DEPARTMENT OF JUSTICE,
Washington, December 9, 1885.

SIR: Inclosed is a copy of a letter, of the 18th ultimo, from M. D. Ball, United States attorney for the Territory of Alaska, representing a difficulty found by the First Comptroller of the Treasury in approving the bond of Barton Atkins, marshal for the Territory, under section 783, Revised Statutes, because, in the language of the district attorney, it is impossible for the marshal's bond to be executed in Alaska, as there are no freeholders, the United States not having yet extended to the Territory the privileges of law by which its residents can acquire title to land.

The opinion of the First Comptroller is a strict interpretation of the statute, and presents a difficulty that can be removed by suitable legislation.

Very respectfully,

A. H. GARLAND,
Attorney-General.

Hon. J. G. CARLISLE,
Speaker of the House of Representatives.

OFFICE OF UNITED STATES DISTRICT ATTORNEY, DISTRICT OF ALASKA,
Sitka, Alaska, November 18, 1885.

SIR: Mr. Barton Atkins, marshal for this district, has handed me a letter of the First Comptroller to him, dated October 8, 1885, deciding that the bond which he executed before Judge Nelson, of the district of Minnesota, is not valid for the purpose of enabling him to receive advances of money, and asked that I state again to you the facts relative to the possibility of executing a bond strictly within the requirements of section 783, Revised Statutes, in this district.

I have, therefore, again to ask your attention to the fact that, if the provisions of that section be absolutely imperative, it is impossible for a marshal's bond to be executed here, as there are no freeholders, because the United States has not yet extended to the Territory the privileges of law by which its residents can acquire title

to land. Mr. Atkins desires to know if his sureties in Minnesota could not, by power of attorney, designate some one here to execute the bond for them.

The condition of affairs here is likely to become troublesome, unless the marshal can be supplied with funds for the keeping of prisoners, as those furnishing them and guarding them are growing importunate for their pay.

Very respectfully,

M. D. BALL,
United States Attorney.

Hon. A. H. GARLAND,
Attorney-General.

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { Ex. Doc. No. 12.

EXPENDITURES IN THE STATE DEPARTMENT.

LETTER

FROM

THE SECRETARY OF STATE,

TRANSMITTING

A statement of expenditures and disbursements in the Department of State.

DECEMBER 12, 1885.—Laid on the table and ordered to be printed.

DEPARTMENT OF STATE,
Washington, December 10, 1885.

The Secretary of State, in pursuance of the requirements of sections 193 and 209 of the Revised Statutes, has the honor to submit to Congress the following-described statements, viz:

(1) A detailed statement of the manner in which the contingent fund for the Department of State for the year ended June 30, 1885, has been expended.

(2) Statements of expenditures made by the disbursing clerk of this Department, and by the heads of all diplomatic missions abroad, from the contingent fund for the expenses of foreign intercourse for the fiscal year 1885, during that year; and a statement of the balances of all former appropriations for contingent expenses of the Department of State and for foreign intercourse on hand in the Treasury Department and in the hands of the disbursing clerk of the Department of State on the 30th June, 1885; and

(3) A precise analytical statement of all moneys disbursed by the disbursing clerk of the Department of State during the fiscal year ended June 30, 1885.

T. F. BAYARD.

Hon. JOHN G. CARLISLE,
Speaker of the House of Representatives.

○

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { EX. DOC. No. 13.

LETTER

FROM

THE SECRETARY OF WAR,

TRANSMITTING

Correspondence relative to the proposed purchase of site and building in New York City for Army uses.

DECEMBER 12, 1885.—Laid on the table and ordered to be printed.

WAR DEPARTMENT,
Washington City, December 9, 1885.

SIR: I have the honor to transmit herewith, for information of the House of Representatives, copy of correspondence in regard to the proposed purchase for Army uses of the site and building in New York City, known as the "Old Produce Exchange"; also, tracings of the plans for the reconstruction of the building.

The estimate of this Department of the amount required to effect the purchase and make the necessary alterations to the building will be found on page 177 of the Estimate Book for the fiscal year ending June 30, 1887, House Ex. Doc. No. 5, Forty-ninth Congress, first session.

Very respectfully,

WM. C. ENDICOTT,
Secretary of War.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

WASHINGTON, D. C., *February* 19, 1885.

DEAR SIR: I beg to offer you for the use of the United States the property in the city of New York known as the "Old Produce Exchange" and the building thereon, situated on the block bounded by Whitehall, Pearl, Moore, and Water streets, as per diagram herewith. The building is light on all sides, and with little outlay could be made to suit the wants of any one. The walls are extra heavy, and would carry four extra stories; the present arrangements are but three, basement, first, and second floor, but the ceilings are very high, and three more floors could, with little expense, be made without raising the roof, the height of the building being 80 feet from sidewalk to ceiling, and each floor containing about 9,700 square feet. The price asked for this property in fee is $250,000, the interest of which would be a saving to the United States of at least $12,500 a year for a place one-quarter larger than they now occupy.

I have the honor to be, very respectfully, your obedient servant,

JOHN L. KIRKLAND,
15 *Courtland street, New York.*

Hon. ROBERT T. LINCOLN,
Secretary of War, Washington, D. C.

WAR DEPARTMENT, *February* 19, 1885.

Respectfully referred to the Quartermaster-General for report.
By order of the Secretary of War.

JOHN TWEEDALE,
Chief Clerk.

[Second indorsement.]

Respectfully referred, by direction of the Quartermaster-General, to Lieut. Col. H. C. Hodges, depot quartermaster, New York, for report.

J. G. CHANDLER,
Deputy Quartermaster-General.

QUARTERMASTER-GENERAL'S OFFICE, *February* 19, 1885.

[Third indorsement.]

DEPOT QUARTERMASTER'S OFFICE,
New York City, March 2, 1885.

Respectfully returned to the Quartermaster-General with the report that I have examined this property. It does not quite cover the area of the Army Building, which is 100 feet square. It is, however, admirably located, being in the lower part of the city and convenient to Governor's Island, &c., and surrounded by streets which will give plenty of light for all the rooms. If taken for the Army the building would have to be considerably altered, the roof raised, walls extended, &c., but the foundation, I understand, will bear all the additions necessary to place the building in the exact state required of it.

The expense of all these necessary changes would be considerable, but well worth it.

I regard it as of the first importance that the Government should have its own buildings for army uses in a convenient location in this city. The amount asked for the Produce Exchange building is $250,000, which I consider a fair price, and I know no place in the city but one (and this not obtainable) more eligibly located and of the required area that can be purchased at that price.

I recommend that a board be convened to examine into and report upon the adaptability of the building for army purposes; and that authority be given it to employ an architect in order that plans, estimates, &c., may be furnished by him if desired.

I understand that the Army Building could have been had in 1868 for $375,000, and its purchase was then recommended. The amount paid for rent of the building since its occupancy in 1868 is about $373,000.

The interest on the purchase-money of the Produce Exchange building will, in my opinion, be more than saved annually; and whatever is spent on the building after the purchase will be for the use and benefit of the Government solely.

HENRY C. HODGES,
Deputy Quartermaster-General,
Depot Quartermaster.

[Fourth indorsement]

Respectfully returned to the Hon. the Secretary of War, and attention invited to preceding indorsement of the depot quartermaster at New York. Lieutenant-Colonel Hodges in his report does not give the number of rooms now available nor their character. No estimate is made of *cost of proposed alterations*, nor is any data of comparison with the space at present occupied furnished upon which intelligent action can be taken. The Department has no funds with which to employ architect or other person to make required survey and plans.

S. B. HOLABIRD,
Quartermaster-General, U. S. A.

QUARTERMASTER-GENERAL'S OFFICE,
March 9, 1885.

[Fifth indorsement.]

Respectfully returned to the Quartermaster-General.

Let Colonel Hodges be called upon for further information, as indicated in the preceding indorsement, and also for an estimate of the cost of employing an architect, as suggested by Colonel Hodges.

By order of the Secretary of War.

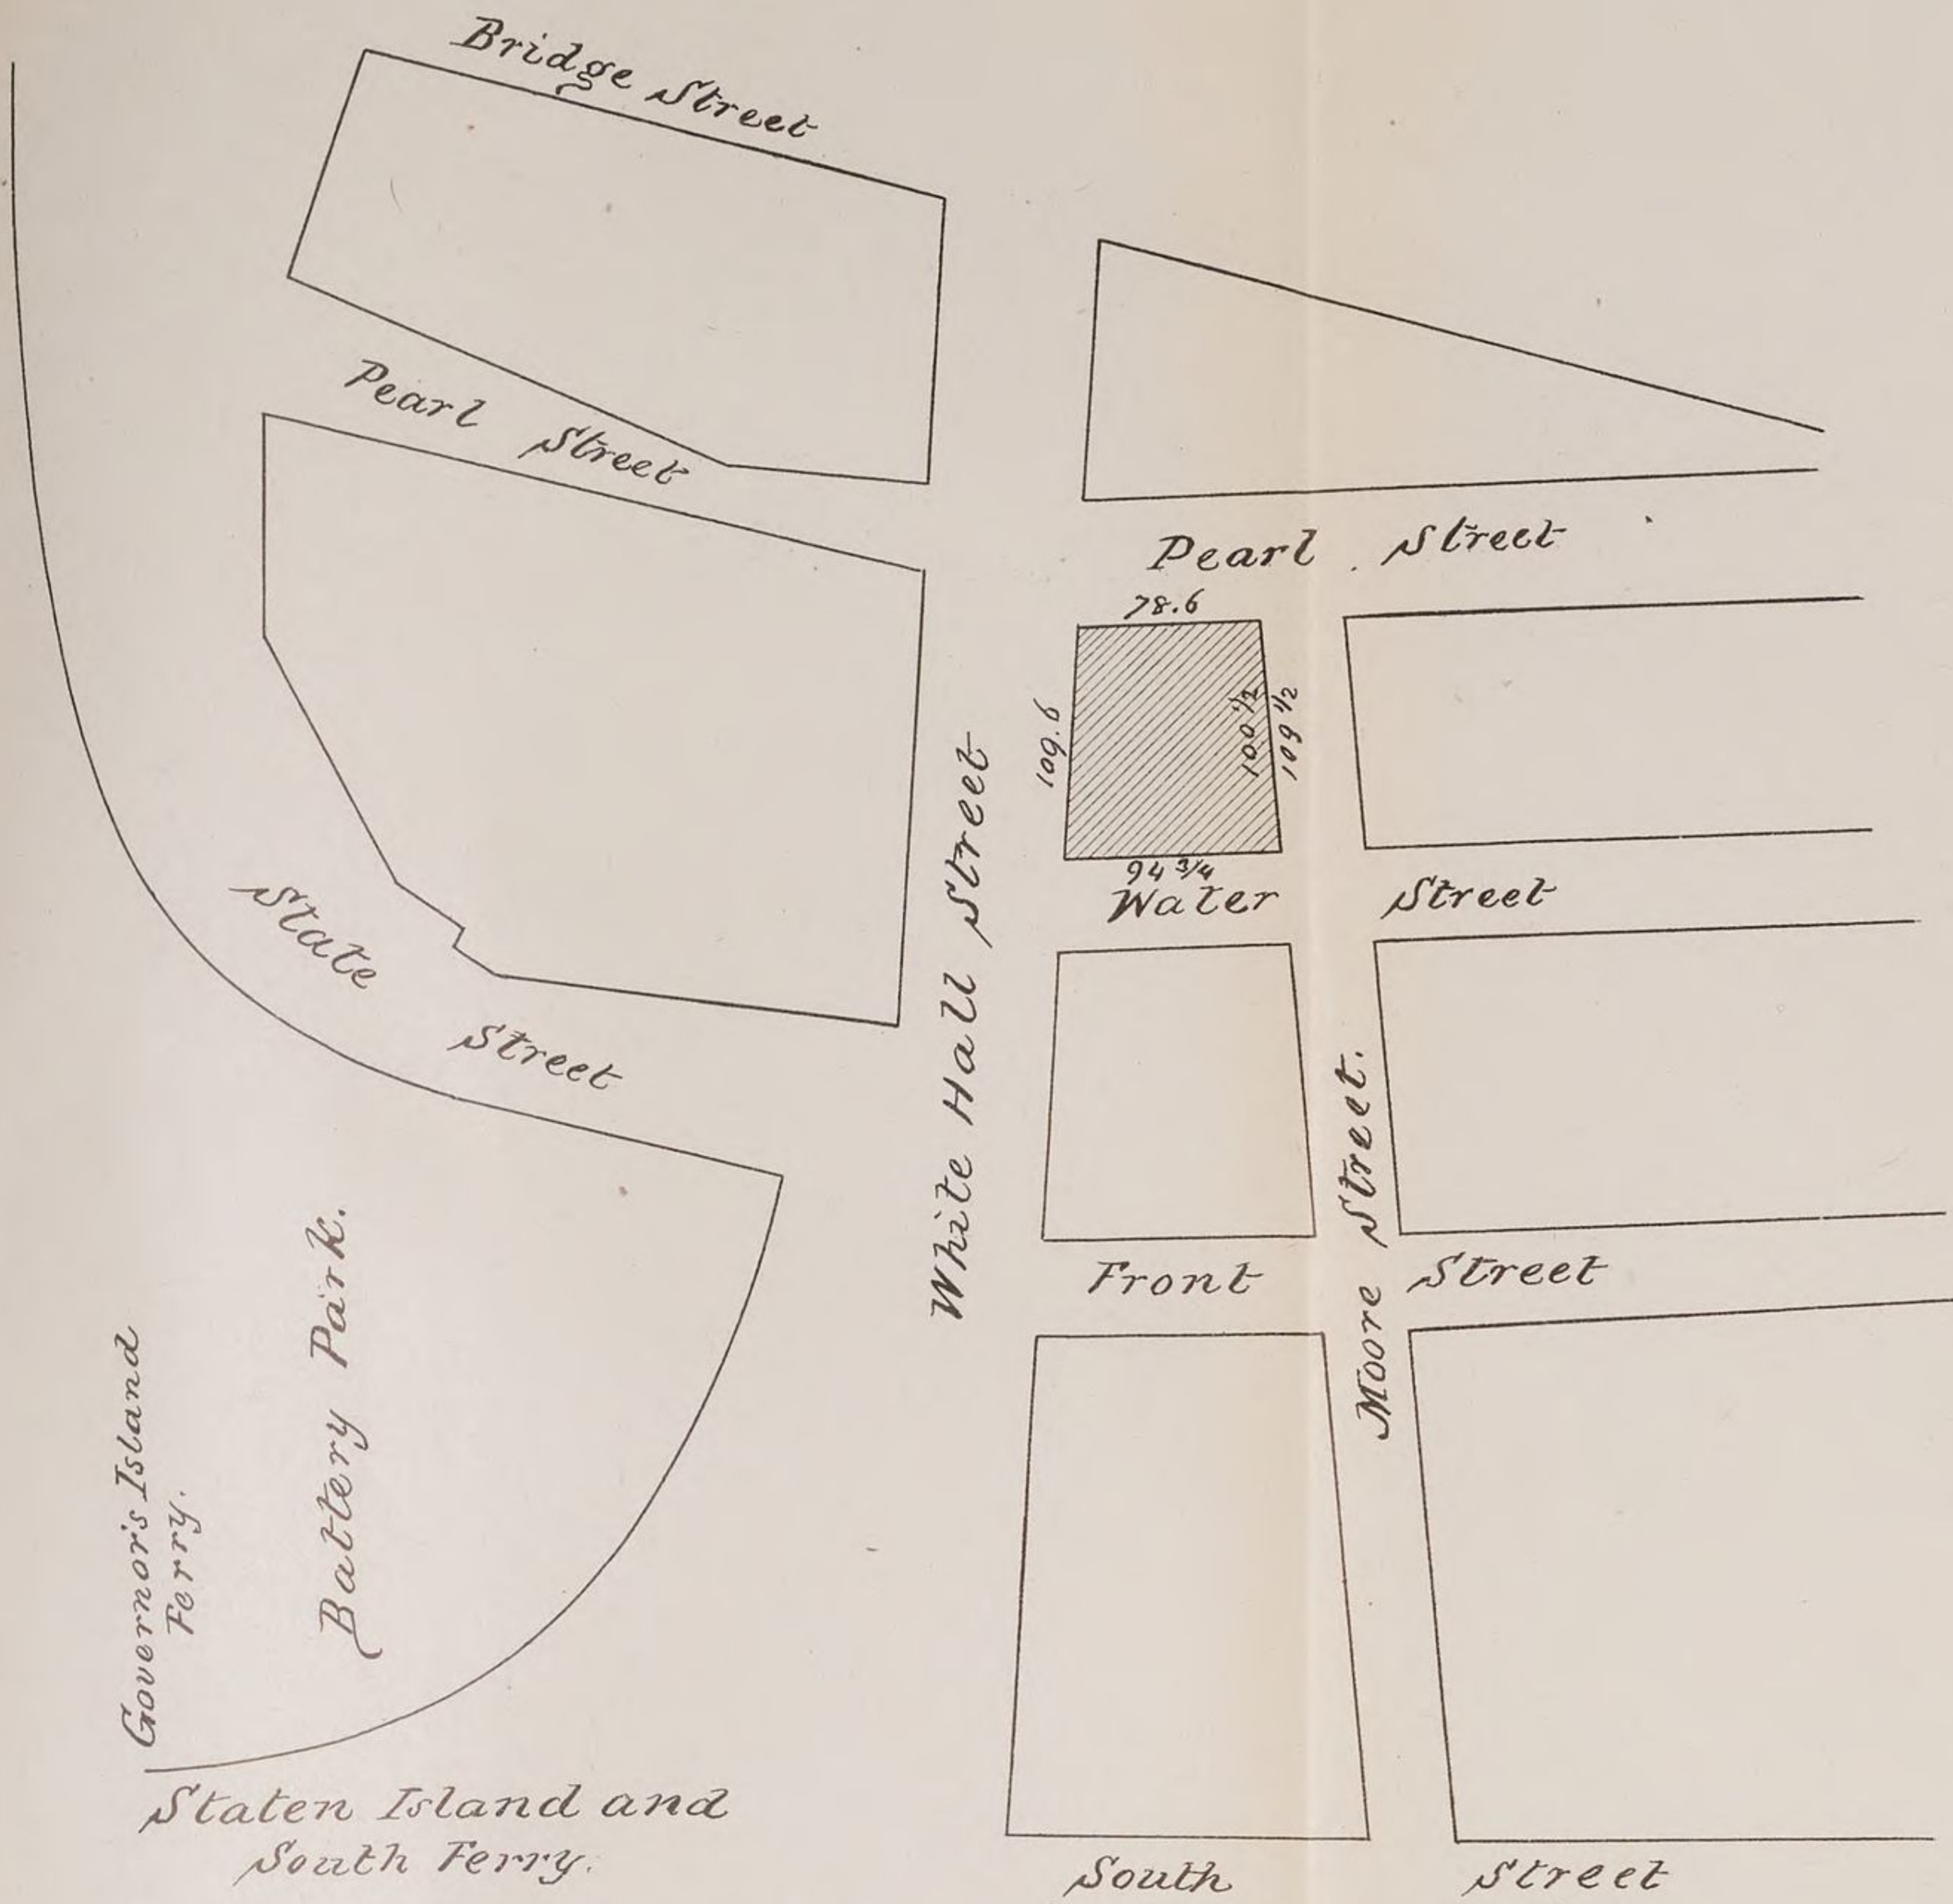

JOHN TWEEDALE,
Chief Clerk.

WAR DEPARTMENT, *March* 12, 1885.

[Sixth indorsement.]

Respectfully returned, by direction of the Quartermaster-General, to Lieut. Col. H. C. Hodges, depot quartermaster, New York, for further report, attention being invited to preceding indorsement of the Secretary of War.

J. G. CHANDLER,
Deputy Quartermaster-General, U. S. A.

[Seventh indorsement.]

DEPOT QUARTERMASTER'S OFFICE,
New York City, March, 1885.

Respectfully returned to the Quartermaster-General.

My indorsement of the 2d instant stated that the Produce Exchange building does not quite cover the area of the Army Building, which is 10,000 feet.

As the area of the Produce Exchange building was given as 9,700 feet, it was thought that the information given would be sufficient to convey an idea as to the relative area of the two buildings.

As stated, the Produce Exchange building covers a lot having an area of 9,700 feet. The Army Building has 10,000 feet, of which probably 2,000 feet are taken up by the houses in which the boilers and furnaces are kept. The Produce Exchange building covers a whole block, and it is understood that furnaces and boilers will not necessarily be needed for power and heating, as the required steam can be had of the Steam Heating Company, as is done in that locality.

Mr. Kirkland has kindly furnished, at his own expense, plans and estimates. They are forwarded herewith.

They are, of course, subject to alterations to meet special wants, but in the main I believe that they will do exceedingly well. The plans of the building, as it is at present, are marked "A;" those of the building, after the proposed alterations, are marked "B." I invite attention particularly to the specifications, which give the details and the probable cost. But one passenger elevator will be needed, and but one freight elevator to the second story, beside the four freight elevators to run to the sidewalk from below.

The excavations under the sidewalk are especially required, as they will afford storage for very combustible materials.

The Army Building has a subcellar, a basement, and five floors above, seven in all, or, say, 56,000 square feet. The new building will also have seven stories of 9,700 square feet each, or 67,900 square feet in all, from which the court-yard space is to be deducted, a part of which is devoted to the elevator.

The expense of the alterations will be, say, $150,000.

This will give a first-class fire-proof building suitable for the wants of the Army, and doubtless sufficient for all purposes even should the demands upon the Army be considerably increased.

There can be no question in my opinion as to the importance of the Army owning its own building in New York City. If this building should be taken it would meet a long felt want, and I am strongly in favor of it.

The location of the building is admirable, as remarked in my previous indorsement, being in the business part of the city near the Governor's Island Ferry, and easily accessible to all parts of the city.

I regard the proposed purchase as an economical measure—an exceedingly good one—besides giving the Army what it needs, a first-class fire-proof building.

As the plans, &c., have now been prepared and submitted, it will, perhaps, not be necessary to employ an architect, as they can be submitted to the Board in case it should be convened.

It will be noticed that the Produce Exchange building has at present no "rooms" as such. It has only two open floors which are not subdivided. The new plan, however, shows what subdivisions the building is capable of, and in number the rooms therein will exceed those in the Army Building.

HENRY C. HODGES,
Deputy Quartermaster-General, U. S. A.,
Depot Quartermaster.

WAR DEPARTMENT, QUARTERMASTER-GENERAL'S OFFICE,
Washington, D. C., March 26, 1885.

SIR: I have the honor to return the offer of J. L. Kirkland to sell to the United States for $250,000 the property in New York known as the "Old Produce Exchange," and to invite attention to the plans, specifications, and views submitted by the depot quartermaster in New York City, Lieut.-Col. H. C. Hodges, deputy quartermaster-general.

It now appears:

(1.) The space offered is practically nearly equal to the space now occupied by the Army Building, corner of Green and Houston streets, being 9,700 to 10,000 square feet.

(2.) That the position of the lot or site of the building has many advantages for most Army purposes over the place now used as a site for the Army officers, it being convenient to the landing from Governor's Island, easily accessible by elevated railways, and for other reasons.

(3) It must be observed that the old building in its present condition has no value for offices.

(4) Legislation is necessary to authorize purchase of the lot and present structure, including an appropriation of $250,000 to pay for the same.

After the building and lot have been acquired it must be presumed that an appropriation of about $200,000 will be required to construct a properly planned fire-proof building, suitable in all respects for Government Army use.

(5) The present building must be retained until the new building is ready for occupation.

On the grounds of economy, convenience, and to meet the future wants of the Quartermaster's Department in New York City, the Quartermaster-General recommends action favoring legislation to acquire the property, and to erect thereon a building which shall meet in all respects the future wants and necessities of the service.

Very respectfully, your obedient servant,

S. B. HOLABIRD,
Quartermaster-General U. S. A.

The Hon. SECRETARY OF WAR,
Washington, D. C.

WAR DEPARTMENT, *April* 7, 1885.

Respectfully returned to the Quartermaster-General, to be included in his annual estimate for 1887.

By order of the Secretary of War.

JOHN TWEEDALE,
Chief Clerk.

J. L. KIRKLAND, Esq.:

MY DEAR SIR: To change the old Produce Exchange building to conform to the plan submitted and make it a fire-proof structure and seven stories in height the following work will be necessary to be done. The present wood beams and girders in first and second floors are to be taken out and iron column girders and beams inserted, with brick arches between the beams.

The fronts to be taken down to about 12 feet above the present second-story floor and rebuilt to suit the new elevations. Walls to be 2 feet in third and fourth stories, and 20 inches above, beside the additional thickness of the piers.

The window-sills cut out of stone now in the building, which is a hard and durable Belleville stone.

The archings, headings, and ornamental work of the fronts around the main cornice is to be composed of best quality molded Philadelphia brick and terra cotta of same color.

All the brick and terra cotta to be laid in cement.

The corners and battlements are to be covered with stone and terra cotta.

The iron beams throughout, including the roof, filled with hollow brick arches and plastered on the under side and concreted on the top to top of beams, and to receive the flooring strips.

All the girders throughout to be of wrought-iron, and the floors and roofs supported on wrought-iron beams extending from walls and resting on the girders, the girders resting on cast-iron columns and brick piers, as shown on the plans.

The beams, girders, and columns are of sufficient strength to carry safely 200 pounds per foot on first and second stories and 150 pounds for the other floors, and for the roof 100 pounds per foot, besides the materials used.

The stairs are to be of iron, with slate steps; the balconies around the court are of iron, with iron railings, newels, &c.

The inclosures of the elevators are to be of iron.

The court is to be covered with an iron fire-proof skylight, 2½-inch discs, set in galvanized iron plate, all carried on wrought-iron trusses, bars, angles, &c.

Skylight arranged so as to open on every side for ventilation.

There will be two lines of fire-proof stairs from first story to the roof, and two lines from first story to basement.

Two passenger elevators from first story to the sixth floor, and two freight elevators from basement to second floor, and four elevators from sidewalk to basement.

All to be the best-constructed hydraulic elevators.

The roofs are to be covered with asphalt on cement.

The floors throughout laid with 2½-inch yellow pine, tongued and grooved strips resting on 2x3-inch sleepers.

The sashes glazed, with plate and best quality 26-ounce glass.

The present basement is 8½ feet high, the present first story 15 feet. The present first

floors could be raised 12 or 15 inches, giving a better basement, and leaving the first story 13½ or 14 feet, placing the new second story iron floor beams on the same level as the present floor beams. It is intended that the new second story shall be 12 feet in height, the third, or first office floor, 14 feet, the fourth, 12 feet, and the fifth and sixth stories, 11 feet, all in the clear.

Urinals are placed on each floor, and a well-lighted room on the basement and sixth floors set apart for the water-closet, &c., so as to insure good light and ventilation.

To change the building as above, making it a strictly fire-proof structure, including the mason work, iron-work, carpenter work, and roofing and plastering the ceilings, will cost		$122,604
Two passenger elevators, two freight elevators, four sidewalk elevators	$13,800	
Steam-pipes and radiators	10,000	
Plumbing and gas-pipes, with wash-basins in each office	8,000	
		31,800
		154,404

The cost of fitting up each floor for offices, the partitions to be fire-proof, with the carpenter work, including the painting, will be $3,364.

If it is desired to excavate the walks and put in vaults with granite walk, lighted by cast-iron illuminated platforms, it will cost $18,194, and will give 5,000 additional square feet of storage room 7 feet high.

Contracts can be made at once with responsible and well-known contractors for the work and materials at these prices.

If it should be desired, the central portion of the building, over the court, could be raised 50 feet and made available for signal purposes.

Taking cost of the present building and the expense of the alterations together, the property would stand the Government the sum of $400,000, which, at 4 per cent., the highest rate of interest paid by the United States, the rental would be $16,000 per annum for a strictly fire-proof storage and office structure, making available about 25,000 square feet more room than the one now occupied, which costs $25,000 per annum.

The location of the two pieces of property for the use of the War Department are not to be compared, the building offered occupying a whole block of ground, with light on all sides, and almost fronting the bay, which not only would be a credit to the city and in full view of all incoming water travelers, but would be for use of the Department and ventilation and sanitary purposes superior to any other that could be obtained in the city, besides sufficiently large to meet all reasonable increase in the Quartermaster's Department for years to come.

I am, very respectfully,

STEPHEN D. HATCH,
Architect, 115 *Broadway*.

MARCH 24, 1885.

---

15 COURTLAND STREET,
New York, 24*th March*, 1885.

DEAR SIR: I hand you herewith plans and specifications in regard to alterations in the property known as the Old Produce Exchange of this city, which I offered to the Hon. Secretary of War in February, showing how the building can be made into a strictly fire-proof structure, and give you the same amount of storage room and double the office accommodation as the one you now occupy. The location of the property is such that nothing can be built that would ever obstruct the light or view, and should you desire the tower could be used for the Signal Service, from the top of which an unobstructed view could be had far outside of Sandy Hook.

The plans were made at my own expense by S. D. Hatch, of 115 Broadway, one of our best, widest-known architects, and whose work and character is well acknowledged, are respectfully submitted only for the purpose of showing the cost of alterations and the fact of what the present building is available of being made of.

Respectfully,

J. L. KIRKLAND.

Lieutenant-Colonel HODGES,
Depot Quartermaster at New York.

True copies.

J. G. CHANDLER,
Deputy Quartermaster-General, U. S. A.

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { EX. DOC. No. 14.

CUSTOMS FINES AND FORFEITURES.

LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

Report of awards of compensation in lieu of moieties to informers and seizing officers in customs fines and forfeitures for the fiscal year ended June 30, 1885.

DECEMBER 14, 1885.—Ordered to lie on the table and be printed.

TREASURY DEPARTMENT,
December 11, 1885.

SIR: I have the honor to transmit herewith, for the information of Congress, a detailed "report of awards of compensation in lieu of moieties to informers and seizing officers in customs fines and forfeitures" for the fiscal year ended June 30, 1885, as required by section 3, act of June 22, 1874 (18 Stat., 186).

Very respectfully,

D. MANNING,
Secretary.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

Detailed report of awards of compensation in lieu of moieties to informers and seizing officers in customs fines and forfeitures for the fiscal year ending June 30, 1885, required by section 3, act of June 22, 1874 (Stats. at Large, vol. 18, page 186).

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { EX. DOC. No. 16.

LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

A statement of refunds of customs duties for the fiscal year ended June 30, 1885.

DECEMBER 14, 1885.—Ordered to lie on the table and be printed.

TREASURY DEPARTMENT,
December 11, 1885.

SIR: I have the honor to transmit herewith, for the information of Congress, a detailed "statement of refunds of customs duties" for the fiscal year ended June 30, 1885, as required by section 4, act of March 3, 1875 (18 Stat., 469).

Very respectfully,

D. MANNING,
Secretary.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

Statement of customs refunds made by the Treasury Department during the fiscal

TREASURY DEPARTMENT, OFFICE OF COMMISSIONER OF CUSTOMS, *July* 1, 1885.

JOHN S. McCALMONT,
Commissioner.

EXHIBITS ACCOMPANYING STATEMENT OF REFUNDS FOR FISCAL YEAR ENDING JUNE 30, 1885.

EXHIBIT 1.—*Metal fringe, duty on.*

TREASURY DEPARTMENT, *February* 1, 1884.

SIR: The Department has again had under consideration the case of Messrs. Roundy & Sons, referred to in the printed ruling (Synopsis, 5925) of October 2, 1883, affirming your decision on their appeal from your action in assessing duty at the rate of 45 per cent. ad valorem, under the provision of Schedule C for manufactures of metal on certain metal (bouillon) fringe imported by them, per Canada, and claimed to be dutiable at the rate of 25 per cent. ad valorem, under the provisions of Schedule N (T. I., new, 427). The schedule last mentioned (T. I., new, 401) provides for "bouillons or cannetille," &c., and the same schedule (427) embraces "epaulets, galloons, laces, knots, stars, tassels, and wings of gold, silver, or other metal."

Both provisions impose duties at the rate of 25 per cent. ad valorem. Bouillon fringe assimilates, in character, manufacture, and the uses to which it is applied, to the articles enumerated in the paragraph last above quoted. Tibbins, and also Boyer's English and French Dictionary, define bouillons as being "puffs," "flounces," and in an opinion dated the 5th ultimo, appended hereto, the Attorney-General states that the rate of duty is 25 per cent. ad valorem.

The additional light thrown upon the case induces the Department to modify its opinion, as expressed in its printed decision cited, that the article was provided for under the general category for "manufactures * * * not specially enumerated or provided for, composed wholly or in part of iron, * * * or any other material." (T. I., new, 216.)

Such fringe, therefore, may be admitted, in future, on the payment of duties at the rate of 25 per cent. ad valorem.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Chicago, Ill.*

[Attorney-General's letter above mentioned.]

DEPARTMENT OF JUSTICE, *Washington, D. C., January* 5, 1884.

SIR: I have considered the question presented in yours of the 28th ultimo and its several inclosures, viz, as to the proper duty upon "metal fringe," under the tariff act of 1883.

If the question is unembarrassed by *commercial usage* (such usage being of course a matter of *fact*, and so not to be determined by me), I am of opinion, by comparing the paragraph in the recent tariff act beginning "epaulets," &c. (22 Stat., p. 512, near top), with that beginning "bouillons, &c. (same act, p 511, rear top), that the rate of duty is to be determined by applying section 2499 (same act) to the former provision, and therefore that it is 25 per cent. ad valorem.

Very respectfully,

BENJAMIN HARRIS BREWSTER,
Attorney-General.

The SECRETARY OF THE TREASURY.

EXHIBIT 2.—*Washed wool.*

TREASURY DEPARTMENT, *Washington, D. C., February* 11, 1884.

SIR: The United States Supreme Court has handed down a decision in the case (No. 47) of Chester A. Arthur, &c., *vs.* Henry Pastor *et al.*, which involved the question as to the proper method of assessing the ad valorem rate of duty under Schedule L, R. S. (T. I., old, 232), on imported washed wools of Class 1.

Such decision holds that inasmuch as washed wools are, as a rule, valued at double the cost of the wool in an unwashed condition, the duty to be imposed under the said provision of law, which is "twice the amount of the duty to which it would be subjected if imported unwashed," should be calculated as follows:

(1) Twice the specific rate, about which there is no question, and (2) twice the ad valorem rate; but in the latter case the assessment to be made on the value of the wool in an unwashed condition, as, for instance, in the case of the importation which was the subject of the suit.

3,294 pounds, at 20 cents	$658 80
$813.50 (its value unwashed), at 22 per cent	178 97
Total duty	837 77

Or the calculation may be made in another way, as follows:

3,294 pounds, at 20 cents	658 80
$1,627 (value unwashed), at 11 per cent	178 97
Total	837 77

The decision reverses the practice heretofore prevailing, which was to take the double duty on the value of the wool in its washed condition, and directs judgment in favor of the defendants in error (plaintiffs below) for a sum equal to the excessive duties exacted under such practice.

Upon the entry of judgment in the case you are directed to take the necessary steps for its settlement and payment.

You will also apply the decision to the settlement of any other similar suits now pending at your port, when the requirements of law as to protest, appeal, &c., have been duly complied with.

Very respectfully,

CHAS. J. FOLGER,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 3.—*Worsted laces for dress-trimmings.*

TREASURY DEPARTMENT, *April* 24, 1884.

SIR: This Department is in receipt of your letter, dated the 18th instant, transmitting the appeal (6216*i*) of Messrs. Meyerheim, Martin & Co. from your assessment of duty at the rate of 30 cents per pound and 50 per cent. ad valorem on certain so-called worsted laces imported by them, per Amerique, August 13, 1883.

Duties were assessed under paragraph 368 (T. I., new), relating to "dress-trimmings * * * made of * * * worsted."

The Department understands that the goods resemble worsted yak lace, and are used for similar purposes.

In the case of Duden *vs.* Arthur (Synopsis, 4360), tried in the circuit court for the southern district of New York, the testimony showed that yak laces were not considered by importers and dealers generally in this country as covered by the term of "dress-trimmings." The verdict to that effect was acquiesced in by the Department, and the principle should govern in the present case.

The laces in question are included in the provision of paragraph 362 (T. I., new), for "all manufactures of every description composed wholly or in part of worsted," and as they are understood "to be valued at above 80 cents per pound," the claim of the appellants, that they are dutiable at 35 cents per pound and 40 per cent. ad valorem, is correct.

You will, therefore, take measures for a refund of the duties levied in excess.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 4.—*Additional duty on tin plate.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., July 18, 1884.

SIR: Referring to the letter of your predecessor in office of the 23d of May, 1881, concerning the suit of Ystalyfera Iron Company *vs.* Redfield, for the recovery of alleged excessive duties exacted at your port on certain tin and terne plates imported for Siddon in August, 1853, you are informed that the suit was lately finaliy decided by the United States Supreme Court adversely to the claim of the plaintiffs for interest for the period elapsing from December 8th, 1854, until April 30, 1883, the decree being as follows (110 U. S. Reports, page 177). "For this error, accordingly, the judgment is reversed, with costs in this court, and the cause remanded, with instructions to enter a judgment for the defendant in error (plaintiff aforesaid) for the "sum of $715.70, with interest thereon from April 30," 1883, "together with the costs in the circuit court."

Upon the due entry of judgment in the circuit court in conformity to the mandate of the United States Supreme Court (as certified by the United States attorney to be correct), you are authorized to forward a certified statement for the settlement thereof.

Very respectfully,

CHAS. F. FOLGER,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 5.—*Veined marble not sawed or dressed—duty on.*

TREASURY DEPARTMENT, *April* 17, 1884.

SIR: The Department is in receipt of your letters of the 5th and 19th ultimo, transmitting the following appeals from your decision assessing duty at the rate of $1.10 per cubic foot on certain veined marble in blocks, imported into your port, which the appellants claim to be dutiable at the rate of 65 cents per cubic foot, viz: 4643*i*, Fanchere & Co., per Australia, September 27, 1883; 4644*i*, A. Tabor & Bro., per Italia, July 16, 1883; 4645*i*, A. Tabor & Bro., per India, July 7, 1883; 5187*i*, A. Tabor & Bro., per Assyria, October 5, 1883; 5188*i*, A. Tabor & Bro., per Australia, September 24, 1883.

Schedule N of the tariff of March 3, 1883, paragraph 467, provides as follows:

"Marble of all kinds, in block, rough or squared, sixty-five cents per cubic foot; veined marble, sawed, dressed, or otherwise, including marble slabs and marble paving-tiles, one dollar and ten cents per cubic foot."

The Department holds that the provision for veined marble includes that variety only when it is advanced from the rough condition by sawing, dressing, or other like or equal process of manufacture, and that the provision for block marble, rough or squared, includes the veined blocks as well as the other varieties.

On this construction, the appeals are well taken. You will readjust the entries at a duty of 65 cents per cubic foot, and forward certified statements for a refund of the excess of duty exacted. You will also cause your practice to conform hereto.

Very respectfully,

CHAS. J. FOLGER,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 6.—*Flitters or bronze-powder.*

TREASURY DEPARTMENT, *May* 6, 1884.

SIR: The Department is in receipt of your letter of the 25th ultimo, transmitting the appeals of Fuchs & Lang, hereafter specified, from your decision assessing duty at the rate of 45 per cent. ad valorem on certain so-called bronze-powder imported into your port, which the appellants claim to be dutiable at the rate of 15 per cent. ad valorem.

It appears from an inspection of samples, that the article in question is a species of metal or bronze powder, which is known technically as "flitters." It is produced in various colors, like bronze-powder; is used in the manufacture or decoration of wall-paper, window-shades, and other kindred commodities, either as a substitute for or in connection with bronze-powder, and assimilates in all important particulars to bronze-powder.

The appraiser at your port suggests that the article is similar to the "brocade" specified in Department's ruling of January 12, 1883 (Synopsis, 5530), and that in accord-

ance with such decision it is dutiable at the rate of 15 per cent. ad valorem, under the provision (T. I., new, 196) for "bronze-powder."

The article is doubtless either a species of bronze-powder or else a commodity which assimilates very closely to the bronze-powder of commerce. In either case it is liable to duty at the rate prescribed for bronze-powder, which is 15 per cent. ad valorem.

You will reliquidate the entries accordingly.

* * * * * * *

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 7.—*Chicory—duty on.*

TREASURY DEPARTMENT, *December* 19, 1879.

SIR: Schedule M of the Revised Statutes contains the following provisions: "Chicory-root, ground or unground, 1 cent per pound;" "chicory-root, burnt or prepared, 5 cents per pound."

By Decision No. 1509, dated April 4, 1873, it was held that chicory which had been burnt and ground, and put up in small paper packages of uniform size, marked and labeled with the name of the manufacturer, was to be classified as prepared chicory, duitable at the rate of 5 cents per pound. By Decision No. 2263, of May 25, 1875, it was conceded that chicory-root which had been burnt and ground, and which was not further manufactured or prepared by being put up in paper packages of the character before mentioned, was dutiable at the rate of 1 cent per pound, as chicory-root ground. Chicory appears to be imported in various forms—first, as chicory-root before being ground—that is, in pieces washed and kiln-dried; second, as coarse, burnt, and ground, or "granulated" chicory, which is generally imported in barrels; third, chicory, both ground and burnt, and put up in paper packages of specified sizes. Chicory put up in such paper packages appears to be generally deposited in vaults or cellars attached to the manufacturing establishment, into which steam is admitted by pipes, and the temperature thereby moistened and raised to a proper degree to have the natural absorption of moisture, until, in the judgment of the manufacturer, the packages are ripe for the market. When taken out the chicory is of the consistency of a paste, and gradually hardens on exposure to the air.

From the decision mentioned, protests were taken to test the question of the proper rate of duty on this description of chicory in paper packages. The case of Herold against Arthur was tried in the United States circuit court for the southern district of New York in 1876. In that case the court appears to have charged the jury that ground chicory was the same thing as burnt chicory, and that whether the article then under discussion was a new preparation or something other than ground chicory—that is to say, whether it was prepared chicory, and not simply ground chicory—was a question of fact for the jury to decide. The jury found a verdict in favor of the plaintiff. A writ of error was taken out to have the case reviewed by the Supreme Court of the United States, and a decision of that court has now been rendered, of which the following is a copy:

"We think it was not error for the court to say to the jury that ground chicory was the same thing as burnt chicory. The chicory root cannot be ground until it is burned, and burnt chicory is not an article of commerce until it is ground. Whether or not the article was a new preparation and something other than ground chicory—that is to say, whether it was prepared chicory, and not simply ground chicory—was a question of fact that was properly left to the jury."

In accordance with such opinion, this Department holds that chicory-root burnt, ground, and put up in packages in the manner before described is dutiable at the rate of 1 cent per pound, under the provision for chicory-root ground or unground.

You are instructed to forward certified statements for the payment of the judgment in the case of Herold against Arthur, and for the refund of any excess of duties exacted in other like cases where the requirements of law as to protest and appeal and institution of suit have been complied with. You will hereafter conform your practice to the decision before mentioned.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 8.—*Paintings on porcelain.*

TREASURY DEPARTMENT, *Washington, D. C., May* 15, 1884.

SIR: This Department is in receipt of your letter dated the 9th instant, transmitting the appeal (4302 *i*) of Messrs. J. Kittel & Co. from your decision assessing duty at the rate of 60 per cent. ad valorem on certain so-called "oil paintings" imported per Moravia December 6, 1883, and returned by the appraiser on the nvoice as "decorated china."

The appraiser's report shows that the articles consisted of two flat plaques, or slabs of porcelain, of about 12x15 inches in size, with paintings executed in colors, and burned "in the usual manner of decorating fine porcelain ware," they having gilt wood frames, and being intended for use as works of art.

It is understood that the paintings are works of art, intended to be hung on walls in the same manner as an ordinary painting on canvas, and the Department is of opinion that the claim in the protest is correct that the property was dutiable at the rate of 30 per cent. ad valorem only, as paintings.

You are therefore authorized to reliquidate the entry and take measures for a refund of the duties levied in excess of 30 per cent. ad valorem, the rate imposed on "paintings in oil or water-colors," by Schedule N (T. I., new, 470).

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 9.—*Coal-hods partly manufactured.*

TREASURY DEPARTMENT, *Washington, D. C., January* 14, 1884.

SIR: This Department is in receipt of your letter, dated the 28th of December, 1882, transmitting the appeal ($\frac{3}{3}\frac{5}{6}\frac{7}{5}\frac{8}{4}h$) of the Iron Clad Manufacturing Company, from your decision assessing duty at the rates of $1\frac{1}{4}$, $1\frac{1}{2}$, $1\frac{3}{4}$ cents per pound on certain so-called manufactures of iron imported by them, per Cyphreneous, August 3, 1882, and returned by the appraiser as sheet-iron, dutiable under Schedule E (T. *i.*, old, 77).

The merchandise consisted of pieces of iron of different shapes stamped out of sheets of iron of different thicknesses. The pieces were flat as they were struck out from the dies, not being further manufactured in any manner.

In view of the recent decision of the courts on so-called cotton-ties, and on corrugated roofing iron, and of the decision on certain iron plates for a stairway, I have to state that the Department is of opinion that the merchandise is not covered by the provision cited for sheet-iron, and as it was not otherwise specifically enumerated in the tariff, was dutiable at the rate of 35 per cent. ad valorem, under Schedule E (T. *i.*, old, 146), as a manufacture of iron not otherwise provided for.

You will therefore take measures for a refund of the duties levied on the merchandise in excess of that rate.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York*

EXHIBIT 10.—*Artificial flowers.*

TREASURY DEPARTMENT, *Washington, March* 24, 1884.

SIR: Referring to the letter of Joseph Barrett, special deputy collector, of March 19, transmitting a report of the appraiser upon the appeals ($\frac{3}{4}\frac{8}{6}\frac{2}{2}\frac{8}{2}i$ and $\frac{3}{5}\frac{8}{4}\frac{2}{7}\frac{9}{3}i$) of N. Bloom, the Department finds that the report from the appraiser's office of February 5, 1884, is confirmed, and that there was no proper examination of the imported goods in the appraiser's office, and that neither the goods nor samples of them remain. Neither the laws nor the regulations which require an examination of the imported goods and the report of the appraiser to the collector have, in this case, been complied with. This condition of things, it is hoped, is exceptional, and no principle can be laid down for the government of cases where the appraising officers have failed to comply with their duty.

The practical question is, in this case, whether upon a trial in court the original classification can be sustained. The appraising officers are evidently of opinion that it cannot, and they have recommended a new classification satisfactory to the importer.

Unless the collector is of opinion that the original classification can be maintained by evidence on trial the Department advises that the new classification be accepted. As by articles 1079 and 1080, Customs Regulations, classification is made upon the report of the appraisers, and as there is an admitted failure in the duty of examination in that office, the collector will please transmit this letter to the present appraiser, under whose predecessor, it is understood, this case arose, that he may impress upon his subordinates the importance of careful performance of duty in cases of this character.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 11.—*Floss silk or filoselle.*

TREASURY DEPARTMENT, *April* 19, 1884.

SIR: Your letter of September 28, 1883, submitting the appeal (9854*h*) of Messrs. R. Blankenburg & Co. from your assessment of duty at the rate of 50 per cent. ad valorem on certain so-called floss silk or "filoselle" imported, per steamer Donan, in July, 1883, was duly received.

The article is described as consisting of a number of silk yarns, combined by means of twisting, the number varying from four to twelve or more, which is used with a needle for embroidery purposes, particularly for the filling in of spaces. Duty was assessed at 50 per cent. ad valorem, under paragraph 383, which imposes that rate on all goods not provided for in the act of March 3, 1883, made of silk, or of which silk is a component material of chief value.

The importers claim that the article is provided for in paragraph 381, which imposes a duty of 30 per cent. ad valorem on "sewing-silk, twist, floss, in the gum, and spun silk, silk threads or yarns, of every description, purified or dyed."

In decision 6109, it was held that silk warps are spun silk, that they are a manufacture, but that they are not a manufacture not otherwise provided for, because the clause for spun silk is without limitation as to form or character or use, and that therefore the provision for spun silk comprehends warps. Filoselle is also spun silk, and must fall into the same category and be held dutiable at 30 per cent. ad valorem. But, aside from this authority, I think the expression "silk thread or yarn of every description," in paragraph 381 (T. I., new), covers not only what may be called technically thread or yarn, but, in a general sense, everything in the form of a thread or yarn, both of these phrases being defined substantially as small twists of fiber.

It is therefore held that filoselle is dutiable at 30 per cent. ad valorem, under paragraph 381 of Schedule L, act of March 3, 1883.

You will readjust this entry accordingly, and forward a certified statement for refund of the excess of duty exacted, conforming your practice hereafter to the decision herein made.

Very respectfully,

CHAS. J. FOLGER,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 12.—*Silk and cotton goods—Duty on.*

TREASURY DEPARTMENT, *June* 7, 1880.

SIR: By decision 4320, dated November 21, 1879, it was held that silk and cotton goods, of which cotton was the component material of chief value, should be classified, according to weight and fineness, under the paragraphs in Schedule A, providing for so-called countable cottons, and not as manufactures of cotton not otherwise provided for under the final clause of Schedule A. This ruling was made to carry out the opinion of the Attorney-General contained in decision 4286, as understood by this Department.

The case of Schmieder *vs.* Arthur, tried at New York last January, involved the proper classification for assessment of duty of goods composed in part of cotton and in part of silk, and other goods composed in part of cotton and in part of flax, the cotton being in each instance the component material of chief value.

Duties had been assessed on the goods composed in part of silk at the rate of 50 per cent. ad valorem, on the ground that they assimilated to manufactures of silk; and on

the cotton and flax goods at the rates imposed by the clauses in Schedule A, providing for "countable cottons."

The court held that the questions involved were purely of law; that the goods of cotton and silk could not be held to assimilate to manufactures of silk, and that the clauses of Schedule A, imposing duty according to weight and fineness of the goods, related only to goods manufactured wholly of cotton. It was further held that both classes of goods mentioned were subject to duty under the last clause of Schedule A, providing for manufactures of cotton not otherwise provided for, which, so far as concerns goods of the character specified, took the place of the clause formerly in force providing for goods of mixed materials.

Judgment was therefore rendered in favor of the plaintiff, and the rate of duty on the goods specified was declared to be 35 per cent. ad valorem, less 10 per cent., the importations having been made while section 2503 of the Revised Statutes remained in force.

The papers in the case were subsequently referred to the Attorney-General, and the Department is now in receipt of an opinion from the Solicitor-General, approved by the Attorney-General, holding that the views expressed by the court are a correct construction of the law.

This Department, therefore, modifies decision 4320 to correspond with such ruling, and directs that goods of which cotton is the component of chief value, but which may contain an admixture of silk or flax, shall be classified as manufactures of cotton not otherwise provided for.

In order, however, to come within such classification, the goods must contain a substantial admixture of silk or flax; and cotton goods which may have a few threads of silk or flax, and which do not practically change the character or value of the goods, will not be considered as affected hereby.

You will forward a certified statement for payment of the judgment rendered in favor of the plaintiff in this case, and also transmit statements for repayment of excess of duties exacted in cases where the requirements of law have been fully observed, including the usual allowance for interest and costs in cases covered by suits.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 13.—*Manufactures of India-rubber and silk and India-rubber and cotton—duty on.*

TREASURY DEPARTMENT, *October* 9, 1883.

SIR: This Department is in receipt of a letter from the appraiser, dated the 20th ultimo, relating to the classification of certain merchandise at your port, of which samples were submitted by him.

Sample No. 1 consists of a cord composed of silk and India-rubber, silk chief value, and was properly classified as dutiable at the rate of 50 per cent. ad valorem, under Schedule L. (T. I., new, 383.)

No. 2 is a cord of cotton and India-rubber, India-rubber chief value, which was classified under the provision for manufacturers of cotton. Such goods are dutiable under the provision of Schedule N (T. I., new, 453) "for India-rubber fabrics," &c., at the rate of 30 per cent. ad valorem.

No. 3 consists of a webbing of silk, cotton, and India-rubber, classified as a manufacture of which silk is chief value, dutiable at 50 per cent. ad valorem. It is dutiable at the rate of 35 per cent. ad valorem, under the provision of Schedule N (T. I., new, 495) for "webbing." (See T. I., new, 324.)

No. 4 is a webbing which was classified as a manufacture of which silk was the chief value, dutiable at 50 per cent. ad valorem. It is dutiable at the rate of 35 per cent. ad valorem, under the same provision as sample No. 3.

Sample No. 5 consists of "elastic" braid of cotton and India-rubber, India-rubber chief value, and was classified as webbing. It is dutiable at 30 per cent. ad valorem, under the provision of Schedule N (T. I., new, 453) for "India-rubber fabrics," &c.

No. 6 consists of webbing of cotton and India-rubber, dutiable, as classified, under the provision of Schedule N (T. I., new, 495) for "webbing," &c., at the rate of 35 per cent. ad valorem.

Please advise the appraiser of these instructions.

The samples are enclosed.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Philadelphia, Pa.*

EXHIBIT 14.—*Linen window-curtains—duty on.*

TREASURY DEPARTMENT, *August* 18, 1883.

SIR: The Department is in receipt of your letter of the 6th instant, transmitting the appeals hereinafter mentioned from your decision assessing duty at the rate of 40 per cent. ad valorem on certain window-curtains, which are claimed by the appellants to be dutiable at the rate of 30 per cent. ad valorem, under the provision in Schedule J (T. I., new, 337) for "flax or linen laces."

It appears that the merchandise which was in bonded warehouse on the 1st of July last was withdrawn for consumption since that date, and that it consisted of window-curtains made of flax or linen, composed of lace or open-work and plain-woven fabrics in alternate strips.

The said curtains, not being composed entirely of lace, cannot be regarded as included in the term "laces" as used in the law (T. I., new, 337), and therefore the claim of the appellants in that particular cannot be allowed. See Department's ruling of July 27, 1882 (Synopsis, 5322), in a somewhat similar case.

By reference to Department's Circular No. 99, of July 14, 1883, it will be seen that textile fabrics of flax are not considered as being embraced in the provision (T. I., new, 336) for "flax or linen thread, twine, and pack-thread, and all manufactures of flax," &c., and that they come within the purview of a previous paragraph (T. I., new, 334) for "brown and bleached linen, &c., or other manufactures of flax," &c.

The Department therefore holds that the said curtains should have been classified in accordance with such circular, and subjected to duty at the rate of 35 per cent. ad valorem.

You will be governed accordingly.

* * * * * * *

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *San Francisco, Cal.*

EXHIBIT 15.—*Embroidered cotton and linen collars.*

TREASURY DEPARTMENT, *December* 10, 1883.

SIR: The Department is in receipt of your letter of the 6th ultimo, in relation to the classification under the tariff act of embroidered cotton and linen collars, where cotton is the component material of chief value.

Articles of this character, which, under the principle enunciated in Department's ruling of June 7, 1880 (Synopsis, 4565), come within the purview of the cotton schedule (I), are not known commercially as "cotton embroideries," and, being otherwise unenumerated by name, are dutiable at the rate of 35 per cent. ad valorem, under the provision (T. I., new, 324) for "all manufactures of cotton not specially enumerated or provided for in this act." This view was also taken by the Department in its ruling of the 2d ultimo (not yet published), whereby it was held that ladies' underwear garments made of cotton or muslin, on which raised figures in fancy patterns are produced by a needle and thread, some of them being trimmed with a finely worked edging, also executed by hand, and the chief value being the expense of the labor employed in embroidering, were not the "cotton * * * embroideries" specified in the cotton schedule (T. I., new, 325), but were dutiable at the rate of 35 per cent. ad valorem, under the provision above mentioned (T. I., new, 324).

Where, however, linen is the component material of chief value of such articles, and Schedule J applies, they are dutiable at the rate of 30 per cent. ad valorem, under the provision (T. I., new, 337) for "manufactures of linen, if embroidered or tamboured in the loom, or otherwise," &c. The language here used, it will be noticed, differs materially from that employed in the cotton schedule (I), for there it is "cotton * * * embroideries," while here it is "manufactures of linen, if embroidered."

You will be governed accordingly.

Very respectfully,

JNO. C. NEW,
Acting Secretary.

COLLECTOR OF CUSTOMS, *Philadelphia, Pa.*

EXHIBIT 16.—*Free entry—mineral wax.*

TREASURY DEPARTMENT, *March* 22, 1884.

SIR: The Department is in receipt of your letter of the 10th instant, transmitting the appeals (4923*i* and 4924*i*) of H. K. & F. B. Thurber & Co., from your decision assessing duty at the rate of 20 per cent. ad valorem on certain so-called mineral wax imported, per Polaria, August 2, and Polynesia, August 27, 1883, which the appellants claim to be exempt from duty (T. I., new, 592).

The question involved is whether the article is mineral wax or not. An inspection of a sample indicates that it is mineral wax, and the United States analytical chemist reports that it is a refined mineral wax, which is obtained from the mineral ozokerite, and which is sometimes known as "ceresin."

It would seem, therefore, that the article is in fact a species of mineral wax, and that it is exempt from duty under the provision in the "free list" for "mineral wax," which doubtless covers all mineral wax not otherwise enumerated, without regard to the condition in which it may be imported.

You will reliquidate the entries accordingly.

* * * * * * *

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 17.—*Watch-jewels and other parts of watches—duty on.*

TREASURY DEPARTMENT, *October* 11, 1883.

SIR: The Department is in receipt of your letter of the 11th ultimo, in regard to the classification under the act of March 3, 1883, of watch-crystals, watch-jewels, and certain manufactures of brass and steel for watch-makers' use.

Upon investigation, the Department is of opinion that watch-jewels when set as parts of watches, the manufactures of brass or steel when they present the form of some finished part of a watch, and watch-crystals, should be classified for duty under the provision in Schedule N of said act (T. I., new, 494) for "parts of watches and watch materials."

Watch-jewels not set should be classified for duty under the provision in said schedule (T. I., new, 480) for "precious stones of all kinds," and the manufactures of steel or brass which do not present the form of a finished part of a watch should be classified as manufactures of metal, under the provision therefor in Schedule C of said act. (T. I. new, 216.)

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

O. D. MADGE, *Office U. S. General Appraiser, Baltimore, Md.*

EXHIBIT 18.—*Flax.*

TREASURY DEPARTMENT, *Washington, D. C., May* 27, 1884.

SIR: The Department is in receipt of your letter of the 17th ultimo, transmitting certain documents, together with a sample, concerning the classification for duty of certain flax imported into your port by Welton & Allison, in February last.

It appears that the flax in question was classified by you as "flax hackled, known as dressed line," at a duty of $40 per ton (T. I., new, 329), while the importers claim that the same is not "hackled," and that it is of the same character as that which is passed at Buffalo and other ports at a duty of $20 per ton under the provision (T. I., new, 328) for "flax not hackled or dressed."

Upon submitting the sample to the collector of customs at Buffalo that officer reports that the flax is not "hackled," and that it has been his practice to classify it as such at a duty of $20 per ton. The appraiser at New York, who has also examined the sample, reports that the flax has been prepared by the scutching machine (which has taken the place of the old fashioned brace and swingling knife and board referred to by the appraiser at your port), but that it has not been over the hackle, and that it is in fact flax not hackled or dressed.

It would seem, therefore, that the question, which is one simply of fact, must be decided against the position taken by the appraiser at your port, and that flax of the character of the sample transmitted by you is dutiable at the rate of $20 per ton.

You will be governed accordingly.

The sample in question and other samples of flax, some hackled and some not hackled, are transmitted under another cover for the further information of yourself and the appraiser at your port.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Detroit, Mich.*

EXHIBIT 19.—*Printed matter.*

TREASURY DEPARTMENT, *December* 8, 1880.

SIR: The Department is in receipt of a letter, dated the 24th ultimo, from the United States attorney at New York, in which he reports the trial of the suit (U. S. 5295) of Charles Benziger *et al. vs.* C. A. Arthur, former collector of customs at New York.

This case involved the proper classification, under the existing tariff acts, of the following classes of paper pictures, which had been subjected by the said collector to duty at the rate of 35 per cent. ad valorem as manufactures of "paper" (Heyl, 1368) but which the plaintiffs claimed were dutiable at the rate of 25 per cent. ad valorem, as "printed matter" (Heyl, 1210), viz:

(1) Printed representations of the Lord's Supper with a certificate underneath "that ——— has partaken of the communion in the parish of ——— on the ——— 18—."

(2) Plainly printed pictures, the edges of which had been scalloped out instead of being cut straight.

(3) Pictures printed in colors and mounted on card-board, in some instances the margin of the card-board being blank, and in others having a fancy border painted on it. Some of these were quite large and made a picture of respectable dimensions when framed, while others were quite diminutive and not intended for framing. On the backs of some of the small ones there was reading matter in type, but the others were entirely wanting in reading matter.

(4) Small lace pictures having the borders perforated with holes to resemble frames of lace; and

(5) Small embossed pictures printed plain and in colors prepared by having the picture, after it was printed, stamped by an embossing machine so as to leave the lines of the picture depressed.

The decision of the court was in favor of the position taken by the plaintiffs, that all these classes of goods were dutiable as printed matter, and upon submitting the case to the United States Attorney-General, that officer advises, under date of the 3d instant, that upon the authority of the decision of the United States Supreme Court in the case of Arthur *vs.* Moller, embodied in S. S. 3822, the judgment should be acquiesced in by this Department. The United States attorney who tried the case also makes the same recommendation.

The Department directs that in future merchandise of the general character specified in the foregoing classes shall be classified as "printed matter," at a duty of 25 per cent. ad valorem.

You are also directed to forward certified statements for the payment of said judgment and of all similar claims, where the requirements of law as to protest, appeal, and institution of suit have been duly complied with.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 20.—*Refund of excessive duties on embroidered slipper-patterns.*

TREASURY DEPARTMENT, *May* 13, 1880.

SIR: Referring to your letter of the 10th instant, regarding Department's instructions of March 29, 1880 (synopsis 4475), for carrying out the decision of the court in the case of Kohlsaat *vs.* Arthur, as to the proper classification of embroidered slipper-patterns,

you are informed that such instructions should be construed as directing the reliquidation of all the entries then in suit, &c., covering merchandise of the character mentioned, which was imported between the 1st of August, 1872, and March 3, 1875, at a duty of 35 per cent. ad valorem, *less* 10 *per cent.*, and those entries of such merchandise imported after the last mentioned date, at a duty of 35 per cent. ad valorem, without such reduction.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 21.—*Earthenware toys.*

TREASURY DEPARTMENT, *Washington, D. C., April* 28, 1884.

SIR: The Department is in receipt of a letter dated the 10th instant, from the United States attorney for the eastern district of Pennsylvania, in which he reports the trial of the case of Zeh & Schenck *vs.* Hartranft (collector, &c.) and a verdict for the plaintiff for $172.31.

The question involved in the case was whether certain small earthen or chinaware tea sets were dutiable at the rate of 60 per cent. ad valorem (Schedule B. T. I., new, 125) or at 35 per cent. ad valorem, Schedule N. T. I., new, 425.

The testimony adduced showed that the articles were commercially known as "toy tea sets," and the verdict rendered sustained the latter claim.

The United States attorney states that the verdict accords with the evidence, and the United States Attorney-General certifies that no writ of error will be sued out in the case.

You are therefore directed to take the necessary steps for a settlement of the judgment in said case when it shall be entered of record in the court.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *Philadelphia, Pa.*

EXHIBIT 22.—*Fireworks.*

TREASURY DEPARTMENT, *Washington, D. C., August* 8, 1884.

SIR: The Department is in receipt of your letter of the 28th ultimo, submitting the appeal (9900 *i*) of Hop Chong from your assessment of duty at the rate of 100 per cent. ad valorem on certain fireworks imported by them per Colima, June 2, 1884, and classified as "fire-crackers."

The articles in question are described as bamboo bombs, Roman candles, colored fireworks, and sky-rockets, and the appraiser reports that they are all in one piece, not attached to any frame, and exploded the same as fire-crackers.

The bamboo bombs are dutiable at the rate assessed under the Department's decision of November 19, 1883 (not published), and your assessment of duty thereon is hereby affirmed.

The other articles, although not attached to frames, are dutiable according to the materials of which they are composed, under the Department's decision of April 17, 1877 (S. 3202), and you are hereby authorized to readjust the entry and to forward a certified statement for a refund of the excess of duties.

Very respectfully,

CHAS. E. COON,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Portland, Oreg.*

EXHIBIT 23—*Free entry—carbolic acid.*

TFEASURY DEPARTMENT, *July* 28, 1884.

SIR: The Department is in receipt of your report of the 20th of February, 1884, transmitting the following appeal from your decision assessing duty at the rate of 20 per cent ad valorem on so-called carbolic acid imported at your port, viz: 3996*i*, J. P. Barnett. per Germanic, September 4, 1883.

By decision of November 9, 1883, it was held that carbolic acid was liable to a duty, of 20 per cent. ad valorem, as a non-enumerated manufactured article. Claim was made that the article was free of duty under paragraph 594, which exempted from duty acids used for medicinal, chemical, or manufacturing purposes, not specially enumerated or provided for in that act. The claim was rejected on the ground that the article was not an acid. Paragraph 262 of the tariff of 1874, however, provided for liquid carbolic acid under the head of acids, at a duty of 10 per cent. ad valorem, and decision 4851, of May 6, 1881, held that carbolic acid crystals were dutiable under the provision for acids used for medicinal purposes, contained in paragraph 262 of the tariff of 1874.

The Department has since become satisfied that carbolic acid may be properly classified under the head of acids, and that it is used mainly for purposes named in paragraph 594 of the tariff of 1883. The Attorney-General has given his assent to a modification of the decision first mentioned, by letter dated the 24th instant, and hereafter carbolic acid will be considered as exempt from duty, under authority of paragraph 594.

Very respectfully,

CHAS. E. COON,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 24.—*Ground mica waste and soapstone—duty on.*

TREASURY DEPARTMENT, *September* 12, 1884.

SIR: The Department is in receipt of your letter of the 4th ultimo, transmitting the appeal (9911*i*) of Hamlin & Co. from your decision assessing duty at the rate of 20 per cent. ad valorem on certain so-called ground mica waste and soapstone imported into your port via Morristown, N. Y., in July last, which the appellants claim to be dutiable at the rate of 10 per cent. ad valorem, under the provision (T. I., new, 95) for non-dutiable crude minerals, * * * advanced in value or condition by * * * grinding," &c.

The appellants allege that the combination of the two substances in question is due to natural causes; that the substances were not ground separately and then mixed together, but that they were ground in the condition in which the substances were found in the mine or quarry.

"Mica and mica waste" are specified in the "free-list" (T. I., new, 742), and it may be assumed that soapstone is comprised in the clause in the "free-list" (T. I., new, 638) for "crude minerals not advanced," &c., rather than in the provision in Schedule C (T. I., new, 215) for "mineral substances in a crude state," which latter provision, being contained in the schedule for "metals," more particularly relates to mineral substances of *a metallic nature.* This view was taken by the Department in its ruling of the 8th of May last (Synopsis, 6336) on asphalt mastic, thereby giving effect to both these seemingly conflicting provisions of law.

The Department, therefore, decides that the appeal is well taken, and that the substance in question is dutiable at the rate of 10 per cent. ad valorem, under the said provision of Schedule A (T. I., new, 95) for "non-dutiable crude" minerals, * * * advanced in value or condition by * * * grinding," &c.

You will reliquidate the entry accordingly, and take the necessary steps for refunding the excess of duties.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *Cleveland, Ohio.*

EXHIBIT 25.—*Mosaic velvet carpetings—duty on.*

TREASURY DEPATRMENT, *November* 20, 1883.

SIR: The Department is in receipt of your letter of the 6th instant, in relation to the clasification, under the tariff act, of certain carpetings known as "B. Mosaic velvet carpetings."

These carpetings, as an inspection of samples show, are not "Saxony, Wilton, Tournay velvet carpets," "patent velvet and tapestry velvet carpets, printed on the warp or otherwise," nor any of the other carpetings specified by name in Schedule K, but a

species of velvet carpetings which have been manufactured from yarns dyed (in order to form the patterns) before weaving.

These carpetings are dutiable at the rate of 40 per cent. ad valorem, under the provision in said schedule (T. I., new, 378) for "carpets and carpetings of wool, &c., not otherwise herein specified." You will be governed accordingly.

In this connection, it may be mentioned that the sample of carpeting forwarded by the appraiser at your port has been submitted to an expert in such matters, who states that such carpeting cannot be printed into patterns after weaving, inasmuch as it is impossible, by the process of printing, to convey the separate colors forming the patterns to the yarn beneath the jute thread without also discoloring the latter. It is suggested that the appraiser's informant is mistaken in his theory as to the said carpeting.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Boston, Mass.*

EXHIBIT 26—*Black dye.*

TREASURY DEPARTMENT, *May* 19, 1884.

SIR: The Department is in receipt of your letter of the 28th of March last, reporting on the appeal (4982*i*) of Higgin, Lloyd & Co. from your decision assessing duty at the rate of 25 per cent. ad valorem on certain so-called black dye, imported on the 13th of March last, which the appellants claim to be dutiable at the rate of 10 per cent. ad valorem, under the provision in Schedule A (T. I., new, 84) for "logwood and other dyewoods, extracts and decoctions of." Upon an investigation of the matter, it is ascertained that the article is not a "paint" or "color" within the commercial meaning of these terms, but a decoction composed of extract of logwood, acetic acid, crome oxide, and perhaps other ingredients, of which the extract of logwood is the component of chief value.

This article, while not the extract or decoction of logwood proper, assimilates thereto in all important particulars, and as it is not specially enumerated in the tariff act, it is, in the opinion of the Department, entitled to classification as an extract of logwood by virtue of section 2499, Revised Statutes.

You will reliquidate the entry accordingly, and forward a certified statement for a refund of the excessive duties.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Providence, R. I.*

EXHIBIT 27.—*Mineral paints or colors used for painting china-ware.*

TREASURY DEPARTMENT, *February* 20, 1884.

SIR: The Department is in receipt of your letter of the 5th instant, in relation to the trial of the suit (N. S., 6279) of McCoy *vs.* Merritt; which resulted in a verdict for the plaintiff and in favor of his claim that certain mineral paints, used for painting china-ware, &c., which were imported prior to July 1, 1883, were dutiable at the rate of 25 per cent. ad valorem, under the provision in Schedule M (T. I., old, 447) for "paints and painters' colors, * * * dry or ground in oil," instead of at the rate of 35 per cent. ad valorem, as assessed by the defendant (collector of customs).

It now seems that the appraiser at your port, as well as yourself, concur with the United States attorney at New York in the opinion that the verdict in the case is a just one, and that there is no good reason for a further litigation of the question.

The United States Attorney-General has also certified that no writ of error will be sued out by the Government in the case.

The Department, therefore, acquiesces in the verdict, and directs you to take the necessary steps for the settlement of the said suit, and all other similar suits now pending at your port, where the requirements of law as to protest, appeal, and institution of suits, &c., have been duly complied with.

Very respectfully,

H. F. FRENCH
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 28.—*Jute parceling.*

TREASURY DEPARTMENT, *Washington, D. C., June* 13, 1884.

SIR: The Department is in receipt of your letter of the 8th ultimo, transmitting the appeals (6968*i*, 6969*i*, 6970*i*, and 6971*i*) of Anderson, Churchill & Co. from your decision assessing duty at the rate of 35 per cent. ad valorem on certain so-called jute parceling, imported per Ethiopia October 3, Devonia December 1, Circassia December 5, and Furnessia December 20, 1883, which the appellant claims to be dutiable at the rate of 30 per cent. ad valorem, under the provision (T. I., new, 338) for "burlaps."

An inspection of a sample shows that the merchandise consists of a fabric of jute under 60 inches wide, not fit for cotton bagging, which is woven of soft threads (single warp and single filling) in the natural color of the fiber, and which does not exceed 24 porters or threads of warp under the burlap glass. This description accords with that applied to "burlaps" by the Board of General Appraisers (S. 5481) and it also seems to cover the common "burlaps" mentioned in the statute (T. I., new, 338), viz: "burlaps, not exceeding 60 inches in width of * * * jute * * * (except such as may be suitable for bagging for cotton)."

Samples were submitted to the appraisers at Boston and Philadelphia, respectively, both of whom pronounced the fabric to be a common split burlap. The Department is of opinion that the merchandise is covered by the special provision for "burlaps" above cited, and that it is dutiable at the rate of 30 per cent. ad valorem.

You will reliquidate the entries accordingly.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 29.—*Paper filters—duty on.*

TREASURY DEPARTMENT, *November* 21, 1883.

SIR: The Department is in receipt of your letter of the 14th instant, transmitting the appeal (1068*i*) of Dodge & Olcott from your decision assessing duty at the rate of 25 per cent. ad valorem on certain so-called "paper filters," which were withdrawn from bonded warehouse for consumption on the 7th of July last, and which the appellants claim to be dutiable at the rate of 15 per cent. ad valorem, as "manufactures of paper," &c. (T. I., new, 388).

It is understood that the merchandise consists of a species of paper in sheets, which can be used for filtering purposes. Merchandise of this character cannot be considered to be a *manufacture* of paper. It is, in fact, *paper*, which may be aptly called "filtering-paper." It is dutiable at the rate of 25 per cent. ad valorem, under the provision in Schedule M (T. I., new, 392) for "all other paper not specially enumerated or provided for in this act."

Your decision is affirmed.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 30.—*Hair tonic.*

TREASURY DEPARTMENT, *June* 16, 1884.

SIR: The Department is in receipt of your letter of the 6th instant, submitting the appeal (8400*i*) of Mr. Henry Dreyfus from your assessment of duty at the rate of $2 per gallon and 25 per cent. ad valorem on certain hair tonic (eau de quinine) imported by him, per France, December 7, 1883.

The appraiser reports that the article is composed of the various medicinal principles of Peruvian bark, united with certain perfumes, and is used as an application for the hair, and that, in his opinion, it is properly dutiable as a "toilet preparation" (T. I., new, 99), at the rate of 50 per cent. ad valorem, as claimed by the appellant.

In this opinion the Department concurs, and you are authorized to readjust the entry, and to take the necessary steps for refunding the excess of duty.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 31.—*Rapiers.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., May 13, 1884.

SIR: The Department is in receipt of your letter of the 5th instant, submitting the appeal ($\frac{6931}{6466}$ I) of Struller, Lan & Co. from your assessment of duty at the rate of 45 per cent. on certain steel fencing rapiers imported per Oder January 14, 1884.

The appellants claim that the articles are dutiable at 35 per cent. ad valorem under paragraph 207, Schedule C, for swords.

The appraiser returned the articles as manufactures of steel dutiable at 45 per cent. on the ground that they are not commercially known as swords.

The articles are what are commonly called foils, used in fencing. Webster defines a foil to be a blunt sword used in fencing, and the cut there given shows the article in question.

They are properly within the classification of swords, and are dutiable as such.

You will reliquidate the entry at a duty of 35 per cent.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 32.—*Statuary—duty on.*

TREASURY DEPARTMENT, *October* 2, 1883.

The following decision of the Supreme Court in the case of Viti *et al. vs.* Tutton, involving duties on certain statuary, is published for the information and guidance of customs officers.

Decision 4266, of October 27, 1879, will be construed in the light of this decision.

H. F. FRENCH,
Assistant Secretary.

COLLECTORS OF CUSTOMS and others.

SUPREME COURT OF THE UNITED STATES.

No. 1206.—OCTOBER TERM, 1882.

In error to the circuit court of the United States for the eastern district of Pennsylvania.

ALEXANDER P. TUTTON, COLLECTOR OF CUSTOMS FOR THE DISTRICT OF PHILADELPHIA, PLAINTIFF IN ERROR,

vs.

ALONZO M. VITI AND FRANCIS A. VITI.

Marble statues, executed by professional sculptors in the studio and under the direction of another professional sculptor, whether from models just made by a professional sculptor, or from antique models whose author is unknown, are "professional productions of a statuary or of a sculptor," liable to a duty of only ten per centum ad valorem, under the Revised Statutes § 2504, Schedule M.

Mr. Justice GRAY delivered the opinion of the court:

This is an action of assumpsit to recover back an excess of duties paid upon seven marble statues imported from Italy. The importers contend that these statues were liable to pay a duty of only ten per centum ad valorem; but the collector exacted payment of fifty per centum ad valorem.

The decision of the case turns upon the true construction of those provisions of the customs act which impose upon "all manufactures of marble, not otherwise provided for, fifty per centum ad valorem;" and upon "paintings and statuary, not otherwise provided for, ten per centum ad valorem. But the term 'statuary,' as used in the laws now in force, imposing duties upon foreign importations, shall be understood to include professional productions of a statuary or of a sculptor only." (Revised Statutes, § 2504 Schedule M.)

The material facts, as found by the special verdict returned in the circuit court, are as follows: Of the seven statues, two were of boys, taken out and sculptured from antique original models, the author of which is unknown. The other five statues were taken out and sculptured from original models, two of angels, made by Achille de Cori, and three, representing Summer, Autumn, and Winter, made by Carlo Nicoli, both of whom were professional sculptors of good reputation, and who had won at the Royal Academy of Fine Arts at Carrara the prize of a government pension at Rome; and they were the first productions from those models. All the seven statues were executed by Giovanni Padula and Alessandro Gemignani, professional sculptors, in the studio and under the direction of Pietro Salada, who has been a professional sculptor in Carrara for the last thirty-four years. The cost of the statues of the two boys was 300 lire, or $58 each; of those of the two angels, 690 lire, or $133.40 each; and of those of the three seasons, 480 lire, or $92.80 each.

Judgment was given for the plaintiffs upon the special verdict, and the only question presented by the record is whether this judgment was right.

The evident intent of Congress, in putting a much lower duty on statues which are "professional productions of a statuary or of a sculptor" than on other "manufactures of marble," is to encourage the importation of works of art, by distinguishing between the productions of an artist and those of an artisan or mechanic; between what is done in a sculptor's studio, by his own hand or under his eye, and what is done by workmen in a marble-shop.

In the same spirit, Congress has exempted from all duty the importation of "paintings, statues, fountains, and other works of art" which are either "the production of American artists" or are "imported expressly for presentation to national institutions, or to any State, or to any municipal corporation." (Rev. Stats., § 2505.)

There is nothing in the acts of Congress to limit the professional productions of a statuary or sculptor to those executed by a sculptor with his own chisel from models of his own creation, and to exclude those made by him, or by his assistants under his direction, from models or from completed statues of another sculptor, or from works of art, the original author of which is unknown. An artist's copies of antique masterpieces are works of art of as high a grade as those executed by the same hand from original models of modern sculptors.

The instructions of the Treasury Department (pursuant to which these duties were imposed) and the argument for the appellant proceed upon the ground that the statues were made by men not really professional sculptors, though calling themselves such, and were not real works of art, but were manufactures of marble by good artisans. If this court were at liberty to consider the testimony sent up with the record, it might perhaps not reach the conclusion at which the jury have arrived. But the insurmountable difficulty in the way of the appellant is that by the special verdict the jury have found in the most explicit terms that all these statues were executed in the studio of a professional sculptor, and under his direction, by two other professional sculptors. These facts being conclusively settled by that verdict, the law requires that the *judgment be affirmed.*

EXHIBIT 33.—*Figured and fancy alpacas, diagonals, &c.—classification of.*

TREASURY DEPARTMENT, *May* 14, 1877.

SIR: Referring to the letter of this Department, dated the 3d of February last, relating to the decision in the case of Herman *vs.* Arthur, in which the question as to the proper classification of goods known as figured and fancy alpacas, diagonals, &c., black in color, and composed wholly or in part of wool, worsted, the hair of the alpaca, goat, or other like animals, was involved, I have to state that the Department deems it proper to more clearly define the goods, which in its opinion such decision should be held to cover.

The evidence adduced at the trial of the case mentioned shows that dealers in these goods regard fabrics of the kind above alluded to as dress goods, and sell them as such for the use of women and children, while tailors and dealers in cloths for men's wear use them for linings and similar purposes.

It appears also that they are sometimes used in the manufacture of upholstery.

Similar goods, colored, have been classified as dress goods, and the color, and in some instances the figure, appears to have been the only tangible difference between the goods first above mentioned and others heretofore classified as dress goods.

It seems to be impracticable to determine with certainty, at the time of the examination by the appraisers, the uses to which such goods are ultimately to be applied; and it is the opinion of the experts of the customs service generally, who have been consulted,

that the articles should be classified as dress goods, when they are of such a character as to reasonably fit them for use as such goods.

It is therefore directed that all such fabrics composed wholly or in part of wool, worsted, the hair of the alpaca, goat, or other like animals, weighing less than four ounces to the square yard, and known as figured and fancy alpacas, diagonals, mohair serges, fancy mohair, or London twills, shall be classified hereafter as women's and children's dress goods, or as assimilating thereto, under the decision aforesaid, and Schedule L of the tariff.

When, however, such fabrics are obviously designed for use in the manufacture of upholstery or other articles, and are not of the character sold as dress goods for women or children, they will be excluded from classification as dress goods.

Respectfully,

JOHN SHERMAN,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 34.—*Pine strips—duty on.*

TREASURY DEPARTMENT, *September* 24, 1884.

SIR: The Department is in receipt of your letter of the 13th instant, reporting on the appeal (497 *k*) of James Moir from your decision assessing duty at the rate of 20 per cent. ad valorem on certain so-called "pine strips" imported at Rouse's Point, August 25, 1884, which the appellant claims to be dutiable at the rate of $2 per thousand feet, board measure.

It appears that the merchandise consists of sawed pine lumber in pieces 12 feet long by 2 by 3, 2 by 1½, and 2 by 1 inches, respectively. Sawed pine lumber of this character comes within the purview of Department's ruling of May 17, 1884 (Synopsis, 6338), and is dutiable at the rate of $2 per thousand feet, under the provision (T. I., new, 219) for "all other articles (varieties) of sawed lumber." The fact that it is sawed to specific lengths does not control.

You will reliquidate the entry accordingly, and take the necessary steps for refunding the excessive duties, if any.

Very respectfully,

CHAS. E. COON,
Acting Secretary.

COLLECTOR OF CUSTOMS, *Plattsburg, N. Y.*

EXHIBIT 35—*Oil of bitter almonds.*

TREASURY DEPARTMENT, *Washington, D. C., August* 28, 1884.

SIR: The Department is in receipt of your letter of the 30th of June last, transmitting the appeal ($\frac{92}{90}\frac{23}{90}$I) of Dodge & Olcott from your decision assessing duty at the rate of 25 per cent. ad valorem on certain so-called oil bitter almonds, imported per Italy, March 15, 1884, which the appellants claim to be exempt from duty under the provision in the "Free List" (T. I., new, 555) for "oils, almond."

It is understood from the report of the appraiser that the article is the oil which is distilled by a certain process from the macerated cake of almonds remaining after first expressing and obtaining from the ground kernels an oil of a different nature.

The article in question is known and recognized as an oil of almonds, and the process by which it is obtained (distillation) has no bearing upon the question of commercial designation. It is classed under the head of "oil of almonds" in the Pharmacopœia of the United States. The appraisers at Boston and Baltimore report that the practice at these ports has been and is now to classify such oil as oil of almonds.

The Department decides that the appeal is well taken.

You will reliquidate the entry accordingly, and take the necessary steps to refund the duties exacted.

Very respectfully,

CHAS. E. COON,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 36.—*Outer coverings—Earthenware jars containing table-salt.*

TREASURY DEPARTMENT, *September* 22, 1884.

SIR: The Department is in receipt of your letter of the 17th instant, further reporting on the appeal (9874 *i*) of H. F. Leggett & Co. from your decision assessing a separate duty of 25 per cent. ad valorem on certain earthenware jars containing fine table-salt imported, per Italy, March 14, 1884.

The appellants claim that, as the contents pay a purely specific rate of duty, and as the said jars are the usual commercial coverings of fine table-salt, no separate duty should be exacted on the jars.

The appraiser reports that earthenware jars are now, and have been for a number of years past, the usual commercial coverings of imported salt of the character above mentioned, and admits that under the rule laid down in the regulations and decisions of the Department they are not liable to a separate duty from the contents.

In the opinion thus expressed you state that you concur.

It would thus seem to be conceded that, no matter what the practice was in February, 1874, when decision 1777 was published, it is now customary to import table-salt in earthenware jars, and that such jars, being the usual coverings of the merchandise, are not liable to separate classification for duty as earthenware.

You will, therefore, reliquidate the entry accordingly, and take the necessary steps for refunding the excessive duties.

* * * * * * *

Very respectfully,

CHAS. E. COON,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 37—*Brass and gilt buttons.*

TREASURY DEPARTMENT, *July* 26, 1884.

SIR: The Department is in receipt of your letter of the 21st instant, further in regard to the duty on metal buttons. Paragraph 407 of Schedule M places a duty of 25 per cent. ad valorem on "buttons and button-molds, not specially enumerated or provided for in this act, not including brass, gilt, or silk buttons."

Brass and gilt buttons, although excluded from paragraph 407, are not provided for elsewhere in the tariff, and so fall into paragraph 216 for manufactures of metal, at a duty of 45 per cent. ad valorem. In decision 6019, of November 16, 1883, the question was discussed as to what test should determine the question whether, in any given case, buttons were brass buttons. The importers contended that, although they might be made of brass, they were not excluded from paragraph 407 unless commercially recognized as brass buttons. The Department, however, rejected this claim, and held that it was sufficient that the buttons were made wholly or in part of brass, without their being commercially known as brass buttons, to bring them within the exemption specified in paragraph 407.

By using the phrase "made wholly or in part of brass," the Department did not intend that buttons having a mere trace of brass in their composition, or which did not have sufficient brass to characterize them as brass buttons, should be excluded from paragraph 407. A steel button with a brass shank or an iron button having a small amount of brass forming some of its parts is not a brass button, either commercially or by reason of its component materials. Buttons of the character alluded to, to be excluded from paragraph 407, must be in fact brass buttons. Decision 6019 will hereafter be construed in the light of this explanation.

Very respectfully,

CHAS. E. COON,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 38.—*Actinolite ore.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., December 6, 1884.

SIR: The Department is in receipt of your letter of the 26th ultimo, transmitting the appeal (2213*k*) of Messrs. Robinson & Powell, from your decision assessing duty at the rate of 20 per cent. ad valorem, under paragraph 215 of T. I., new, on certain actinolite re (ground) imported by them from Canada, November 17, 1884.

The appellants claim that the merchandise is dutiable at the rate of 10 per cent. ad valorem, under the provision in Schedule *A* (paragraph 95, *ibid.*,) for all non-dutiable crude minerals, but which have been advanced in value or condition by refining or grinding.

Actinolite (a variety of hornblende) being a *non-metallic* mineral does not, in the opinion of the Department, come under paragraph 215, which is held by decision S. S. 6559 to be applicable to metallic mineral substances only, but is a non-dutiable mineral substance. (See par. 638, free-list.)

The claim of the appellants that the merchandise in question, which is in fact ground actinolite, is duitable at the rate of 10 per cent. ad valorem, under paragraph 95, above cited, appears to be well founded, and you are therefore authorized to reliquidate the entry accordingly.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Suspension Bridge, N. Y.*

EXAIBIT 39.—*Metal clasps and ornaments for albums.*

TREASURY DEPARTMENT, *May* 12, 1884.

SIR: The Department is in receipt of your letter of the 2d ultimo, transmitting the appeals (5648*i*) of Koch, Sons & Co., per Rhaetia, November 7, 1883, and (5649*i*) Liebenroth, Von Auw & Co., per Rugia, January 3, 1884, from your decision assessing duty at the rate of 45 per cent. ad valorem on certain clasps and ornaments for albums, which the appellants claim to be dutiable at the rate of 35 per cent. ad valorem, under the provision in Schedule C (T. I. new, 210) for "plated and gilt articles and wares of all kinds."

The articles consist of plated and gilt ornaments and clasps for use in the mounting of albums, and are covered by the provision above cited. You are authorized to reliquidate the entries accordingly.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 40.—*Marble paper—duty on.*

TREASURY DEPARTMENT, *December* 11, 1884.

SIR: The Department is in receipt of your letter of the 5th instant, submitting the appeal (2366*k*) of Messrs. White Bros. & Sons from your assessment of duty at the rate of 25 per cent. ad valorem, under T. I., new, 392, on certain marble paper imported, per Elbe, October 6, 1884.

Your letter of the 4th instant has also been received, which submits the question of the classification of certain lace paper imported into New York, and shipped thence to your port in bond.

The marble paper covered by the appeal is simply paper of various colors. It was classified at New York as a manufacture of paper, while at your port it is held to be paper not otherwise provided for.

The classification at your port is correct.

The lace paper is simply paper cut out in the form of lace and intended for use in the manufacture of valentines.

It resembles lace in appearance, and some of it has attached thereto a blank page of writing-paper.

This was classified at New York as paper not otherwise provided for, while at your port it is held to be a *manufacture* of paper not otherwise provided for.

The classification made at your port is also correct, and the article is dutiable at 15 per cent. ad valorem.

You will readjust the entries accordingly.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Boston, Mass.*

EXHIBIT 41.—*Ceruleine.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., December 20, 1882.

SIR: The Department duly received your letter of the 16th of June last, submitting the protest and appeal ($\frac{1398}{1985}H$) of Pickhardt & Kuttroff, from your decision assessing duty at the rate of 50 cents per pound and 35 per cent. ad valorem on an importation per steamship Elbe, May 1, 1882, of certain so-called "ceruleine," which the appellants claim to be dutiable at the rate of 20 per cent. ad valorem, as a manufactured article not otherwise provided for.

It appears from the special report of the appraiser accompanying your letter, that the merchandise in question was classified under the provision in the tariff for aniline dyes or colors by whatever name known according to Department's decision of February 1, 1882, (S. S. 5113) and that "in the absence of the decision referred to not only the chemist who analyzed the merchandise, but the expert, Dr. Jewett, who classified it would have made it dutiable at 20 per cent. ad valorem as a non-enumerated manufactured article," and the appraiser adds "in this opinion of the experts I concur."

The appellants represent and the Government chemists at your port report that the merchandise in the condition as imported cannot be used as a dye; that it requires the instructions of chemical agents to produce colors on fabrics, and for this reason, as well as on account of the materials entering into its composition, the manner of its application or use, and the results it produces, it is not similar to "aniline dyes or colors," either in material, quality, texture, or use to which applied, and that its use is similar to the use of logwood and madder extracts. Views similar to these have been expressed by recognized experts at other ports.

In its decision of February 1 last the Department was governed mainly by the report of the drug examiner at the port of Boston, which was to the effect that although not chemically similar to an aniline dye, the article "ceruleine" bore a similarity to "cosine" and other dyes or colors, which had by the Department's rulings been classified as "aniline dyes or colors," in accordance with the provisions of § 2499, Revised Statutes.

From the investigations which have been made under the Department's direction since the above decision was rendered, it is manifest that while the so-called "ceruleine" is in some sense fabricated after the fashion of "cosine" or "resorcin J," &c., it lacks, in a marked degree, the essential qualities and traits which entitle and give the latter recognition and standing in commerce and the arts as "aniline dyes and colors." It appears to differ from "cosine," &c., and the general class of aniline dyes or colors in the following important respects:

(1) It is not, as imported, a dye ready formed for use.

(2) It is not capable of producing the same or similar positive and brilliant hues and colors.

(3) Its use seems to be confined to dyeing or printing on cotton, and cannot be applied to wool, silk, &c.

(4) It is not commercially known as an "aniline dye or color."

It is understood that the article as imported by the appellants is identically the same as that which formed the subject of the Department's decision of February 1, 1882 (S. S. 5113). It also appears that the latter was obtained from, and manufactured by, the Clayton Aniline Company, limited, of Manchester, England, from whose regular trade-list it appears that the article is not ranked by the manufacturers as an "aniline dye or color," as is "cosine" and other colors which have been decided to be dutiable as "aniline dyes or colors" under section 2499 Revised Statutes, but appears under the head of "*Sundry products*," along with essence of mirbane, and aniline oil, nitrobenzole, and other materials from which dyes are produced, and which are admitted at a duty of 20 per cent. ad valorem.

In view of all the evidence, the Department is convinced that it acted under a misapprehension of the facts in the case when rendering its decision of February 1 last, and it now holds that "ceruleine," as represented by the importation of Messrs. Pickhardt & Kuttroff, is a manufactured article, not enumerated or provided for, subject to duty at 20 per cent. ad valorem.

You will, therefore, reliquidate the entry acccordingly.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 42.—*Free entry—Horns cut and stained.*

TREASURY DEPARTMENT, *October* 27, 1884.

SIR: Inquiry has been made of this Department as to the proper classification under the tariff laws of parts of horns cut to lengths and stained or dyed, and presumably intended to be finished into knife-handles. Decision 6352, of May 14, 1884, related to certain pieces of horn which were therein described as being "cut to proper lengths and then stained or dyed and *otherwise* prepared so as to fit them for use as knife-handles." It is alleged that this decision has been applied so as to bring within the duty of 30 per cent. ad valorem imposed on manufactures of horn, pieces of horn, which have been simply cut to lengths, stained or dyed, and not otherwise manufactured.

The law exempts from duty "horns and parts of horns, unmanufactured." It is the judgment of this Department that the mere cutting of the horn into pieces, of whatever length, and the mere staining or dyeing of the same, does not render them a manufactured article.

You will take action accordingly.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 43.—*Steel blooms.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., February 11, 1885.

SIR: The writ of error in the case of Downing vs. Robertson, involving duties on steel railway blooms, has been dismissed by the Supreme Court of the United States, on motion of the Attorney-General. The merchandise was classified, under orders from this Department, as a manufacture of steel, not otherwise provided for, dutiable at 45 per cent. ad valorem, while the importers contended that it was not a manufacture of steel, but was steel in forms not specified in the tariff, on which the duty was 30 per cent. ad valorem.

The result of the trial in the court below was a verdict in favor of the plaintiff, but the district attorney advised a writ of error, on the ground that the conversion of the steel from ingots into blooms constituted a process of manufacture which rendered the merchandise liable to the duty assessed. The writ of error was duly filed, but, upon examining the record, the Attorney-General informed this Department that he was of opinion that the record showed no question upon which it could be hoped to reverse the judgment below, and he therefore advised that the writ of error be dismissed. Subsequently the Attorney-General certified the dismissal of the case to this Department.

I see no reason for further litigation on this question, as the record in the case dismissed presented fully the question on which the Government rested its defense.

You are instructed to forward the proper statement for payment of the judgment in the dismissed case, when judgment on the mandate shall have been duly entered, and to forward similar certified statements in the cases now pending and unsettled, when the requirements of section 2931 Revised Statutes has been complied with, on receiving the usual certificate of discontinuance of suits.

Very respectfully,

H. McCULLOCH,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 44.—*Clock-keys and glass shades—duty on.*

TREASURY DEPARTMENT, *September* 12, 1884.

SIR: The Department is in receipt of your letter of the 8th instant, submitting the appeals (757 *k* and 758 *k*) of Mr. F. Kroeber from your assessment of duty at the rates of 40 and 45 per cent. ad valorem on certain clock-keys and glass shades for covering clocks imported by him, per Amerique, November 20, and St. Germain, December 1, 1883, and claimed to be entitled to entry at the rate of 30 per cent. ad valorem, as "parts of clocks."

Your assessment of duty at the rate of 40 per cent. ad valorem on the glass shades, being in accordance with the Department's decision of November 13, 1883 (Synopsis, 6014), is hereby affirmed.

The appraiser reports that the keys are manufactured of iron, and are such as are commonly used for winding clocks, but may be used for other purposes.

The Department is of opinion that such keys are embraced in the provision in Schedule N, act of March 3, 1883 (T. I., new, 414), for "parts of clocks," and you are authorized to readjust the entries accordingly, and to take the necessary steps for refunding the excess of duty.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 45.—*Coumarine—duty on.*

TREASURY DEPARTMENT, *November* 8, 1879.

SIR: The Department is in receipt of your letter of the 3d instant, submitting the appeal (3848*f*) of Messrs. Fritsche Brothers from your assessment of duty at the rate of 50 per cent. ad valorem on certain heliotropine imported by them, per Herder, June 4, 1879, and classified as "perfumery."

The merchandise, it appears, consists of a highly odoriferous substance, in the form of fine needle-shaped crystals, which has an odor resembling that of the flowers of the heliotrope, and is used in the manufacture of perfumery.

The analytical chemist of the appraiser's department reports that, in his opinion, the article is coumarine, the odoriferous principle of the tonka bean, and the appraiser states that it was erroneously classified as "perfumery," and that it is entitled to entry at the rate of 20 per cent. ad valorem, as a manufactured article not "otherwise provided for."

In this opinion the Department concurs, and you are therefore authorized to readjust the entry accordingly, and to forward a certified statement for the refund of the excess of duties.

Very respectfully,

By order:

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 46.—*Martin-Siemens metal.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., February 11, 1885.

SIR: The writ of error in the case of Newell *vs.* Beard, involving duties on metal produced by the Martin-Siemen's process, which was classified by this Department as steel, while it was claimed by the importers to be iron, has been dismissed by the Supreme Court, with the consent of the Attorney-General, and a mandate was issued from the Supreme Court, under which judgment has been perfected in favor of the plaintiffs in the circuit court for the district of Massachusetts.

There are other suits still pending which involve the same questions as were involved in the case before mentioned, and the district attorney, to whom the question of the trial of another case was referred, states that he has come reluctantly but decidedly to the conclusion that it is not advisable to try another of these cases.

You are instructed to forward to the Department the proper statement for the payment of the judgment.

In the pending cases, J. W. Newell, or Edward Page *et al.*, or Jere Abbott *et al.* are plaintiffs. Certified statements in these cases will also be made up, and will be accompanied by a certificate of the appraiser in each case that the merchandise covered by such suit is of the same character and description as that involved in the judgment case.

They will then be forwarded to the Department, accompanied by the proper certificate of discontinuance of suit.

Very respectfully,

H. MCCULLOCH,
Secretary.

COLLECTOR OF CUSTOMS, *Boston, Mass.*

EXHIBIT 47—*Chemical compounds—duty on.*

TREASURY DEPARTMENT, *February* 9, 1885.

SIR: The question has been submitted to the Attorney-General whether an article chemically compounded of two or more ingredients, and which compound is not specially named in the tariff, is dutiable under T. I., new, 92, which imposes a duty of 25 per cent. ad valorem on all chemical compounds and salts, by whatever name known, and not specially enumerated or provided for in that act, or whether the provision in section 2499, as contained in said act of March 3, 1883, which provides that on all articles manufactured of two or more materials the duty shall be assessed at the highest rates at which the component material of chief value may be chargeable, operates to make such compounds subject to duty at the rate imposed on the component of chief value.

The opinion of the Attorney-General is that articles not enumerated in the tariff, which, by their character, are fairly entitled to rank as chemical compounds, will be classified as such without reference to section 2499, and this opinion is adopted by the Department.

Very respectfully,

H. McCULLOCH,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 48—*Toilet vinegar.*

TREASURY DEPARTMENT, *Washington, D. C., November* 11, 1884.

SIR: The Department is in receipt of your letter of the 30th ultimo, transmitting the appeal ($\frac{1899\,k}{12357}$) of Messrs. F. R. Arnold & Co. from your decision assessing duty at the rate of $2.00 per gallon and 50 per cent. ad valorem, prescribed by paragraph 100, T. I., new, for alcoholic perfumery, on certain "toilet vinegar" imported by them, per Bothnia, November 24, 1883.

The appellants claim that said merchandise is an "alcoholic compound," dutiable under paragraph 103 at $2.00 per gallon of the alcohol contained therein, and 25 per cent. ad valorem.

The appraiser reports that the merchandise is composed of about 72 per cent. alcohol, together with a small quantity of acetic acid and some perfumery, and that its principal use is in connection with the bath, and not as an article of perfumery.

The Department decides that the appeal is well taken, and you are hereby authorized to reliquidate the entry accordingly.

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 49.—*Ground or granulated rice—duty on.*

TREASURY DEPARTMENT, *April* 26, 1883.

SIR: The Department duly received your letter of the 29th ultimo, submitting the appeal (4873 *h*) of F. W. Simonds from your assessment of duty at the rate of 2½ cents a pound on certain so-called "rice-meal or granulated rice" imported, per Arizona, March 13, 1883.

The merchandise in question is made from the broken and small grains of rice which are sifted from the larger grains in the process of cleaning rice, is ground into coarse granules, and is devoted mainly to brewers' use in the manufacture of beer.

The duty was assessed under the provision in Schedule F for cleaned rice, while the importers contend that the article is dutiable only at the rate of 20 per cent., as a non-enumerated manufactured article not otherwise provided for.

From the papers and samples submitted, the Department is convinced that in a commercial sense the article is not rice. It is a product of rice in the same sense that hominy is a product of corn.

It is not enumerated in the law nor specially provided for.

This similitude clause in section 2499, Revised Statutes, does not apply so as to place

it in the category with rice, as that clause is construed by the United States Supreme Court in the cases reported in 16 Howard, United States Reports, 160, 103 United States Reports, 433, and under the proofs in this case.

Hence the article is dutiable at the rate claimed by the appellants, under section 2516, Revised Statutes.

You will readjust the entry accordingly.

This decision will apply only to this case, and to cases for which it may be a fair precedent, and care will be taken by the appraising officers to see that rice, or merchandise containing whole rice, is not passed as granulated rice under this decision.

Very respectfully,

JNO. C. NEW,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 50—*Shellac varnish.*

TREASURY DEPARTMENT, *Washington, D. C., February* 27, 1885.

SIR: The Department duly received your letter of May 24, 1883, submitting the appeals 5694 *h* and 5695 *h* of James Harty & Co. from your assessment of duty at the rate of 50 cents per gallon and 25 per cent. ad valorem on certain shellac varnish imported by them from Canada, and consigned to J. A. Whittemore. The article was dutiable at the rate assessed as varnish under T. I., old, 528, it being valued at above $1.50 per gallon.

The only question in the case is, Upon what value shall the ad valorem duty be assessed? Duty was assessed under decision of March 15, 1883 (S. S. 5613), upon the value in the open markets of Canada, including the excise tax which would have been due to the Canadian Government had it been withdrawn for consumption in that country.

That decision was founded upon an opinion of the Attorney-General, laying down certain general principles. The question so far as concerns this class of merchandise has been reconsidered by the Attorney-General, and in a letter of the 4th instant, signed by Hon. S. F. Phillips, Solicitor-General, in which the Attorney-General concurs, he suggests that as it is understood there was no market for this merchandise in Canada, except so far as such market was inside of the bonded warehouse, where it was made, and from which it was exported to the United States, he sees no reason why the rule, which has been adopted in other cases, of accepting the value in bond in the foreign market should not be taken as a basis for assessment of duties in these cases. This view is in accordance with that laid down by the United States court at Chicago in the malt cases, which concerned malt made in Canada, and which, when entering into consumption there, was subject to an excise tax, which tax was not payable on exportation of the malt; and it was held by the court that the value, less the excise tax, was the dutiable value of the merchandise.

It being understood that there was no value for that merchandise in Canada in the open markets there, and that its only commercial value as varnish was for exportation from the bonded warehouse, you are authorized to readjust the entry at the value of the goods in bond in Canada, and to forward a certified statement for refund of the excess of duties exacted.

Very respectfully,

H. MCCULLOCH,
Secretary.

COLLECTOR OF CUSTOMS, *Cape Vincent, N. Y.*

EXHIBIT 51.—*Free entry—Quassia wood.*

TREASURY DEPARTMENT, *October* 31, 1884.

SIR: The Department is in receipt of your letter of the 17th instant, submitting appeal (1871*k*) of Messrs. J. W. Elwell & Co. from the assessment of duty at the rate of 20 per cent. ad valorem, as "wood unmanufactured," on certain so-called "quassia bitterwood" imported by them, per Andes, December 10, 1883, which is claimed by them to be exempt from duty, as a "crude drug," under paragraph 636 of the new tariff.

It appears from the report of the appraiser, filed in this case, that the article in question is used in medicine and in the manufacture of tonic drinking-cups, and in com-

pounding bitter and various other medicinal preparations. It is, therefore, a crude drug, and, under the paragraph named, is entitled to exemption from duty.

You will reliquidate the entry, and take the necessary steps for refunding the duty exacted.

Very respectfully,

H. F. FRENCH.
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 52.—*Cauliflowers preserved in brine—duty on.*

TREASURY DEPARTMENT, *January* 14, 1882.

SIR: By decision 3755, of October 30, 1878, it was held that cauliflowers preserved in brine were dutiable at the rate of 35 per cent. ad valorem. This ruling was based upon a previous ruling of February 24, 1875, in which it was held that cucumbers, onions, and cauliflowers, put up in casks and preserved in brine, were liable to the rate of duty imposed on pickles.

Two cases have been tried in the United States circuit court for the southern district of New York involving this question, and in both cases a verdict has been rendered against the Government.

In the case of Wolff against Merritt, tried November 11, 1880, the claim was made on the part of the Government, that the articles were liable to duty at the rate of 35 per cent. ad valorem, under the provision for "vegetables prepared, sealed or unsealed, in cans or otherwise."

In both cases, however, the verdict was in accordance with the claim of the appellants, that the articles were liable to duty, under the provision for vegetables not otherwise provided for, at 10 per cent. ad valorem.

EXHIBIT 53.—*Free entry—Gold-size.*

TREASURY DEPARTMENT, *December* 19, 1884.

SIR: The Department is in receipt of your letter of the 12th ultimo, relating to certain appeals, hereinafter specified, of A. Keppelmann from your assessment of duty at the rate of 20 per cent. ad valorem on certain so-called gold Japan size.

The importer claims that the article is free of duty under paragraph 711, which exempts from duty "gold-size." The question involved, therefore, is whether the article covered by these appeals is the "gold-size" specified in said provision in the tariff. It was classified as a manufactured article not otherwise provided for, under section 2513 of the Revised Statutes, as found in the tariff of March 3, 1883. The assistant appraiser, upon whose report the classification was made, stated that the article was formerly known to the trade as Japan drier; that after gold-size was placed upon the free-list of the act of June 22, 1874. the article was invoiced as Japan gold-size, and is now known by that name in the trade. It is composed of the same ingredients and manufactured in the same manner as the varnish of commerce, but the ingredients are a little different and are combined in different proportions. It consists of linseed or other drying oils, gum, turpentine, and oxide of lead. Varnish is made by using a large proportion of gums, copal, and shellac, to the quantity of linseed oil and spirits of turpentine used, and boiling but a short time, while this article is made by using a small proportion of gum-shellac and spirits of turpentine, no copal, and a large proportion of linseed-oil and oxide of lead, and boiling the same long and thoroughly, whereby a thick, tenacious quality and the properties of a rapid drier are acquired.

The appraiser at your port states that the article is not a varnish; that Japan gold-size is a drier, and is used to a limited extent for the same purposes as ordinary gold-size, but never can be used as a varnish. This fact, he states, takes it clearly out of the category of varnish, and places it either under the provision for gold-size or under the general provision for manufactured articles not provided for, at a duty of 20 per cent. ad valorem.

The drug examiner at Boston expresses the opinion that the article is the gold-size specified in the tariff, and states that when the present tariff was before Congress, under consideration, he called the attention of the Committee on Ways and Means to this article, showing its composition and use, and that as there was only a small amount of the merchandise imported, it was decided that the term "gold-size" should be continued on

the free-list of the present act, and that such term was intended to include this article, then known commercially as "gold-size," and that it has been the practice at that port to classify it as free of duty. Assistant Appraiser Gregg, at your port, in his report of October 14, 1884, states that the gold-size specified in the free-list is composed of boiled linseed or other drying oils (the gum being omitted), and in some cases is colored by the addition of yellow ocher or other yellow pigment, forming when used a ground similar in color to the gold or other yellow-metal leaf that is to be laid upon it, and that, so far as Japan gold-size is used in gilding, any varnish may be, and is, applied for the purpose of gilding or bronzing wood or metal, when cheap ornamentation is desired, but that it can not be considered to represent the gold-size known to the gilder's art, which is that specified in the free-list.

The appraiser at your port states in his report of January 24, 1884, that there is no article known in trade as "gold-size," pure and simple; that there is "Japan gold-size" and "old gold-size," the latter being the gold-size which is used generally by gilders for inside work.

The Department is of opinion that the article can not be classified as varnish, because it is not in fact a varnish, and the similitude clause does not operate to make it subject to the same rate of duty as varnish, because it is not put to the same use as varnish, nor is the mode or extent of manufacture identical. It is therefore free of duty as gold-size, or is dutiable as a manufactured article not otherwise provided for.

As there is no article known by the simple name of gold-size, it must be presumed that Congress intended to legislate with reference to an article that really existed and is known to commerce. It is admitted that this article has for many years been known as Japan gold-size, and that it was so known when the tariff of March 3, 1883, was passed. It is therefore held that the term "gold-size" embraces both "Japan gold-size" and "old gold-size," and that the articles covered by these appeals are free of duty.

You will adjust the entries accordingly, and forward a certified statement for refund of the excess of duty exacted.

* * * * * * *

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 54—*Extract of rennets.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., October 31, 1884.

SIR: The Department is in receipt of your letter of the 25th instant, submitting the appeal ($\frac{1818}{7987}$ *k*) of Messrs. C. B. Richard & Co. from your assessment of duty at the rate of 20 per cent. ad valorem on certain extract of rennet imported by them, per Frisia, August 10, 1883.

The appraiser reports that the so-called extract consists of rennet dissolved in water, to which is added salt or other preservative, and that it was classified as an enumerated manufactured article.

The Department is of opinion that the merchandise is embraced in the provision in the free-list, act of March 3, 1883 (T. I., new, 518), of "rennets prepared."

You are therefore authorized to readjust the entry, and to take measures for refunding the duties levied thereon.

Very respectfully,

H. F. FRENCH,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 55.—*Opalescent glass.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., March 20, 1885.

SIR: The Department is in receipt of your letter of the 11th ultimo, transmitting the appeal (7893*k*) of Messrs. McCully & Miles from your assessment of duty at the rate of 45 per cent. ad valorem on certain opalescent glass imported by them, per Germanic, into the port of New York, and transported thence in bond to your port under I. T. Entry 190, and which was returned by the appraiser at your port as "manufactures of glass," dutiable under T. I., new, 143.

The appellants claim that the merchandise is entitled to classification as "rolled or rough plate-glass," dutiable according to its dimensions at 1 cent per square foot, and if weighing more than 100 pounds per square foot at an additional rate on the excess in the same proportion under T. I., new, 139.

The samples received with this case have been submitted to the inspection of the collector and appraiser at Boston, Mass., who report that the practice at that port is to classify the same as rolled or rough plate-glass, within the meaning of the law, under which name it is bought and sold in trade.

The appraiser at New York, to whom the samples were also submitted, reports the same classification at that port.

The article in question is what is known as rolled cathedral-glass, and is used in the condition imported for the manufacture of stained-glass windows, doors, &c., and is not the "*opaque* blocks for mosaic work," covered by Department decision of June 28, 1881 (S. 4909), to which the appraiser at your port refers; but is more properly covered by Department decision of April 4, 1874 (S. 1809), in accordance with which and with the principles governing decision of July 30, 1880 (S. 4630), on colored cylinder window glass, the Department decides that the appeal is well taken, and authorizes the reliquidation of the entry on the basis indicated, together with the necessary steps for the refunding the excess of duty exacted.

Very respectfully,

C. S. FAIRCHILD,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Chicago, Ill.*

EXHIBIT 56.—*Ventilating needles.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., March 28, 1885.

SIR: The Department is in receipt of your letter of the 10th instant, transmitting the appeal (No. 7834 *k*) of Mr. N. E. Elithorpe from your assessment of duty at the rate of 45 per cent. ad valorem on certain bodkins, and so called "ventilating needles," imported per Scythia, into the port of New York and transported thence in bond to your port under I. T. Entry 16252, and returned by the appraiser at your port as manufactures of metal, under I. T., new, 216.

The appellants claim that the articles named are dutiable as "needles," not specially enumerated or provided for, at 25 per cent. ad valorem under T. I., new, 206.

The bodkins in question are similar to those which form the subject of Department's decisions of November 22, 1880 (S., 4703), and January 17, 1885 (S., 6724), and your assessment of duty thereon being in accordance with said decisions is hereby affirmed.

The so-called ventilating needles may be described as fine curved needles without eyes and having sharp hooked points. The appraiser at New York reports that they are used in the manufacture of human hair, and are classified at that port as "curved crochet needles."

The Department is of the opinion that this classification as "needles" is correct. They are fitted for the use mentioned, *i. e.*, the manufacture of human hair, have all the characteristics of many of the needles of commerce, and, under Department's decision of December 7, 1877 (S., 3434), are entitled to the classification claimed by the appellants.

You are therefore authorized to reliquidate the entry as to these goods on the basis indicated and take the necessary steps for refunding the excess of duty exacted.

Very respectfully,

C. S. FAIRCHILD,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Chicago, Ill.*

EXHIBIT 57—*Fur waste.*

TREASURY DEPARTMENT, *Washington, D. C., January* 28, 1885.

SIR: The Department is in receipt of your letter of the 11th ultimo, transmitting the appeal ($\frac{2624}{12789}$ K) of Wotton Bros., from your decision assessing duty at the rate of 20 per cent. ad valorem on certain fur waste, imported per Bothnia, June 4, 1884, which the appellants claim to be dutiable at the rate of 10 per cent. ad valorem.

The article was classified as "hatter's furs not on the skin" (T. I., new, 450), but the report of the appraiser shows that it consists of the waste or refuse stuff (a mixture of particles of skin and fur) which remains after preparing fur skins for use as hatter's furs. An inspection of a sample indicates that the article in the condition in which it is imported is simply a *waste*, and that it is useless for any manufacturing purposes until it has at least undergone a process of *blowing* in order to separate the fur from the portions of felt and other worthless material.

The Department concurs with the appraiser in the opinion that the article is "waste," and that it is dutiable at the rate of 10 per cent. ad valorem, under T. I., new, 493.

You will reliquidate the entry accordingly, and take the necessary steps for refunding the excessive duties.

Very respectfully,

H. McCULLOCH,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 58.—*Changeable colored paper pictures—duty on.*

TREASURY DEPARTMENT, *January* 2, 1884.

SIR: The Department is in receipt of your letter of the 26th ultimo, transmitting the appeal (2032 *i*) of Mr. George Franke from your decision assessing duty at the rate of 25 per cent. ad valorem on certain "articles made of paper" imported per Ohio, October 22, 1883, which the appellant claims to be dutiable at the rate of 15 per cent. ad valorem.

It appears that the articles were classified by you as "printed matter" (T. I., new, 384), while the appellant bases his claim upon the provision (T. I., new, 388) for "paper, manufactures of, or of which paper is a component material, not specially enumerated or provided for in this act."

An inspection of samples shows that the articles consist of paper pictures fancifully embossed and cut out, and representing flowers and figures, which are so arranged and combined that by pulling a string or ribbon they assume different shapes and positions.

Such articles, under the rulings of the Department (see Synopsis, 1825, as to "miniature theaters"), were held to be dutiable under the provision for "manufactures of paper."

Under the former tariff, manufactures of paper were dutiable at 35 per cent., while printed matter was dutiable at 25 per cent. Now manufactures of paper are dutiable at 15 per cent., while printed matter pays 25 per cent. This reversal in the rates of duty does not necessiate a change in classification. Such articles were held to be manufactures of paper within the former tariff, and they are equally so under the present, and are now dutiable at 15 per cent. ad valorem.

You will readjust the entry accordingly

Very respectfully,

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Baltimore, Md.*

EXHIBIT 59.—*Fancy paper bonbonnieres—duty on.*

TREASURY DEPARTMENT, *October* 29, 1879.

SIR: The Department is in receipt of your letter of the 22d instant, reporting on the appeal (3361 *f*) of G. J. Kraft from your decision assessing duty at the rate of 50 per cent. ad valorem on certain so-called paper boxes, imported per Rialto on the 15th ultimo, which the appellants claim to be dutiable at the rate of 35 per cent. ad valorem.

It appears, from the special report of the appraiser, that the goods consist of articles in the form of, and representing Santa Claus, mice, umbrellas, geese, pieces of roast beef, oranges, lemons, bottles of wine, roast fowl, &c., which are manufactures of paper, and used as "bonbonnieres."

From the appraiser's description, and an inspection of samples of similar merchandise, the Department is of opinion that they are not properly toys, but may legally be assessed with duties at the rate of 35 per cent. ad valorem, as fancy boxes or manufactures of paper, the duties being the same under either classification.

You will readjust the entry accordingly, and forward a certified statement for a refund of the duties levied in excess.

Very respectfully,

By order:

H. F. FRENCH,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 60.—*Machinery.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., January 6, 1885.

SIR: The Department is advised by the United States attorney at New York, of the trial of the case (N. S., 4901) of Richard Irvin *et. al. vs.* C. A. Arthur, collector of customs, which was brought for the recovery of excessive duties on certain machinery imported into your port, per France, April 28, 1875. The machinery was a manufacture mainly of iron, but with a slight admixture of steel, the iron portion being valued at $9,678, and the steel at $131.

It was classified as a manufacture in part of steel (T. I., old, 91) at a duty of 45 per cent. ad valorem, while the importers (plaintiffs) claimed that it was dutiable at the rate of 35 per cent. ad valorem, as a manufacture of iron (T. I., old, 146). The plaintiffs protested, appealed, and brought the said suit in support of their claim.

The United States attorney reports that the trial resulted in a verdict for the plaintiffs, the court holding that "the law (section 2499 R. S.) was not intended to apply to a case where the value of one component value relative to that of the other was so insignificant;" and that no good reason is perceived for taking the case to the United States Supreme Court for review. The United States Attorney-General also certifies that no writ of error will be taken by the United States in the suit.

You are authorized upon due entry of judgment in the suit to forward a certified statement for its settlement and payment, and also to take the same course with regard to any other similar suits now pending where the steel portion of the machinery is insignificant in value, and where the requirements of the statutes concerning protest, appeal, &c., have been duly complied with.

Very respectfully,

H. MCCULLOCH,
Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 61.—*Burlaps.*

TREASURY DEPARTMENT, *Washington, D. C.*, May 9, 1885.

SIR: The Department is in receipt of your letter of the 20th of March last, transmitting the appeal (8879*k*) of Messrs. G. W. Sheldon & Co. from your assessment of duty at the rate of 40 per centum ad valorem on certain "burlaps" imported per Ripon City, February 10, 1885, which were returned by the appraiser at your port as jute bagging dutiable under T. I., new, 342.

The appellants claim that the merchandise is dutiable at the rate of 30 per cent. ad valorem, under the provisions of T. I., new, 338, for "burlaps not exceeding 60 inches in width of flax, jute, or hemp" (except such as may be suitable for bagging for cotton).

It is admitted by all parties that the goods in question are burlaps under 60 inches in width, not suitable for bagging for cotton, the ground of their classification as bagging in this case being that they are imported in lengths or pieces, suitable for that purpose, each piece containing about 1⅓ yards.

Paragraph 342 provides for "bags and bagging, and like manufactures not specially enumerated or provided for in this act (except bagging for cotton), composed wholly or in part of flax, hemp, * * * 40 per centum ad valorem."

The Department considers the article in question to be specially provided for as burlaps under paragraph 338.

It is not suitable for bagging for cotton, and the fact that it may be suitable for any other purpose will not serve to remove it from the provisions of said paragraph so long as it retains its character as burlaps. (See Arthur *vs.* Cumming, 1 Otto, 362.)

You are accordingly authorized to reliquidate the entry on the basis indicated, and to take the necessary steps for refunding the excess of duty exacted.

Very respectfully,

C. S. FAIRCHILD,
Assistant Secretary.

COLLECTOR OF CUSTOMS, Chicago, Ill.

EXHIBIT 62.—*China grass noils.*

TREASURY DEPARTMENT, *Washington, D. C., April* 24, 1885.

SIR: The Department is in receipt of your letter dated the 20th instant, submitting the appeal (9753 *k*) of Wm. E. Montague from your assessment of duty at the rate of 35 per centum ad valorem on certain china grass noils imported by him per Illinois from Liverpool, February 13, 1885.

The duty in question was assessed under authority of decision 3470, of February 4, 1878, which described the merchandise therein specified as noils manufactured in England from grass the product of China, which are nicely combed and prepared for the purpose of being spun into yarn for wearing fabrics of different kinds.

The appellant states that the noils referred to in this importation are not a manufactured product, but are the waste product of the combing machine, the noils not having been combed at all, and are not prepared for weaving nor fitted for any special use by the process. The appraiser corroborates this statement so far as to report that these China grass noils are in no sense a manufactured article, and that they are no more a manufacture of grass than noils made from wool are a manufacture of wool. Both are the product of combings left after the combing process has been completed.

The appraiser recommends that the article will be classified under paragraph 333, which reads as follows: "Sunn, sisal grass, and other vegetable substances, not specially enumerated or provided for in this act, $15 per ton." China grass is not named in the act specified, and the duty of $15 is claimed in the protest to be the correct rate provided certain other rates therein mentioned are not accepted.

The Department decides that the article is dutiable at $15 per ton, and you will adjust the entry accordingly, and take the necessary steps to refund the excess of duty exacted.

Very respectfully,

C. S. FAIRCHILD,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *Philadelphia, Pa.*

EXHIBIT 63.—*Street-cars.*

TREASURY DEPARTMENT, *Washington, D. C., May* 13, 1885.

SIR: The Department is in receipt of your letter of the 6th instant, transmitting the appeal (9975 *k*) of Mr. James McGregor from your assessment of duty at the rate of 45 per centum ad valorem, on certain street-cars imported per Grand Trunk Railway, on the 23d and 28th ultimo, which were returned by the appraiser at your port as a "manufacture composed * * * in part of iron," dutiable under T. I., new, 216.

The appellant claims that the same are dutiable at the rate of 35 per centum ad valorem, under the provisions for "Carriages," in T. I., new, 412.

Webster defines a carriage as "that which carries or conveys on wheels; a vehicle especially for pleasure or for passengers, sometimes for burden."

Worcester's definition is, "any vehicle on wheels, especially a vehicle of pleasure or for the conveyance of passengers."

The terms car and carriage seem, to a great extent, synonymous, and no valid reason is perceived for their separate classification under the tariff.

By Department's decision of April 9, 1884 (S. 6384), it appears that bicycles are classified as carriages for the purposes of assessment of duty, and it would not appear that their similarity to carriages (as they are commonly understood in this country) is as great as would be the case with street-cars.

The Department, therefore, holds that street-cars, from their similitude to carriages in material, construction, and uses to which they are applied, are entitled to entry at the same rate, under T. I., new, 412, and section 2499 Revised Statutes.

You are authorized to reliquidate the entries on the basis indicated, and to take the necessary steps for refunding the excess of duty exacted.

Very respectfully,

D. MANNING,
Secretary.

COLLECTOR OF CUSTOMS, *Detroit, Mich.*

EXHIBIT 64.—*Dress goods composed partly of worsted.*

TREASURY DEPARTMENT, *Washington, D. C., May* 19, 1885.

SIR: In the case of Ellison *et al. vs.* Hartranft, recently decided in the United States circuit court for the eastern district of Pennsylvania, which involved the question of duties upon dress goods, made in part of worsted and weighing over four ounces to the square yard, a verdict was rendered in favor of the plaintiffs.

The question involved in the case was whether the proviso in paragraph 365, act of March 3, 1883, which specifies that "all such goods weighing over four ounces per square yard shall pay a duty of 35 cents per pound and 40 per centum ad valorem," "relates to the women's and children's dress goods, coat linings, Italian cloths, and goods of like description, composed *in part* of wool, worsted, the hair of the alpaca, goat, or other animals," mentioned in the beginning of said paragraph.

This question was decided in the negative, and judgment rendered for the plaintiffs.

The Attorney-General having certified that no writ of error will be sued out, the Department acquiesces in the finding of the court.

You are therefore authorized to take the necessary steps for the settlement of the judgment in the suit, and for the discontinuance of all other similar suits now pending at your port, covering goods of this character, where the provisions of section 2931, R. S. have been fully complied with, by reclassifying the goods, and forwarding certified statements for a refund of the excessive duties, with legal interest and costs.

This decision will be accepted as a rule of action in such cases, and revokes the ruling of June 28, 1884 (S. 6429).

Very respectfully,

D. MANNING,
Secretary.

COLLECTOR OF CUSTOMS, *Philadelphia, Pa.*

EXHIBIT 65.—*Homœopathic coffee.*

TREASURY DEPARTMENT, *May* 19, 1885.

SIR: The Department is in receipt of your letter of the 10th instant, transmitting the appeal (9909 *k*) of Messrs. Munson & Co. from your assessment of duty at the rate of 50 per cent. ad valorem on certain so-called "homœopathic coffee" imported, per Eider, April 6, 1885, which was classified at your port as a proprietary preparation, dutiable under T. I., new, 99.

The article in question is called "Dr. Willmar Schwabe's Homœopathic Coffee," and it is claimed by the appellants that it is not a preparation recommended to the public as a remedy or specific for ailments of the body, but simply as a substitute for coffee for those not able to use that article.

It appears from the printed label found in the papers that the article is recommended not only to persons under medical treatment, but also to those who find the ordinary coffee too heating and exciting.

Paragraph 290, T. I., new, provides for "acorns and dandelion root, raw or prepared, and all other articles used or intended to be used as coffee, or as substitutes therefor, not specially enumerated or provided for in this act, two cents per pound."

This article is undoubtedly "intended for use as coffee, or as a substitute therefor," and is entitled to classification under the paragraph quoted.

You are authorized to reliquidate the entry accordingly, and to take the necessary steps for refunding the excess of duty exacted.

Very respectfully,

C. S. FAIRCHILD,
Assistant Secretary.

SURVEYOR OF CUSTOMS, *Saint Louis, Mo.*

EXHIBIT 66.—*Herrings.*

TREASURY DEPARTMENT, *April* 3, 1885.

SIR: The Department is in receipt of your letter of the 26th ultimo, relative to the case of Reise *et al. vs.* Robertson, involving the question of customs duty on Dutch herring imported in kegs.

Under a ruling of this Department, 12 kegs of herrings were regarded as a barrel, upon which a duty of $1 was imposed by paragraph 157 of the tariff of June 22, 1874.

The verdict of the jury was that 16 kegs are the equivalent of a barrel, the Dutch barrel being regarded as the barrel mentioned in the statute.

Upon reference of the papers to the Attorney-General, that officer advises an acquiescence in the judgment rendered in the case, and that no writ of error will be taken therefrom.

You are authorized to forward a certified statement for payment of the judgment in question, and for the payment of any like claims where the requirements of section 2931, Revised Statutes, have been complied with.

The case is not of importance under the present tariff, the duty on herrings, pickled or salted, being now one-half of one cent per pound.

The invoice submitted with your letter of the 26th ultimo is herewith returned.

Very respectfully,

C. S. FAIRCHILD,
Acting Secretary.

COLLECTOR OF CUSTOMS, *New York.*

EXHIBIT 67.—*Milk food.*

TREASURY DEPARTMENT, *May* 20, 1885.

SIR: The Department is in receipt of your letter of the 12th instant, transmitting the appeal ($\frac{60}{7247}L$) of Messrs. Thomas Leeming & Co. from your assessment of duty at the rate of 50 per centum ad valorem on certain "lacteous farina," or "milk food" imported, per Pennland, on the 20th ultimo.

The appraiser reports that the article in question was returned as a proprietary preparation, dutiable under T. I., new, 99, by reason of its assimilation in substance and use to "Dutant's Fecula" or "Infant's Food" which was held by the Department's decision of the 2d ultimo (S. 6837) to be a proprietary preparation within the meaning of the paragraph mentioned.

The classification of "Dutant's Fecula" as aforesaid was made with the understanding that the article was possessed of medicinal properties, and had been recommended as a specific or remedy for disease.

The Department concurs in your view that the rate of duty provided for in T. I., new, 99, applies only to such proprietary preparations as are of a *medicinal* character, including toilet preparations.

In the present case the "lacteous farina" or "milk food" in question, known in commerce as "Nestle's Milk Food," being simply a mixture of milk, wheaten bread, and sugar, and intended as a food for infants, and not as a specific or remedy for any disease or affection, does *not* fall within the provisions of the paragraph in question, but is simply dutiable at the rate heretofore imposed and claimed by the appellants in this case, 20 per centum ad valorem, as an unenumerated manufactured article under section 2513, Revised Statutes.

You are authorized to reliquidate the entry accordingly, and take the necessary steps for refunding the excess of duty exacted.

Very respectfully,

C. S. FAIRCHILD,
Assistant Secretary.

COLLECTOR OF CUSTOMS, *New York.*

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { Ex. DOC. No. 17.

NORTHERN CHEYENNE INDIANS.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

TRANSMITTING

A communication from the Secretary of the Interior, inclosing a report from the Commissioner of Indian Affairs in relation to the condition of the Northern Cheyenne Indians.

DECEMBER 15, 1885.—Laid on the table and ordered to be printed.

To the Senate and House of Representatives:

I transmit herewith a communication of 10th instant from the Secretary of the Interior, inclosing a report from the Commissioner of Indian Affairs upon the subject of the condition of the Northern Cheyenne Indians upon the Rosebud and Tongue Rivers, in Montana, the inadequacy of the appropriation made for their support during the current fiscal year, and requesting legislative authority for the use of certain funds, indicated, for their relief.

The proposed legislation does not involve any additional appropriation, and the necessity for the authority requested is urgent. I therefore recommend the matter to the early and favorable consideration and action of Congress.

GROVER CLEVELAND.

EXECUTIVE MANSION,
December 14, 1885.

DEPARTMENT OF THE INTERIOR,
Washington, December 10, 1885.

SIR: I have the honor to submit herewith a report of the 9th instant from the Commissioner of Indian Affairs as to the condition of the Northern Cheyenne Indians on the Rosebud and Tongue Rivers, in Montana, and the inadequacy of the appropriation made for their support, with recommendation for action by Congress to enable this Department to procure such supplies for them as will relieve their suffering and prevent death from starvation and exposure.

The proposed legislation does not call for any additional appropria-

tion over the amount appropriated for the Indian service for the fiscal year ending June 30, 1886, but is designed to invest the Department with authority to apply, for the relief of these Indians, a portion of the funds already appropriated to meet certain cases of distress among the Indian tribes.

This case is one of great urgency, and prompt action by Congress cannot be too strongly recommended.

I have the honor to be, very respectfully, your obedient servant,

L. Q. C. LAMAR,
Secretary.

The PRESIDENT.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
Washington, December 9, 1885.

SIR: I have the honor to state that information has been received from the governor of Montana Territory and other sources that the Northern Cheyenne Indians, on the Rosebud and Tongue Rivers, in Montana, are suffering for food, clothing, &c., and it is also understood that an inspector, who was ordered to proceed to the locality and investigate and report as to the condition and needs of those Indians, has just returned from that duty, and reports that the Indians are in a deplorable condition, many of them almost naked, with the rigor of winter upon them, and all of them suffering for want of food.

He reports that there are about seven hundred of them in the localities named, and they are without tools with which to procure fuel, cut timber for building houses, &c., except such as they can borrow from some of the settlers and others in the vicinity.

Prior to 1884 these Indians were located at the Pine Ridge Agency, Dakota, and the Cheyenne and Arapaho Agency, Indian Territory, and were provided for out of the appropriation made for Indians on those agencies; but Congress, in the Indian appropriation bill of March 1, 1883, Revised Statutes, 22, page 445, provided for the removal of those in the Indian Territory to some other locality, and they were removed to the Pine Ridge Agency. Since that time they have gradually drifted to the country where they now are, and to which they are greatly attached.

For the fiscal year 1886 Congress provided that the funds appropriated for fulfilling treaty with the Northern Cheyennes and Arapahoes "shall be expended pro rata, as near as may be, for the Northern Cheyennes and Arapahoes in Wyoming and on the Tongue River, in Montana."

The Northern Cheyennes in Wyoming heretofore have received the full benefit of the whole of their treaty funds. This pro rata division for the current year, which gave three-eighths of the funds to the Indians on and in vicinity of Tongue River, so reduced the appropriation applicable for support of those in Wyoming that it has been found necessary to make a diversion of funds from another appropriation, under the provision of law providing therefor, to prevent suffering among those Indians.

There were five hundred and seventy-five of these Indians on and in the vicinity of Tongue River at the time the pro rata division was made, and the sum set apart for their support as required by the law was $13,875, which was not sufficient to meet the wants of those Indians,

who were absolutely destitute. The number has subsequently increased to over seven hundred by further accessions of Northern Cheyennes from Pine Ridge (Sioux) Agency, so that the funds available are totally inadequate to prevent suffering, to say nothing of supplying tools, implements, &c., to aid them in beginning work.

The Indian appropriation act of March 3, 1885, contains the following provisions:

> To supply food and other necessities of life in cases of distress among the Indians not having treaty funds, arising from emergencies not foreseen or otherwise provided for, to be used at the discretion of the President, $50,000; and a report of all expenditures under this provision shall be made to Congress at its next session thereafter.

Under the terms of this appropriation, of which a sufficient balance remains unexpended, no portion thereof can lawfully be used for the Northern Cheyenne Indians, because they have treaty funds, though totally inadequate for their proper support, &c.

In order to meet the pressing emergency and to avoid distress, suffering, and death among these Indians from starvation and exposure to the winter weather, I respectfully recommend that Congress be asked to authorize, by resolution, the use from the appropriation above mentioned the sum of $12,000, or so much thereof as may be necessary to provide additional food and clothing, and to purchase necessary fuel, implements, and supplies for the Northern Cheyennes on and in the vicinity of the Rosebud and Tongue Rivers, in Montana.

The act making appropriations for the Indian service for the fiscal year 1886 provides for the appointment of an agent to take charge of these Indians, and there are sufficient funds at the disposal of this office for the erection of an agent's house and such other buildings as may be required, from the appropriation of buildings at agencies and repairs.

Very respectfully,

J. D. C. ATKINS,
Commissioner.

The Hon. SECRETARY OF THE INTERIOR.

○

49TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { EX. DOC. No. 20.

REPORTS

OF THE

POSTMASTER-GENERAL

FOR

THE YEAR ENDED JUNE 30, 1885.

LAND AND WATER MAILS.
ALLOWANCES TO CONTRACTORS.
CURTAILMENTS OF EXPENSES.
CONTRACTS FOR MAIL EQUIPMENTS.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1885.

LETTER

FROM

THE POSTMASTER GENERAL,

TRANSMITTING

Reports of mails established, of additional allowances made to contractors, of curtailments in the service and pay of contractors, and of all contracts for mail equipments for the fiscal year ending June 30, 1885.

JANUARY 5, 1886.—Referred to the Committee on Expenditures in the Post-Office Department and ordered to be printed.

POST-OFFICE DEPARTMENT,
Washington, D. C., January 4, 1886.

SIR: As required by law, the following reports are submitted:

A report of all land and water mails established or ordered within the year ended June 30, 1885, other than those let to contract at the annual letting.

A report of all allowances made to contractors during the year ended June 30, 1885, above the sums originally stipulated in their respective contracts, and the reasons for the same; and of all orders whereby additional expense is incurred on any route beyond the original contract price, including orders whereby service is charged to transportation, and orders reawarding service.

A report of curtailments in the service and pay of contractors during the year ended June 30, 1885.

A report of all contracts for mail equipments in operation June 30, 1885.

Very respectfully,

WM. F. VILAS,
Postmaster-General.

Hon. JOHN G. CARLISLE,
Speaker of the House of Representatives.
